COG 0I STOCK NO. 0530-LP-011-0750

NAVAL SUPPLY PROCEDURES

NAVSUP Publication 485

VOLUME II

SUPPLY APPENDICES

NAVAL SUPPLY SYSTEMS COMMAND

Revision 3

NAVY DEPARTMENT
NAVAL SUPPLY SYSTEMS COMMAND
5450 Carlisle Pike
PO Box 2050
Mechanicsburg, PA 17055-0791

21 October 1997

The instructions herein are issued for the information and guidance of the Naval Forces.

Revision 3 of this publication supersedes Revision 2 of 15 November 1989 and all changes thereto. Revision 3 also supersedes the NAVSUP Publication 567, Automated SNAP I Supply Procedures and all changes thereto.

M. E. FINLEY
CAPT, SC, USN
Deputy Commander
Naval Supply Systems Command

RECORD OF CHANGE INFORMATION SHEET

This sheet is provided to insure an effective check on the currency of the volume. After effecting each change, enter the required information in the appropriate columns.

INTRODUCTION

to

Volume II - SUPPLY APPENDICES

AUTHORIZATION

The Commander of the Naval Supply Systems Command may authorize, in writing, deviations from the instructions contained in this publication, provided matter concerned is entirely under the cognizance of the Naval Supply Systems Command.

ARRANGEMENT OF SUBJECTS

The NAVSUP P-485, Naval Supply Procedures, consists of three volumes. Volume I -Afloat Supply, Volume II - Supply Appendices, and Volume III - Ashore Supply. Unless otherwise specified, all references to Appendices found in this manual are referring to the Appendices in Volume II. Additionally, a Glossary covering all three Volumes is located in Volume II. Volume III supersedes the NAVSUP P-437 (MILSTRIP/MILSTRAP Operating Procedures). Future changes to Volume III will incorporate the procedures currently found in the NAVSUP P-1, Volume II (Supply Ashore).

Reference to Supply Appendices in correspondence, messages, etc., will be shown in the following manner:

Supply Appendices (NAVSUP P-485, Volume II), App 5

PAGE NUMBERS

The pages of this publication are numbered in a separate series for each appendix, the glossary, and the index. The pages of an appendix are numbered in sequence with Arabic numerals from 1. Each page number is preceded by the letter “A”, and the number of the appendix. For example, the fifteenth page of Appendix 1 is numbered A1-15. The glossary is numbered in sequence with Arabic numerals preceded by the letter “G”. The index is numbered in sequence with Arabic numbers preceded by the letter “i”.

TABLE OF CONTENTS AND INDEX

The organization of this publication makes it possible to locate desired information easily by referring to the table of contents in the front of the publication to determine general location. Information which does not logically lend itself to location by this method may be located in the index at the end of this publication.

CHANGES

Changes to this publication, numbered consecutively, are issued in page form. The cover sheet of each change must be read carefully because the instructions appearing thereon vary from change to change. Pertinent “Special Information” or “Special Instructions” may be included. Instructions regarding insertion of the change in the publication are always included. In addition, revisions of policy or procedure are summarized and identified by paragraph number.

A notation indicating the change number, the date the change was received, and the signature of the person making the change will be placed in the appropriate columns on the Record of Change Information Sheet in the front of the publication.

New, revised, or deleted instructions and/or codes summarized on the cover sheet are identified on the pages comprising the change by arrows placed vertically or horizontally in the binding or outside margin to identify the area of revision, as follows:

➔ line or lines on which a revision occurs

🡻 line on which the revision begins

🡹 line on which the revision ends

A down arrow placed on the last line of an organizational unit (paragraph, subparagraph, or item), and an up arrow placed on the first line of the following unit indicates deletion of a unit. Reference or non-procedural revisions of such insignificance as not to require a summary on the cover sheet of the change are not identified by arrows.

LIST OF SHEETS IN FORCE

A list of sheets in force in the publication is issued with each change. It is designed to serve the following purposes:

a. verification of the currency of the publication, in whole or in part (the publication, a chapter, a page), at any time by any one;

b. a control for retention, location, and disposition of transition instructions and special information sheets.

RECOMMENDATIONS FOR IMPROVEMENT

All users of the Naval Supply Procedures (NAVSUP P-485) are encouraged to submit recommended changes for improving the publication to the Commander, Naval Supply Systems Command, via the appropriate chain of command. The following format, modified as necessary, may be used in submitting recommendations:

From: (Command or person originating recommendation)
To: Commander, Naval Supply Systems Command
Via: (Appropriate chain of command)

Subj: Improvement of NAVSUP P-485; recommendation for

1. The following recommendation for improvement of the NAVSUP P-485, Volume , pertaining to paragraph(s) is submitted.

_____
(Signature)

Copy to:
(Recommendations originated afloat, send copies to the appropriate service force commander.)
(Recommendations submitted concerning procedures of inventory management, submit copy to the Inventory Control Point, which will forward comment, if appropriate, to the Naval Supply Systems Command within 15 days).

FIRST ENDORSEMENT on

From: (Appropriate via addressee)
To: Commander, Naval Supply Systems Command

1. Forwarded for consideration.
2. (Comment or recommendation, as desired)

_____
(Signature)

Copy to:
(As appropriate)

GENERAL INFORMATION

The Supply Appendices (NAVSUP P-485, Volume II) is written and maintained by the Fleet Logistics Support Branch (Code 4B1R) of the Naval Supply Systems Command. While not to be misinterpreted as a bypass to the formal means of recommending changes, the editor of the P-485 (Volumes I and II) welcomes inquiries/recommendations from the fleet towards improvement of the publication or clarification of data therein. The editor, SKCS(SW) Christman, can be reached at DSN 430-7431, commercial 717-605-7431, or fax DSN 430-7045.

Distribution of the Naval Supply Procedures (NAVSUP P-485) is controlled by the Defense Printing Service Detachment Office (Code 0513).

Defense Printing Service Detachment Office
Attn: Code 0513
5450 Carlisle Pike
Mechanicsburg, PA 17055-0791

NAVSUP P-485 ON CD-ROM

The Naval Supply Procedures are published on CD-ROM as part of the Naval Logistics Library (NLL), NAVSUP P-600. The NLL is published and distributed in April, August and December of each year and contains the complete NAVSUP P-485 including all published changes.

NAVSUP P-485 ON THE INTERNET

The Naval Supply Procedures are available on the Internet. The P-485 may be accessed through the Naval Logistics Library on the NAVSUP Home Page (http://www.navsup.navy.mil). The P-485 may be viewed, downloaded or printed using the Adobe Acrobat Reader Software (a free copy of this software may also be downloaded).

PUBLICATION STOCKING

Additional copies of this publication may be obtained from the Naval Inventory Control Point (NAVICP), Philadelphia, PA 19111-5098. All published changes have been inserted into the basic publication. The stock numbers are as follows:

NAVSUP P-485 Revision 3, Volume I	0530-LP-011-0740
NAVSUP P-485 Revision 3, Volume II	0530-LP-011-0750
NAVSUP P-485, Volume III	0530-LP-011-1780

APPENDIX 1

ADVICE CODES

1. GENERAL. Advice codes are numeric-alphabetic or numeric-numeric and provide coded instructions to supply sources when such data is considered essential to supply action and entry in narrative form is not feasible. These codes are entered in card columns (cc) 65 and 66. The requisition transaction advice codes flow from requisition originators to initial processing points and are, thereafter, perpetuated into passing actions and release/receipt documents. The excess transaction advice codes flow from a Defense Automatic Addressing System (DAAS) facility to an ICP/IMM to indicate that the excess transaction has been edited by DAAS. Advice codes 5A, 5D, 5E, 5G, 5S, 5W, 5X, 5R, 5V, 5Y, 52, 53, 54, 56, and 57 are mandatory advice codes for requisitions for mandatory turn-in repairable/DLR items. An appropriate advice code in the 3_ series is a mandatory entry in requisitions for NSN items of wood products in FSCs 5510 and 5530, unless none of these advice code definitions properly identifies the specific item required. These Mandatory Advice Codes take precedence for inclusion in columns 65 and 66. When additional advice codes apply to the requisition, they will be included in the remarks block.

➔ 2. ASSIGNMENTS. Inter-service advice codes are assigned by DOD. Intra-service advice codes are assigned by the service concerned. Navy intra-service advice codes are assigned by NAVSUP 4B1D1. The codes assigned for DLA, inter-Service and GSA transaction use will also be recognized and used for intra-service transactions and will not be duplicated within the Service assignment latitude.

a. Advice codes 1A through 1Z (except 1I and 1O) and 11 through 19 are assigned for intra-Army usage.

b. Advice codes 2A through 2Z (except 2I and 2O), 21 through 29, 3A through 3Z (except 3I and 3O), and 31 through 39 are assigned for Defense Logistics Agency, Inter-service and General Services Administration transactions.

c. Advice codes 4A through 4Z (except 4I and 4O) and 41 through 49 are assigned for intra-Marine Corps usage.

d. Advice codes 5A through 5Z (except 5I and 5O) and 51 through 59 are assigned for intra-Navy usage.

e. Advice codes 6A through 6Z (except 6I and 6O) and 61 through 69 are assigned for intra-Air Force usage.

f. Advice codes 7A through 7Z (except 7I and 7O) and 71 through 79 are assigned for intra-GSA usage.

g. Advice codes 8A through 8Z (except 8I and 8O) and 81 through 89 are assigned for intra-DLA usage.

h. Advice codes 0A through 0Z, 01 through 09, 9A through 9Z and 91 through 99 are reserved and are not to be used.

Appendix 1 **Advice Codes**

cc 65-66	Explanation
2A	Item is not locally obtainable through manufacture, fabrication, or procurement.
2B	Requested item only will suffice. Do not substitute/interchange. Also applies to "obsolete/inactivated" items previously rejected with status code CJ. When used in response to status code CJ, the submission of a new requisition will be on DD Form 1348-6 with all appropriate technical data; for example, end item usage, component, make, model, series, serial number, drawing piece and/or part number, manual reference, or applicable publication.
2C	(1) Do not backorder. Reject any unfilled quantity not available to meet SDD/RDD. Suitable substitute acceptable. (2) When entered in Brand Name Resale Subsistence Item requisitions for overseas, will be interpreted to authorize rejection of unfilled quantities not due to arrive in the overseas command by RDD plus 30 days. In such cases, rejection status will be furnished to the customer. This may occur as a result of vendor's failure to ship required quantities to the CONUS transshipment depots by contract delivery date plus 15 days or, upon receipt at the CONUS transshipment depot, it is determined that the shipment could not reach the overseas destination by the RDD plus 30 days.
2D	Furnish exact quantity requested (i.e., do not adjust to unit pack quantity unless adjustment is upward and the dollar value increase is not more than $5.00 over the requisition's extended money value).
2E	Free issue. Stock lists or other publications offer this material without reimbursement (to be used with signal code D or M on interservice requisitions).
2F	Item known to be coded "obsolete", but still required for immediate consumption. Service coordinated/approved substitute is acceptable. If unable to procure, reject requisition with status code CJ.
2G	Multiple use: (1) Ship new stocks or stocks having new appearance; (2) Strategic mission requires latest model and configuration (for electronic tubes); (3) Strategic mission requires newest stock only (for photographic film or for aerial requirements for ammunition devices or cartridges); (4) Anticipated usage requires latest expiration dates only (for biologicals).
2H	Special textile requirement for use in airborne operations where personal safety is involved.
2J	Do not substitute or backorder any unfilled quantities.
2K	Item being requisitioned from CONUS pursuant to the balance of payments program (to be used only by overseas requisitioner).

cc 65-66	Explanation
2L	Quantity reflected in the quantity field exceeds normal demands; however, this is a confirmed valid requirement.
2M	The MCA validation process has revealed that the requested item is authorized by a valid contract.
2N	Item required in one continuous length as expressed in cc 25-29 and unit of issue in cc 23-24. No other configuration is acceptable and/or multiples of the unit pack are not acceptable.
2P	Item required in one continuous length as expressed in cc 25-29 and unit of issue in cc 23-24. If requirement exceeds the unit pack length, multiples of the unit pack are acceptable.
2Q	The MCA validation process has revealed that the quantity cited on the DI AX1 exceeds the contract authorized quantity. The total requisitioned quantity is to be rejected.
2R	The MCA validation process has revealed that the quantity cited on the DI AX1 exceeds the contract authorized quantity. The quantity field in this transaction (DI AX2) reflects the quantity that may be supplied. The quantity difference between the DI AX1 and this transaction will not be supplied.
2S	Issue below established stock reservation levels is authorized (to be used by service owners of SMCA managed conventional ammunition items only).
2T	Deliver to the ultimate consignee by the SDD or RDD entered in cc 62-64 or cancel requirement.
2U	The MCA validation process has revealed that no valid contract is registered at the MCA.
2V	The MCA validation process has revealed that the contract is valid; however, the requisitioned item, or requisitioner, or the DoDAAC in cc 45-50, is not authorized GFM under the contract.
2W	This requisition is submitted for free issue of assets above the approved force acquisition objective on a fill or kill basis (applicable to MAP/MASF requisitions only).
21	Combination of Advice Codes 2L and 2T
22	Combination of Advice Codes 2C and 2L
23	Combination of Advice Codes 2L and 2G
24	Combination of Advice Codes 2B and 2G
25	Combination of Advice Codes 2A and 2F
26	Combination of Advice Codes 2B and 2L
27	Combination of Advice Codes 2D and 2L
28	Combination of Advice Codes 2N and 2L

Appendix 1 **Advice Codes**

cc 65-66	Explanation
29	Combination of Advice Codes 2D and 2G
3B	Item requisitioned has been designated as a commercial type item. Unable to obtain item from commercial sources. Request supply of requisitioned quantity be accomplished against foreign material sales case reflected in cc 48-50.
➔ 3K	Storage activity reply to follow-up for receipt status. Storage activity has receipt in process. Not used. Procedures to be developed. (For use in MILSTRAP transactions.)
➔ 3N	Storage activity reply to follow-up for receipt status. Storage activity has no receipt in process and no record of the due-in. Not used. Procedures to be developed. (For use in MILSTRAP transactions.)
➔ 3P	Storage activity reply to follow-up for status on receipt or reclassification action. This record is a duplicate of the original receipt or adjustment provided by the storage activity. Not used. Procedures to be developed. (For use in MILSTRAP transactions.)
3Q	Requested items only will suffice. Do not substitute/interchange. Requisitioner will accept condition code E stock in a usable condition. This advice code is for ammunition stock only and will not be used by Navy activities unless authorized by higher authority.
3T	Excess transaction advice code. Document has been edited by DAAS. Records indicate that the NSN is correct and that the activity identified in cc 4-6 is the managing ICP/IMM.
3U	Excess transaction advice code. The correct source of supply is in cc 4-6. Necessary action has been initiated to correct DIDS SOS file.
3V	Deliver to the ultimate consignee by the SDD entered hereon or cancel requirement. Requisitioner will accept condition code E stock in a usable condition. This advice code is for ammunition stock only and will not be used by Navy activities unless authorized by higher authority.
3W	Furnish exact quantity requested (i.e., do not adjust to unit pack quantity). Requisitioner will accept condition code E stock in a usable condition. This advice code is for ammunition stock only and will not be used by Navy activities unless authorized by higher authority.
3X	Requisitioner will accept condition code E stock. This advice code is for ammunition stock only and will not be used by Navy activities unless authorized by higher authority.
3Y	Do not substitute or backorder any unfilled quantities. Requisitioner will accept condition code E stock in a usable condition. This advice code is for ammunition stock only and will not be used by Navy activities unless authorized by higher authority.
3Z	The quantity reflected in the quantity field exceeds normal demand; however, this is a confirmed valid requirement. Requisitioner will accept condition code E stock in a usable condition. This advice code is for ammunition stock only and will not be used by Navy activities unless authorized by higher authority.

cc 65-66	Explanation
31	Combination of Advice Codes 2J and 2G
32	Combination of Advice Codes 2C and 2T
33	Combination of Advice Codes 2L and 2J
34	Combination of Advice Codes 2B and 2N
35	There is a quantity variance between the DRMS receipt quantity and the AS3 (for use with DIs AFX and AFZ by DRMS only).
36	A DRMO receipt exists for which a matching AS3 has not been received (for use with DIs AFX and AFZ by DRMS only).
37	An AS3 has been received for which a matching DRMO receipt has not been received (for use with DIs AFX and AFZ by DRMS only).
39	Combination of Advice Codes 2B and 2P
5A	Replacement certification. Requested item is required to replace a mandatory turn-in repairable which has been surveyed as missing or obviously damaged beyond repair.
5B	Item known to be obsolete but still required for immediate use. If item is not available and there is no known substitute, local purchase is authorized for quantity indicated. Charge fund code (cc 52 and 53).
5C	Do not centrally backorder or procure. Substitute acceptable. Reject unfilled quantity not available for delivery. Fill or kill at inventory control point level.
5D	Initial requirement certification. Requested item is a mandatory turn-in repairable required for initial outfitting/installation or increased allowance/stockage objective; therefore, no unserviceable unit is available for turn-in.
5E	Release of planned requirement or reservation for: (1) Mandatory turn-in repairable, no unserviceable unit is available for turn-in. (2) Field level repairables. (3) Consumable.
5F	The stock number has recently been assigned. Do not cancel if unable to identify. Refer the requisition to the inventory manager (cc 67-69).
5G	Exchange certification: (1) Requested item is a mandatory turn-in repairable for which an unserviceable unit will be turned-in on an exchange basis under the same document number as that used in the requisition. (2) Requested item is compressed gas for which an empty cylinder will be turned-in on an exchange basis.
5H	Furnish nearest package quantity to quantity requested. Do not cut or alter materials other than as shown in the stock list. Applies to rope, electrical cable, pipe, tubing, lumber, packaged petroleum products, wave guides, etc.

Appendix 1 **Advice Codes**

cc 65-66	Explanation
5J	Use of nonstandard items in lieu of standard stock is certified necessary.
5K	Do not backorder. Substitute acceptable. Reject unfilled quantity not available for delivery. Fill or kill at point of entry.
5L	Do not backorder. Substitute acceptable. Issue total quantity requested or reject.
5M	Issue serviceable stocks from material awaiting segregation.
5N	Reduced price. Stock bulletins or other notifications offer this material at reduced price. Do not fill if not available at reduced price.
5P	Take up in stores by activity in supplementary address (cc 45-50). Hold for requisitioner (cc 31-35).
5Q	Certification verified. "I certify that this item has the proper approval/signature for issue in accordance with current instructions."
5R	Release of planned requirement or reservation for mandatory turn-in repairable and an unserviceable unit is or will be turned-in.
5S	Remain in place certification. Requested item is a mandatory turn-in repairable for which an unserviceable unit will be turned-in on an exchange basis after receipt of a replacement (serviceable) unit. The turn-in document number will be the same as that used in this requisition.
5T	For Fleet Ballistic Missile Weapon System and Trident Strategic Weapon System activities only, do not substitute, supersede or interchange without SSPO (N44) approval. See SSPOINST 4130.2.
5U	Do not substitute or backorder. Fill or kill at initial point of entry.
5V	Applicable to 5G/2B combination, i.e., exchange requisition with immediate carcass return intended and substitute item not acceptable. When using this advice code, users must be absolutely sure that items requested only will suffice. Use of this code limits the ICP's ability to respond quickly to high priority requisitions when suitable substitutes are available.
5W	Non-RFI option. Requisitioner has repair capability and will accept NRFI assets for local repair if no RFI assets are available. May apply to initial requirements or stock replenishment.
5X	For use by activities requisitioning DLRs for stock to be retained in the Navy Working Capital Fund (NWCF). There is no unserviceable turn-in. 5X is not to be used for end use stock replenishment or Direct Turn-over (DTO) requisitioning.
5Y	Applicable to 5R/2B combination, i.e., exchange requisition with delayed carcass return intended and substitute item not acceptable. When using this advice code, users must be absolutely sure that items requested only will suffice. Use of this code limits the ICP's ability to respond quickly to high priority requisitions when suitable substitutes are available.

cc 65-66	Explanation
5Z	This document is for a special Navy activity. Process in accordance with NAVSUP Manual, paragraph 22230.
52	Applicable to 5S/2B combination, i.e., exchange requisition with delayed carcass return intended and substitute item not acceptable. When using this advice code, users must be absolutely sure that items requested only will suffice. Use of this code limits the ICP's ability to respond quickly to high priority requisitions when suitable substitutes are available.
53	Applicable to 5A/2B combination, i.e., surveyed or beyond repair and substitute item is not acceptable. When using this advice code, users must be absolutely sure that items requested only will suffice. Use of this code limits the ICP's ability to respond quickly to high priority requisitions when suitable substitutes are available.
54	Replenishment of stock due to an issue from end use inventory to a nonsupported customer by either ICP referral or a direct requisition.
56	Fill or kill at the point of entry. Item is a requirement for replacement vice component repair. Requested item is a mandatory turn-in; the unserviceable unit will be turned-in as an exchange. Advice code 56 is restricted to use by Navy organic DOPs. When "Do not substitute", advice code 2B applies the remarks block will be so annotated.
57	Fill or kill at the point of entry. Item is a requirement for initial outfitting. Requested item is a mandatory turn-in repairable but an unserviceable unit will not be turned in as an exchange.
58	Applicable to 5D/2B combination. Requested item is a mandatory turn-in repairable required for initial outfitting/installation or increased allowance/stockage objective and substitute item is not acceptable. Non-exchange advice code.
59	Applicable to 5X/2B combination. Stock replenishment certification for stock-funded activities. No associated unserviceable turn-in. Not to be used for Direct Turnover (DTO) Requisitions. Non-exchange advice code.

THIS PAGE LEFT BLANK INTENTIONALLY

APPENDIX 2

STATUS CODES

➔ 1. GENERAL. Status codes are alphabetic/alphabetic or alphabetic/numeric and flow from supply sources to the creator of a requisition, customer asset report, consignee/consignor or service designated control office. Their purpose is to provide status of requisitions, customer asset reports, and related transactions. Status codes also flow from Defense Automatic Addressing System (DAAS) to a DAAS subscriber or from storage activities to the ICP to inform recipients of Material Release Orders (MROs). Supply status codes are contained in card columns (cc) 65-66. This appendix is arranged in parts as follows:

Part A: Requisition Transaction Status Codes

Part B: Rejection Codes

Part C: Intra-Navy Assigned Status Codes

➔ Part D: Customer Asset Transaction Status Codes

➔ 2. ASSIGNMENTS. Inter-service status codes are assigned by DOD. Intra-service status codes are assigned by the service concerned. Navy intra-service status codes are assigned by NAVSUP 4B1D1. The codes assigned for DLA, inter-Service and GSA transaction use will also be recognized and used for intra-service transactions and will not be duplicated within the Service assignment latitude.

a. Status codes AA through AZ (except AI and AO) and A1 through A9 are assigned for intra-Army usage.

b. Status codes BA through BZ (except BI and BO), B1 through B9, CA through CZ (except CI and CO), C1 through C9, DA through DZ (except DI and DO), and D1 through D9 are assigned for Defense Logistics Agency, Inter-service and General Services Administration transactions, excluding excess transactions.

c. Status codes FA through FZ (except FI and FO), F1 through F9, JA and J1 through J9 are assigned for intra-Air Force usage.

d. Status codes GA through GZ (except GI and GO) and G1 through G9 are assigned for intra-GSA usage.

e. Status codes HA through HZ (except HI and HO) and H1 through H9 are assigned for intra-DLA usage.

f. Status codes MA through MZ (except MI and MO) and M1 through M9 are assigned for intra-Marine Corps usage.

g. Status codes NA through NZ (except NI and NO), N1 through N9, RA through RZ (except RI and RO) and R1 through R9 are assigned for intra-Navy usage.

h. Status codes SA through SZ (except SI and SO), S1 through S9, TA through TZ (except TI and TO), T1 through T9, UA through UZ (except UI and UO) and U1 through U9 are assigned for DLA inter-service and GSA excess transactions.

cc
65-66 Explanation

Part A: REQUISITION TRANSACTION STATUS CODES

BA Item being processed for release and shipment. The estimated shipping date is contained in cc 70-73 when provided in response to a follow-up.

BB Item back ordered against a due-in to stock. The estimated shipping date for release of material to the customer is contained in cc 70-73.

BC Item on original requisition containing this document number has been back ordered. Long delay is anticipated and estimated shipping date is in cc 70-73. Item identified in the stock number field (or "Remarks" field if stock number field cannot accommodate the item number), which is not an automatic/coordinate substitute, can be furnished. The price of the substitute item is in cc 74-80. If desired, submit a cancellation for the original requisition and submit a new requisition (using new document number and current julian date) for the offered substitute.

BD Requisition is delayed due to need to verify requirements relative to authorized application, item identification, or technical data. Requisition for GFM is delayed pending validation by either contracting MCA or between source of supply and MCA. See cc 4-6 to determine the activity performing the validation. Upon completion of review, additional status will be provided to indicate action taken.

BE Depot/Storage activity has a record of the MRO but no supporting record of the action taken (depot/Storage activity response to ICP request for MRO status, for use with DOC ID AE6 only).

BF No record of your document for which your DI AF_ follow-up or cancellation request was submitted. Also used by a supply source to indicate no record of a GFM requisition for which a DI AX2 transaction has been received.

(1) If received in response to a cancellation request, subsequently received requisitions (A0_) or other documents (AM_, AT_) will be returned by the supply source with BF status. Deobligate funds and, if the item is still required, submit a new requisition using a new document number with a current julian date.

(2) If received in response to a follow-up request (AF_), supply source action to process future documents will continue under regular MILSTRIP procedures. If submitting a new document number, a cancellation must be forwarded on the original requisition to ensure against a potential duplicate shipment.

(3) When used in response to DRMS generated DI AFX and AFZ follow-ups, indicates that the shipping activity has no record of generating an AS3 transaction or of making a shipment to a DRMO under the document number in question and has not received a signed copy of the disposal turn-in document.

cc 65-66	Explanation
	(4) MCAs/contractors/service activities in receipt of Status Code BF will review for establishment of a valid GFM requisition. If a valid requisition exists, a DI AT_ transaction will be generated. Subsequent receipt of a valid requisition will be processed by the MCA/SOS.
BG	One or more of the below listed fields have been changed. Examine quantity and unit price as a result of the changes. Revise appropriate records accordingly. Additional status will be provided by the supply source to indicate further action on this requisition.
	(1) Stock Number (as the result of a formal catalog change).
	(a) Requisitioned NSN has been replaced by or consolidated with NSN in stock number field.
	(b) NSN is assigned to part number that was requisitioned.
	(c) FSC has changed but NIIN remains the same as originally requisitioned. Review NSN (FSC & NIIN) to ensure that requisition under process is for desired item. If NSN is not for desired item submit cancellation request to source of supply.
	(d) FSC has changed but NIIN remains the same as expressed in original transaction (applies to DOD MILSTRAP DZ9 Status Notifications only).
	(2) Unit of Issue as a result of a formal catalog change.
	(3) Requisitioned part number has been identified to or replaced by the part number reflected in the stock number field.
BH	Service coordinated/approved substitute/interchangeable item, identified in stock number field will be supplied. Examine unit of issue, quantity, and unit price fields for possible changes. Revise appropriate records accordingly. Additional status will be provided.
BJ	Quantity changed to conform to unit pack or because of allowable direct delivery contract variance. Adjust the due in records accordingly. Unit of issue is not changed.
➔ BK	Requisition data elements have been modified as requested. Examine data fields in this status document for current requisition data. Also used by DAASC on AE9 to advise that the requisition contained (1) an invalid/expired OSD/CJCS Category D project code – project code has been blanked out and the requisition forwarded for processing, or (2) an unauthorized requisition priority – the priority has been downgraded and the requisition forwarded for processing.
BL	Notice of availability was forwarded to the country representative or freight forwarder on date entered in cc 70-73.
BM	Your document forwarded to activity indicated in cc 67-69. Forward all future transactions for this document number to that activity. Also applies to DOD MILSTRAP DZ9 Status Notification.

Appendix 2 **Status Codes**

cc 65-66	Explanation
BN	Requisition being processed as a free issue. Signal and fund code fields corrected as noted. Adjust local fund obligation records.
BP	Requisition has been deferred per customer instructions. The ESD is shown in cc 70-73.
BQ	Canceled. Results from receipt of cancellation request from requisitioner, consignee, manager, or other authorized activity. Also applies to cancellations resulting from deletion of an activity from the DoDAAD. Deobligate funds if applicable.
BR	Canceled. Requisitioning activity authorized cancellation in response to material obligation validation request furnished by processing point.
BS	Canceled. Requisitioning activity failed to respond to material obligation validation request from processing point.
BT	Requisition has been received and will be processed for attempted release and shipment from stock to meet your RDD. Further status will be provided based on asset availability at the time of release processing (applies to subsistence only).
BU	Item being supplied against your Foreign Military Sales Case Designator reflected in cc 48-50; or your Grant Aid Program and Record Control Number reflected in cc 46-50. This document represents a duplicate of the requisition prepared by the U.S. Military Service.
BV	Item procured and on contract for direct shipment to consignee. The contract shipping date is entered in cc 70-73. Cancellation, if requested, may result in billing for contract termination and/or transportation costs, if applicable.
↓ BW	Your FMS/Grant Aid requisition containing this document number has been received by the ILCO and submitted to the supply system. A current ESD is not presently available but will be provided by subsequent status transactions. May be used by ILCOs in acknowledging requisition receipt or in reply to follow-up when ESDs are not available.
↑ BY	Depot/storage has previously denied the Material Release Order (MRO) by DI A6_ (depot/storage activity response to ICP request for MRO status, for use with DI AE6 only).
BZ	Requisition is being processed for direct delivery procurement. Upon completion of necessary procurement action, additional status will be provided to indicate action taken. The estimated shipping date is in cc 70-73.
B1	Assets not currently available. Requisition will be retained by DRMS for 60 days from date of receipt awaiting possible arrival of assets (DRMS use only).
B2	Status of supply or procurement action precludes requested modification.
B3	The RDD contained in the original requisition is unrealistic. Date in cc 70-73 is the date when material will be available.

cc 65-66	Explanation
B4	Canceled. Result of cancellation request received from requisitioner, consignee, manager, or other authorized activity. Do not deobligate funds. Billing for material or contract termination charges will be made.
B5	The activity identified by the code in cc 4-6 is in receipt of your follow-up request. Action to determine current status and/or improve the ESD is being attempted. Further status will be furnished.
B6	The material applicable to the requisition requested for cancellation has been diverted to an alternate consignee.
B7	Unit Price change. The latest unit price for the item identified by the stock or part number indicated in cc 8-22 is reflected in cc 74-80.
B8	Quantity requested for cancellation or diversion was not accomplished.
B9	The activity identified in cc 4-6 is in receipt of your cancellation request. Action to cancel the demand or to divert the applicable shipment is being attempted. Do not deobligate funds or delete due-in. Advice of final action will be furnished in subsequent status transactions.

Part B: REJECTION CODES

Items rejected, if still required, will be re-requisitioned utilizing new document numbers with current julian dates. The requisitioner will ensure that the reason for the previous rejection has been considered and corrected or adequately elaborated on the new requisition, in order to preclude similar rejection.

CA Rejected.

(1) Initial provision of this status will be by narrative message. The message will also state the reasons for rejection.

(2) When provided in response to a follow-up no reasons for rejection will be included. When received in response to a follow-up, authorized status recipients may request the reasons for rejection off-line (by mail, message or telephone) if the initial narrative message containing the reasons for rejection cannot be located.

CB Rejected. Initial requisition requested rejection of that quantity not available for immediate release or not available by the SDD or RDD (or by the RDP for conventional ammunition). Quantity field indicates quantity not filled. Also used by a reporting activity to advise the ICP/IMM that a DI A4_ with distribution code 2 cannot be filled from reported material.

CC Nonconsumable item. Your service is not a registered user. Submit your requisition to your service ICP for registration action.

cc 65-66	Explanation
CD	Rejected. Unable to process because of errors in the quantity, date and/or serial number fields. (1) If received in response to a requisition and the material is still required, submit a new requisition (use new requisition number and current julian date) with correct data field entries. (2) If received in response to a cancellation request and material is not required, submit a new cancellation request with a valid quantity entry.
CE	Rejected. Unit of issue in original requisition, which is reflected in cc 23-24 of this status document, does not agree with ICP unit of issue and cannot be converted. If still required, submit a new requisition (use new requisition number and current julian date) with correct unit of issue and quantity. The correct unit of issue will be reflected in cc 79-80.
CG	Rejected. Unable to identify requested item. Submit a new requisition (use new requisition number and current julian date) and furnish correct NSN or part number. If correct NSN or part number is unknown or if part number is incorrect, submit the new requisition on DD Form 1348-6 or NAVSUP Form 1250-2 furnishing as much data as is available. SF 344 may be submitted by authorized activities.
CH	Rejected. Requisition submitted to incorrect single manager/technical service, distribution depot or MCA and correct source cannot be determined. Research for correct source and submit a new requisition (use new requisition number and current julian date).
CJ	Rejected. (1) Item coded (or being coded) “obsolete” or “inactivated.” Item in stock number field, if different from item requisitioned, can be furnished as a substitute. Unit price of the substitute item is in cc 74-80. (2) If offered substitute is desired, submit a new requisition (use new requisition number and current julian date) with substitute item stock number. (3) If only original item is desired submit a new requisition (use new requisition number and current julian date) for procurement on DD Form 1348-6. SF 344 may be submitted by authorized activities. Cite advice code 2B. Furnish technical data, e.g., end item usage, component, make, model, series, serial number, drawing, piece and/or part number, manual reference, applicable publication. (4) DOD MILSTRAP DTA Assist Support Request submitted for obsolete/inactive NSN which cannot be supported. Applies to DOD MILSTRAP DZG Transaction Rejects only.

Status Codes **Appendix 2**

cc 65-66	Explanation
CK	Rejected. Unable to procure. No substitute/interchangeable item is available. Returned for supply by local issue of next higher assembly, kit, or components. Suggest fabrication or cannibalization. If not available, submit a new requisition (use new requisition number and current julian date) for next higher assembly, kit, or components.
CL	Rejected. Contractor's requisition or related transaction is to be processed initially by a MCA. Requisition/transaction entries indicate direct submission. Research for correct MCA and submit new requisition (use new requisition number and current julian date).
CM	Rejected. Item is not or is no longer free issue. Submit a new funded requisition (use new requisition number and current julian date) with signal code other than D or M.
CN	Nonconsumable item. Your service does not receive requisition support on this item or your requisition is a nonrecurring demand which cannot be satisfied. Submit your requisition to your service ICP for support.
CP	Rejected. Source of supply is local manufacture, fabrication, or local procurement. If item cannot be manufactured or fabricated locally, or activity lacks procurement authority/capability, submit a new requisition (use new requisition number and current julian date) with advice code 2A.
CQ	Rejected. Item requested is command or service regulated or controlled. Submit new requisition (use new requisition number and current julian date) through appropriate channels.
CR	Rejected. Requisition contains an invalid document identifier for a GFM transaction.
CS	Rejected. Quantity requisitioned is suspect of error or indicates excessive quantity. Partial quantity is being supplied. Quantity field in this transaction reflects quantity rejected. If requirement still exists, submit a new requisition for the required quantity using Advice Code 2L.
CT	Rejected. FMS requisition contains a "U" or "V" in cc 35 and the entry in cc 72 is incorrect or blank. Review records and resubmit with a new document number and a correct Cooperative Logistics Program Support Code in cc72.
CU	Rejected. Unable to procure item requested. Item is no longer produced by any known source and attempts to obtain item have failed. Item in stock number field can be furnished as a substitute. Unit Price of the substitute item is in cc 74-80. If offered substitute is desired, submit a new requisition (use new requisition number and current julian date) with substitute item stock number.
CV	Rejected. Item prematurely requisitioned. The effective date for requisition is contained in cc 70-73.

cc 65-66	Explanation
CW	Rejected. Item not available or is a nonmailable item whose transportation costs are uneconomical. Local procurement is authorized for this requisition only. If item cannot be locally procured submit a new requisition (use new requisition number and current julian date) using advice code 2A.
➔ CX	Rejected. Unable to identify the ship to or bill to address as designated by the signal code, or the signal code is invalid. GSA Advantage GY/GZ series AACs are not authorized for use in DoD requisitions/orders. If still required, submit a new requisition (use new requisition number and current ordinal date) with valid data field entries.
CY	Rejected. Unable to procure item requested. Item is no longer produced by any known source and attempts to obtain item have failed. If requirement still exists, contact appropriate Service/Agency technical organization for assistance or if substitute item is known, requisition that item.
CZ	Rejected. Subsistence item not available for resale. Reserved for troop issue only.
C1	Rejected. For subsistence only. Requested item not available nationally. Do not requisition this item until advised by activity identified in cc 4-6.
C2	Rejected. International Logistics Program funds are not available to process this requisition. This code will be used between ILCO and requisitioners only.
C3	Rejected. Applies to subsistence only. Vendor cannot make delivery during shipping period.
C4	Rejected. Applies only to subsistence. Item is seasonal and not available for delivery during current shipping period.
C5	Rejected. Requisitioner, upon inspection of material located in the DRMO activity, rejected acceptance due to condition of material/unacceptable substitute and/or material incorrectly identified. This status code is generated by the DRMO and furnished to the appropriate status recipients.
C6	Rejected. Requisition is for commercial type item which is not authorized for supply under the Foreign Military Sales program. If unable to obtain desired item from commercial sources, submit a new requisition (use new requisition number and current julian date) containing Advice Code 3B, after obtaining approval from the U. S. Service implementing the case.
C7	Rejected. Document identifier code indicates this is a remarks/exception data document. Supply source has no record of receipt of remarks/exception data. If still required, submit a new requisition (use new requisition number and current julian date).
C8	Rejected. Vendor will not accept order for quantity less than the quantity indicated in cc 76-80. If requirement still exists, submit a new requisition (use new requisition number and current julian date) for a quantity that is not less than that reflected in cc 76-80.

cc 65-66	Explanation
C9	Rejected. Applies only to subsistence. Quantity in cc 25-29 canceled due to nonavailability during shipping period. If required in subsequent shipping period submit a new requisition (use new requisition number and current julian date).
DA	Rejected. Source of supply is direct ordering from the Federal Supply Schedule identified in cc 76-80 (cc 76-77 - Group, cc 78-79 - Part, cc 80 - Section). If activity lacks procurement authority submit a new requisition (use new requisition number and current julian date) with advice code 2A.
DB	Rejected. No valid contract registered at MCA.
DC	Processing of your Cooperative Logistics Supply Support Arrangement termination/ drawdown requisition (Cooperative Logistics Program Support Code A, B, C, or D) has resulted in the quantity reflected in cc 25-29 being absorbed by the IMM/ICP. Credit action for this quantity is in process. Disposition on any remaining quantity will be communicated by separate status transaction.
DD	Processing of your Cooperative Logistics Supply Support Arrangement termination/ drawdown requisition (Cooperative Logistics Program Support Code C or D) has resulted in the quantity reflected in cc 25-29 not being absorbed by the IMM/ICP. This quantity will not be delivered. Disposition of material will be in accordance with appropriate service/agency regulations. Billing action for this quantity is in process. Status on any remaining quantity will be communicated by a separate transaction.
DE	Canceled. Although shipment status (DI AS3) was sent, no shipment was made. For use in controlling shipments intransit to disposal only. May be used in response to DIs AFX and AFZ with advice code 37.
DF	Terminate intransit control processing. A signed receipt copy of the disposal turn-in document is not available but investigation indicates that property was removed from the storage area and cannot be located. Further research is being conducted. For use in controlling shipments intransit to disposal only.
DG	Shipment confirmed. The quantity in the DI AS3 transaction was the quantity shipped. A signed copy of the disposal turn-in document acknowledging DRMO receipt of that quantity is on file. DRMS action required to resolve apparent discrepancy. For use in controlling shipments intransit to disposal only. May be used in response to DI AFX or AFZ with advice code 35 or 37.
DH	Terminate intransit control processing. A signed copy of the disposal turn-in document acknowledging receipt is on file, however, the quantity is different from that in the original AS3. The quantity acknowledged in the disposal turn-in document is included in the quantity field. Further research on the quantity discrepancy is being conducted. For use in controlling shipments intransit to disposal only. May be used in response to DI AFX or AFZ with advice code 35 or 37.

Appendix 2 **Status Codes**

cc 65-66	Explanation
DJ	Rejected. GFM quantity requisitioned partially exceeds the contract authorized quantity. The quantity that exceeds the authorized quantity will not be supplied. Quantity in this transaction has been adjusted to reflect the authorized quantity.
DK	Rejected. Your DI APR transaction requesting reinstatement was received over 60 days after generation of the DI AE_ transaction containing status code BS.
DL	Rejected. Your DI APR transaction requesting reinstatement has been received. There is no record of a DI AE_ transaction containing status code BS.
DM	Rejected. Your DI APR transaction requesting reinstatement has been received. The DI APR transaction requested reinstatement of a quantity larger than that which was canceled by the DI AE_ transaction containing status code BS. The quantity canceled is shown in cc 25-29.
DN	Rejected. A valid contract is recorded at the MCA; however the requisitioned item, the requisitioner, or the DoDAAC in cc 45-50 is not authorized GFM under the contract.
DP	Rejected. Unable to identify the ship to and/or mail to Military Assistance Program Address Code to a valid address in the Military Assistance Program Address Directory (MAPAD). If still required, submit appropriate code(s) and address(es) under the procedures of DOD 4000.25-8-M, Military Assistance Program Address Directory. Upon confirmation the code(s) and address(es) have been added to the MAPAD, resubmit the requisition.
DQ	Rejected. GFM quantity requisitioned totally exceeds the contract authorized quantity. The total requisitioned quantity is rejected.
DR	Rejected. The MCA, for the contract indicated by the requisition, failed to respond or provide a valid response to an ICP GFM validation request.
DS	Requisition received for an item for which your service is not a registered user. Issue action is being processed. Request action be taken to register your service as a user using the procedures outlined in DOD 4100.39-M.
DY	Rejected. Material shipped by non-traceable means or supplied by direct vendor delivery from a contractor without an assigned DoDAAC or there is no record of the transaction for which the DI AFY follow-up was submitted (use on DI ASY).
D1	Canceled. Requisition was retained for 60 days. Requested asset did not come available. Quantity field indicates the quantity not filled. (DRMS use only).
D2	Rejected. Item requested in Brand Name Resale and is in short supply.
D3	Rejected. Activity did not respond to supply status request for additional information.
D4	Canceled. Applies only to subsistence items. Quantity in cc 25-29 canceled. Your requisition quantity, together with all other requisitions received this cycle for the specific port or depot, does not meet the contractor's minimum order quantity.

cc 65-66	Explanation
D5	Rejected. Item requested is Nuclear Reactor Plant material authorized for issue only to Nuclear Reactor Plant activities and support facilities. A similar item may be available under a different NSN. If unable to identify the non-nuclear NSN, submit a new requisition (use new requisition number and current julian date) providing complete technical data (i.e., APL/AEL, end use equipment, CAGE code, part number, drawing and piece number, nameplate, etc) and remarks indicating “non-nuclear application” in the remarks block.
D6	Rejected. Manually prepared requisition contains unauthorized exception data.
D7	Requisition modifier rejected because of errors in one or more data elements.
D8	Rejected. Requisition is for controlled substance/item and requisitioner and/or “ship to” address is not an authorized recipient. Submit a new requisition (use new requisition number and current julian date) on a DD Form 1348-6 furnishing intended application and complete justification for the item. Also applies to Navy FMS requisitions for publications which are controlled or have restricted access, and the requisitioner and/or "ship-to" address is not authorized. Submit a new requisition with justification for release to NAVICP-OF.

Part C: INTRA-NAVY ASSIGNED STATUS CODES

N and R series status codes may be assigned only for intra-Navy transactions. These codes will not be assigned on status cards to be forwarded to any foreign government, agency, or other military service.

NA	Requirement has been validated and outfitting funds are available for obligation, but requisition is being held by the NAVSEA OPN Outfitting Account Allotment Holder (FISCPS) pending availability of system assets. Additional status will be provided when release action is initiated. No follow-up action is required.
NB	Suspended. Publication/form being revised/reprinted. NPFD is obtaining estimated completion date from item sponsor. No follow-up is required; updated status will be provided. If need for this item is continual, submit justified request to cognizant SYSCOM for inclusion in automatic distribution as changes are released.
ND	Issue from material previously reported on hand at your activity.
NE	Release of Pre-positioned War Reserve Stock (PWRS) is authorized (for ICP use only).
NF	Dual Usage: (1) When used with a referral order (A4_), “Fill requirement from material scheduled on overhaul/repair or production program of your activity.” (2) When used with supply status (AE_), “Item back ordered at activity in cc 67-69 against material due from scheduled overhaul/repair.”

Appendix 2 **Status Codes**

cc 65-66	Explanation
NG	Item not available. Supply from overseas activity indicated in cc 67-69. Future follow-ups will be directed to activity in cc 67-69.
NH	Stock number changed (substitute, replacement, inter-changeable, equivalent, etc).. See stock number field. Adequate material on hand at your activity. Issue the new stock number. This is a one time action.
NJ	Stock number now assigned to part number and/or contract number. See stock number field. Adequate material on hand at your activity. Issue the assigned stock number. This is a continuing action.
NK	Requisition partially filled. Quantity indicated has been referred to activity indicated in cc 67-69.
➔ NL	Item received by Logistics Support Center (LSC) identified in cc 4-6, contact local LSC for delivery.
NM	Requirement has been validated and is being held by the NAVSEA OPN Outfitting Account Allotment Holder (FISCPS) pending funding authorization. In some instances, neither funds nor supply system assets may be available. Additional status will be provided when release action is initiated. No follow-up is required.
NN	Requisition partially filled. Quantity indicated has been canceled. If still required, submit new requisition.
NP	Authority granted to exhaust stock to fill this requisition.
NQ	Duplicate shipment furnished (FMS).
NR	Requisition being processed. Stores account has been changed to APA. Requisition forwarded to activity in cc 67-69 for action. Cancel fund obligations for Navy Stock Account material.
NS	Rejected. Sponsor furnishing material by initial distribution. If material is not received within 60 days, resubmit.
NT	Rejected. Item being reprinted or revised. Resubmit after date shown in cc 62-64 or, if date omitted, after 90 days. If need for this publication is continual, submit justified request to cognizant SYSCOM for inclusion in automatic distribution as changes are released.
NU	Requisition being processed. Stores account has been changed to NWCF. Establish a fund obligation or take action to cancel. Requisition forwarded to activity in cc 67-69 for action.
NX	Item available and will be shipped when called forward by the Military Traffic Management Command (applies to ammunition only).
NZ	Requisition referred to activity indicated in cc 67-69. Due to stock fund requirements, supplementary address, signal code and fund code fields of the original requisition have been changed.

Status Codes **Appendix 2**

cc 65-66	Explanation
N1	Applicable to 7R Cog, Advice Code 5D requisitions. Requisition is for valid requirements; however, funds are currently not available. Requisition has been backordered with financial status initiated.
N2	Requisition has been referred to a fleet unit for possible fill action. Upon notification of referral acceptance or rejection, current status will be provided.
N3	Modifier document received upgrading priority to 01-08 and material not available to fill requirement.
N4	Item being manufactured by a local Navy source.
N5	The change requested has been incorporated with all other related changes into a new basic publication. If not received by automatic distribution within 60 days, resubmit requisition using stock number of the old basic publication.
N6	Request for reservation of ammunition has been received and will be held in suspense until 60 days prior to the RDD. At that time, if assets are available, a reservation will be established both centrally and locally at the activity designated by the ICP/IMM.
N7	Item has been referred for direct delivery against an existing commercial repair contract.
N8	NAVICP-OF is in receipt of your requisition. However, processing criteria precludes supply action. When requisition clears the MISIL edits and is submitted to the supply system, you will be furnished “BW” status by a subsequent transaction.
N9	Rejected. (1) Quantity requisitioned exceeds the maximum issue quantity imposed by the publication sponsor. Partial quantity being supplied. Quantity field in this transaction reflects the quantity rejected. If this requirement still exists, submit a new requisition with full justification to the sponsor shown in NAVSUP P-2002. (2) Excessive/erroneous quantity. For 7_ cog DLRs, this code will apply to requisitions with a quantity greater than one.
RA	Rejected. (1) Item requested has been transferred to NWCF. Correct cognizance symbol appears in cc 55-56. If still required, submit a new requisition citing appropriate fund code. (2) Change Kits. Bureau number/serial number omitted on requisition. For NAVSEA controlled change kits the engine serial number is required for engine changes and base enclosure/module serial number is required for ancillary changes. Submit a new requisition providing appropriate information.

cc 65-66	Explanation
RB	Rejected. Item is fleet controlled. Emergency requirements only should be submitted in accordance with applicable fleet controlled material instructions.
RC	Rejected. Item is obsolete or is used in nonsupported obsolete equipment, aircraft, etc. Request replacement equipment from applicable command, or obtain requirements from local procurement or cannibalization.
RD	Rejected. (1) Item is peculiar to aircraft, engine, equipment, assembly, etc., not supported at your activity. (2) Change Kits. Records reflect previous installation of kit Bureau/Serial number provided.
RE	Canceled due to lapse of funds. If material still required, submit a new requisition.
RF	Rejected. Quantity requisitioned for stock is in excess of authorized stock level. Quantity field indicates the amount that is rejected.
RG	Rejected. Allowance deficiency. Subsequent to preparation of allowance, determination was made that the item should not be included as an allowance item.
RH	Rejected. (1) Item requested not available for issue at reduced price. (2) RDD less than minimum required for conventional ammunition. Submit a requisition modifier with a valid RDD within 10 days; otherwise, the requisition will be canceled
RJ	Rejected. (1) Additional funds required. Submit requisition indicating sufficient funds available. (2) Ammunition Only. RSS&I funds not available or are insufficient to process requirement.
RK	Rejected. Requisition for item requested must contain certification indicating availability for repair of NRFI item.
RL	Rejected. Activity is authorized to purchase or manufacture the quantity indicated.
RM	Rejected. (1) Critical item. Submit in accordance inventory control point directive. (2) Cog 1I overprinted DD 1348-1A documents will be requisitioned in accordance with NPFD Field Instruction 4443.2. (3) Change kits. Records reflect previous issue of kit for Bureau/Serial number cited in your requisition.

cc 65-66	Explanation
RN	Rejected. (1) Issue condition coded material. (2) Change Kits. Restricted to depot installation only.
RP	Rejected. Item requested is Nuclear Reactor Plant material under the technical control of NAVSEA 08 (either 2S Cog X1 SMIC spare reactor plant components or OS Cog reactor plant technical manuals) and requires specific justification of need. Requisition did not provide adequate justification. Requisitioner should submit a new requisition as follows (Do Not Transmit Via AUTODIN): (1) If requisition is for 2S/X1 item, submit requisition to NAVSEA 08H with complete justification IAW NAVSUP P-485 (see par. 3259) and NAVSEAINST 9210.15 series. (2) If requisition is for reactor plant technical manual, submit requisition to NAVICP MECH 009 with complete justification IAW NAVSUP P-485 (see par. 3467) and NAVSEAINST 9210.29 (Procedure G-1).
RR	Rejected. One year has expired since the requisition date. Issuing activity maintains no record. If still required, submit a new requisition.
RS	Returned to ICP for further action due to erroneous logistics management code in cc 70, 71, or 72.
RT	Rejected. (1) Item not available. Purchase action is required and insufficient time remains in which to obligate the cited funds. Resubmit a new requisition citing current annual appropriation. (2) Change Kits. Change Kit not in stock. Submit new requisition in 90 days.
RU	Rejected. Quantity appears excessive. If still required and item is NSA funded, submit funded request for reservation. If APA funded, resubmit with justification. Used in processing request for establishment of planned requirements/reservations.
RV	Received in reply to a submission of a stock replenishment request for a fixed allowance deficiency of repairable material. Upon receipt of this status, transfer material from “A” to “V” or “W” purpose code, as applicable.
RW	BTE submitted for obsolete or outdated item. Disposition is authorized in accordance with current instructions. Use on DI BTR.
RX	Internal cancellation.

cc 65-66	Explanation
RY	Canceled. If reservation, cancellation is due to passing of required delivery date; if planned requirement, cancellation due to passing of expiration date. This code will be used with the reservation cancellation, DI “BRX”, or the planned requirement cancellation, DI “BPX”, as applicable, to advise the customer activity that a previously requested reservation or planned requirement that was centrally protected has been disestablished and is no longer protected.
RZ	Rejected. Modifier document received which would not result in upgrade or downgrade of issue group or change in order/ship time frames.
R1	Rejected. (1) Requisition contains invalid signal code. (2) Change Kits. Review technical directive for source of supply.
R2	Rejected. (1) Requisition for stock unauthorized from ICP distribution system/reporting stock point. (2) Change Kits. Change kits not available or planned for procurement. Submit requisitions through normal supply channels for kit components.
R3	Rejected. All assets available are less than RFI condition and cannot be repaired or are locally committed as ExReps to station requirements.
R4	Rejected. Nonstocked item. Special printing is required. If item is essential, submit new requisition with full justification to NAVSEASYSCOM (Code CEL-TD), Washington, D C (N24)
R5	Rejected. Item condemned and replacement item is not yet assigned. This code will be used only when positive supply action to provide a substitute or refer the requisition is not possible.
R6	Rejected. Item not available in the supply system, nor due from procurement. Recommend submit request to Fleet Logistics Agent for support from in-theater assets.
R7	Ammunition requirement is being processed for release and shipment; the required delivery date has been changed.
R8	Noncreditable return authorized. Return quantity indicated in cc 25-29 to NPFD M/F Code 101. Use on DI BTR.
R9	Rejected requisition is an exact duplicate of one processed.

cc
65-66 Explanation

➔ Part D: CUSTOMER ASSET TRANSACTION STATUS CODES

The “S” series customer asset transaction status codes will be used on DI FTR documents to reject an customer asset transaction. If subsequent reporting is required for the items identified by the DI FTR documents containing “S” series status codes, a new customer asset report will be prepared with a new document number. The “T” series customer asset transaction status codes will be used with DIs FTB, FTD, FTQ, FTR, FT6, and FTZ to provide information/action status on a customer asset report and related documentation. When a DI FT6 is submitted to the reporting activity, it will contain the applicable status code cited in the DI FTR.

SA Rejected. If appropriate, resubmit with exception information as required by instructions disseminated separately by applicable ICP/IMM. Assign a new document number if a new customer asset report is submitted. Use on DI FTR.

SB Rejected. Report garbled and incomplete. Corrective action cannot be determined. Review entire contents, correct, and resubmit if appropriate. Assign a new document number if a new customer asset report is submitted. Use on DI FTR.

SC Rejected. ICP/IMM of the reported item cannot be determined. Research records and, if applicable, resubmit citing correct stock number. Assign a new document number if a new customer asset report is submitted. If NSN is GSA managed, item is non-stocked; disposition is authorized under local directives. Response to DI FTE, use on DI FTR.

SD Rejected. NSN not identifiable. Corrective action cannot be determined. Review, correct, and resubmit if appropriate. Assign a new document number if a new customer asset report is submitted. Use on DI FTR.

SF Rejected. Item not in authorized condition to be reported or condition code cannot be identified. Material should be screened for correct condition code and new FTE submitted; or, if not reportable, dispose of under current procedures. Assign a new document number if a new customer asset report is submitted. Use on DI FTR.

SG Rejected. This transaction is a duplicate of a previously received report. Recipient must research excess records to determine if this transaction was previously rejected with an “S” series status/reject code. If so, resubmit a new customer asset report with a new document number. Otherwise, no action is required.

SH Rejected. Unit of issue is incorrect and cannot be converted or corrected. Assign a new document number if a new customer asset report is submitted. Use on DI FTR.

SJ Rejected. Signal code is blank or incorrect. (Assign a new document number if a new customer asset report is submitted.) Use on DI FTQ or FTR.

SK Rejected. Unable to identify the ship-from or credit-to address as designated by the signal code. (Assign a new document number if a new customer asset report is submitted.) Use on DI FTQ or FTR.

cc 65-66	Explanation
SL	Deleted
SM	Rejected. Stock balance indicates disposal action is appropriate; however, item is in process of migrating and further action is deferred until date contained in cc 70-73. If still in excess position after that date, resubmit to appropriate IMM. Assign a new document number if a new customer asset report is submitted. Use on DI FTR.
SN	Rejected. Material reported not authorized for return. Disposition is authorized in accordance with current instructions. For Navy ammunition, materials indicated in cc 25-29 will be retained for rework/renovation. Use on DI FTR.
SP	Rejected. Item reported as excess has also been requisitioned by the reporting activity (cc 30-35), or has been requisitioned by another activity for shipment to the reporting activity (cc 45-50). Use on DI FTR.
SQ	Rejected. Reported NSN is master item number (i.e. all makes and models) used for reference purpose only. Review records and resubmit with new document number(s), citing appropriate NSN(s) for the specific item(s) being reported. Use on DI FTR.
TA	Creditable return. Credit will be granted for quantity indicated in cc 25-29. Ship material to activity in cc 54-56. Use on DI FTR or FT6.
TB	Noncreditable return. Return quantity indicated in cc 25-29 to activity indicated in cc 54-56. For Navy ammunition, materials indicated in cc 25-29 will be shipped to activity indicated in cc 54-56 for rework/renovation. Use on DI FTR or FT6.
TC	Not returnable. Quantity reported has been determined by the IMM to be not economically feasible to return. Material must be disposed of within one (1) year of the document directing disposal. Use on DI FTR.
TD	Not returnable. (1) Special instructions for disposition are stated in the remarks field. In this case, the status document will be mailed. This code will not be used when other status codes have been established to convey applicable status (2) When due to security reasons, or space limitations, instructions will be furnished by separate media referring to pertinent document numbers. In this case, the remarks block will be left blank and TD status documents may be transmitted electrically. Use on DI FTR.
TE	Material required for lateral redistribution. DI A4_ referral(s) will follow. Use on DI FTR.
TF	Material received. Status being investigated. Use on DI FTR.

Status Codes **Appendix 2**

cc 65-66	Explanation
TG	Material required for lateral redistribution. DI A4_ referral(s) will follow, containing stock number and/or unit of issue as changed and as indicated in cc 8-22 and/or cc 23-24. Examine unit of issue and quantity fields for possible. Use on DI FTR.
TH	Credit will be granted for quantity indicated in cc 25-29. Stock number and/or unit of issue changed as designated in cc 8-22 and/or cc 23-45. The quantity field (cc 25-29) is adjusted as required. Examine unit of issue and quantity fields for possible changes. Ship material to activity in cc 54-56. Use on DI FTR or FT6.
TJ	Noncreditable return. Stock number and/or unit of issue changed as designated in cc 8-22 and/or cc 23-45. Examine unit of issue and quantity fields for possible changes. Return quantity indicated in cc 25-29 to activity in cc 54-56. Use on DI FTR or FT6.
TK	Not returnable. Stock number and/or unit of issue changed as designated in cc 8-22 and/or cc 23-45. Quantity indicated in cc 25-29 is excess to authorized retention levels. Examine unit of issue and quantity fields for possible changes. Further processing must be under appropriate service/agency regulations. Use on DI FTR.
TL	Material received. No credit allowed as item received was other than that authorized for return. Use on DI FTZ.
TM	Material received. No credit or reduced credit allowed as condition received was less than reported. Condition of material received is indicated in cc 71. Use on DI FTZ.
TN	Material received. Credit authorized for quantity in cc 25-29. Use on DI FTZ.
TP	Material not received within prescribed time frame. Credit authorization is canceled. Use on DI FTZ.
TQ	Material received. Noncreditable return as indicated in reply to report of excess. Use on DI FTZ.
TR	Your DI FTE received and in process. Reply will be provided by date indicated in cc 70-73. Use on DI FTD.
TT	Material received and in process of inspection and classification. DI FTZ will be provided upon completion. Reply to DI FTT, use on DI FTR.
TU	Material not received. Reply to DIs FTT and FTP, use on DIs FTR and FTB.
TV	Material not received within prescribed time frame. Noncreditable return authorization is canceled. Use on DI FTZ.
TW	Credit action in process. Financial transaction is forthcoming. Reply to DI FTP, use on DI FTB.
TX	Financial transaction accomplished. Bill number of credit transaction appears in cc 76-80. Reply to DI FTP, use on DI FTB.

cc 65-66	Explanation
TY	DI FTZ generated on document number cited indicated no credit authorized for return (reply to DI FTP, use on DI FTB).
TZ	Your customer asset report has been changed by the DAAS facility identified in cc 4-6. Examine cc 8-22 for possible change in FSC/NSN/part number converted to an NSN if the original report of excess transaction was DI FTG. Also, examine cc 67-69 to determine if the transaction has been routed to another activity. When DAAS converts DI FTRs to DI FTEs and routes to an ICP/IMM other than the rejecting ICP/IMM, DAAS will furnish the reporting activity with DI FTQ status containing Status Code TZ in cc 65-66. Use on DI FTQ.
T1	Material received. No credit allowed because the stock number changed from a stock fund to an appropriation financed item. For intra-service use only. Use on DI FTZ.
T3	DI FTM has been received. Material has not been received. Material should be shipped, tracer action initiated, or DI FTC submitted, as appropriate. Use on DI FT6.
T4	Material not returnable. Quantity indicated in cc 25-29 is excess IPE and must be reported to Defense Industrial Plant Equipment Center (SE 4300) in accordance with DLAM 5215.1, AR 700-43, NAVSUP Pub 5009, AFM 78-9.
T6	DI FT_ has been routed to the activity indicated in cc 67-69. Forward all future FT_ documents to that activity. Use on DI FTR.
T7	FSC has been changed by the ICP in cc 4-6. Use on DI FTR.
T9	Part number cannot be converted to an established NSN. Material reported is not authorized for return. Use current service/agency instructions for disposition of material. Use on DI FTQ.

APPENDIX 3

DISTRIBUTION CODES

1. GENERAL. The distribution code is a two part field which is contained in card columns (cc) 54-56. The first part (cc 54) indicates the activity who will be furnished 100% supply and shipment status on all priorities in addition to status furnished in accordance with the Media & Status (M&S) code entry in cc 7. When the M&S code is 0, 8 or Y, the activity designated by cc 54 is responsible for furnishing status to other status eligible recipients. The second part (cc 55 and 56) indicates the cognizance symbol (see appendix 18) and is significant only to the service initiating the requisition. Distribution codes always will be perpetuated on other documents. DOD codes will be recognized by all services and agencies. This appendix is arranged in Parts as follows:

Part A: Air Force Distribution Codes

Part B: Army Distribution Codes

Part C: Coast Guard Distribution Codes

Part D: Defense Logistics Agency Distribution Codes

Part E: Department Of Defense Distribution Codes

Part F: Marine Corps Distribution Codes

Part G: Navy Distribution Codes

➔ 2. ASIGNMENT. Distribution codes are assigned by DOD and the cognizant service. Requests for assignment of and changes to Navy distribution codes will be directed to NAVICP MECH Code 0411. Letters requesting Distribution Codes should provide the DoDAAC to which they will relate and a contact point and phone number.

Part A: AIR FORCE DISTRIBUTION CODES used with Service Code D, E, or F (cc 30)

Code	Activity
F	Sacramento ALC, McClellan Air Force Base, CA 95652
G	Ogden ALC, Hill Air Force Base, UT 84056
H	Oklahoma City ALC, Tinker Air Force Base, OK 73145
L	Warner Robins ALC, Robins Air Force Base, GA 31098
M	Air Force Medical Material Field Office, Frederick, MD 21701
N	AFLC International Logistics Center/00, Wright Patterson Air Force Base, OH 45433
P	San Antonio ALC, Kelly Air Force Base, TX 78241
Y	USAF Water Port Liaison Officer/DSTCB, Military Ocean Terminal, Bldg. 82, 2nd Floor, Bayonne, NY 07002

APPENDIX 4

DOCUMENT IDENTIFIER CODES

Part A: Introduction

1. GENERAL. Document Identifier (DI) codes provide a means to identify each document type (i.e., requisition, passing action, status transaction, receipt, adjustment) to the system to which it pertains. By this code, personnel and automated systems can recognize the data and the operation to perform. The document identifier is a mandatory entry on all documents entering and leaving the supply distribution system. Further, each product necessary to perform one of the various inventory functions will be identified by an appropriate code. The DI code is contained in card columns (cc) 1-3.

2. FIRST POSITION. The primary controlling factor in the document identifier code is vested in the first position of the code (cc 1). The Department of Defense controls assignment of these first position characters as follows:

a. MILSTRIP A Series DI Codes. Alphabetic “A” codes are provided to identify transactions relating to requisitioning/issue system(s) irrespective of service or systems within a service. DI codes in the A series not listed herein are reserved for future use and are not to be used unless authorized and disseminated by the MILSTRIP System Administrator.

➔ b. Navy B Series DI Codes. Alphabetic “B” codes are provided to identify transactions relating to inventory control system(s) within a service/agency and are for intra-service use only. Document formats for intra-Navy use are developed by NAVSUP functional offices for Navy unique programs, e.g. repairables. B series documents are assigned by SUP 4B1D1 upon requests of functional managers and will not be used to duplicate or circumvent the intent of codes established in any DOD controlled series.

c. DLA C Series DI Codes. Alphabetic “C” codes are provided to identify transactions relating to the DLA inventory control system and are confined to intra-DLA use only.

d. MILSTRAP D Series DI Codes. Alphabetic “D” codes are provided to identify transactions relating to inventory accounting system(s) irrespective of service/agency or systems within a service/agency. Special document identifiers are not provided to differentiate between types of receipts. Management Codes are used in conjunction with the document identifiers to provide this information. When reversal of the original transaction is required, enter an "X" in cc 25.

e. MILSTRAP E Series DI Codes. Alphabetic “E” series DI codes are used in place of the D series to identify simulated mobilization exercise transactions which will not automatically affect material asset records or physical movement of material.

f. MILSTRIP FT Series DI Codes. Alphabetic “F” codes in conjunction with "T”: are provided to identify transactions involved in the Material Returns Program. FT_ document identifier codes not listed herein are reserved for future use and are not to be used unless authorized and disseminated by the MILSTRIP System Administrator.

g. MILSBILLS H Series DI Codes. Alphabetic "H" series DI codes are permanently reserved for simulated mobilization exercise purposes only.

➔ h. DEFENSE TRANSPORTATION REGULATION R Series DI Codes. Alphabetic "R" series DI codes are permanently reserved for simulated mobilization exercise purposes only.

➔ i. DEFENSE TRANSPORTATION REGULATION T Series DI Codes. Alphabetic "T" series DI codes are provided to identify the type of shipment, the type of information contained on the transaction, and whether the transaction is a TCMD or a manifest.

j. MILSTRIP U Series DI Codes. Alphabetic "U" series DI codes are used in place of the A series to identify mobilization exercise requisitioning/issue transactions which will not automatically be processed as real documents.

k. Navy X Series DI Codes. Alphabetic "X" are provided to identify transactions relating to automated system(s) within a service/agency and are for intra-service use only. Within the Navy X series documents will not be passed from one activity to another. However, when NAVSUP requests DAAS to create images of documents which can be passed DAAS inserts an X in cc 1 of the image document to ensure that when they are transmitted to a given activity and they can be segregated from normal traffic.

l. Internal Y and Z Series DI Codes. Alphabetic “Y” and “Z” codes are authorized for Service/Agency assignment to identify transactions needed for internal depot, supply source, or base operations when they cannot be identified to an assigned DI and when they are not universal in scope and application. Transactions containing Y and Z in the first record position may never appear on any documents passed beyond the confines of the originating activity.

3. SECOND POSITION (cc 2)

a. When used in conjunction with a D in cc1, cc 2 may be numeric or alphabetic. A numeric entry in cc 2 signifies a transaction which affects an on hand balance and indicates the general nature of the transaction. An even number signifies a receipt or debit and an odd number an issue or credit. An alphabetic entry in cc 2 (excluding DI DAC, DAD, DAS), signifies a transaction which does not affect the overall or total on hand balance.

b. When used in conjunction with a T in cc 1 for consolidated shipments, cc 2 indicates the hazardous potential of the shipment, if applicable, or the predominant contents by weight for water, cube for air.

4. THIRD POSITION. When used with A in cc 1of requisitions, passing orders, referral orders, redistribution orders, and MROs:

a. Any numeric in cc 3 will signify that shipment of material is intended for an overseas consignee. The actual character will indicate the content of the stock or part number field.

b. Any alphabetic in cc 3 will signify shipment to a domestic recipient. The actual character will indicate the content of the stock or part number field.

c. When cc 3 contains a “4” or a “D” and indicates “with other”, this signifies that the requisition/transaction contains other than a NSN, Part Number or NATO Stock Number (i.e., Navy Item Control Number, PEC No., DOD Ammo Code Cog I Ordering Number, etc.).

d. When cc 3 contains a “5” or an “E” and indicates “exception data”, the processing activity will, by screening of documents, ascertain whether requisition or passing action contains an NSN/NATO stock number, part number or other. If item identifying data can be acted upon without need for further exception data, the code in cc 3 will be changed as appropriate to correspond to the NSN/NATO stock number, part number or other in cc 8-22. Activities should not attempt to use exception data as a normal method for requisitioning materiel requirements. Normally, exception data will be limited to:

(1) part numbers which extend beyond the stock or part number field and end item application or technical reference;

(2) essential “mark for” addresses;

(3) “Ship to” addresses when they cannot be designated by coded entries in cc 30-35 or 45-50;

(4) “Bill to” addresses when such addresses cannot be designated by coded entries in cc 30-35, 45-50 or in cc 52;

(5) authorization for items when such requirement is imposed by the parent service of the requisitioning activity;

(6) item description data when necessary to identify the item required.

5. STOCK STATUS INFORMATION AND TRANSACTION REPORTING. Navy requisitions for not in stock (NIS) items forwarded to another stock point or the Navy ICP for supply action will be forwarded as a referral order, e.g., the requisition document identifier A0A will be changed to A4A. Requisitions for not carried (NC) items forwarded to another stock point or the Navy ICP for supply action will be identified as a referral order; however, the NC indicator (N in cc 77) will be shown. Referral orders will not be transaction reported to the ICP. All transactions reported to the ICP will be converted to the appropriate document identifier in the D series for transaction reporting purposes.

Part B: MILSTRIP A SERIES DOCUMENT IDENTIFIER CODES

Code	Document title	Explanation
AB1	Direct Delivery Notice	To requisitioner (cc 30-35)
AB2	Direct Delivery Notice	To supplementary address (cc 45- 50)
AB3	Direct Delivery Notice	To cc 54
AB8	Direct Delivery Notice	To DAAS from service/agency for distribution by DAAS of Direct Delivery Notice, DI's AB1, AB2, AB3 under MILSTRIP status distribution rules
ACJ	Cancellation	Disposal release cancellation from ICP to storage activity
ACM	Cancellation	From ICP to procurement activity. Results from receipt of mass/universal cancellation request.
ACP	Cancellation	From ICP to procurement activity. Cancellation for indicated quantity of the item listed on the procurement instrument or procurement document designated by the number in cc 62-74.
AC1	Cancellation	By requisitioner (cc 30-35)
AC2	Cancellation	By supplementary addressee (cc 45-50)
AC3	Cancellation	By cc 54
AC4	Cancellation	By cc 55 (for intra-service use only)
AC5	Cancellation	By cc 56 (for intra-service use only)
AC6	Cancellation	From ICP/IMM to storage activity or reporting activity
AC7	Cancellation	From ICP/IMM to storage activity. Results from receipt of mass/universal cancellation request.
ADR	FMS Notice of Availability	Export release required. To designated Country Representative/Freight Forwarder. Will accompany the FMS notice of availability initial detail documents.
AD1	FMS Notice of Availability	Initial key document. To designated Country Representative/Freight Forwarder. Will accompany the FMS notice of availability initial detail documents.
AD2	FMS Notice of Availability	Initial detail document. To designated Country Representative/Freight Forwarder. Will accompany the FMS notice of availability initial key document.
AD3	FMS Notice of Availability	Delay key document. To designated Country Representative/Freight Forwarder. Will accompany the FMS notice of availability delay detail document.

Document Identifier Codes **Appendix 4**

Code	Document title	Explanation
AD4	FMS Notice of Availability	Delay detail document. To designated Country Representative/Freight Forwarder. Will accompany the FMS notice of availability delay key document.
AD5	FMS Notice of Availability	Reply document. To the activity originating the notice of availability.
AEA	Supply Status	For service prepared FMS and Grant Aid requisitions with NSN/NATO stock number.
AEB	Supply Status	For service prepared FMS and Grant Aid requisitions with part number.
AED	Supply Status	For service prepared FMS and Grant Aid requisitions with other (see par. 4c)
AEE	Supply Status	For service prepared FMS and Grant Aid requisitions with exception data (see par. 4d)
AEJ	Disposal Supply Status	From storage activity to ICP
AE1	Supply Status	To requisitioner (cc 30-35) in U.S. requisition. To Grant Aid country status recipient from ILCO/monitoring activity.
AE2	Supply Status	To supplementary address (cc 45-50) in U.S. requisition. To FMS country status recipient from ILCO/monitoring activity.
AE3	Supply Status	To cc 54 in U.S. requisition. Also used from supply source to ILCO/monitoring activity on FMS and Grant Aid requisitions.
AE4	Supply Status	To cc 55 (for intra-service use only)
AE5	Supply Status	To cc 56 (for intra-service use only)
AE6	Supply Status	To ICP/IMM from storage or reporting activity in response to DI AF6, AC6, A4_ with distribution code 2, or A5_ when a DI AR_ or AS6 does not apply.
AE8	Supply Status	To DAAS from service/agency for distribution by DAAS, of supply status AE1, AE2 and/or AE3 under MILSTRIP status distribution rules.
AE9	Supply Status	From DAAS: a. To activities identified by M&S code (cc 7), and/ or distribution code (cc 54) to advise of the rerouting or change to a MILSTRIP requisition transaction as reflected by the supply status code (cc 65-66). b. To activity in cc 30-35 when the M&S code is “0”, and cc 54 is blank or invalid to advise of rerouting or change to a MILSTRIP requisition transaction as reflected by the status code (cc 65-66).

Code	Document title	Explanation
AE9 (cont)		c. To activities in cc 30-35, 45-50, and 54 to advise of rejection of a MILSTRIP requisition transaction as reflected by the supply status code (cc 65- 66).
		d. To "From" routing identifier code (cc 74-76) to advise of the rerouting of a DI A3_ (Passing Order), or DI A4_ (Referral Order).
AFC	Follow-up (Request for improved ESD)	Furnished by requisitioning activities as a request to supply source to initiate action which will improve estimated availability dates provided in supply status transactions.
AFJ	Disposal Release Follow-up	From ICP to storage activity
AFT	Request for Shipment Tracing-Registered Insured and Certified Parcel Post	From Consignee (based on signal code) to supply source and ILCO to supply source unless business firm or civilian contractor not required to process follow-ups received from military sources. In this case, from consignee to ICP and ILCO to ICP.
AFX	Disposal Shipment/Receipt Confirmation Follow-up	From DRMS to cc 30-35 or from ICP/IMM to cc 4-6.
AFY	Request for DoDAAC of Initial Transportation Shipping Activity	Request to supply source to obtain the DoDAAC of the origin transportation shipping activity for tracing shipments under MILSTAMP.
AFZ	Disposal Shipment Confirmation follow-up	DI Code ASZ not received. From DRMS to cc 30-35 or from ICP/IMM to cc 4-6.
AF1	Follow-up	By requisitioner (cc 30-35)
AF2	Follow-up	By supplementary addressee (cc 45-50)
AF3	Follow-up	By cc 54
AF4	Follow-up	By cc 55 (for intra-service use only)
AF5	Follow-up	By cc 56 (for intra-service use only)
AF6	Follow-up	By ICP to reporting or storage activity
AGJ	Reply to Disposal Release Cancellation	From storage activity to ICP
AG6	Reply to Cancellation Request	To ICP from storage activity
AKJ	Disposal Release Cancellation Follow-up	From ICP to storage activity

Document Identifier Codes **Appendix 4**

Code	Document title	Explanation
AK1	Follow-up on Cancellation Request	By requisitioner (cc 30-35). Process as cancellation if original cancellation not received
AK2	Follow-up on Cancellation Request	By supplementary addressee (cc 45-50). Process as cancellation if original cancellation not received
AK3	Follow-up on Cancellation Request	By cc 54. Process as cancellation if original cancellation not received.
AK4	Follow-up on Cancellation Request	By cc 55 (for intra-service use only). Process as cancellation if original cancellation not received.
AK5	Follow-up on Cancellation Request	By cc 56 (for intra-service use only). Process as cancellation if original cancellation not received
AK6	Follow-up on Cancellation Request	From ICP to storage activity. Process as cancellation if original cancellation not received.
AMA	Document Modifier	For domestic shipment with NSN/NATO stock number. Process as requisition if original document not received.
AMB	Document Modifier	For domestic shipment with part number. Process as requisition if original document not received.
AMD	Document Modifier	For domestic shipment with other (see par. 4c). Process as requisition if original document not received.
AME	Document Modifier	For domestic shipment with exception data (see par. 4d). Process as requisition if original document not received.
AMF	Document Modifier	From ICP to procurement activity. Process only to change supplementary address and signal code fields
AMP	Document Modifier	From ICP to procurement activity. Changes RDD (cc 62-64) to expedite handling signal “555”.
AM1	Document Modifier	For overseas shipment with NSN/NATO stock number. Process as requisition if original document not received.
AM2	Document Modifier	For overseas shipment with part number. Process as requisition if original document not received.
AM4	Document Modifier	For overseas shipment with other (see par. 4c). Process as requisition if original document not received.
AM5	Document Modifier	For overseas shipment with exception data (see par. 4d). Process as requisition if original document not received.
ANZ	Materiel Obligation Validation Request Follow-up Control	Header document used for follow-up on request documents previously forwarded (DI Code AN9).

Appendix 4 **Document Identifier Codes**

Code	Document title	Explanation
AN1	Materiel Obligation Validation Request	To requisitioner (cc 30-35)
AN2	Materiel Obligation Validation Request	To supplementary address (cc 45-50)
AN3	Materiel Obligation Validation Request	To cc 54
AN4	Materiel Obligation Validation Request	To cc 55 (for intra-service use only)
AN5	Materiel Obligation Validation Request	To cc 56 (for intra-service use only)
AN9	Materiel Obligation Validation Control Document	Header document used when forwarding request documents.
APR	Materiel Obligation Validation Reinstate-ment Request	Notification to supply source requesting reinstatement of a requisition canceled under MOV
APX	Notice of Nonreceipt of Total Batch of MOV Documents	Notification to DAAS or supply source that the total number of documents indicated in the control document was not received.
AP1	Materiel Obligation Validation Response	From requisitioner (cc 30-35)
AP2	Materiel Obligation Validation Response	From supplementary address (cc 45-50)
AP3	Materiel Obligation Validation Response	From cc 54
AP4	Materiel Obligation Validation Response	From cc 55 (for intra-service use only)
AP5	Materiel Obligation Validation Response	From cc 56 (for intra-service use only)
AP8	Materiel Obligation Validation Response	DAAS transaction to effect MOV response for specified activities. Also used by activities to have DAAS provide response for validated MOV requests.
AP9	Receipt Confirmation for Materiel Obligation Validation Requests	Return document for acknowledgment of documents.
ARA	Materiel Release Confirmation	For release of quantity greater than requested(due to unit pack)

Document Identifier Codes **Appendix 4**

Code	Document title	Explanation
ARB	Materiel Release Confirmation	For release of quantity less than requested(due to unit pack)
ARH	Pseudo Material Release Confirmation	For use by ICPs and storage activities to administratively close open material release order records.
ARJ	Disposal Release Confirmation	From storage activity to ICP
ARK	Disposal Release Confirmation	From storage activity to ICP for release of quantity greater than requested
ARL	Disposal Release Confirmation	From storage activity to ICP for release of quantity less than requested
AR0	Materiel Release Confirmation	To ICP from storage
ASH	Pseudo Shipment Status for Unconfirmed Material Release Orders	From ICP to DAAS for distribution under MILSTRIP rules. Used by ICP as shipment status for unconfirmed material release orders.
ASY	Shipment Status	From supply source as response to a request for DoDAAC of the origin transportation shipping activity.
ASZ	Disposal Shipment Confirmation	From shipping activity to DRMS.
AS1	Shipment Status	To requisitioner (cc 30-35) in U.S. requisition. To Grant Aid country status recipient from ILCO/monitoring activity.
AS2	Shipment Status	To supplementary address (cc 45-50) in U.S. requisition. To FMS country status recipient from ILCO/monitoring activity.
AS3	Shipment Status	To cc 54 in U.S. requisition. Also used from supply source to ILCO/monitoring activity on FMS and Grant Aid requisitions.
AS4	Shipment Status	To cc 55 (for intra-service use only)
AS5	Shipment Status	To cc 56 (for intra-service use only)
AS6	Shipment Status	To ICP/IMM from reporting activities for LRO shipments of retail assets
AS8	Shipment Status	To DAAS from service/agency for distribution by DAAS of shipment status (AS_) under MILSTRIP distribution rules.
ATA	Follow-up	For domestic shipment with NSN/NATO stock number. Process as requisition if original requisition not received.
ATB	Follow-up	For domestic shipment with part number. Process as requisition if original requisition not received.

Code	Document title	Explanation
ATD	Follow-up	For domestic shipment with other (see par. 4c). Process as requisition if original requisition not received.
ATE	Follow-up	For domestic shipment with exception data (see par. 4d). Process as requisition if original requisition not received.
AT1	Follow-up	For overseas shipment with NSN/NATO stock number. Process as requisition if original requisition not received.
AT2	Follow-up	For overseas shipment with part number. Process as requisition if original requisition not received.
AT4	Follow-up	For overseas shipment with other (see par. 4c). Process as requisition if original requisition not received.
AT5	Follow-up	For overseas shipment with exception data (see par 4d). Process as requisition if original requisition not received.
AT7	Follow-up	For overseas shipment/Overseas Dependent School System Requirement. Process as requisition if original requisition not received.
AUA	Reply to Cancellation Request-Materiel Release Confirmation	To ICP. Release of quantity greater than requested (due to unit pack).
AUB	Reply to Cancellation Request-Materiel Release Confirmation	To ICP. Release of quantity less than requested (due to unit pack).
AU0	Reply to Cancellation Request-Materiel Release Confirmation	To ICP. Release of quantity same as requested
AU1	Reply to Cancellation Request-Shipment Status	To requisitioner (cc 30-35)
AU2	Reply to Cancellation Request-Shipment Status	To supplementary address (cc 45-50)
AU3	Reply to Cancellation Request-Shipment Status	To cc 54
AU4	Reply to Cancellation Request-Shipment Status	To cc 55 (for intra-service use only)

Document Identifier Codes **Appendix 4**

	Code	Document title	Explanation
	AU5	Reply to Cancellation Request-Shipment Status	To cc 56 (for intra-service use only)
	AU7	Reply to Cancellation Request-Shipment Status	To DAAS. Notification that shipment will be subject to diversion by DTS in response to request for mass/ universal cancellation
	AU8	Reply to Cancellation Request-Shipment Status	To DAAS from service/agency for distribution by DAAS of status (AU_) under MILSTRIP distribution rules.
➔	AV1	Notification of Customer Non-response to MOV Request	To requisitioner (cc30-35)
➔	AV2	Notification of Customer Non-response to MOV Request	To SUPADD (cc 45-50)
➔	AV3	Notification of Customer Non-response to MOV Request	To Distribution Code (cc 54)
	AX1	ICP GFM Validation Request	From ICP to Management Control Activity to validate GFM transactions to a valid contract.
	AX2	Management Control Activity GFM Material Validation Response	From Management Control Activity to ICP. Response to ICP validation request of GFM transactions.
	A0A	Requisition	For domestic shipment with NSN/NATO stock number
	A0B	Requisition	For domestic shipment with part number
	A0D	Requisition	For domestic shipment with other (see par. 4c).
	A0E	Requisition	For domestic shipment with exception data (see par. 4d).
	A01	Requisition	For overseas shipment with NSN/NATO stock number
	A02	Requisition	For overseas shipment with part number
	A04	Requisition	For overseas shipment with other (see par. 4c).
	A05	Requisition	For overseas shipment with exception data (see par. 4d).
	A07	Requisition	For overseas shipment/Overseas Dependent School System Requirement
	A2A	Redistribution Order	For domestic shipment with NSN/NATO stock number

Appendix 4 **Document Identifier Codes**

Code	Document title	Explanation
A2B	Redistribution Order	For domestic shipment with part number
A2D	Redistribution Order	For domestic shipment with other (see par. 4c).
A2E	Redistribution Order	For domestic shipment with exception data (see par. 4d).
A21	Redistribution Order	For overseas shipment with NSN/NATO stock number
A22	Redistribution Order	For overseas shipment with part number
A24	Redistribution Order	For overseas shipment with other (see par. 4c).
A25	Redistribution Order	For overseas shipment with exception data (see par. 4d).
A27	Redistribution Order	For overseas shipment/Overseas Dependent School System Requirement
A3A	Passing Order	For domestic shipment with NSN/NATO stock number
A3B	Passing Order	For domestic shipment with part number
A3D	Passing Order	For domestic shipment with other (see par. 4c).
A3E	Passing Order	For domestic shipment with exception data (see par. 4d).
A31	Passing Order	For overseas shipment with NSN/NATO stock number
A32	Passing Order	For overseas shipment with part number
A34	Passing Order	For overseas shipment with other (see par. 4c).
A35	Passing Order	For overseas shipment with exception data (see par. 4d).
A37	Passing Order	For overseas shipment/Overseas Dependent School System
A4A	Referral Order/Lateral Redistribution Order for Retail Assets	For domestic shipment with NSN/NATO stock number
A4B	Referral Order/Lateral Redistribution Order for Retail Assets	For domestic shipment with part number
A4D	Referral Order/Lateral Redistribution Order for Retail Assets	For domestic shipment with other (see par. 4c).
A4E	Referral Order/Lateral Redistribution Order for Retail Assets	For domestic shipment with exception data (see par. 4d).
A41	Referral Order/Lateral Redistribution Order for Retail Assets	For overseas shipment with NSN/NATO stock number
A42	Referral Order/Lateral Redistribution Order for Retail Assets	For overseas shipment with part number

Document Identifier Codes **Appendix 4**

Code	Document title	Explanation
A44	Referral Order/Lateral Redistribution Order for Retail Assets	For overseas shipment with other (see par. 4c).
A45	Referral Order/Lateral Redistribution Order for Retail Assets	For overseas shipment with exception data (see par. 4d).
A47	Referral Order/Lateral Redistribution Order for Retail Assets	For overseas shipment/Overseas Dependent School System
A5A	Materiel Release Order	For domestic shipment with NSN/NATO stock number
A5B	Materiel Release Order	For domestic shipment with part number
A5D	Materiel Release Order	For domestic shipment with other (see par. 4c).
A5E	Materiel Release Order	For domestic shipment with exception data (see par. 4d).
A5J	Disposal Release Order	From ICP to storage activity (may also be used by local generating activity)
A51	Materiel Release Order	For overseas shipment with NSN/NATO stock number
A52	Materiel Release Order	For overseas shipment with part number
A54	Materiel Release Order	For overseas shipment with other (see par. 4c).
A55	Materiel Release Order	For overseas shipment with exception data (see par. 4d).
A57	Materiel Release Order	For overseas shipment/Overseas Dependent School System Requirement
A6A	Materiel Release Denial	For domestic shipment with NSN/NATO stock number
A6B	Materiel Release Denial	For domestic shipment with part number
A6D	Materiel Release Denial	For domestic shipment with other (see par. 4c).
A6E	Materiel Release Denial	For domestic shipment with exception data (see par. 4d).
A6J	Disposal Release Denial	From storage activity to ICP.
A61	Materiel Release Denial	For overseas shipment with NSN/NATO stock number
A62	Materiel Release Denial	For overseas shipment with part number
A64	Materiel Release Denial	For overseas shipment with other (see par. 4c).
A65	Materiel Release Denial	For overseas shipment with exception data (see par. 4d).
A67	Materiel Release Denial	For overseas shipment/Overseas Dependent School System Requirement

Part C: NAVY B SERIES DOCUMENT IDENTIFIER CODES

Code	Explanation
BAC	NMCS/PMCS completion notification transaction.
BAE	Reconciliation report.
BAF	Reconciliation response transaction.
BA2	Commercial receipt transaction
BA3	Commercial induction transaction
BA4	Stock action and technical information transactions requiring action by the recipient.
BA5	Retail asset status transaction to Navy retail manager.
BA6	Cyclic asset status report - shore stations.
BA7	Cyclic asset status report - mobile activities.
BA8	Commercial shipment transaction
BA9	Commercial price transaction
BCA	Pre-MTIS interrogation.
BCB	Pre-MTIS interrogation response.
BCR	Request for reconciliation of asset records.
BC1	Release/receipt document for turn-in of unserviceable Mandatory Turn-In Repairable material from end use. This code is to be used only on a DD Form 1348-1A.
BC2	Identifies a locally initiated shipment of unserviceable repairable materiel from one stock point to another as OSO transfers in a stores account. This code is to be used only on a DD Form 1348-1A.
BC3	Wholesale excess report.
BDA	Inventory manager stock status requests.
BDB	Stock point stock status reply.
BEE	Item establishment transaction used on inventory manager supply management decision.
BEL	NISTARS mass rewarehousing transaction.
BER	Stock points request for item establishment transaction.
BES	Inventory manager’s response to stock points for item establishment transaction.
BE3	Status report on partial issues for ASCC.
BE4	Individual component repair list file update transaction.

Document Identifier Codes **Appendix 4**

Code	Explanation
BFU	Follow-up to customer that drawdown date of a confirmed planned requirement has passed and materiel should be requisitioned from the supporting stock point.
BGB	Station internal handling operations.
BGC	For further transfer (FFT) Materiel Transaction.
BGD	An item manager disposal directive directing materiel (excesses) movement to the disposal activity (actual quantity to be retained is entered in cc 25-29).
BGF	NF status requirements reconciliation transaction
BGG	Disposal release order cancellation
BGH	Disposal release order follow-up
BGJ	An item manager disposal directive directing materiel (excesses) movement to the disposal activity (actual quantity to be demilitarized is entered in cc 25-29).
BGK	Reply to a disposal release order cancellation request
BGR	Inventory manager reclamation directive.
BGX	Stock point notification to the item manager that stock retention quantity of DI BGD is less than disposal directive DI BGJ
BG1	Serial number report submitted as supplemental information on issue/receipt/adjustment transactions. For cognizance symbol items other than 8P and 8X, this report will be generated by stock points as required by the inventory manager.
BG2	Lot number report submitted as supplemental information on issue/receipt adjustment transactions. Reports will be generated by stock points as required by the inventory manager for various cognizance symbols.
BHA	Materiel control transaction. For use between NAVICP-OF and staging activity indicated in cc 4-6, use of these transactions is arranged by NAVSUP on a case by case basis.
BHB	Materiel control deletion transaction. For use between NAVICP-OF and staging activity indicated in cc 4-6, use of these transactions is arranged by NAVSUP on a case by case basis.
BHC	Materiel control replacement transaction. For use between NAVICP-OF and staging activity indicated in cc 4-6, use of these transactions is arranged by NAVSUP on a case by case basis.
BHD	Delinquent materiel transaction. For use between the staging activity and NAVICP-OF which is indicated in cc 4-6, use of these transactions is arranged by NAVSUP on a case by case basis.
BHE	Materiel receipt transaction. For use between the staging activity and NAVICP-OF which is indicated in cc 4-6, use of these transactions is arranged by NAVSUP on a case by case basis.

Appendix 4 **Document Identifier Codes**

Code	Explanation
BHF	Materiel turnover transaction. For use between the staging activity and NAVICP-OF which is indicated in cc 4-6, use of these transactions is arranged by NAVSUP on a case by case basis.
BHG	Duplicate of shipment status transaction. For use between NAVICP-OF and staging activity indicated in cc 4-6, use of these transactions is arranged by NAVSUP on a case by case basis.
BHJ	Report of purchase of non-NSN materiel.
BHX	Demand date requirement transaction.
BKR	Rejection of response to follow-up on shipment of Non-RFI (BK2).
BK1	Follow-up on shipment of Non-RFI Transaction.
BK2	Response to follow-up on Shipment of Non-RFI Transaction.
BK3	Notification to customer of additional billing.
BK4	Notification to customer of reduced billing.
BK5	Follow-up on Transshipment of Non-RFI Transaction
↓ BK6	Response Transaction from Transshipping Activity to Follow-up on Shipment of Non-RFI Transaction
↑ BLA	Contract deliverable customer advisement (for FMS use only).
BLB	Contract deliverable supply status (for FMS use only).
BLC	Contract deliverable shipment (for FMS use only).
BMD	Non-RFI DLR/FLR shipments to other than MRIL destinations.
BMV	Fleet unit MOV verification.
BN_	Notification by the inventory manager to inform reporting stock points of change notice information (third digit change action code C, D, M, N, R, Z, or 9).
BPA	Acknowledgment and acceptance of a new planned requirement.
BPC	Planned requirement cancellation.
BPD	Request for change to a planned requirement support date. Planned requirement support date to be replaced by new support date.
BPQ	Request for change to a planned requirement quantity. Planned requirement quantity to be replaced by new quantity.
BPR	Activity request for establishment of a planned requirement by the ICP. This code or a code locally assigned in the Z series also may be used for local establishment of a planned requirement but will not be transaction reported to the ICP.

Document Identifier Codes **Appendix 4**

Code	Explanation
BPT	Confirmation of a planned requirement, including verification of quantity and support date.
BPV	Request for confirmation of a planned requirement.
BPX	Rejection/cancellation of a planned requirement request (BPR); or rejection of a request for cancellation, quantity change, or support date change.
BPY	Request for a change to a confirmed planned requirement supporting stock point.
BRA	Acknowledgment of reservation request (BRR).
BRC	Reservation cancellation.
BRF	Reservation follow-up.
BRR	Request for establishment of a reservation.
BRS	Reservation status.
BRX	Rejection of reservation request (BRR).
BSA	Requisition for the return, repair or reshipment of Security Assistance Program materiel.
BSJ	Organic repair status transaction.
BSL	Organic final repair transaction.
BSR	Repair induction/non-induction response.
BSS	Inventory manager’s initiated repair directive.
BST	Second Repair Site
BTA	Return of non RFI fixed allowance exchanged asset to RFI condition.
BTB	IDAFMS requisition trailer (reserved for SPAR/IDAFMS)
BTC	Price/quantity variance to obligation (reserved for SPAR/IDAFMS)
BTD	Commitments to IDAFMS (reserved for SPAR/IDAFMS)
BTE	Report of excess cog 0I technical manuals by Integrated Logistics Overhaul teams.
BTF	Exchange of a fixed allowance RFI asset for a non-RFI asset.
BTG	Obligation establishment IDAFMS (reserved for SPAR/IDAFMS)
BTH	Notification of receipt (reserved for SPAR/IDAFMS)
BTK	Cannibalization incoming request (reserved UICP).
BTL	Request for cannibalization action (reserved UICP).
BTR	Reply to report of excess technical manuals by Integrated Logistics Overhaul teams.
BWA	Adjust due records - increase.

Code	Explanation
BXA	Adjust due records - decrease.
BZA	Negative transaction report.
BZC	Stock point reported TIR counts
B7A	Exchange Repairable Issue Transaction Report from non TIR Activities.

Part D: MILSTRAP D SERIES DOCUMENT IDENTIFIER CODES

Code	Document title	Explanation
DAC	Inventory Adjustment Dual (Condition)	Dual adjustment (increase and decrease) resulting from condition transfer.
DAD	Inventory Adjustment Dual (Purpose)	Dual adjustment (increase and decrease) resulting from purpose transfer.
DAS	Inventory Adjustment Dual - Ownership	Dual adjustment (increase and decrease) resulting from ownership transfer by SMCA. Use is restricted to internal processing within the SMCA distribution system.
DA1	Single Managed Conventional Ammunition Unfreeze Action	From the SMCA to advise owning service ICP of action taken to unfreeze a quantity on a specific depot for a given NSN/ part number, ownership/purpose code and supply condition code.
DA2	Single Managed Conventional Ammunition Freeze Action	From the SMCA to advise owning service ICP of action taken to freeze a quantity on a specific depot for a given NSN/part number, ownership/purpose code and supply condition code.
DB_	Financial Adjustment(Gain)	For use as prescribed by services/agencies.
DC_	Financial Adjustment (Loss)	For use as prescribed by services/agencies.
DD_	Due-in - Procurement Instrument Source	Used to report establishment or cancellation of due-in from procurement instrument source between SCAs and ICPs. The third digit code in this series corresponds to the third digit code provided in the D4_ series.
➔ DDX	Memorandum Due-in	Notification from the LIM to the GIM of due-in (from procurement source) involved in an LR.
DEE	Logistic Transfer	From LIM to GIM. Transfer of on hand balances from appropriation accounts other than NWCF of the loser.
DEF	Decapitalization	From LIM to GIM. Transfer of on hand balances from NWCF accounts of the loser.

Document Identifier Codes **Appendix 4**

Code	Document title	Explanation
DF_	Due-in - Other Than Procurement Instrument Source	Used to report establishment or cancellation of due-ins from other than procurement instrument source between SCAs and ICPs. The third digit code in this series corresponds to the third digit code provided in the D6_ series.
DFX	Memorandum Due-in Other Than Procurement Instrument Source	Increase/Decrease. Notification from the LIM to the GIM of due-in (from other than procurement sources) involved in a Logistic Reassignment.
DG_	Backorder	Used to report establishment or cancellation/reversal of a backorder between SCAs and ICPs. The third digit in this series corresponds to the third digit code provided in the D7_ series.
DHA	Demand Transaction	Used to report establishment or cancellation of demand transactions between SCAs and ICPs.
↓ DJA	Physical Inventory Request	From owner/manager to initiate, followup on, or cancel a physical inventory. From a storage activity to initiate or cancel a physical inventory, advise of no record (stock or part number) and to respond to a followup.
↑ DLA	Logistic Transfer/ Decapitalization Follow-up	From GIM to LIM to request asset data pertaining to transferred items.
DLB	Reply to Logistic Transfer/Decapitalization Follow-up	From the LIM to GIM as a result of a logistics transfer/ decapitalization follow-up to advise of status of items.
DLC	Logistic Reassignment Delinquent Due-In Follow-up	Logistic reassignment follow-up from GIM to the LIM to request status on items due-in at the time of reassignment to the GIM.
DLD	Logistic Reassignment Delinquent Due-In Follow-up	Reply from the LIM to a GIM logistics reassignment delinquent due-in follow-up to advise the status of items. Also used by the LIM to provide the GIM revised due-in ESDs as changes occur.
DLE	Logistic Reassignment Due-In Reconciliation Request	Used from the GIM to the LIM to request reconciliation of due-ins.

Code	Document title	Explanation
DLF	Logistic Reassignment Due-In Reconciliation Response	Reply from the LIM to a GIM logistics reassignment due-in reconciliation request to reconcile the LIM and GIM due-in records.
DLS	Logistics Reassignment General Management Data	Management data provided to GIM by LIM for logistics reassignment consumable items.
DLT	Logistics Reassignment Backorder and Demand Data	Management data provided to GIM by LIM for logistics reassignment consumable items.
DLU	Logistics Reassignment On-Hand Asset Data	Management data provided to GIM by LIM for logistics reassignment consumable items.
DLV	Logistics Reassignment Due-In Asset Data	Management data provided to GIM by LIM for logistics reassignment consumable items.
DLW	Logistics Reassignment Contract History Data	Management data provided to GIM by LIM for logistics reassignment consumable items.
DLX	Logistics Reassignment Technical and Quality Data	Management data provided to GIM by LIM for logistics reassignment consumable items.
DMA	Recurring U.S. Other War Material Requirements Data	Used by the DOD components to submit recurring U.S. OWMR data to the IMM. Used by the LIM to advise the GIM of recurring U.S. OWMR data involved in a Logistic Reassignment.
DMB	Non-recurring U.S. Other War Material Requirements Data	Used by the DOD components to submit non-recurring U.S. OWMR data to the IMM. Used by the LIM to advise the GIM of non-recurring U.S. OWMR data involved in an Logistic Reassignment.
DMC	Non-recurring Allies Other War Material Requirements Data	Used by the DOD components to submit non-recurring Allies OWMR data to the IMM. Used by the LIM to advise the GIM of non-recurring Allies OWMR data involved in an Logistic Reassignment.
DMD	War Material Requirements Forecasted Return Data	Used by the DOD components to submit forecasted repairable item return data to the IMM. Used by the LIM to advise the GIM of fore-casted repairable item return data.
DME	War Material Requirements Visibility Data	Used by the DOD components to submit PWRMR and PWRMRP visibility data to the IMM. Used by the LIM to advise the GIM of PWRMR and PWRMRP visibility data involved in an Logistic Reassignment.

Document Identifier Codes **Appendix 4**

Code	Document title	Explanation
DRA	Material Receipt Acknowledgment	From reporting activity to supply source to acknowledge materiel receipt.
DRB	Material Receipt Acknowledgment Reply to Follow-up	From reporting activity to supply source to acknowledge materiel receipt in reply to follow-up.
DRF	Follow-up for Delinquent Material Receipt Acknowledgment	From supply source to reporting activity to follow-up when materiel receipt has not been acknowledged within the required time frames.
DSA	Small Arms Multi-Field Corrections	Used for correcting erroneous or invalid NSN, DoDAAC/UIC, or WSN on the Component Registry.
DSB	Small Arms Mass Stock Number Change	Used to update the Component Registry for all weapon serial numbers and stock numbers with one transaction.
DSC	Small Arms Correction	Used for correcting rejected transaction or missing reconciliation transaction on the Component Registry.
DSD	Small Arms Receipt/ Issue Follow-up	Used for follow-up by the Component Registries to confirm serial number of weapons(s) shipped for which no receipt was confirmed or weapon(s) received for which no shipment was reported.
DSF	Small Arms Reconciliation/Reject Follow-up	Used to notify a unit/activity that rejected transaction or reconciliation transaction has not been received.
DSM	Weapons Serial Number Control	Used for registration and reporting of small arms between component registries and between the Component Registry and the DOD Registry.
DSR	Small Arms Reconciliation/Reject	Used for annual reconciliation between all units/activities having possession or accountability of small arms and the Component Registry. Used to reject invalid/incomplete transactions.
DTA	Asset Support Request	Used by authorized activities to request Logistics Asset Support Estimates from IMMs.
DTB	Asset Support Reply	Reply to asset support request/follow-up, from IMMs to appropriate service/agency activity.
DTC	Asset Support Reply (Backorder Data)	Reply to asset support request/follow-up, from IMMs to appropriate service/agency activity.
DTD	Asset Support Request Follow-up	Asset support request/follow-up, from service/agency to appropriate IMMs.

Appendix 4 **Document Identifier Codes**

Code	Document title	Explanation
DU_	Prepositioned Material Receipt -Procurement Instrument Source	Used by ICPs/SCAs to provide service/agency with advance notification of scheduled material receipts from a procurement instrument source. The third digit code in this series corresponds to the third digit code provided in the D4_ series.
DW_	Prepositioned Material Receipt - Other Than Procurement Instrument Source	Used by ICPs/SCAs to provide service/agency with advance notification of scheduled material receipts from other than a procurement instrument source. The third digit code in this series corresponds to the third digit code provided in the D6_ series.
DWS	Not assigned	
DXA	Material Receipt Follow-up	Procurement Instrument Source. From ICP/SCA to storage activity for material receipt follow-up.
DXB	Material Receipt Follow-up	Other than Procurement Instrument Source. From ICP/SCA to storage activity for material receipt follow-up.
DXC	Reply to Material Receipt Follow-up	Reply to material receipt follow up from storage activity advising the ICP/SCA of nonreceipt of material from procurement instrument source.
DXD	Reply to Material Receipt Follow-up	Reply to material receipt follow up from storage activity advising the ICP/SCA of nonreceipt of material from other than procurement instrument source.
DYA	Special Program Requirement Request	Request from forecasting activity to ICP to advise of expected future requirements. Excludes requests submitted for CLSSA requirements.
DYB	Special Program Requirement Request Exception Data	Request with exception data from forecasting activity to ICP to advise of expected future requirements. Excludes requests submitted for CLSSA requirements.
DYC	Special Program Requirement Cancellation	Forecasting activity cancellation notice to ICP to request cancellation of a previously submitted request.
DYD	Special Program Requirement Modifier	Forecasting activity modification request to ICP to request change of certain data in a previously submitted request.
DYG	Special Program Requirement Substitute Item Acceptance	Acceptance of ICP offered substitute item from forecasting activity.
DYH	Special Program Requirement Substitute Item Rejection	Rejection of a substitute item by forecasting activity to ICP.

Code	Document title	Explanation
DYJ	Special Program Requirement Follow-up	Forecasting activity follow up to ICP to request response to a previously submitted request.
DYK	Special Program Requirement Status	ICP status to forecasting activity in response to a request, follow-up, modifier, cancellation, or substitute item rejection.
DYL	Special Program Requirement Request	Forecasting activity request to ICP to advise of expected future CLSSA requirements.
DYM	Special Program Requirement Request	Forecasting activity request to ICP with exception data, to advise of expected future CLSSA requirements.
DZA	Asset Status	Asset status information.
DZB	Storage Item Data Correction/Change	From ICP/SCA to storage activity to change elements of data pertaining to a national stock number.
DZC	Logistics Reassignment Storage Information	From LIM to LIM storage activity to request transfer of quantities between ownership accounts on the storage activity records as a result of an Logistic Reassignment.
DZD	Logistics Reassignment Storage Information Reply	From LIM storage activity to LIM to advise of quantity transferred to the GIM as a result of a Logistic Reassignment.
DZE	Asset Status/ Transaction Reporting Request	From ICP to Military Service designated central points to request reporting from bases, posts, camps, and stations.
DZF	Asset Status Reporting	Asset status reporting from bases, posts, camps and stations to ICPs.
DZG	Transaction Reject	Used by the processing activity to reject to the submitting activity a transaction which could not be processed due to erroneous or missing data. Includes Logistic Reassignment transactions, for which no valid due-in exists, received more than 1 year after the effective transfer date.
DZH	Location Reconciliation Request	From storage activity to the owning/managing ICP to reconcile custodial records and accountable records.
DZJ	Transaction History/ Custodial Balance Request	Transaction history/custodial balance request from ICP to storage activity.
DZK	Transaction History Transmittal	Transaction history transmittal from a storage activity in support of a depot scheduled physical inventory or in response to an ICP request for history.
DZ9	Status Notification	DAAS notification to the submitter that a MILSTRAP document was rerouted or FSC changed.

Code	Document title	Explanation
D4M	Material Receipt - Procurement Instrument Source	To depot inventory as a result of return of repaired/tested end items previously sent to a commercial/government facility.
D4S	Material Receipt - Procurement Instrument Source	To depot inventory as a result of purchase from commercial sources.
D4U	Material Receipt - Procurement Instrument Source	From procurement instrument source to depot inventory as a result of purchase from another DOD activity including purchases from government production facilities where procurement funds are charged.
D4V	Material Receipt - Procurement Instrument Source	From procurement instrument source to depot inventory as a result of purchase from a non-DOD activity including purchases from government production facilities where procurement funds are charged.
D4X	Material Receipt - Procurement Instrument Source	From LIM to GIM as notification of receipt of an item decapitalized. Indicates to GIM that due-in and financial records of loser have been updated and that memorandum due-in is to be updated.
D4Z	Material Receipt - Procurement Instrument Source	To depot inventory when a specific DI is not known. Assignor of this code will maintain intelligence pertaining to its use and, as required, will furnish this data.
D6A	Material Receipt - Other Than Procurement Instrument Source	Returns from own service/agency into depot inventory. Excludes receipts of end items from repair activity.
D6B	Material Receipt - Other Than Procurement Instrument Source	Returns from other DOD activity users into depot inventory. Excludes receipts of end items from repair activity.
D6C	Material Receipt - Other Than Procurement Instrument Source	Returns from a non-DOD activity users into depot inventory. Excludes receipts of items from repair activity.
D6D	Material Receipt - Other Than Procurement Instrument Source	Returns from MAP Grant Aid users into depot inventory.
D6E	Material Receipt - Other Than Procurement Instrument Source	Returns from FMS users into depot inventory.

Code	Document title	Explanation
D6G	Material Receipt - Other Than Procurement Instrument Source	Returns from to destructive test and/or evaluation to depot inventory of unused material originally issued for performance of destructive testing and/or evaluation
D6H	Material Receipt - Other Than Procurement Instrument Source	Returns to depot inventory as a result of return of GFM not consumed in manufacture of an end item. Excludes return of end items from repair.
D6J	Material Receipt - Other Than Procurement Instrument Source	Return from property disposal to depot inventory.
D6K	Material Receipt - Other Than Procurement Instrument Source	Relocation of assets between installations under control of the same item manager without change in item management responsibility. Excludes receipts of repaired end items. This code will be utilized for reporting the receipt of OSO stock transfer regardless of whether such transfer was initiated by an ICP redistribution order.
D6L	Material Receipt - Other Than Procurement Instrument Source	Returns from assembly/disassembly/conversion/modification into depot inventory as a result of return of assembled end item, return of components from disassembled end items and return of converted or modified end items. Excludes return of repaired end items.
D6M	Material Receipt - Other Than Procurement Instrument Source	Returns into depot inventory as a result of return of repaired/ tested items previously sent to a commercial/government facility.
D6N	Material Receipt - Other Than Procurement Instrument Source	Returns of material on loan into depot inventory from an authorized recipient.
D6Q	Material Receipt - Other Than Procurement Instrument Source	Returns into depot inventory of designated principal item/weapon system.
D6R	Material Receipt - Other Than Procurement Instrument Source	Exchanges of service/agency designated items into inventory, when a like item is issued on an exchange basis.
D6S	Deleted	Replaced by DRA, DRB, DRF.
D6T	Material Receipt - Other Than Procurement Instrument Source	Into depot inventory as a result of requisitioning from own service/agency.

Code	Document title	Explanation
D6U	Material Receipt - Other Than Procurement Instrument Source	Into depot inventory as a result of requisitioning from another DOD activity.
D6V	Material Receipt - Other Than Procurement Instrument Source	Into depot inventory as a result of requisitioning from a non-DOD activity.
D6X	Material Receipt - Other Than Procurement Instrument Source	From LIM to GIM as notification of receipt of an item decapitalized. Indicates to GIM that due-in and financial records of loser have been updated and that memorandum due-in is to be updated.
D6Z	Material Receipt - Other Than Procurement Instrument Source	Into depot inventory when a specific DI code is not known. Assignor of this code will maintain detailed intelligence pertaining to its use and, as required, will furnish this data.
D7A	Issue to Own Service/ Agency	From depot inventory or by direct delivery from vendor. Excludes issues of end items to be repaired.
D7B	Issue to Other DoD Activity	From depot inventory or by direct delivery from vendor. Excludes issues of end items to be repaired.
D7C	Issue to Non-DoD Activity	From depot inventory or by direct delivery from vendor. Excludes issues of end items to be repaired.
D7D	Issue to Grant Aid	From depot inventory or by direct delivery from vendor.
D7E	Issue to FMS	From depot inventory or by direct delivery from vendor.
D7G	Issue to Destructive Test and/or Evaluation	From depot inventory of material for performance of destructive testing and/or evaluation.
D7H	Issue - GFM	From depot inventory or by direct delivery from a vendor of GFM for consumption in manufacture of an end item. Excludes issues of end items for repair.
D7J	Issue to Property Disposal	From depot inventory.
D7K	Issue for Relocation	To other storage locations for relocation between installations under control of the same item manager without change in item management responsibility. Excludes issues of end items to be repaired at the same location.
D7L	Issue for Assembly/ Disassembly/ Conversion/Modification	From depot inventory or by direct delivery from vendor. Includes issue of component for assembly, end item for disassembly, and end item for conversion and modification. Excludes issue of end items to be repaired.

Document Identifier Codes **Appendix 4**

Code	Document title	Explanation
D7M	Issue to Repair/Testing.	From depot inventory to commercial/government activity for the purpose of repair/testing and expected return of the same item.
D7N	Issue for Loan	From depot inventory to authorized recipients.
D7P	Issue of Returned Purchases	From depot inventory to supplier for credit or reimbursements.
D7Q	Issue of Designated Items	From inventory for installation on a principal item/weapon system.
D7R	Issue - Exchange Items	Issue of service designated items from inventory when a like item is returned on an exchange basis.
D7Z	Issue - Other	From depot inventory when a specific DI code is not otherwise provided. Assignor of this code will maintain detailed intelligence pertaining to its use and, as required, will furnish this data.
D8A	Increase - Physical Inventory Adjustment	Gain disclosed as a result of physical count of stock, single adjustment.
D8B	Increase - Accounting Error Adjustment	Gain resulting from clerical or mechanical accounting errors which are not subject to correction by reversal of original transaction, single adjustment.
D8C	Increase - Inventory Adjustment (Condition)	Gain resulting from condition transfer, single adjustment.
D8D	Increase - Inventory Adjustment (Purpose)	Gain resulting from purpose transfer, single adjustment.
D8E	Increase - Inventory Adjustment Logistic Transfer	Gain of item management responsibility as a result of logistics transfer, single adjustment.
D8F	Increase - Inventory Adjustment Capitalization	Gain to a Stock Fund or Stock Fund Division at time of activation or subsequent extension/expansion, as a result of capitalization, single adjustment.
D8J	Increase - Inventory Adjustment Reidentification	Gain resulting from inspection of an item in stock which has been misidentified, single adjustment.
D8K	Increase - Inventory Adjustment Catalog Change	Gain resulting from stock number and/or unit of issue changes, single adjustment. Excludes change of unit price only.

Code	Document title	Explanation
D8S	Increase - Inventory Adjustment - Ownership	Gain resulting from ownership transfer by the SMCA, single adjustment. Use is restricted to users of the Conventional Ammunition system.
D8Z	Increase - Inventory Adjustment - Other	Gains for which a specific DI code is not otherwise provided, single adjustment. Assignor of this code will maintain detailed intelligence pertaining to its use and, as required, will furnish this data.
D9A	Decrease - Physical Inventory Adjustment	Loss disclosed as a result of physical count of stock, single adjustment.
D9B	Decrease - Accounting Error Adjustment	MILSTRAP transaction not used by Navy. Use D9J
D9C	Decrease - Inventory Adjustment - Condition	Loss resulting from condition transfer, single adjustment.
D9D	Decrease - Inventory Adjustment - Purpose	Loss resulting from transfer action for a specific purpose, single adjustment.
D9E	Decrease - Inventory Adjustment Logistic Transfer	Loss of item management responsibility, logistic transfer, single adjustment.
D9F	Decrease - Inventory Adjustment Decapitalization	Loss from a Stock Fund or Stock Fund Division at time of deactivation or contraction as a result of decapitalization, single adjustment.
D9G	Decrease - Inventory Adjustment - Survey	Loss from shrinkage, theft, contamination, deterioration and/or expired shelf-life, single adjustment.
D9H	Decrease - Inventory Adjustment - Disaster	Loss from major disasters, fire loss, enemy action, Act of God, etc., single adjustment.
D9J	Decrease - Inventory Adjustment Reidentification	Loss resulting from inspection of an item in stock which has been erroneously identified, single adjustment.
D9K	Decrease - Inventory Adjustment Catalog Change	Loss resulting from stock number and/or unit of issue changes, single adjustment. Excludes change of unit price only.
D9S	Decrease - Inventory Adjustment - Ownership	Loss resulting from ownership transfer by the SMCA, single adjustment. Use is restricted to users of the Conventional Ammunition system.
D9Z	Decrease - Inventory Adjustments - Other	Losses for which a specific DI code is not otherwise provided, single adjustment. Assignor of this code will maintain detailed intelligence pertaining to its use and, as required, will furnish this data.

Part E: MILSTRIP FT SERIES DOCUMENT IDENTIFIER CODES

Code	Document title	Explanation
FTA	Automatic Return Notification	Customer notification to a supply source of an automatic return.
FTB	Reply to Follow-up for Credit Status	Reserved for MILSBILLS.
FTC	Cancellation of Customer Excess Report	Customer cancellation of previously submitted excess report.
FTD	Disposition Instructions	ICP/IMM status to customer advising of delay in response to excess report.
FTE	Customer Excess Report	Customer report of available excess.
FTF	Follow-up for ICP/IMM Reply to Customer Excess Report	Customer follow-up to ICP/IMM
FTG	Customer Excess Report(Part Numbered Items)	Customer report of available excesses for part numbered items (transmit to DAAS only).
FTL	Material Returns Program Supply Status	Customer status to ICP/IMM indicating estimated date of shipment
FTM	Shipment Status	Customer status to ICP/IMM indicating release of shipment to carrier.
FTP	Follow-up for Credit	Reserved for MILSBILLS.
FTQ	DAAS Customer Excess Report Informative Status	DAAS status to customer indicating actions on excess report
FTR	Reply to Customer Excess Report	ICP/IMM reply to customer excess report.
FTT	Follow-up for ICP/IMM Material Receipt Status	Customer follow-up due to nonreceipt of ICP/IMM receipt acknowledgment.
FTZ	ICP/IMM Material Receipt Status	ICP/IMM advice to customer of receipt or non- receipt of material.
FT6	ICP/IMM Follow-up	ICP/IMM follow-up material authorized to be returned.

➔ Part F: DEFENSE TRANSPORTATION REGULATION T SERIES DOCUMENT IDENTIFIER CODES

Code	Explanation
TAA	Air manifest header.
TAB	Air cargo pallet manifest header.
TAJ	Ocean cargo manifest header.
TB_	Accompanied Baggage (see below for 3rd position).
TC_	Armed Forces Courier Service (see below for 3rd position).
TD_	Intra-service use only (see below for 3rd position).
TE_	Ammunition and Explosives (see below for 3rd position).
TF_	Unaccompanied Baggage (see below for 3rd position).
TG_	Mail From Postal Concentration Centers (see below for 3rd position).
TH_	Household Goods (see below for 3rd position).
TJ_	Hazardous Materials (except ammunition and explosives or consumer commodities ORM-D (see below for 3rd position).
TK1	Intransit Data prepared by initial LOGAIR or intra-theater airlift terminal showing hour/day shipment unit is received and forwarded.
TK2	Intransit data prepared by intermediate LOGAIR or intra-theater airlift terminal showing hour/day shipment unit is received and forwarded.
TK3	Intransit data prepared by final LOGAIR or intra-theater airlift terminal showing hour/day shipment unit is received and delivered to the CONUS consignee.
TK4	Intransit Data prepared by shipping activities showing intransit data on GBL shipments within CONUS and overseas intra-theater and retrograde shipments.
TK6	Intransit Data prepared by AMC APOD showing hour/day shipment unit is received at an APOD and forwarded to the ultimate consignee.
TK7	Intransit Data prepared by HQ AMC/OCCA showeing hour/day each export shipment unit is received/lifted from CONUS by AMC and MSC. The OCCA entries include the date of overseas vessel discharge.
TK8	Intransit Data prepared only by Air Force consignees either when the TK4 is not received or when a shipment unit is received by an overseas consignee.
TL_	Dunnage and Lashing Gear (see below for 3rd position).
TMA	Request for transportation status (automated response).
TMB	Shipment diversion confirmation.
TMC	Shipment hold acknowledgement.

Document Identifier Codes **Appendix 4**

Code	Explanation
TMJ	Shipment transportation status (abbreviated response).
TMK	Shipment diversion denial.
TML	Shipment hold denial.
TMS	Shipment disposition instructions.
TMT	Shipment disposition request.
TM1	Request for transportation status.
TM2	Shipment diversion authorization.
TM3	Shipment hold authorization.
TP_	Privately Owned Vehicles (see below for 3rd position).
TS_	Shipment Challenge (not a TCMD or Manifest).
TU_	Equipment in sets or systems (see below for 3rd position).
TV_	Government Vehicles, Trailers, Wheeled Guns, and Aircraft (see below for 3rd position).
TX_	Shipments (including ORM-D) not otherwise covered by a T series DI (see below for 3rd position).

3rd Position

Advance TCMD	Air Manifest	Water Manifest	Explanation
0		J	Prime document for RU shipment (including empty SEAVAN, CONEX, etc.), not in a consolidation container.
1	A	J	Prime document for LRU shipment (including empty SEAVAN, CONEX, etc.), not in a consolidation container.
2	B	K	Prime document (header) for loaded RORO, SEAVAN, MILVAN or Air Pallet (463L).
3	C	L	Prime document (header) for CONEX, Unitized Pallet Load, or other Consolidation Container containing multiple shipment units.
4	D	M	Prime document for shipment units consolidated in a container (CONEX, SEAVAN, MILVAN, 463L Pallet, RORO, or UNitized Pallet Load).
5	E	N	Trailer document for cargo with outsize dimensions.

Advance TCMD	Air Manifest	Water Manifest	Explanation
6	F	O	Trailer document for identifying ammunition round count and coding data peculiar to ammunition, explosives, and other hazardous material.
7	G	P	Trailer document for listing the Net Explosive Weight (NEW) and lot number of ammunition and explosives.
8	H	Q	Trailer document for listing personal property ownership information.
9	I	R	Trailer document for listing miscellaneous information both in general and when specifically required.

Part G: SUADPS-RT DOCUMENT IDENTIFIER CODES

Section I: MANAGEMENT RELATED DIs

DI	Function
OSO	Cumulative Other Supply Officer File Processing
OSTAR	Order and Shipping Time Analysis Report
PID	Printer Identification Data
RFH	Cumulative Receipt File Processing
RFP	Requisition File Print
RHP	Requisition History Processing
SCF	System Constant File
SDE	Stock Asset Dollar Value Extension
SUNOOR	Summary of Unauthorized on Order Report
SUTRAN	Receipt/Transfer of Supported Unit Data
UID	User Identification Data
VTN	Validation Table - Nonprivilaged
VTP	Validation Table - Privileged
Y99	General Selector
ZOC	External Record Release
008	SAMMA/SAL Report
009	AVCAL/COSAL Percentage Analysis Report
011	Master Stock Status Report
014	Substitute/Interchangeable Stock Number Mass Delete
015	OPTAR History File Processing
044	Polaris Material Office (PMO) Reports
045	Cancellation Request for Excess Stock Dues
051	Location Validation/Storeroom Audit
052	BMF Utility
054	Depot Level Repairable (DLR) Print
056	Material Obligation Validation (MOV)
060	Support Package Listing
061	RRTMIS Report
064	Assets Report
065	Report of Extended Money Value of DTO Requisition by Fund Code
068	SEAMART/PEB Review Report

DI	Function
069	SEAMART/PEB Catalog Report
071	Outstanding DTO With On-hand Quantity
072	Automatic Follow-up
073	Demand History Processing
074	Deletion/Transfer Demand Data
075	AVCAL/COSAL Asset Demand Tape
076	Demand History Processing, Exclusion of Months
080	Master Stock Status and Locator Listing (MSSLL)
081	Automatic Reorder
083	Mechanized Offload
084	Inventory Scheduling/Aids
087	Management Data Element Reconciliation
093	Group Cancellation Request
094	Delayed Receipt Report
095	Locator Listing
100	Financial Update
101	Fixed Allowance Management Review (FAMR) Report
21T	Monthly Demand Transfer
90M	BMF Delete
90R	Requisition Delete

Section II: DAILY TRANSACTION DIs

X01	Deletion of Due Records
X05	Allowance/Load List Update Tape Processing
X06	Establish, Delete, Locate Part Number File Records
X07	Storeroom Location Process
X08	Add/Change/Delete BMF Data Elements
X09	Establish/Change BMF Records
X10	Add/Delete APL/RIC Records
X11	Spot Inventory
X13	Onhand Gain or Loss Adjustment
X13R	Onhand Gain/Loss Reversal
X21	Demand Recording
X22	BCM EXREP Return/Carcass Turn-in Data
X24	Establish/Change Pack-up Data

DI	Function
X31	Material Issue Internal (MRI), to Ship's Departments and Supported Units
X32	MTIS by Ship's Department or Supported Unit
X34	Material Issue External, Transfer to Non-supported End-Use Ships or Units
X35	Material Issue External, Cash Sales
X37	Material Issue External, OSO Transfer Ashore
X38	Material Issue External, Transfer to End-Use Ashore
➔ X39	OSO Transfer Adjustment **Not Authorized with MFCS**
X40	Sub-Custody Update
X43	Survey Adjustment
X49	Maintaining Currency of Appropriation Data
X50	Process OPTAR Grant/Withdrawal
X52	Adjust Financial Data
X70	Receipt Processing, Aviation Fuel
X71	Receipt Processing
X71R	Receipt Reversal
X72	Receipt in Process
X73	Receipt Processing, Money Value Only (MVO)
X76	OPTAR Adjustment
➔ X77	Unmatched Stock Fund Transaction Adjustment **Not Authorized with MFCS**
X78	Obligation Adjustment
X84	Scheduled Inventory Process
X91	Maintenance Data System Input
X92	Aviation Maintenance Data System Input
YE1	Internal Information Message

Section III: CHANGE NOTICE ACTION DIs

NCH	Establish/Delete Substitute/Interchangeable Item
NCJ	Establish/Delete Substitute/Interchangeable Item
NCW	Unit of Issue Conversion Factor Change
NC0	Acquisition Advice Code Change
NC1	Shelf-life Code/Shelf Life Action Code Change
NC2	Physical Security Code Change
NC3	Demilitarization Code Change
NC4	Unit Price/Unit Price Code Change
NC5	Precious Metals Indicator Code Change

DI	Function
NC6	ADP Equipment Identification Code Change
NC9	Local Change Notice Action
NDM	Item No Longer Stocked as an Assembly
NDN	Item Deleted; Dispose of material onhand or subsequently received
NDQ	Item Deleted
NDT	Item Condemned
NMA	Cognizance Symbol Change
NML	Cognizance Symbol Change
NM0	Cognizance Symbol Change
NM4	Cognizance Symbol Change
NRA	National Stock Number Change
NRB	Federal Supply Classification Change
NRD	National Item Identification Number
NRE	Stock Number Replacement, Item Interchangeable
NRF	Stock Number Replacement, Exhaust Old Supply
NRL	Stock Number Superseded
NRP	Stock Number Replacement
NRY	Stock Number Interchangeable with Unit of Issue Difference
NRZ	Stock Number Replacement, Item Discontinued
NR0	Special Material Identification Code Change
NZ1	Material Control Code Change
NZ3	Add, Change, or Delete Net Unit Price
NZ6	Special Material Content Code Change
NZ7	Type Storage Code Change

Section IV: SUADPS-RT INTERNALLY GENERATED TRANSACTIONS

Z31	Created by DIs X71, X73, and X77 to process the expenditure of DTO material receipts and for posting to the 2074 report.
Z64	When a DI X31, X34, X37, X71, X73, or Change Notice processes through the BMF, a DI Z64 may be generated to record financial adjustments on the FIR due to price adjustments, purchase variances, inter-COG transfers, capitalization's, or decapitalizations.
Z65	When a DI X71 receipt for DTO is processed as APA, but the original requisition was NSA, a DI Z65 is generated to cancel5 the obligation which was created by the original requisition.

APPENDIX 5

DEFENSE TRANSPORTATION REGULATION CODES

Part	Title	Page
A	Air Dimension Codes	A5-3
B	Air Hour/Day Codes	A5-3
C	Air Terminal Identifier Codes	A5-4
D	Foreign Military Sales (FMS) Delivery Term Codes	A5-5
E	Mode of Shipment Codes	A5-8
F	Type Pack Codes	A5-9

THIS PAGE LEFT BLANK INTENTIONALLY

APPENDIX 5

DEFENSE TRANSPORTATION REGULATION CODES

Part A: AIR DIMENSION CODES

1. GENERAL. The air dimension code is a single digit character which indicates whether shipments have one or more outsized dimensions (greater than 72 inches) and/or are consolidations (shipments of multiple requisitions). This code is used for all air shipments.

Code	Explanation
A	Shipment is not a consolidation and does not exceed 72 inches in any dimension.
C	Shipment is a consolidation but does not exceed 72 inches in any dimension.
D	Shipment is a consolidation and exceeds 72 inches in one or more dimensions.
Z	Shipment is not a consolidation but does exceed 72 inches in one or more dimensions.

Part B: AIR HOUR/DAY CODES

1. GENERAL. The Air Hour/Day Code is a three digit code which is used to advise the ACA of the anticipated time of release of the air shipment to the origin carrier. The first position will be an alphabetic code indicating the GMT hour (zulu) time as listed below. The second and third positions will be the last two digits of the day of the year that the shipment is released. For example, an air shipment released at 1530Z on julian date 223 would be coded R23.

Hour Code (First Position)	GMT Hour	Hour Code (First Position)	GMT Hour
A	0001-0100	N	1201-1300
B	0101-0200	P	1301-1400
C	0201-0300	Q	1401-1500
D	0301-0400	R	1501-1600
E	0401-0500	S	1601-1700
F	0501-0600	T	1701-1800
G	0601-0700	U	1801-1900
H	0701-0800	V	1901-2000
J	0801-0900	W	2001-2100
K	0901-1000	X	2101-2200
L	1001-1100	Y	2201-2300
M	1101-1200	Z	2301-2400

Part C: AIR TERMINAL IDENTIFIER CODES

1. GENERAL. Air Terminal Identifier Codes are three character alphabetic codes normally found in cc 21-23 or 24-26. They identify the name and location of air terminals worldwide. The code representing the actual APOE and APOD is used on all DTS documentation for air shipments. The following is a list of commonly used codes. For a complete listing see http://public.transcom.mil/j4/j4lt/App-dd-4.pdf.

CONUS

Code	Airport and Location
ADK	Adak Island, Alaska
CHS	Charleston, SC
JFK	Kennedy Airport, New York, NY
NGP	NAS Corpus Christi, TX
NGU	NAS Norfolk, VA
NHK	NAS Patuxent River, MD
NIP	NAS Jacksonville, FL
NKT	MCAS Cherry Point, NC
NKX	MCAS Miramar, San Diego, CA
NPA	NAS Pensacola, FL
NQX	NAS Key West, FL
NRB	NAS Mayport, FL
NZC	NAS Cecil Field, Jacksonville, FL
NZJ	MCAS El Toro, Santa Ana, CA
NZY	NAS North Island, San Diego, CA
SUU	Travis AFB, Fairfield, CA
TCM	McChord AFB, Tacoma, WA

OCONUS

Code	Airport and Location
AHA	Naha AFB, Okinawa, Japan
AMM	Amman, Jordan
BAH	Bahrain
BDA	Bermuda
BEY	Beirut, Lebanon
FUJ	Fujairah, United Arab Emirates
GAO	Guantanamo, Cuba
HIK	Hickam AFB, Honolulu, HI
LGS	Lajes AB, Azores
MHZ	Mildenhall, United Kingdom
NAP	Naples, Italy
NKW	Diego Garcia
NRR	NAS Roosevelt Roads, Puerto Rico
OKO	Yokota AFB, Tokyo, Japan
OSN	Osan AB, Korea
RTA	NS Rota, Spain
SIZ	Sigonella, Gerbini, Sicily

Part D: FOREIGN MILITARY SALES DELIVERY TERM CODES

1. GENERAL. The Foreign Military Sales (FMS) Delivery Term Code is a single digit alphabetic or numeric code. Alphabetic codes are used for shipments originating overseas, moving to CONUS, and returning overseas. Numeric codes are used for shipments originating in CONUS. Under conditions where the FMS case agreement (DD Form 1513) specifies that transportation support to a foreign country is to be provided by the United States, the FMS Delivery Term Code indicates the point within the air or surface transportation cycle where responsibilities for physical movement of an FMS shipment passes from DOD to the purchasing nation or international organization. All such transportation services are paid by the purchase either through inclusion of the cost in the item price, direct payment to carriers(s), or reimbursement to the U.S. The code to be used must conform to the delivery point specified in the DD Form 1513. The code should not be construed to imply transfer of title for material (which normally passes at origin) since it indicates only the point to which DOD will effect delivery of the material at an expense to the purchaser. Section 107.21 (ICC Act dated 17 Oct 78) tenders and rates will not be used for shipment of FMS material.

Code	Explanation
A	The DOD is responsible for transportation from a designated overseas POE to a CONUS destination and subsequent return to a designated overseas POD. The customer is responsible for overseas inland transportation of material to and from the overseas POE/POD and overseas port handling.
B	The DOD is responsible for transportation from a designated overseas POE to a CONUS destination, return to a CONUS POE and CONUS port handling. The customer is responsible for overseas inland transportation to the overseas POE, overseas port loading, and all return transportation from the CONUS POE to the ultimate destination.
C	The DOD is responsible for CONUS port unloading from the customer arranged carrier, transportation to and from a designated CONUS destination, and CONUS port loading of a customer arranged carrier. The customer is responsible for movement of material to and from the CONUS POD/POE.
D	The DOD is responsible for CONUS port unloading from the customer arranged carrier, transportation to a CONUS destination, and return to an overseas designated POD. The customer is responsible for transportation to a CONUS POD, overseas port unloading, and overseas inland transportation to the ultimate destination.
E	The customer is responsible for all transportation from the overseas port of origin to the CONUS destination and return to an overseas destination.
F	The DOD is responsible for transportation from an overseas inland location to an overseas POE, overseas port handling, transportation to a CONUS POD, CONUS port handling, inland transportation to a designated CONUS destination, and return to an overseas destination.

Appendix 5 Defense Transportation Regulation Codes

Code	Explanation
G	The DOD is responsible for overseas port handling through an overseas POE, transportation to a CONUS POD, CONUS port handling, inland transportation to a CONUS destination, return to an overseas POD and overseas port handling. The customer is responsible for overseas inland transportation to and from the overseas POE/POD.
H	The customer is responsible for all transportation from the overseas point of origin to the CONUS destination. The DOD is responsible for return transportation from the CONUS activity to the CONUS POE. The customer is responsible for return CONUS port handling and all transportation to the overseas destination. This code is required for return, repair or exchange, and reshipment of classified materials.
J	The customer is responsible for all transportation from the overseas point of origin to the CONUS destination. The DOD is responsible for all transportation from the CONUS activity to the overseas destination. This code is required for return, repair or exchange, and reshipment of classified cryptographic materials.
2	Delivery to an inland destination with origin and destination in CONUS or origin and destination in the same overseas geographic area. The DOD is responsible for transportation to the specified destination at which the customer is responsible for unloading, accepting custody, and subsequent onward movement. Expenses to the DOD for accessorial costs are reimbursable. This code, which has limited use, is normally associated with shipments such as training items sent to DOD activities training foreign officers or excess material of one country filling a requirement of another country in the same geographic area.
3	Delivery to a point alongside vessel or aircraft at the POE (free alongside, pork of embarkation, FAS POE). The DOD is responsible for transportation to a point within reach of the ship's tackle or alongside the vessel or aircraft. The customer is responsible for loading aboard the vessel or aircraft and subsequent onward movement. Expenses to the DOD for accessorial costs are reimbursable. This code has limited application use.
4	Delivery at the origin. The material is made available to the customer at the point of origin (usually a depot, vendor's loading dock or a disposal activity). The Customer is responsible for all transportation and related costs. Accordingly, the shipment is sent to a freight forwarder designated by the customer with transportation by pre-paid parcel post, on a CBL prepaid by the freight forwarder or paid for on a collect CBL. If a TAC 7 address is listed for the MAPAC, a CBL is issued and billed to that address rather than sending the shipment collect. This code is considered the standard code and is applied to most FMS transactions. For offshore procurement, delivery is at origin if customer has provided a point of contact for ashore procured items. If no point of contact is provided, delivery will be at the destination. The contractor is responsible for movement to the designated freight forwarder of the country representative.

Defense Transportation Regulation Codes **Appendix 5**

Code	Explanation
5	Delivery to a POE (free onboard, FOB POE). The DOD is responsible for movement to the POE. The customer is responsible for unloading the shipment from the inland carrier at the POE, delivery alongside the vessel or aircraft, and all subsequent onward movement. Expenses to the DOD for accessorial costs are reimbursable. This code has limited use and is applied only when prior arrangements for the use of port facilities at the customer's expense have been made.
6	Delivery to an overseas POD. The DOD is responsible for transportation from the point of origin to the overseas POD. The customer is responsible for discharging the vessel or aircraft, port handling and subsequent onward movement. Expenses to the DOD for accessorial costs are reimbursable. Shipments are made on GBLs and in the DTS (including LOGAIR, AMC, MTMC water ports, and/or MSC). Port handling at CONUS and overseas air terminals is provided without direct reimbursement by the customer when shipment is made under actual AMC tariff rates (which include such services). The customer does provide reimbursement for port handling when movement costs are charged using the DOD accessorial rate. At United States operated overseas water ports, handling costs are reimbursed according to local agreements between the United States and the customer; at other overseas air and water ports, charges are paid directly by the customer. This code is the standard code for material that is restricted from movement to a freight forwarder. The code is normally applied to shipments of firearms, classified and explosive material, and in other instances specifically directed in the FMS case agreement.
7	Delivery to an inland port in recipient country. The DOD is responsible for transportation, including transocean and overseas inland movement, from the point of origin to a specified inland location. The customer is responsible for unloading the shipment from the inland carrier at the specified location and for all subsequent onward movement. Expenses to the DOD for accessorial costs are reimbursable. This code has limited use and normally applies to the shipment of material to those countries which have no seaports (i.e., Bolivia, Paraguay, Switzerland, and Austria). The shipper provides modes and routing from the origin to the consignee location by TGBL or by special arrangement with AMC, MSC or U.S. military activities within the country for movement from the POD to the consignee location.
8	Delivery onboard a vessel or aircraft at the POE. The DOD is responsible for transportation from the point of origin to the vessel at the POE including unloading from the inland carrier, port handling, and stowage aboard the vessel or aircraft. The customer is responsible for all subsequent onward movement. Expenses to the DOD for accessorial costs are reimbursable. Shipments are made on GBLs. This code is especially applicable for explosive material prohibited from movement by a freight forwarder, but which must be moved through a military controlled port, with onward movement arranged by and coordinated with the country freight forwarder.

Code	Explanation
9	Delivery to POD. The DOD is responsible for transportation from the point of origin to the overseas POD, including discharge from the vessel or aircraft. The customer is responsible for all subsequent handling and onward movement. Expenses to the DOD for accessorial costs are reimbursable.

Part E: MODE OF SHIPMENT CODES

1. GENERAL. The mode of shipment code (or Transportation Mode/Method Code) is a one digit alphabetic or numeric character which identifies the method of movement by the shipper. The mode of shipment code is normally entered in cc 77.

Code	Explanation
A	Motor, truckload
B	Motor, less truckload
C	Van (unpacked, uncrated, personal and/or government property)
D	Driveaway, truckaway, towaway
E	Bus
F	Air Mobility Command (AMC) Channel and Special Assignment Airlift Mission
G	Surface parcel post
H	Air parcel post
I	Government truck, for shipment outside local delivery area
J	Air Small Package Carrier
K	Rail, carload (includes trailer/container-on-flatcar excluding SEAVAN)
L	Rail, less carload (includes trailer/container-on-flatcar excluding SEAVAN)
M	Surface Freight Forwarder
N	LOGAIR
O	Organic military air (including aircraft of foreign governments)
P	Through Government Bill of Lading
Q	Commercial air freight, including regular and expedited service (provided by major airlines), Air Charter, and Air Taxi
R	European Distribution System (EDS) or Pacific Distribution System (PDS)
S	Scheduled Truck Service (applies to contract carriage, guaranteed traffic routings and/or scheduled service)
T	Air freight forwarder
V	SEAVAN

Code	Explanation
W	Water, river, lake, coastal (Commercial)
X	Bearer Walk-Through (Customer Pick-up of material)
Y	Military Intra-Theater Airlift System
Z	Air Mobility Command (Controlled/Contract/Arranged Space)
2	Government watercraft, barge/lighter
3	Roll on/roll off service
4	Armed Forces Courier Service (ARFCOS)
5	Surface Small Package Carrier
6	Military Official Mail (MOM)
7	Express Mail
8	Pipeline
9	Local delivery by government or commercial truck, includes on base transfers, deliveries between air, water or motor terminals and adjacent activities. Local delivery areas are identified in commercial carrier's tariffs which are filed and approved by regulatory authorities.

Part F: TYPE PACK CODES

1. GENERAL. The type of pack code is a two digit code which provides three types of information as follows:

a. For breakbulk shipments, including those which subsequently may be loaded into a cargo container, the type of pack code identifies the type of packing.

b. For CONEX containers it identifies the first position of the six position serial number.

c. For cargo containers (SEAVANS/MILVANS/MSCVANC) it identifies who loaded the cargo into the container and the capacity to which the container was loaded.

Breakbulk Shipments

Code	Explanation
BD	Bundle
BE	Bale
BG	Bag, burlap or cloth
BL	Barrel
BS	Basket
BX	Box

Appendix 5 Defense Transportation Regulation Codes

Code	Explanation
CA	Cabinet
CB	Carboy
CC	Household Goods container, wood
CL	Coil
CM	Container, AMC, International Standards Organization, lightweight, 8x8x28 foot air container
CN	Can
CO	Container, other than CC, CM, CW, MW or MX
CR	Crate
CS	Case
CT	Carton
CU	Container, Navy cargo transporter
CW	Container, commercial highway
CY	Cylinder
DB	Duffelbag
DR	Drum
EC	Engine container
ED	Engine cradle or dolly
EN	Envelope. This applies to shipments of material packaged in envelopes larger than DD Form 1387, Military Shipment Label. The Military Shipment Label is 6 2/3 inches high by 6 5/8 inches long and when applied to envelope, all entries (including bar codes) must be scannable/readable from a single surface.
FK	Footlocker
HA	Hamper
KE	Keg
LS	Loose, not packaged
MW	Multiwall container
MX	Mixed, more than one type of shipping container
PC	Piece
PL	Pail
PT	Palletized unit load other than code MW

Defense Transportation Regulation Codes **Appendix 5**

Code	Explanation
RL	Reel
RO	Roll
RT	RORO
SA	Sack, paper
SB	Skid, box
SD	Skid
SH	Sheet
SL	Spool
SW	Suitcase
TB	Tub
TK	Truck
TU	Tube
UX	Unitized (use code RT for unitized cargo in a RORO)
VC	Van chassis
VE	Vehicle
VO	Vehicle in operating condition
VS	SEAVAN - tote
WR	Wrapped

CONEX Shipments

Code	If Serial Number Is:	Code	If Serial Number Is:
X0	00001 - 99999	X5	500000 - 599999
X1	100000 - 199999	X6	600000 - 699999
X2	200000 - 299999	X7	700000 - 799999
X3	300000 - 399999	X8	800000 - 899999
X4	400000 - 499999	X9	900000 - 999999

Cargo Container - First Position

Code	Explanation
A	MSC leased/controlled SEAVAN or MILVAN (MSCVAN)
Y	MILVAN
Z	SEAVAN

Cargo Container - Second Position

Code	Explanation
A	Loaded to capacity by ocean carrier.
B	Loaded to capacity by military terminal
C	Loaded to capacity by military shipping activity.
D	Loaded to capacity by vendor.
E	Loaded to capacity by contract shipment consolidation facility.
F	Loaded to less than capacity by military shipping activity, loading to capacity completed by contract shipment consolidation facility.
L	Loaded to less than capacity by military shipping activity, loading completed by military terminal.
M	Loaded to less than capacity by vendor, loading completed by military terminal.
N	Loaded to less than capacity by contract shipment consolidation facility, loading completed by military terminal.
P	Loaded to less than capacity with military cargo by ocean carrier, commingled with commercial cargo in accordance with the MSC Container Agreement and Rate Guide.
T	Loaded to less than capacity by military shipping activity, loading completed by ocean carrier.
U	Loaded to less than capacity by vendor, loading completed by ocean carrier.
V	Loaded to less than capacity by contract shipment consolidation facility, loading completed by ocean carrier
W	Loaded to less than capacity by vendor, loading completed by contract shipment consolidation facility.
Z	Empty MILVAN or SEAVAN
3	Loaded to less than capacity by military shipping activity.
4	Loaded to less than capacity by vendor.
5	Loaded to less than capacity by contract shipment consolidation facility.

APPENDIX 6

PROJECT CODES

Part A: INTRODUCTION

1. GENERAL. Project codes identify requisitions, shipments, and related documentation to special projects, operations, exercises, and maneuvers. This “one-to-one correlation” enables the Navy to distinguish and track these special programs to performance and cost data. Each military service (including the Coast Guard, Joint Chiefs of Staff, General Services Administration for civil agencies, and the MILSTRIP System Administrator for the Department of Defense) assigns specific project codes. They’re perpetuated in all related documentation and also appear as part of the shipping container markings. Project Codes are mandatory entries in cc 57-59 of all Navy requisitions.

2. CATEGORIZATION. There are four categories of project codes:

a. Category A - Intra-service action only. These codes are published, and will be recognized, only within the service assigning them. For the Navy, Category A is further broken down into five groups as follows:

(1) Group I - General Use Project Codes. These codes are alpha/alpha/numeric and provide an explanation of why the material is being requisitioned or moved.

➔ (2) Group II – Aircraft Intermediate Maintenance Department (AIMD) Special Repair Project Codes. These codes are used in support of the AIMD repair of Aircraft and Support Equipment (SE) components. These project codes will be assigned by NAVICP Code 0411 as B/alpha/numeric, recognizing several older/established codes are coded differently.

(3) Group III - Other Special Project Codes. These codes vary in appearance and are assigned to special conditions or projects, e.g., intra-service repair programs.

➔ (4) Group IV - Navy War Reserve Material Project Codes. These codes segregate War Reserve Material (material which is not needed during times of peace but essential during war) either by function or rate of consumption. They will always contain alpha “P” in the first position and are assigned by NAVSUP 09R2 with approval from the CNO. NAVSUP 09R2 point of contact is Mr. Bill Bott, phone COMM (717) 605-2872, DSN 430-2872.

(5) Group V - Security Assistance Office Project Codes. These codes are used in International Logistics (ILS) Transactions (service code P or K in cc 30) and are not published herein. A block of codes (series 1AA through 1ZZ) have been reserved for their use. Questions concerning these project codes should be addressed NAVICP, International Programs Directorate, Attn: Code 761, Philadelphia, PA 19111, DSN 442-4493 or COMM (215) 697-4493.

➔ b. Category B - Intra and inter-service action. Used when recognition and exceptional processing actions have been prearranged between specified services/agencies. DOD will only announce them to the participating services/agencies. The control requirements are included in the message announcing the establishment of the project code. To coordinate application to DOD for Navy Category B project codes contact Ross Burton, NAVICP Code 0411, COMM (717) 605-7016, DSN 430-7016.

➔ c. Category C – (3/alpha/alpha) Inter-service/agency action. The DOD MILSTRIP System Administrator assigns these project codes when two or more services/agencies will be using them to requisition material. All services/agencies are required to recognize Category C codes. These project codes are identified by a 3/alpha/alpha series plus JZC, JZM, JZO and RBB. All category C codes are published on the following internet address: http://www.dlmso.hq.dla.mil/Manuals/MILSTRIP/D_and_C_Project_Codes.pdf unless prohibited by security classification. Assignments may be requested by OSD/CJCS or by the Service/Agency.

➔ d. Category D - Office of the Secretary of Defense (OSD)/Joint Chiefs of Staff (JCS) project codes. All category D codes are in the 9 _ _ series. These project codes are assigned to projects or programs clearly of direct interest to the Secretary of Defense or to the Joint Chiefs of Staff. Authorization for use of a JCS project code will be for a specified period of time, and the force/activity designator(s) to be used in conjunction with this code normally will be designated in the authorization. Requests for assignment of JCS project codes will be submitted to the Joint Material Priorities and Allocations Board (an Agency of the Chairman Joint Chiefs of Staff), via the appropriate office as follows:

(1) Service Headquarters

(2) United or Specified Command Headquarters

(3) The Joint Staff

(4) OSD

➔ 4. PRIORITY. Requisitions with OSD/JCS project codes are the most urgent and will be ranked above all other requisitions with the same priority designators. When system-wide inventory levels do not permit all requisitions with a given priority designator to be satisfied, positive supply action will be taken on requisitions having OSD/JCS project codes first. OSD/JCS project codes will be validated: The DAASC will edit all requisitions (DI AM_,A0_, AT_, and APR) for invalid/expired OSD/CJCS Category D project codes. If an invalid/expired code is present, DAASC will blank the project code, forward the requisition for processing, and report this action back to the requisitioner in an AE9 transaction with BK status. Project codes (other than OSD/JCS) are not related to priority in any respect, and do not alter or override the priority assigned a requisition or shipment. Requisitions are processed strictly in accordance with the assigned priority designator as prescribed in the Uniform Material Movement and Issue System (UMMIPS).

➔ 5. ASSIGNMENT OF PROJECT CODES. Requests for assignments of Category A, Group II and Group III project codes (excluding 800 series) will be addressed to the Naval Inventory Control Point Mechanicsburg code 0411 (email to "Ross_F_Burton@icpmech.navy.mil"). All requests should contain the following information:

➔ a. Name (unclassified) of the project code.

b. The activity monitoring or coordinating the project with full address and phone contact.

c. Announcement date (when use of the code will begin) and termination date (when use of the code will be discontinued). If a specific date is not known, it is recommended that a date from one to five years in the future be given. Termination dates will be extended upon request.

d. Indication if publication in this Appendix is desired.

e. Remarks (any necessary clarification not elsewhere provided).

➔ f. Requests for project codes in the 800 series should be addressed to Naval Ammunition Logistics Center (NALC), Attn Code 70, 5450 Carlisle Pike, Mechanicsburg, PA 17055.

Activities which are assigned special project codes are responsible for providing instructions/information relative to the use of the code to requisitioners, supply activities and others upon request.

Part B: INTRA-SERVICE PROJECT CODES (CATEGORY A)

Section I: AFLOAT PROJECT CODES

1. GENERAL. This chart has been developed from the matrix in Group I to provide ships with a list of the project codes normally used afloat when preparing requisitions. These codes are not applicable to requisitions chargeable to NAVSEA OPN Outfitting Account (see par. 3369). Aircraft, squadrons, and ships have been categorized as to type of activity or weapons system and, as a general rule, will assign project codes related to one category. Project codes assigned to the Surface Missile Ship (SMS) Program will be used only to requisition material in support of the SMS System.

Requisition is for:	Type of Activity/Weapons System (see note 1)									
	A	E	F1	F2	G	H	I	J	K	L
1. NMCS requirement. (Project codes for NORS requisitions most commonly used by 2nd, 3rd, 6th and 7th Fleet ships are indicated in Note 2)	AKØ	---	FKØ	FKØ	---	---	IKØ	JKØ	---	---
2. Installation test and check-out impaired for lack of parts or WSIIP material.	AV2	EV2	FV2	FV2	GV2	HV2	IV2	JV2	KV2	LV2
3. NIS/NC material required for immediate use.	AK3	EK5	FK5	FK5	GK5	HK5	IK5	JK5	---	LK5
4. Design alteration programs (ORDALT, SHIPALT, SPALT, etc)	AU5	EU5	FU5	FU5	GU5	HU5	IU5	JU5	KU5	LU5
5. The following types of material used to support normal operations: not carried consumables (including SIM DTO items), medical/dental, food items, ship's store and clothing stocks, and fuel.	AP5	EP5	FP5	FP5	GP5	HP5	IP5	JP5	---	LP5
6. In excess addition of equipment or equipage.	AX5	EX5	FX5	FX5	GX5	HX5	IX5	JX5		LX5
7. Stock replenishment for any items of consumables or repair parts for which a stock record is maintained; or for replace-ment of any allowed equipage item.	AE5	EE5	FE5	FJ5	GJ5	HJ5	IE5	JE5	KE5 ---	LE5
8. Increased depth of a COSAL item.	AC5	EC5	FC5	FH5	GH5	HH5	IC5	JC5	KC5	LC5
9. A new item for stock.	AA5	EA5	FA5	FF5	GF5	HF5	IA5	JA5	KA5	LA5
10. Location (*third position indicates last numeric of storage location; see Group I: General Usage Project Codes).	---	EE*	---	FJ*	GH*	HJ*	---	---	---	---

Appendix 6 **Project Codes**

NOTE 1: Type of activity or weapons system

A	Aircraft and ground support equipment: all planes, squadrons, and support echelons
E	Combatant ships: CG, CV, CVN, DD, DDG, FFG, LHA
F1	FBM Program: SSBN
F2	FBM tenders: AS (FBM)
G	Tender/repair support ships: AS (non-FBM)
H	CLF ships: AE, AO, AOE, T-AFS, T-AF, T-AO
I	Submarines—non-nuclear propelled
J	Submarines—nuclear propelled (except SSBN)
K	SMS Program
L	Other fleet units

NOTE 2:

Group III project codes most commonly used to identify nonaviation NORS requisitions are as follows:

CASREP	2nd Fleet	3rd Fleet	6th Fleet	7th Fleet
C3/C4	752	747	765	711
C2	740	729	792	702

Section II: GROUP I GENERAL USAGE PROJECT CODES

cc 57	Type of Activity/Weapons System
A	Aircraft/ground support equipment when the support equipment readiness has a direct effect on operating aircraft readiness; all planes, squadron, and support echelons
C	Contractor/commercial concerns
E	Combatant ships (CG, CV, DD, etc.)
F	Fleet Ballistic Missile (FBM) Program (SSBN & AS FBM)
G	Tender support ships AS (Non-FBM)
H	Supply support ships (AE, AO, AOE, etc)
I	Submarine, non-nuclear propelled
J	Submarine, nuclear propelled
K	Surface Missile Ship (SMS) Program
L	Other fleet units (includes oceanographic units/detachments)
M	Shore base supply department/stores
N	Industrial organizations
O	Training programs/units
P	CNO special projects/elements See Group IV
Q	Construction battalions
R	Hospital, medical departments, etc.
S	Repair and overhaul shops (other than AIMD)
T	Experimental, test, and research programs/organizations
U	Administrative functions (NRAOs, recruitment stations, inventory managers, etc.)
V	Unit/team personnel safety (fire, medical)
W	Unit/team-operational (EOD)
X	TRIDENT Program
Y	Miscellaneous - not otherwise classified
Z	Special programs - See Group III

cc 58	Reason
A	Allowance-self support (COSAL, etc.) increase range
B	Allowance-self support (COSAL, etc.) decrease range
C	Allowance-self support (COSAL, etc.) increase depth
D	Allowance-self support (COSAL), etc.) decrease depth
E	Allowance-supply support (COSAL etc), replenishment
F	Allowance-supply support (Fill, load list, supply system stocks), increase range
G	Allowance - supply support (Fill, load list, supply systems stocks), decrease range
H	Allowance-supply support (Fill, load list, supply systems stocks) increase depth
I	Allowance-supply support (Fill, load list, supply system stocks) decrease depth
J	Allowance-supply support (Fill, load list, supply system stocks) replenishment
K	Repair-unscheduled (required for repair of “in-use” equipment)
L	Repair-scheduled (required for use in formal repair program)
M	Overhaul-unscheduled (required for overhaul of down equipment)
N	Overhaul-scheduled (required for use in formal overhaul program)
O	Maintenance - technical (required under normal preventative maintenance programs - lube, oils, paints, parts that have worn out but not failed, etc)
P	Maintenance - normal operating (food, clothing, medical, fuels cleansers, etc., required to sustain operations)
Q	New construction/major conversion (ships, aircraft, bases etc.)
R	Rehabilitation (FRAM I, etc.)
S	Production/manufacture
T	Alteration programs (ships, bases, stations, etc.)
U	Design change (ORDALT, SHIPALT, RETROFIT, etc.)
V	Installation and check-out programs
W	Outfitting allowance, initial (excluding repair parts)
X	Outfitting allowance, revision (excluding repair parts)
Y	Miscellaneous-not otherwise defined
Z	Disposal programs

CAUSE/EFFECT

cc 59

0 CASREP/NMCS (except where higher precedence project codes from Group III apply

1 Work stoppage

2 Restricts operation

3 Shortage (not fully equipped)

4 Management program (forecasted requirement by management)

5 Customer program (forecasted requirement by customer)

6 Roll-back - material turned in, no longer required

7 Capability impaired due to lack of parts

8 Government furnished material

9 Miscellaneous - not otherwise classified

STORAGE LOCATION (cc 59)

Ship's storage location applicable when "EE", "FJ", "GJ", or "HJ" is used in the first two positions. MAG's storage location applicable when "AE" is used in the first two positions.

AS, CV, LHA and MAGs: 0 through 9 will be entered to indicate the last position of storage location.

T-AFS: 1 through 5 will be entered to indicate "hold" (first position of T-AFS storage location).

Section III: GROUP II AIRCRAFT INTERMEDIATE MAINTENANCE DEPARTMENT (AIMD) SPECIAL REPAIR PROJECT CODES

Project Code	Project Title
BK0	Partial Mission Capable Support Equipment (SE). SE is inoperative but adequate workaround, redundancy, or local backup is available. If such a condition is projected to impact aircraft support or production capability in the near term and any additional degradation will jeopardize sustained support of O-level maintenance, the condition qualifies for BA reporting.
BK1	Aircraft Intermediate Maintenance Department (AIMD) unscheduled repair of in-use equipment resulting in a work stoppage.
ZC8	For Aircraft Support Used by the Intermediate Maintenance Activity when requisitioning material to stop an “Awaiting Parts” condition on components and aircraft engines undergoing repair.
ZF7	Broad Arrow Requirements for non-Operational Support Equipment or a Test Program Set (TPS) resulting in the immediate loss of authorized onboard intermediate repair capability for aeronautical components or the loss of SE or TPS degrades workload capacity such that the IMA is unable to sustain readiness to the supported activities.
ZQ9	Engine Maintenance Work Stoppage for all Model Aircraft Engines (not assigned for material required for engines being repaired for bare firewalls – see Project Code ZC8)

Section IV: GROUP III OTHER SPECIAL PROJECT CODES

C00 SERIES

The C00 series project codes are assigned to NAVICP MECH, Code 10112 to assist in monitoring and control of requisitions for which NAVICP MECH has MOV and tracking responsibility (payback requisitions). These requisitions should also have Media and Status code of “0” (zero) and a “V” in the first column of the distribution code. NAVICP MECH will maintain a list of these codes which are assigned to individuals or work groups.

MISCELLANEOUS/UNIQUE PROJECT CODES

Project Code	Project Title
➔ FY9	For use by Naval Supervising Activities to fill a nuclear “Q” COSAL outfitting material shortage incident to overhaul of TRIDENT FBMs.
F09	Science Flash (Air Force assigned).
F30	Oceanographic Unit/Detachment requirements for items required in direct support of FBM program not covered by SSPO/NAVOCEANO agreement.
F35	For use by Oceanographic units cited in SSPO/NAVOCEANO agreement and in accordance with provisions of that agreement.
GDB	For use on requisitions for Ozone Depleting Substances (ODS).
➔ HYB	FMS Hybrid
LGP	DSCS AN/FSC-78/79 Earth Terminal Complexes Replenishment.
RDC	Used by Inventory Control Points to identify excess turn-ins for credit by cyclic reporters.
RDD	Inserted by Navy activities reporting/submitting interrogations to Navy Inventory Managers to determine material disposition and creditability. Material is excess and not held in a stock account. Request provide disposition and credit decision. This code will be used only on reports to the Navy ICP.
RDE	Inserted by reporting stock points when reporting automatic turn-ins that have been taken up (and transaction reported to the ICP) in wholesale (ICP) stocks. (Material has been taken up in wholesale system stock. Request provide a creditability action. This code will be used only on reports to DLA and the Navy ICP.
RDO	Inserted by Navy activities reporting/submitting interrogations to determine disposition. Primarily for reporting stock excesses or MTIS from Cl 207 and other OSO transactions. Material is held in a Navy stock account but is excess. Request provide disposition decision. This code will be used only on reports to the Navy ICP.
RMP	AV-8B Remanufacture Program.
UT0	Unitas South American Deployments - Venezuela.

Project Code	Project Title
UT1	Unitas South American Deployments - Columbia.
UT2	Unitas South American Deployments - Ecuador.
UT3	Unitas South American Deployments - Peru.
UT4	Unitas South American Deployments - Chile.
UT5	Unitas South American Deployments - Argentina.
UT6	Unitas South American Deployments - Uruguay.
UT7	Unitas South American Deployments - Brazil.
UT8	Unitas South American Deployments - free flow via next available surface lift.
UT9	Unitas South American Deployments - free flow via next available military airlift.
XA3	Non-Q COSAL requisitions (range adds only) chargeable to the NAVSEA OPN Outfitting Account, submitted by Trident submarines. This material should not be sent by parcel post. Detailed shipping information is contained in NAVSUPINST 4600.69 and 4600.83 (latest series).
XC3	Non-Q COSAL requisitions (depth adds only) chargeable to the NAVSEA OPN Outfitting Account, submitted by Trident submarines. This material should not be sent by parcel post. Detailed shipping information is contained in NAVSUPINST 4600.69 and 4600.83 (latest series).
3SV	S-3 Integrated Maintenance Concept

Z SERIES

ZA0	Fuel Systems Maintenance Trainer
ZA1	AN/TSW-10(V)
ZA2	Special Procedures to Reduce IMA NMCS through use of “D” kits
ZA3	Aerial Targets Reducing Tracking
ZA4	LM 2500 Gas Turbine Engine and Parts
ZA5	Planned Maintenance for Non-Nuclear ACB Circuit Breakers
ZA6	ATAC Repairables
ZA7	S3 Aerial Refueling Stores Program
ZA8	AN/SPS-49(V)5-7ATD Radar Interim Support
ZA9	Forced high time removal items required for immediate end-use for primary mission weapons without which the aircraft concerned is within 15 days in CONUS or 20 days overseas of becoming NMCS due to high time forced removal of the required item. (Not to be used on priority 01-03 requisitions)

Project Codes **Appendix 6**

Project Code	Project Title
ZB1	Simulation Control Guide Maintenance Trainer
ZB2	Surveillance Towed Array Sensor System (SURTASS) Program
ZB3	Third Fleet Special Operations as Assigned by Type Commander
ZB4	CG47 Class IMAV/SRA PM (Planned Maintenance) Material Drawdown
ZB5	USCG MK75 Gun System Limit Repair Facility (LRF) Overhaul Program
ZB6	C/KC-130 Modification Program
ZB7	United Kingdom Trident II Program
ZB9	Aviation Spares Required for Supply of USMC Maritime Prepositioning Ship (MPS) Program (10 day fly in pack-up)
ZC1	RNCF-MMS
ZC2	Birds Eye Acquisition and Operation of Shipboard and Land Based Unmanned Air Vehicle Program
ZC3	Sea Nymph
ZC4	PAC NCF MMS Iwakuni
ZC5	Government Furnished Aeronautical Equipment/Testbench Installation Items
ZC6	NAVSECGRU Special Operations Material Requirements
ZC7	Straight Arrow
➔ ZC8	For Aircraft Support Used by the Intermediate Maintenance Activity when requisitioning material to stop an “Awaiting Parts” condition on components and aircraft engines undergoing repair.
ZC9	Norway Prepositioned SE Pack-up Requirement
ZDO	PAC NCF-MMS Okinawa
ZD1	Allowance Outfitting Requirements
ZD2	Naval Clinic Branch, NAS Bermuda
ZD3	PAC NCF-MMS Guam
ZD4	PAC NCF-MMS Hawaiian Islands
ZD5	PAC NCF-MMS Yokosuka
ZD6	CONUS NCF Dets
ZD7	Aircraft Targets Requisition Tracking
ZD8	AMAL/ADAL NAVSEA OPN Outfitting Account Allowance Requirements
ZD9	T-45A Aircraft NMCS Requisitions

Appendix 6 Project Codes

Project Code	Project Title
ZEB	Assigned, publication not desired.
ZE1	Naval Clinic Branch, Naval Amphibious Base Little Creek
ZE3	Used by HMX-1 for NMCS requirements for Presidential support aircraft
ZE5	UNITAS
ZE7	MOSS Program (Mobile Submarine Simulator)
ZFO	Industrial Forecasting Requirements (to be used only when PPR/SPR has been established for material)
ZF1	Surface Targets Requisition Tracking
ZF2	FFG-7 Class IMAV/SRA PM Material Breakdown
ZF3	NAVSEA Standard Price Requisitions with eventual carcass return expected through the Material Returns Program (MRP)
ZF4	PAC NCF-MMS Diego Garcia
ZF5	FMS Requisition from Japan
ZF6	SHIPALT Material Requirements
➔ ZF7	Broad Arrow Requirements for non-Operational Support Equipment or a Test Program Set (TPS) resulting in the immediate loss of authorized onboard intermediate repair capability for aeronautical components or the loss of SE or TPS degrades workload capacity such that the IMA is unable to sustain readiness to the supported activities.
ZF8	Naval Clinic Branch, NAVSTA Norfolk
ZF9	T-45 Training Device NMCS Requisitions
ZGO	GFE Schedule A Material
ZG1	Naval Clinic Branch, NSY Portsmouth
ZG2	ME 831-800A Marine Gas Turbine Engine
ZG3	IM 831-800 Marine Gas Turbine Engine
ZG4	NMCS Requisitions for SOSUS Activities
ZG5	ANMCS Requisitions for SOSUS Activities
ZG6	T400 “White Glove” Engine Supply Support (Advice Code 2G - New Material only)
ZG7	Harrier AV-6B Interim Support “MARHOOK” “HOOT OWL”
ZG8	Assigned, publication not desired.
ZG9	Tomahawk Sea Launched Cruise Missile (SLCM) Program
ZHO	PAC NCF MMS, Pohang Korea

Project Codes **Appendix 6**

Project Code	Project Title
ZH1	TF 40B Marine Gas Turbine Engine
ZH2	Initial Outfitting AEGIS CG 47 Class EXCOMM Project
ZH3	LAMPS Corrosion Control/POL Replenishment Requirements
ZH4	T62T-40-7 Marine Gas Turbine Engine
ZH5	Naval Clinic Branch, NWS Yorktown
ZH6	Request to fill an initial repair part, increase range or depth shortage incident to overhaul or other availability of a non-FBM unit. Chargeable to NAVSEA COSAL allotment.
ZH7	AN/SLQ 32V Support
ZH8	Tow Targets/Tow Reels Requisition Tracking
ZH9	Request to fill an initial repair part, increase range or depth shortage not incident to overhaul or other availability of a non FBM unit. Chargeable to NAVSEA COSAL allotment.
ZI2	Naval Clinic Branch, NAVSTA Norfolk
ZI3	RH-53D Work Stoppage
ZI4	Navy Substance Abuse Program
ZI5	Corpus Christi Army Depot (CCAD) US Navy aircraft and engine SDLM/overhaul supply support
ZI6	Corpus Christi Army Depot (CCAD) US Navy component repair supply support
ZI7	Advance Traceability and Control (ATAC) Redistribution Order/Ready for Issue (RDO/RFI) material shipments.
ZJ0	U. S. Coast Guard E2C Aircraft
ZJ1	AN/SPS 48D Radar Unique Items
ZJ3	Stock Replenishment/End Use - AEGIS CG 47 Class EXCOMM Project
ZJ4	Naval Clinic Branch, NAVRADSTA Northwest
ZJ5	FMS Requisition Submitted for USN Offered Excess Material
ZJ6	NAVTELCOM Personnel Support Equipment
ZJ7	USS Independence IRSA
ZJ8	LSD-41 Class
ZJ9	AN/SPS T3 ALPHA Restoration/Upgrade Program
ZK2	United Kingdom Polaris Program
ZK3	Aircraft Flight/Survival Equipment

Appendix 6 Project Codes

Project Code	Project Title
ZK4	AN/SPS-64(V) 9 Radar
ZK5	COMIDEASTFOR Flagship PHALANX Support
ZK6	SIMA Corrective Maintenance Material
ZK7	OV-100 Conversion/SLEP Weapon System Program
ZK8	Naval Clinic Branch, NAS Oceana
ZK9	T-45 Aircraft PMCS/Work Stoppage Requisitions
ZL0	Deficiency/Excess Incident to Supply Overhaul Conducted by Integrated Logistics Overhaul (ILO) Team
ZL1	Mobile Electronic Warfare Simulator (MEWS) Program
ZL2	EA3B Pack-up Kits and Fixed Allowance Replenishments
ZL3	PAC NCF MMS Atsugi
ZL4	PAC NCF MMS Kameseya
ZL5	PAC NCF MMS Fuji
ZL6	Calibration Standards
ZL7	Northern Star
ZL8	NARF Requisitions which do not meet ZN3, ZV3, or ZM3 criteria
ZL9	Maintenance Assist Module (MAM) Requirements
ZM0	Australian Frigate Project (FFG)
ZM1	MAL 11 F18 Contingency Pack-up Requirements. Material in support of authorized FMF Combat Deployment Package/Contingency Support Packages for F18 Aircraft
ZM2	Initial Outfitting of New NMCB
ZM3	NARF Requisitions for Holes in FS Custody Aircraft and Code 94 Engines. NAVAIR Funded - Free Issue to NARF
ZM4	LAMPS Out of Area (OOA) Pack-up Kit Replenishment
ZM5	LAMPS Work Stoppage
ZM6	LAMPS Replenishment
ZM7	Naval Reserve Force (NRF) LAMPS Work Stoppage
ZM8	Naval Reserve Force (NRF) LAMPS Stock Replenishment
ZM9	LAMPS SH-60B Pack-up Requirements
ZN0	General Use Consumable List (Initial Outfitting Allowance)
ZN1	SH-3 Pack-up Replenishment Requirement (COMNAVAIRLANT activities only)

Project Codes **Appendix 6**

Project Code	Project Title
ZN2	For use by Naval Supervising Activities/ILO Team to fill Nuclear "Q" COSAL Outfitting Shortages Incident to New Construction/Overhaul of Non-FBM Unit
ZN3	Applicable to NARF Replacement Requisitions for NARF Component Removals
ZN4	Requirements in Support of A-3 SDLM
ZN5	CH53 Aircraft Pack-up Requirements
ZN6	MSO Retirement Deferral Program (MRDP)
ZN7	CNO Urgent ASW R&D Program (CUARP)
ZN8	Technical Training Equipment - NAVSEA
ZN9	Telecommunications Equipment - NAVSEA
ZO1	Contractor Initiated Requisitions
ZO2	Installation and Check Out Spares
ZO5	Aircraft Service Chg. Kits - Res. Special Mission
ZO6	Aircraft Service Chg. Kits - Res. Stored Equipment
ZO7	Aircraft Service Chg. Kits - Res. FMS
ZO8	Aircraft Service Chg. Kits - Res. TYCOM
ZO9	Aircraft Service Chg. Kits - Res. Other
ZP0	Blue Angels Flight Demonstration Team
ZP1	CH-46 Aircraft Pack-up Requirements
ZP5	Aircraft Carrier Life Extension Program (CV SLEP) USS INDEPENDENCE (CV-62)
ZP6	Allowance - Self Support Increase Range and/or Depth - SOSUS Activities
ZP8	T-45 Training Device PMCS/Work Stoppage Requisitions
ZP9	Allowance - Self Support Replenishment - SOSUS Activities
ZQ0	Allowance Outfitting Requirement, Operating Space Item
ZQ1	A6F Operational Test and Evaluation
ZQ2	H-2 Armament
ZQ3	Non-operational In-flight Refueling Stores used in direct support of 6th and 7th Fleet deployed operational aircraft. Included are the Sgt Fletcher (31-300) aerial refueling store and the D-704 aerial refueling store. (Consideration by TYCOM may be given to relaxation of this rule when pre-deployed ship is authorized F/AD III)
ZQ4	U.S. Customs P-3A Program
ZQ5	PHALANX NOSL Overhaul Program

Appendix 6 Project Codes

Project Code	Project Title
ZQ6	PHALANX NOSL Module Repair Facility
ZQ7	Fleet Electronic Warfare Support Group Program (FEWSG)
ZQ8	NCF C3/E3 Material Accounts
➔ ZQ9	Engine Maintenance Work Stoppage for all Model Aircraft Engines (not assigned for material required for engines being repaired for bare firewalls – see Project Code ZC8)
ZR0	Plastics Waste Processors
ZR1	PAC NCF MMS Sasebo
ZR2	Channel Oak
ZR3	Initial Outfitting and Repair Parts Support of Navy Owned Equipment on board U.S. Coast Guard Ships
ZR4	Aircraft Carrier Service Life Extension Program (CV SLEP) USS KITTY HAWK (CV-63)
ZR5	Med Support for ASs and SSNs (Ship by traceable means only)
ZR6	CH-46 Pack-up Replenishment Requirement for Support of Atlantic Fleet MLSF Activity
ZR7	RH-53 Pack-up Replenishment Requirement for Support of Atlantic Fleet RH-53 Unit
ZR8	F/A-18 “SF” Special Material Identification Code (SMIC) Assets
ZR9	Transfer of Navy Retail Subsistence Prepositioned War Reserve Material
ZS0	Allowance Outfitting Requirement - Storeroom Item
ZS1	NATO SEA-SPARROW Surface Missile System MK 57 MODs 2 and 3
ZS2	Shore Submarine Broadcast
ZS3	Navy Shipyard/Ship Repair Facility Work Stoppage
ZS4	A6 Composite Wing
ZS5	Repair - Unscheduled - SOSUS Activities
ZS6	Normal Operating costs - SOSUS Activities
ZS7	MK 105 Pack-up Replenishment
ZS8	PWRS - Replenishment Requisitions for Stock Rotation
ZS9	DART Cargo/Weapons Elevators
ZTO	MH-53 Pack-up Replenishment Requirement for Support of Pacific Fleet MH-53 Unit
ZT1	AN/USQ-82 (V)
ZT2	MK 48 Torpedo (PRI 01). Use for material requirements to return a down torpedo to ready for issue status
ZT3	World Wide Technical Improvement Program (WWTIP)

Project Codes **Appendix 6**

Project Code	Project Title
ZT4	MK 48 Torpedo (PRI 04). Use for a quantity to preclude anticipated work stoppage that will occur until routine stock replenishment is effected
ZT5	T - 58 “Gold Plate” Engine Supply Support (Advice Code 2G - New material only)
ZT6	Low Speed Time Division Multiplex (LSTDM)
ZT7	Amphibious Engineered Operating Cycle Program (PEOC)
ZT8	COSBAL Allowance Requirements
ZT9	Reserve Naval Construction Forces Battalion (RNCFBN)
ZUO	Support of National Aeronautical and Space Administration (NASA)
ZU1	LHD-5 Program
ZU2	E-2C Aircraft Supply Support for U.S. Customs Service
ZU3	EP - 3 CILOP
ZU4	Outboard
ZU5	Navy Exchange Requisitions
ZU6	EA6B POD Requirements
ZU8	T - 28
ZV1	MASDC Stricken Aircraft
ZV2	WESTPAC Support for ASs and SSNs (ship by traceable means)
ZV3	Applicable to NARF Requisitions for Components Missing on Induction (MOI)
ZV4	Requisitions for AV8-B Aircraft
ZV5	V-22 Weapon System Training and Training Equipment
ZV6	High Pri SSN Requirements (ship by traceable means)
ZV7	In Support of Fiery Vigil
ZV8	AN/SQR-89 (V)-T () Interim Support
ZV9	Inflight Refueling System (ARS - Buddy Stores)
ZWO	AN-UYQ-25A Interim Support
ZW1	PAC NCF MMS, Chinhae, KOREA
ZW2	Taiwan Navy PFG-2 Program
ZW3	Restricted Availability’s (Voyage Repairs)
ZW4	ME-831-800 Gas Turbine Engine and Parts
ZW5	NAVICP PHIL Failure Free Warranty Contract Material

Appendix 6 **Project Codes**

Project Code	Project Title
ZW6	TA - 56 Assault Follow-up Echelon (AFE)
ZW7	MK75 Gun Overhaul (NOSL Planned Material Drawdown)
ZW9	AN/BPS-16(V) Radar
ZX0	Advanced Seal Delivery System
ZX3	AN/SPS-55 Radar
ZX4	Designated Initial Response Force (Material Requirements)
ZX5	Project 635
ZX6	AN/S PA-25G Radar Indicator
ZX7	AOE Interim Supply Support
ZX8	General Use Consumable List (GUCL) Special Program Requirements (SPRs)
ZX9	Servmart and Class 203/260 Initial Issues and Replenishment
ZY0	AFS VERT REP Support. Use in conjunction with B Signal Code to follow-up to supplementary address vice requisitioner.
ZY1	USS Princeton (CG-59), Industrial Repair Work
ZY5	Maritinized Vertical takeoff and land unmanned aerial vehicle system (MAVUS)
ZY6	AN/SPS-48C FC 18 Radar interim support
ZY7	MH-53E Cockpit control system/global positioning system integration
ZY9	Refueling of Ships After Overhaul
ZZ0	Requisition is for component in Condition Code G.
ZZl-ZZ9	Gypsy Dancer
Z01-Z09	Reserved for NAVSUP watch officer use
Z1A	Saturn Bm Marine (SK816) ISS
Z1B	AN/SQQ-T1A Sonar
Z1C	Saturn Mm Marine (SK816) ISS
Z1D	MK 24 Full Face Mask
Z1E	Challenge Athena III (66948) ISS
Z1F	Seawolf Program
Z1H	AN/URC-131 Program
Z1J	AN/SXQ(V) Program
Z1K	Passive Countermeasures System (PCMS)

Project Codes **Appendix 6**

Project Code	Project Title
Z1N	FISC/NADEP Industrial Forcasted Material Project
Z1P	USS Belleau Wood (LHA-3) Extended Drydocking Selected Restricted Availability (EDSRA)
Z1Q	Buss Interface Card (BIC)
Z2A	Navy excess defense articles, 50% of stock price
Z2C	USS Hurricane (PC 3)
Z2D	USS Monsoon (PC 4)
Z2E	USS Squall (PC 7)
Z2F	USS Zephyr (PC 8)
Z2G	Special Boat Unit 12
Z2H	Special Boat Unit 11
Z2J	Naval Special Warfare Unit 1 (Guam)
Z2K	SEAL Team 1
Z2L	SEAL Team 3
Z2M	SEAL Team 5
Z2N	Naval Special Warfare Group 1 (DET KODIAK)
Z2P	SEAL Delivery Vehicle Team 1
Z2Q	Naval Special Warfare Center
➔ Z2R	USS Tornado (PC 14)
Z2S	USS Tempest (PC 2)
Z2T	USS Typhoon (PC 5)
Z2U	USS Sirocco (PC 6)
Z2V	USS Chinook (PC 9)
Z2W	USS Firebolt (PC10)
Z2X	USS Whirlwind (PC 11)
Z2Y	USS Thunderbolt (PC12)
Z2Z	USS Shamal (PC 13)
Z22	Miscellaneous contractor CFM requirements (when NAVSUP form 1366 is not required)
Z23	Miscellaneous contractor CFM requirements (Must be accompanied by approved NAVSUP form 1366. Requisitions will be processed for issue from excess stocks only.)
Z24	Contractor CFM requirements to be cited on requisitions for storeroom spares for new ship outfitting

Project Code	Project Title
Z25	Contractor CFM requirements to be cited on requisitions for operating space spares for new ship outfitting
Z26	NOSL, MK 45 Gun Mount Overhaul Program
Z28	CV-3993/SYS-2(V)2 Interim Support
Z29	Surface Ship Torpedo Defense System LSEQ Interim Support
Z3A	Navy excess defense articles, 40% of stock price
Z3B	Navy excess defense articles, 30% of stock price
Z3C	Special Boat Unit 20
Z3D	NSW RHIBs assigned to Special Boat Unit 20
Z3E	Special Boat Unit 22
Z3F	Special Boat Unit 26
Z3G	Naval Special Warfare Unit 2
Z3H	Naval Special Warfare Unit 4
Z3J	SEAL Team 2
Z3K	SEAL Team 4
Z3L	SEAL Team 8
Z3M	SEAL Delivery Vehicle Team 2
Z3N	Naval Special Warfare Development Group
Z3P	Naval Special Warfare Unit 8
Z3Q	Naval Special Warfare Unit 10
Z3R	MK V Special Operation Craft
Z3S	Universal Protocol Translator (UPT)
Z3T	Improved Point Detection System (IPDS)
Z3U	Moored Training Ships at Nuclear Power Training Unit (NPTU) Charleston, SC
Z3V	NCBC Active Fleet (C3) Containerization - Pacific
Z3W	NCBC Active Fleet (E3) Containerization - Atlantic
Z3X	Radiological Work Facility
Z3Y	A/A-18 E/F OPEVAL and Associated Chase Aircraft
Z3Z	Norfolk Naval Shipyard Regional Maintenance
Z30	AN/SLR-24 Sensor Interim Support
Z31	AN/SLQ-25(A) Countermeasure System Interim Support

Project Codes **Appendix 6**

Project Code	Project Title
Z32	Patrol boat coastal (170ft) interim supply support
Z33	Combat Control System MK2 Mods 0,1 and 3 Interim Supply Support
Z34	Pre-Faulting Standard AN/SLQ-32(V) Training Module
Z35	Kuwait requisition processing
Z36	LANT NCF Project Material
Z37	Adversary Rotatable Pool
Z38	Piece/Part Items for MG/AH Source-Coded Squadron Requirements

474	(Reserved) USS John C. Stennis (CVN-74)
497	Mystic Star (Air Force assigned)

500/600 SERIES

➔ The 500 and 600 series (numeric, alpha-alpha and alpha-numeric) project codes are reserved for use by Navy Industrial Activities. This series is used to requisition material for ship availabilities including ship overhauls. 500/600 series are unique in that they tie an industrial requisition to a specific yard, hull, and type of material requirement. The first digit ("5" or "6") indicates the requirement is from an industrial customer. The second digit (alpha/numeric) identifies the hull and the specific time frame of the availability. The third digit (alpha/numeric) specifies the intended use or type of material. The Navy Industrial Activity assigns 500/600 project codes. NAVICP MECH Code 05633 monitors and maintains a listing of all assignments. Navy industrial activities should provide updates routinely to NAVICP and NAVSEA. Letter, message, and electronic mail updates should include: hull number, ships name, type of availability, overhaul start and end dates, and the project code assignment.

700 SERIES

NAVSUP has set aside the 700 series for high priority CASREP and Not Mission Capable Supply (NMCS)/ Partial Mission Capable Supply (PMCS) requisitions requiring special expediting and shipment via traceable means vice parcel post. This Change will select deletion of those 700 codes which the original requesting activity has agreed to conversion to a 400 series code or, in some cases, were deleted entirely because they were no longer required.

Project Code	Project Title
7A0 to 7A9	Afloat NWCF stock replenishment requisitions to replace inventory losses. The last position (CC 59) equals the last position of the ship's storage location. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
7B0 to 7B9	Afloat NWCF stock replenishment requisitions to replace damaged inventory. The last position (CC 59) equals the last position of the ship's storage location. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
7C0 to 7C9	Afloat NWCF stock replenishment requisitions to replace material damaged in shipment. The last position (CC 59) equals the last position of the ship's storage location. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.

Project Codes **Appendix 6**

Project Code	Project Title
7D0 to 7D9	Afloat NWCF stock replenishment requisitions to replace material lost in shipment. The last position (CC 59) equals the last position of the ship's storage location. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
7E0 to 7E9	Afloat NWCF stock replenishment requisitions to replace material canceled by the system. The last position (CC 59) equals the last position of the ship's storage location. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
7F0 to 7F9	Afloat customer funded stock requisitions for "Deficiencies to Requisitioning Objective", which will be processed thirty days prior to conversion to NWCF ownership. The last position (CC 59) equals the last position of the ship's storage location. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
7G0	C2/C3/C4 CASREP for USS Hurricane (PC 3)
7G1	C2/C3/C4 CASREP for USS Monsoon (PC 4)
7G2	C2/C3/C4 CASREP for USS Squall (PC 7)
7G3	C2/C3/C4 CASREP for USS Zephyr (PC 8)
7G4	C2/C3/C4 CASREP for Special Boat Unit 12
7G5	C2/C3/C4 CASREP for Special Boat Unit 11
7G6	C2/C3/C4 CASREP for Naval Special Warfare Unit 1 (Guam)
7G7	C2/C3/C4 CASREP for SEAL Team 1
7G8	C2/C3/C4 CASREP for SEAL Team 3
7G9	C2/C3/C4 CASREP for SEAL Team 5
7H0	C2/C3/C4 CASREP for Naval Special Warfare Group 1 (DET KODIAK)
7H1	C2/C3/C4 CASREP for SEAL Delivery Vehicle Team 1
7H2	C2/C3/C4 CASREP for Naval Special Warfare Center
➔ 7H3	C2/C3/C4 CASREP for USS Tornado (PC 14)
7H4	C2/C3/C4 CASREP for USS Tempest (PC 2)
7H5	C2/C3/C4 CASREP for USS Typhoon (PC 5)
7H6	C2/C3/C4 CASREP for USS Sirocco (PC 6)
7H7	C2/C3/C4 CASREP for USS Chinook (PC 9)
7H8	C2/C3/C4 CASREP for USS Firebolt (PC10)
7H9	C2/C3/C4 CASREP for USS Whirlwind (PC 11)

Appendix 6 **Project Codes**

Project Code	Project Title
7J0	C2/C3/C4 CASREP for USS Thunderbolt (PC12)
7J1	C2/C3/C4 CASREP for USS Shamal (PC 13)
7J2	C2/C3/C4 CASREP for Special Boat Unit 20
7J3	C2/C3/C4 CASREP for NSW RHIBs assigned to Special Boat Unit 20
7J4	C2/C3/C4 CASREP for Special Boat Unit 22
7J5	C2/C3/C4 CASREP for Special Boat Unit 26
7J6	C2/C3/C4 CASREP for Naval Special Warfare Unit 2
7J7	C2/C3/C4 CASREP for Naval Special Warfare Unit 4
7J8	C2/C3/C4 CASREP for SEAL Team 2
7J9	C2/C3/C4 CASREP for SEAL Team 4
7K0	C2/C3/C4 CASREP for SEAL Team 8
7K1	C2/C3/C4 CASREP for SEAL Delivery Vehicle Team 2
7K2	C2/C3/C4 CASREP for Naval Special Warfare Development Group
7K3	C2/C3/C4 CASREP for Naval Special Warfare Unit 8
7K4	C2/C3/C4 CASREP for Naval Special Warfare Unit 10
7K5	C2/C3/C4 CASREP for MK V Special Operation Craft
701	Navy Calibration Program
702	C2 CASREP Requisitions of Seventh Fleet Ships
703	New Construction Allowance Documents
705	Scheduled Repair/Overhaul Program

718	Weapons Tactics Trainer (WTT)
719	Phased Maintenance Strategy
721	Nuclear Outfitting Requisitions

Project Code	Project Title
722	Sensor Operator Part Task Trainer (SOPT)
723	Requisitioning of Commercial Vehicles Repair Parts (non-NSN)
725	Forward Site Maintenance Program (FSMP)
726	Lockheed Aeromod Center Inc., Usage for P-3A Conversions for U.S. Customs Service
729	C2 CASREP Requisitions of Third Fleet Ships
730	NMCS/PMCS Requirements for Aircraft in an “out” Material Condition Reporting Status
732	Submarine Extended Operating Cycle (SEOC)
733	Non-Aviation ANMCS requisitions of Atlantic Fleet ships, Except FBM Submarines
734	Support of Allison 501K Gas Turbine Engines
737	P3C Software Development Facility (SDF)
739	Fleet Ships
740	C2 CASREP Requisitions of Second Fleet Ships
741	Avionics Maintenance Trainer (AMT)
742	Submarine Extended Operating Cycle (SEOC) Mod Program for Norfolk Naval Shipyard
743	Non-Aviation ANMCS Requisitions of Pacific Fleet Ships, except FBM Submarines
744	AN/WSN-2/5 Inertial Navigation Systems
745	C2 CASREP for Middle East Force Ships
746	GE/GESD (AEGIS Depot Operations)
747	C3/C4 CASREP Requisitions of Third Fleet Ships
748	SSP FBM/SWS Work Stoppage
751	Ships, except sixth fleet
754	Equipment which will undergo Engineering Investigations because of malfunctions or accidents/incidents
755	Requirements for Replenishment of the LAMPS Mark III Pack-Up Kit (PUK) and work stoppage of deployed detachments
756	BOBCAT - Priority Group I - NMCS (COMNAVAIRLANT designated Activities)
757	BOBCAT - Priority Group I - PMCS (COMNAVAIRLANT designated Activities)
760	C3/4 CASREP for Inshore Undersea Warfare
762	C2/C3 CASREP for Middle East Force Ships
763	AFCS Maintenance Trainer
764	Maritime Pre-positioned Ship Program

Project Code	Project Title
765	C3/C4 CASREP Requisitions of Sixth Fleet Ships (GREENSTRIPE)
766	DDS Material
767	SEAL Delivery Vehicle (Sea/Air/Land Teams)
768	Norway Pre-positioned SE NMCS Requirement
77A	NWCF stock replenishment requisitions to replace inventory losses. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
77B	NWCF stock replenishment requisitions to replace damaged inventory. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
77C	NWCF stock replenishment requisitions to replace material damaged in shipment. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
77D	NWCF stock replenishment requisitions to replace material lost in shipment. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
77E	NWCF stock replenishment requisitions to replace material canceled by the system. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
77F	Customer funded stock requisitions for deficiencies to requisitioning objective, which will be processed thirty days prior to conversion to NWCF ownership. Not to be used until conversion of AVCAL/SHORCAL inventories from end use to NWCF ownership at the respective site.
770	Stock Replenishment and Redistribution Orders
773	Landing Gear/Wheel Brake, Flotation System Part Task Maintenance Trainer
774	Pre-expended Bin Stocks
775	RAST/Tail Wheel/Hoist System Part Task Maintenance Trainer
776	AN/FYK-16A(V), AN/FYK-24(V) and AN/FSQ-111 Support Program
777	Assigned, publication not desired.
778	Replenishment of PWRM Deficiencies
779	MSO/MSB Maintenance Support
780	Main Blade and BIM Servicing Part Task Maintenance Trainer
781	Starboard Engine Installation Part Task Maintenance Trainer
782	Site CCTV

Project Code	Project Title
783	Hydraulic/Pneumatic Systems Part Task Maintenance Trainer
784	MACHALT Program
785	Naval Hospital, Portsmouth
788	Destroyer Engineering Operating Cycle (DEOC) Class Maintenance Plan Planned Maintenance Material Requirements
789	Nuclear Propulsion Equipment Refurbishment
790	Electrical Systems Maintenance Trainer
792	C2 CASREP Requisitions of Sixth Fleet Ships
796	TA-7 Fleet Electronics Warfare Support Group (VAQ-34) Aircraft
797	Near Term Pre-positioning Ships (NTPS) Navy
799	Establishment of Pool Stocks

800 SERIES

➔ The 800 series project codes are assigned by the Naval Ammunition Logistics Center (NALC), Mechanicsburg PA. They are used to requisition or turn-in Navy or Marine Corps expendable ordnance. Inquiries or requests for assignment of 800 series project codes should be addressed to NALC, Attn: Code 70 Dave Gajewski, Ext 5379, 5450 Carlisle Pike, Mechanicsburg PA 17055, DSN 430-6967.

821	ANMCS Requisition of Expendable Ordnance (CADS/PADS, etc.) without which aircraft becomes not operationally ready
823	Close in Weapon System - PHALANX
824	Ordnance requisitioned for NAVEDTRACOM Technical Training courses that produce an NOBC/NEC
825	Load Plan Requisitions for Ammunition - Ammunition requisitioned that is either excess to or below an activity's established Load Plan high/low limits
827	Expendable Ordnance Turn-in or Redistribution for specific withdrawal programs due to obsolescence or modification of weapons systems
828	Persian Gulf Ammunition Roll Back
830	On-load for Deployment or Exercise - Marine Corps Class VW Ground Ammunition Requisitioned as LFORM Cargo for Loading Aboard Amphibious Ships for Deployment or Fleet Exercises
831	Off-load (Post-Deployment or Exercise) Marine Corps Class VW Ground Ammunition Off-loaded (Turn-in) as LFORM Cargo from Amphibious Ships Upon Return from Deployment or Fleet Exercises

Appendix 6 **Project Codes**

Project Code	Project Title
832	Allowance Change Off-load (Turn-in) and Subsequent On-load (Requisition) of Marine Corps Class VW Ground Ammunition which is Off-loaded and Subsequently Reloaded after being Repackaged Due to changes to Allowances
833	Ship Overhaul Off-load (Turn-in) and Subsequent On-load (Requisition) of Marine Corps Class VW Ground Ammunition Carried Aboard Amphibious Ships as LFORM when such Ammunition is Off-loaded and On-loaded Due to Ship Entering Overhaul.
834	Ship Restricted Availability Off-load (Turn-in) and Subsequent On-load (Requisition) of Marine Corps Class VW Ground Ammunition Carried Aboard Amphibious Ships as LFORM when such Ammunition is Off-loaded and On-loaded Due to Ship Entering Restricted Availability
835	Ammunition Requisitioned for Replacement of Service Ammunition that was Used During Annual or Fleet Exercise Training
836	S3A Life Cycle Support Facility for Software (LCSFS)
837	Load Adjust (Ship fill) - On-load/Off-load of Ship fill Ordnance to/from Combatants or MLSF to Facilitate Off-load/On-load of Training Ordnance
838	Ammunition Requisitioned in Support of Mission Load Allowance for Ship Deployment
839	RDT&E. Expendable Ordnance Required in Support of RDT&E Programs
840	Ammunition Requisitioned in Support of Cargo Load Allowance for Ship Deployment
841	Naval Special Warfare Units ordnance material
846	PAC NCF-MMS MIDWAY
➔ 853	Stockpoint requisitions for ammunition to support Load Plan, other allowances and repair (not for Fleet use).
855	Mobilization Exercise Transactions. Identifies transactions that are to be processed to an exercise data base only during mobilization exercise
860	Service Captor Material
861	Non-service Captor material
863	MRL (Master Repair List). Automatic shipments of expendable ordnance in accordance with inventory manager instructions
866	Security Assistance Requirements for Non-Nuclear Expendable Ordnance
867	Ammunition requisitioned for AE contingency cargo load maintained ashore in accordance with Fleet instructions
868	Expendable ordnance requisitions as a result of malfunction investigations
869	Requisition or Turn-in of PWRS Service Mine Material
872	Project SAMI

Project Codes **Appendix 6**

Project Code	Project Title
873	AV-8A/B/C Aircraft Material Support
874	Requisition or Turn-in of Drill Mine Material
➔ 875	Redistribution Orders (non-load plan). Stockpile Manager, CTF63, COMLOGWESTPAC, or Fleet directed redistribution or referral of expendable ordnance (Cogs 0T, 2D, 2E, 2T, 4E, 4T, 6T, 8E, 8S, 8T, and 8U)
876	Ammunition requisitioned for or turned-in following annual training or fleet exercise
877	Shipfill, Ammunition requisitioned to support ship's own armament.
878	Ammunition requisitioned and/or turned-in for change due to NARs, overage components, obsolescence, etc.
879	Emergency Download of Ammunition due to Ship CASREP and Subsequent Onload Following Restoration of CASREP
880	WQEC Sampling. Requisitions for expendable ordnance items and components for testing under quality evaluation surveillance programs 883 Ammunition requisitioned for or by EXCONUS storage sites. Also includes turn-ins for rollback to CONUS storage sites. (Note: Rollback is defined as the return from EXCONUS to CONUS of all types of expendable ordnance including ammunition details; e.g., pallets, adapters, tanks, etc.)
884	Adjustments to mission or cargo loads of CVs, or MLSF ships due to change of allowance
885	Adjustments to mission or cargo loads (reqns and turn-ins) to permit UNREP or backload operations
886	Relocation of expendable ordnance from coastal to inland activities due to lack of storage space
887	Segregation of expendable ordnance which is being transferred to a disposal account
888	Deactivation. Download (turn-in) of cargo ammunition (MLSF ships) prior to proceeding to homeport berthing at nonexplosive piers
889	Downloading for Homeporting, Download (turn-in) of cargo ammunition (MLSF ships) prior to proceeding to homeport berthing at nonexplosive piers
890	Initial onload of ammunition for newly constructed or activated ships
891	Download (turn-in) of ammunition prior to entering yard for overhaul and onload (reqn.) of such ammunition upon leaving overhaul yard
892	Ammunition off-load (turn-in) required by entering a restricted availability period and the subsequent onload (reqn.) of ammunition upon completion of restricted availability.
894	Mystic Star Network
897	CV Post-Deployment Download. The off-load (turn-in) of CV mission load ammunition when off-loaded at a pier or anchorage

Project Code	Project Title
898	CV Post-Deployment Download Via AE - The off-load (turn-in) of CV mission load ammunition when backloaded to MLSF ships

Part C: INTER-SERVICE/AGENCY PROJECT CODES (CATEGORY C)

	Project Code	Service Code	Project Title/Description
	JZC	All	For services to designate part-numbered or decentralized requisitions (nonstocked) in support of Commercial Construction Equipment (CCE).
	JZM	All except B,D,K,P,T	For services to designate part-numbered or decentralized (nonstocked) NSN requisitions in support of Material Handling Equipment (MHE).
	JZO	All except B,D,K,P,T	For services to designate part-numbered or decentralized (nonstocked) NSN requisitions in support of commercially designed wheeled vehicles.
↓	RBB	All	To identify Service-Owned consumable assets offered to the inventory control point/integrate material manager for the purpose of offsetting wholesale procurement through the use of Customer Asset Report (DI FTE).
↑	3AA	All except B,D,K,P,T	Requisitions submitted to obtain issues to satisfy PWRMS deficiencies. Project code may be entered in either funded or unfunded requisitions.
➔	3AB	All except B,D,K,P,T	Material shipments to a designated repair activity for repair and return to an end user as directed under a Depot Maintenance Interservice Support Agreement.
	3AC	All except B,D,K,P,T	Material returns to the Primary Inventory Control Activity under Nonconsumable Item Material Support Codes 5 or 6.
➔	3AD	All	Material requisitioned for depot repair (overhaul and Maintenance) of Depot Maintenance Inter-Service Support Agreement (DMISA) items.
	3AE	All	Used in DI Code U_ series transactions to identify exercise logistics traffic. Authorization and intended use will be announced by exercise plans (Note: Coordinate period of use with the director, Defense Logistics Management Standards Office to avoid simultaneous use in multiple exercises).
	3AF	All	Identifies a requisition for a repairable item for which the existing carcass will not be returned until the replacement item is received.
	3AG	All	Transactions for procurement offset of repairables.
	3AH	All except B,D,K,P,T	All transactions related to cross leveling of ammunition between the military services, Special Operations Command and the Coast Guard.
	3AI	All	Used to evaluate the use of commercial packaging from the General Electric Company Aircraft Engines Evendale and Lynn Plants, and GE Engineering Services Strother, Ontario, and Cincinnati Plants through the military distribution environment.
	3AJ	All	Used to evaluate the use of commercial packaging from the Allied Signal Engines Company Phoenix Plant, and Allied Signal Aerospace Equipment Systems Tempe and Tucson Plant through the military distribution environment.

Project Codes **Appendix 6**

	Project Code	Service Code	Project Title/Description
➔	3AK	All	Identifies and Ensures requisitions for Equipment Requirement Codes A and P items are processed and shipped to the 21st Cargo Transfer Company for discharge, load, and transshipment.
	3AL	All	Automatic return of unserviceable (supply condition code E or F) Nonconsumable Item Material Support Code 5 item for which a replacement will be requisitioned. Must appear on return documentation (DI FTA) and shipping documentation.
	3AR	All	Armed Forces Radio and Television Service (AFRTS) tri-service requirements, to facilitate logistics support to worldwide AFRTS outlets.
	3AT	N, R, V	NAVY TACAMO requirements. Services/agencies are requested to recognize TACAMO as a Strategic Program with a FAD I assignment.
	3AU	All	To Identify Defense Reutilization and Marketing Offices offered assets for the purpose of offsetting wholesale procurements through the use of the Customer Asset Report (DI FTE). There will be no reimbursement to the Defense Reutilization and Marketing Service for material or shipping costs under this process.
➔	3AV	All except B,D,K,P,T	Used to track Customer Wait Time (CWT) and Time Definite Delivery (TDD) goals for those units participating in Exercise Bright Star 01/ 02.
➔	3BB	All	Material shipments to a repair activity as directed under existing agreements including DMISA. (Not applicable to repair and return. See Project Code 3AB.)
	3DS	All	Requisitions and related documents pertaining to the DoD Dependent Schools (DoDDS). Project Code 3DS is to be included in all requisitions placed by host activity base supply facilities for support of DoDDS and is to be perpetuated in all subsequent documents and labels.
	3FC	All	Security Assistance and related documents for sale of potential excess consumable defense articles to FMS customers.
	3FR	All	Security Assistance requisitions and related documents for sale of potential excess repairable defense articles to FMS customers.
➔	3JB	All	Support to the UN mission in Sierra Leone (UNAMSIL) provided under the United Nations Participation Act.
	3JC	All	DOD Electro-Mechanical Lock Retrofit (EMLR) Program.
➔	3JD	All	Drawdown Authority for Counter-Narcotics Operation in Colombia, Peru, Ecuador, and Panama.
	3JF	All	FY95 Base Realignment and Closure Commission (BRAC) actions
➔	3JG	All	Drawdown Authority for Tunisia.
	3JH	All	Drawdown Authority for Jordan.

Appendix 6 **Project Codes**

	Project Code	Service Code	Project Title/Description
	3JI	All	Drawdown Authority for Bosnian Federation Equipment And Training Program.
➔	3JJ	All	Drawdown Authority for the Iraqi Liberation Act (ILA).
➔	3JK	All	Drawdown Authority for Ethiopia, Eritrea, and Uganda.
➔	3JL	All	Emergency Military Assistance to UNAMSIL, Countries participating in UNAMSIL & other countries involved in peacekeeping efforts or Affiliated Coalition Operations with respect to Sierra Leone. (initial equipping (not training).)
➔	3JM	All	Emergency Military Assistance to UNAMSIL, Countries involved in peacekeeping efforts or Affiliated Coalition Operations with respect to Sierra Leone, including the government of Sierra Leone.
	3JT	All	Drawdown Authority for Jordan.
➔	3JU	All	Defense Articles, Services, and Training to the Jordanian Armed Forces (JAF).
	3JV	All	Drawdown Authority for Tunisia.
	3JZ	All	Drawdown to support the United Nations interim administration in Kosovo (UNMIK) Kosovo Protection Corps (KPC).
	3LN	All	United Nations Interim Forces in Lebanon (UNIFIL).
	3LP	All	United Nations Disengagement Observer Forces (UNDOF).
	3LQ	All	United Nations Truce Supervision Organization in Palestine (UNTSO).
	3LU	All	United Nations Peacekeeping Forces.
➔	3MA	All	Critical resupply items for the country of Israel
	3ML	All	Requisitions and documentation in support of the Multinational Peacekeeping Force in Lebanon.
	3PR	All	Replenishment PWRMS requisitions. It is also used to identify excess PWRMS transactions.
	3QQ	All	Item is excess to requirements as a result of a pending installation closure. Item has been identified on the preliminary list of “related personal property” to be transferred to the local community at the time of installation closure under the provisions of DOD 5410.12. Do not direct return to stock unless the item is required to meet Approved Force Acquisition Objective and/or approved Prepositioned War Reserve Requirements.
	3RD	All	MILSTRIP documentation related to the Rapid Deployment Force (RDF). This code will facilitate the monitoring of all supply and transportation actions related to the RDF in contingencies and similar rapid response situations.

Project Code	Service Code	Project Title/Description
3RE	All	MILSTRIP documentation related to deployed Rapid Deployment Force (RDF) units. This code will aid the monitoring of all supply and transportation actions related to deployed RDF units in rapid response situations.
3RF	All	MILSTRIP documentation related to Initial Preplanned Supply Support (IPSS) in support of deployed RDF units. This code will aid the monitoring of all supply and transportation actions related to deployed RDF units in rapid response situations.
➔ 3RG	All	MILSTRIP documentation related to Initial Preplanned Supply Support (IPSS) for the RDF. This code identifies a requisition that is to be processed for surface transportation by the CCP.

Part D: OSD/JCS PROJECT CODES (CATEGORY D)

Project Code	Project Title
➔ 9BU	Operation Southern Watch
➔ 9BY	Operation Northern Watch
➔ 9CR	Operation Deliberate Forge
➔ 9CU	Operation Able Sentry
9DC	US Army Contingency Logistical Support Group, Ft Bragg NC
➔ 9EP	Cuban Exile Flotilla Operations
➔ 9FF	Operation Joint Forge
9FO	Operation Alaskan Road
➔ 9FV	Operation Joint Guardian
➔ 9FW	Operation Desert Spring
➔ 9FX	TACAMO Regeneration Assurance Team (TRAT)
➔ 9GB	U.S. Training to Nigerian Battalions ISO UNAMSIL

THIS PAGE LEFT BLANK INTENTIONALLY

APPENDIX 7

ROUTING IDENTIFIER CODES

Part A: INTRODUCTION

1. GENERAL. The Routing Identifier Code (RIC) is a three digit alpha numeric code found in card columns (cc) 4-6 and/or 67-69. RICs identify the activity originating the supply document, the recipient of the supply document, and/or the shipper. The RIC on any one document will not necessarily be contained on follow-on documentation. This appendix contains a complete list of assigned Navy RICs and the RICs of major activities of other services/agencies. A complete list of all RICs is published as Supplement l to DOD 4140.17-M, which is available through the DAASC home page at web address "www.daas.dla.mil".

2. ASSIGNMENT. To qualify for assignment of a RIC, an activity must be an integral and pre-determined organization of an established logistical system and must perform a general logistical, control, distribution and/or storage mission. Requests for assignment of Navy RICs should be directed via the Type Commander to NAVICP Mechanicsburg, PA Code 0411 (Attn Ross Burton), PO Box 2020, Mechanicsburg, PA. Requests for Routing Identifier Code assignment must contain the activities DoDAAC (Service Code plus Unit Identification Code), a complete address, and a point of contact with phone number. The DoDAAC must be previously registered in the Department of Defense Activity Address File at the Defense Finance and Accounting Service Cleveland Center (DFAS CC). Government Agencies and Navy Units apply for new DoDAACs or changes to their present DoDAACs by sending a written request (with claimant signature authority) to Naval Supply Systems Command, Code 132F, 5450 Carlisle Pike, PO Box 2050, Mechanicsburg, PA 17055-0791. Commercial activities submit DoDAAC requests directly to DFAS CC Cleveland, Code AABB, Cleveland Center, 1240 E 9th St, Cleveland, OH 44199-2055. A copy of all requests will be sent to NAVICP Mechanicsburg Code 0411. Telephone number for NAVICP Mechanicsburg is DSN 430-7016 and DFAS Cleveland is DSN 580-5908.

3. FIRST POSITION (cc 4 and 67). The system does not recognize any codes containing numerics in the first position. Numeric codes within MILSTRIP are reserved and are not to be used or considered as RICs. All authorized RICs will contain in the first position, one of the alphabetic characters, depicting service assignment, as follows:

A, B, C, and W	Department of the Army
D, E, and F	Department of the Air Force
N, P, Q, and R	Department of the Navy
M	Marine Corps
G and V	General Service Administration and other Civil Agencies
S and T	Single Manager Operating Agencies
H	Other Department of Defense Activities
Z	U. S. Coast Guard

4. SECOND AND THIRD POSITIONS (cc 5-6 and 68-69)

a. When the second position is alphabetic, the first and second positions together identify the service and the facility. In these instances, the third position may either identify a specific internal address or storage component within such facility or may be insignificant.

b. When the second position is numeric, the second and third positions identify the physical facility of the service depicted by the first position. Assignment in this manner does not provide for internal addresses or specific functions within such facilities.

c. When the first position is an S, (single manager inventory control), the second position will always be a 9, and the third position will be an appropriate, pre-assigned alphabetic code, as shown in subparagraph d, identifying the appropriate inventory manager. This type of structure is reserved for single manager inventory control points (ICPs) and remains applicable even though such ICPs are physically located at service-owned facilities other than those identified by the first two positions of established RICs. The rules expressed in subparagraph d also apply for these types of codes.

d. The following codes are used in the third position and reserved for Defense Logistics Agency (DLA) and General Service Agency (GSA) use only, and they will never be duplicated by the military services or others. These codes identify any organizational segment within a facility which has been assigned responsibility for distribution of DLA or GSA items. The military services are permitted to assign codes in the third position provided they are not already assigned in this appendix.

Defense Logistics Agency Assignments	Single Manager	Assigned Code
Electrical-Electronic	DSCC	E
Clothing and Textiles	DSCP	T
Subsistence	DSCP	S
Medical	DSCP	M
Construction	DSCC	C
General Supplies	DSCR	G
Industrial Supplies	DISC	I
General Services Administration (store items)	GSA	0
Logistics Services	DLIS	L
Automatic Addressing System	DLA	A
Industrial Plant Equipment	DIPEC	R

5. STOCK NUMBER MIGRATION. Prior to management decisions to migrate items (stock numbers) from one source of supply (physical location) to another, or to make internal changes that require substitution of one routing identifier code for another, the impact upon requisitioners will be evaluated. The density of requisitions throughout the DOD and the workload imposed by such changes may preclude the majority of such decisions.

Part B: DEPARTMENT OF THE ARMY "A" AND "B" SERIES

RIC	DoDAAD	Activity and Location
AKZ	W56HZW	Army Tank Automotive Command, Warren, MI 48397-5000

N	Cooperative Logistics Program Support Codes	A8-24
O	Pseudo Closure Reason Codes	A8-25

THIS PAGE LEFT BLANK INTENTIONALLY

MILSTRIP CODES

Part A: STOCK OR PART NUMBERS

1. STOCK NUMBERS. When a 13-digit National Stock Number, Non-National Stock Number assigned to Overseas Dependent School System items, or NATO Stock Number is applicable:

a. The Federal Supply Class (FSC)/NATO FSC or first four digits will be entered in cc 8-11.

b. The National Item Identification Number (NIIN) will be entered in cc 12-20 or, for NATO Stock Numbers, the two-digit NATO Country Code will be entered in cc 12-13 and the seven-digit NATO Item Identification Number (NIIN) will be entered in cc 14-20.

c. For designated items enter the two digit Special Material Identification Code (SMIC) in cc 21-22. SMIC codes promulgated by Inventory Managers (i.e., in FEDLOG and Change Notice Cards) will be included in stock point records and will be reflected in transaction reports. SMIC codes appearing on requisitions will be perpetuated on referrals to the ICP. However, stock points are not required to insert SMIC codes into the referral action if the requisition was received without a SMIC code. SMIC codes are not to be used to indicate issue restrictions.

d. Cognizance symbols, stratification codes, fraction codes, condition codes, etc. are never to be entered in cc 8-20.

e. When codes in addition to the National Stock Number are required to properly identify the item being requisitioned and these codes are recognizable to the initial processing inventory manager or depot, the codes will be entered in cc 21-22. If entry is only one digit, the digit will be entered in cc 21.

2. MANUFACTURERS PART NUMBER. When a Manufacturer's Part Number is applicable:

a. The Commercial And Government Entity (CAGE) code will be entered in CC 8-12. If the CAGE is not available, entry will be in-the-clear and entered in the Remarks section.

b. The Manufacturer's Part Number, if 10 digits or less, will be entered in cc 13-22 progressing form left to right, with unused spaces, if any, left blank. The construction of part numbers will conform to the requirements of Federal Manual for Supply Cataloging MI-6.

c. When manufacturer's Part Number exceeds 10 digits, the material will be requisitioned on DD Form 1348-6.

d. When requisitioning across service lines (i.e., Inter-service, DLA, GSA), the 5 digit CAGE Code will always be entered in cc 8-12. When the requisitioner cannot determine the appropriate CAGE code, the manufacturer's name will be provided using DD Form 1348-6.

e. If a stock number or Manufacturer's Part Number is not known but a description or publication reference is available to adequately identify the item, and such reference is meaningful to the processing point, DD Form 1348-6 will be used.

3. OTHER THAN STOCK NUMBER OR PART NUMBER. When other than an NSN, Part Number, or NATO Stock Number is applicable (i.e., a Production Equipment Code (PEC), DOD Ammunition Code, Navy Ammunition Logistic Code (NALC), locally assigned number or Cog I ordering number), the following will apply:

a. If 15-digits or less, it will commence in cc 8 and progress to the right, with unused spaces left blank.

b. If 16-digits or more, the DD Form 1348-6 will be used and the entire number will be entered in Block 1.

4. DOCUMENT IDENTIFIER CODE. Column 3 of the Document Identifier Code (see Appendix 4) is significant to the type of number entered in cc 8-22. The cc 3 entries are affected as follows:

a. Any requisition containing a National Stock Number, irrespective of additional codes in cc 21-22, must have a "1" (for overseas shipment) or an "A" (for domestic shipment) entered unless additional data is contained in the "Remarks" space.

b. Any requisition containing a Part Number must contain a "2" or "B" unless additional data is entered in the "Remarks" space.

c. Any requisition containing a NATO Stock Number must contain a "3" or "C" unless additional data are entered in the "Remarks" space.

d. Any requisition containing a Production Equipment Code (PEC), DOD Ammunition Code, Subsistence Brand Name Resale Identification Number, Cog I ordering number or locally assigned number, etc. must contain a "4" or "D" unless additional data is entered in the "Remarks" space.

e. Whenever additional data is entered in the "Remarks" space, regardless of the content of any positions of the requisition (including cc 8-22), this position must contain a "5" or "E".

5. SUBSISTENCE. Requisitions for perishable and nonperishable subsistence will contain the applicable subsistence Type of Pack Code in cc 21. Brand Name Resale Subsistence items are identified by special Item Identification Numbers assigned by DSCP and configured to conform with the NSN as follows:

a. cc 8-11 will contain the Federal Supply Classification;

b. cc 12-13 will contain the National Codification Bureau Code (NCB) 00 or 01.

c. cc 14 will contain an alpha character to distinguish Brand Name Resale Item Numbers from National Stock Numbers. The letter "A" identifies items in the 10-500 series of DLA Supply Bulletins for Brand Name Resale Items. The letter "B" identifies items in the 10-600 bulletins. The letter "S" and "J" are assigned to certain Brand Name items not appearing in the 500 and 600 bulletins. The latter are announced by DSCP in monthly Master Item Lists.

d. cc 15-17 will contain the Supply Bulletin Number which identifies the Brand Name supplier. Example: SB 10-500-161, the numerics "161" identify the specific supplier by name for Brand Resale items listed in that bulletin.

e. cc 18-20 will contain the numerical sequence of items listed in the specific bulletin (0 through 999), i.e., line item number in the bulletin.

Part B: SUBSISTENCE TYPE OF PACK CODES

1. GENERAL. The Subsistence Type of Pack Code is a one character numeric code which is entered in card column (cc) 21. This code indicates in the requisition the degree of protection to be provided subsistence items by the packing or outside shipping container. Actual "type of pack" requested should be based on the degree of protection required.

Code	Explanation

Section I: NONPERISHABLE TYPE OF PACK CODES

1	Protection required under known favorable conditions during shipment, handling, and storage as in CONUS. Domestic fiberboard shipping containers are used and unitized in pallet loads bonded with strapping or shrink film.
2	Protection required under more severe conditions during shipment, handling, and storage as may be encountered in the support of overseas customers. Weather resistant fiberboard shipping containers are used. All overseas shipments do not necessarily require type of pack 2. This type of pack may also be used when code 7 below is requested, but not available. This type of pack is used primarily for items used for resupply of Naval vessels at sea and components of the B Ration, stored in CONUS against mobilization requirements intended for ultimate resupply of PWRS stored overseas.
4	Protection required under conditions of open storage for an unknown duration in geographical areas where excessive rainfall, high humidity, and adverse environmental conditions may be encountered, such as at sea. V2s fiberboard shipping containers are used. Unitization consists of 40" x 48" standard, double wing, 4-way entry, wood pallet, with 4" flanged, V2s fiberboard cap, and strapped.

Section II: PERISHABLE SUBSISTENCE TYPE OF PACK CODES

1	For general items. Protection which must meet the minimum requirements for shipment, handling, and storage in CONUS.
2	For general items. Protection required under more severe conditions during shipment, handling, and storage as may be encountered in the support of overseas customers. All overseas shipments do not necessarily require type of pack 2.
3	Meat carcass and cut items only. Single wrap, Kraft krinkle paper.
4	Meat carcass and cut items only. Single wrap, stockinette.

Code	Explanation
5	Meat carcass and cut items only. Double wrap, Kraft krinkle paper and stockinette.
6	Meat carcass and cut items only. Double wrap, 1 Kraft krinkle paper and 2 stockinette (export only).
7	Fresh eggs, milk, fruits, and vegetables; frozen meats, fish, and poultry. Wax impregnated fiberboard containers. The conditions which justify customer requirement for this type of pack are defined as follows: (1) Items are destined for specific operations involving shipment to remote areas, transfer at sea, ice or hydro cooling, prolonged storage, deploying ships, lengthy environmental exposure, or multiple handling transshipment, or; (2) At the option of the requisitioner when local demand and experience indicates upgrading of shipping container requirements as being essential to assure adequate product protection, and the items (e.g., fresh fruits or vegetables) have been approved by the cognizant service/agency for application and requisitioning of this type of pack.

Part C: DOCUMENT NUMBERS

1. GENERAL. The Document Number is a nonduplicative number throughout the system and is constructed of four basic elements as follows:

a. Service Designator Code (cc 30)

b. Requisitioner (cc 31-35)

c. Julian Date (cc 36-39)

d. Serial Number (cc 40-43)

2. SERVICE DESIGNATOR CODE(cc 30). Part G of this Appendix contains a complete listing of service designator codes. The following are the codes used by the Navy:

N - Ashore activities but may be used by fleet operating units when specifically authorized.

R - Pacific Fleet Operating Units.

V - Atlantic Fleet Operating Units.

3. REQUISITIONER (cc 31-35). The entry in cc 31-35 is the Unit Identification Code (UIC) of the requisitioning activity. Navy UICs are published in the Navy Comptroller Manual, Volume 2, Chapter 5. Within the MILSTRIP system, each service/agency maintains their own assignment of codes which is published in the DOD Activity Address Directory (DoDAAD).

4. JULIAN DATE (cc 36-37). Entries in cc 36-37 will always be numerics. The entry in cc 36 will indicate the last numeric digit of the calendar year in which the document was originated (i.e. "7" for 1997). The entry in cc 37-39 will indicate the numeric consecutive day of the calendar year (i.e. "365" for 31 December). Julian dates are indicated on all government issue calendars.

5. SERIAL NUMBER (cc 40-43). Serial numbers, assigned at the discretion of the document originator, are entered in cc 40-43. The serial number will not be duplicated on the same day. Card column 40 may consist of numeric characters or alpha characters as specified below. Card columns 41-43 may consist of alpha or numeric character on inter or intra-service/agency requisitions with the exception of alphas "I" and "O" on inter-service/agency transactions. The entries in cc 41-43 will not be meaningful to the receiving service/agency but will be perpetuated on documentation initiated as a result of requisition processing.

Code	Explanation
A-F	Nonsignificant to supply service and assigned at the discretion of the stock point or ship for local control.
G	To identify aviation NMCS and PMCS requisitions.
H	Marine Corps Aviation peculiar PWR (Cloud/Storm) requirements or to identify requisitions for HAZCON items in the Defense Satellite Communications system (used with Project Code LGP).
I	Not to be used.
J	Nonsignificant to supply service and assigned at the discretion of the stock point or ship for local control.
K	To identify requisitions submitted to DRMS, DRMO or GSA for excess property located at a DRMO that is requested as a result of reviewing manual screening lists, e.g., Excess Personal Property Lists (EPPL) and GSA Regional Catalog listings.
L	To identify requisitions submitted to DRMOs which result from physical screening of property at the DRMO. This type of screening is referred to as "Local Area, Screening" without any consideration of the distance traveled by the screener.
M	Reserved.
N	To identify requisitions and related transactions/documents for material provided through the reclamation process.
O	Not to be used.
P	To identify requisitions for excess contractor inventory that has been reported on DD 540 series of forms or referred by the Contractor Inventory Redistribution System (CIRS) either mechanically or by listing.

Code	Explanation
Q	To identify requisitions and related transactions/documents for items reclaimed from aircraft and equipment from the Aerospace Maintenance and Regeneration Center (AMARC).
R	To identify requisitions submitted to DRMS/DRMOs from ICPs or IMMs based on a Final Asset Screening notice of surplus personal property.
S	To identify requisitions submitted to DRMS/DRMOs from ICPs or IMMs based on a Front End Screening notice of excess personal property.
T	To identify requisitions submitted to DRMS/DRMOs from ICPs/IMMs based on a management decision for recoupment of known transfers to disposal.
U	To identify Quality Deficiency Report (QDR) related transactions when the original requisition is not known.
W	To identify CASREPT requisitions.
Y	To identify requisitions resulting from interrogation of the Interrogation Requirements Information System (see DOD 4160.21-M).

Part D: FMS AND MAP GRANT AID TYPE OF ASSISTANCE/FINANCING CODES

1. GENERAL. The Foreign Military Sales (FMS) and Military Assistance Program (MAP) Grant Aid Type of Assistance and Financing Code is a 1 digit alphanumeric code which is contained in card column (cc) 35. This code provides additional information concerning the type of transaction applicable to FMS and MAP Grant Aid Shipments.

2. FOREIGN MILITARY SALES (FMS). Terms of Sale and accompanying Type of Assistance Codes indicate the statutory authority for a foreign Military Sale; the time of payment for the sale; whether the sale is to be from DOD stocks or procurement; and whether the sale is to be financed on a cash or credit basis. The implementing agency enters the appropriate Terms of Sale and accompanying Type of Assistance Codes in the "Terms" block of the Letter of Offer. The implementing agency uses Type of Assistance Codes for MILSTRIP requisitioning purposes. The codes/definitions contained in Section III below have been extracted from DOD 5105.38-M, Military Assistance and Sales Manual (MASM), for the convenience of MILSTRIP participants. A more complete definition of these codes may be fond in the MASM.

Section I: MILITARY ASSISTANCE PROGRAM (MAP) GRANT AID

Code	Explanation
A	Grant transfers of excess defense articles provided under the authority of the Foreign Assistance Act (FAA) of 1961 for which the United States receives no reimbursement for the value of the material.

Code	Explanation
C	Presidential determination to order defense articles from stock and performance of defense services to satisfy Grant Aid requirements with reimbursement from subsequent military assistance appropriations (Section 506 FAA of 1961).
D	Military Assistance Service funded. Grant Aid programs transferred to the DOD budget, which were not controlled and implemented through the MAP documentation and ADP system.
H	Grant Aid share of cost sharing agreements.
K	Grant Aid of MAP owned assets obtained through barter arrangements with Federal Republic of Germany (used in conjunction with Source of Supply Code "B" only).
L	Grant Aid provided through the NATO Hawk Production and Logistics Organization (NHPLO) for maintenance support of Hawk Missile system (use in conjunction with Source of Supply Code "N" only).
P	Grant Aid programs transferred to the DOD budget which were controlled and implemented through the MAP documentation and ADP system.
R	Grant Aid of U.S. recovered material resulting from liquidation of NAMSA excess stockage.
S	Assigned to all records in the ROK Equipment Transfer program authorized by Public Law 95-384 at no charge to MAP. This code is also assigned to all PY 71 update and 72 equipment transferred to the ROK under Public Law 91-652 at no cost to MAP. This code is also assigned to ammunition transferred to the Royal Thai Government from Army FMS Case UEB. Transfer at no cost to MAP was authorized by Section 24, Public Law 96-92.
1	Grant Aid rendered under the authority of the Foreign Assistance Act (FAA)of 1961 for which the United States receives no reimbursement.

Section II: TYPE OF ASSISTANCE CODES USED IN OTHER THAN MAP GRANT AID TRANSACTIONS

F	Training provided as a part of an FMS case. This data is maintained in the DSAA Grant Aid data base purely as a service to assist the Military Departments in accounting for students/spaces provided under FMS. Not used in MILSTRIP.

Section III: FOREIGN MILITARY SALES (FMS)

M	MAP Merger. The MAP, established under the Mutual Defense Assistance Act of 1949, originally provided for the loan or grant of military equipment, materials and services (including training) to eligible nations. Since FY 82, the authority of Section 503 (A) (3) of the Foreign Assistance Act (FAA) has been used to merge MAP funds with recipient countries' funds and/or with FMS financing credits in the FMS Trust Fund to make adequate funds available to finance the country's FMS cases.

Appendix 8 **MILSTRIP Codes**

Code	Explanation
N	Section 23 or 24, AECA, FMS Credit (Non-Repayable).
U	Foreign Military Sales Order (FMSO) No. 1. This code applies to cash payment for a FMSO No.1 Supply Support Arrangement. The purchasing government buys equity in a specified dollar amount of DOD stocks. DOD maintains that portion of its stocks for eventual delivery to the purchasing government under a FMSO No. 2 requisition agreement.
V	Foreign Military Sales Order (FMSO) No. 2. This code applies to cash payment for a FMSO No. 2 Supply Support Agreement which permits the purchaser to submit requisitions for common repair parts and secondary items in the DOD stocks of which the purchaser has bought an equity under a FMSO No. 1 agreement. The use of this code requires the input of Cooperative Logistics Support Code 1 or 2 in cc 72 of CLSSA requisitions and passing orders by the applicable International Logistics Control Office (ILCO).
Z	Section 23 or 24, AECA, FMS Credit.
3	Cash Sale from Stock with Payment in Advance. This code applies to cash payments in advance of delivery/performance for FMS which the implementing agency determines at the time of the offer will be form DOD stocks.
4	Source of Supply Not Predetermined. This code applies to cash payment for FMS for which the implementing agency has not yet determined, at the time of the offer, the extent to which the source of supply will be DOD stocks or procurement.
5	Cash Sale from Procurement with Payment in Advance. This code applies to cash payment in advance of delivery/performance for FMS which the implementing agency determines at the time of the offer will be from DOD procurement.
6	Cash Sale from Stock with payment on Delivery. This code applies to cash payment upon delivery of defense articles or initiation of performance of defense services which the implementing agency determines at the time of offer will be from DOD stocks.
7	Cash Sale from Procurement with 120 Day Payment. This code applies to cash payment 120 days after delivery of articles or commencement of performance of services for FMS, which the implementing agency determines at the time of the offer will be from DOD procurement.
8	Cash Sale from Stock with 120 Day Payment. This code applies to cash payment 120 days after delivery of articles or commencement of performance of services for FMS which the implementing agency determines at the time of the offer will be from DOD stocks.

Part E: DEMAND CODES

1. GENERAL. Requisitions will contain demand codes in Card Column (cc) 44 which will be entered by the activity creating the request. The demand code is a mandatory entry of an alphabetic character to indicate to the management element of a distribution system whether the demand is recurring or nonrecurring. When no demand code is entered in the requisition, the ICP will consider such demand as code "R". Certain advice codes and reason codes are compatible only with recurring demands and others only with nonrecurring demand as follows:

a. Advice Code 5A, 5G, 5S, 5X, 5V, 5W, 5Y, 52, 53, or 56 implies recurring demand (see par 8303).

b. Advice Code 5D, 54, or 57 implies nonrecurring demand.

c. Advice Code 5E or 5R implies a "P" demand code.

d. Reason Code E, J, K, L, M, N, O or P implies recurring demand.

e. Reason Code A, C, F, H, T, U, W or X usually implies nonrecurring demand.

Code	Description
I	INACTIVATED ITEM DEMAND. This code will be entered only in requisitions (A0__) applicable to inactivated items by Defense Automatic Addressing System (DAAS).
N	NONRECURRING DEMAND. A request made for a requirement known to be a one time occurrence. Requisitions will be coded nonrecurring when the demand is anticipated to be nonrepetitive. Requisitions assigned a demand code of “N” will be ignored by the inventory manager in providing for system stock levels and, therefore, may jeopardize future support for the item. Examples of nonrecurring demands are: a. a Modification Work Order (MWO) kit for application; b. a new construction outfitting requirement; c. an initial/increased range of stock d. an initial installation or a planned alteration; e. an increase in allowed shelf stock when mandated by the program support ICP (planning data provided to the IMM for lead time in advance).
O	(Alpha) NO DEMAND. To be assigned by requisitioning activities in submitting requisitions for substitute items which are acceptable in lieu of previously requisitioned, but delayed items and for initial fill of Prepositioned War Reserve Material Stock (PWRMS) consumable item requirements. Also to be entered in requisitions submitted as a result of recalculation of stockage requirements after processing a pseudo receipt of material. In addition, it will be entered in requisition generated as a result of non-receipt of material from previously submitted requisition for which shipment status had been received. Also may be prescribed by the program manager on the basis of non-repetitive program requirement for which use of Demand Code N or P is determined to be inappropriate.

Appendix 8 **MILSTRIP Codes**

Code	Description
P	NONRECURRING DEMAND FOR SPECIAL PROGRAM REQUIREMENTS. Entered in requisitions by a requisition initiator for special program/requirements for which stocks were known to have been acquired by the Inventory Control Point in anticipation of such demands.
R	RECURRING DEMAND. A request made periodically or anticipated to be repetitive by an authorized requisitioner for material for consumption or use or for stock replenishment. These occurrences encompass most demands; therefore, a demand will be considered recurring when a doubt exists. It represents a request for any item for which the inventory control point is not known to have made special acquisition, if it is to: a. replace an assigned-for-use or installed part or equipment, or be used in repairing such a part or equipment, or b. replace allowed shelf stock which has been issued to meet demands or lost through pilferage, deterioration, or other loss, or c. make adjustment to locally determined demand based retail levels, when authorized, at nonreporting activities.
S	COMMISSARY RESALE DEMAND. A demand for perishable and nonperishable subsistence items only for resale. Commissary demands for troop issue subsistence will be identified with codes "R" and "N" only.

Part F: SUFFIX CODES

1. PURPOSE. Suffix codes are used to distinguish separate supply actions under a single document. They are assigned by activities processing MILSTRIP/MILSTRAP transactions and are entered in card column 44. Suffix codes will be used in the following supply actions:

a. passing/referring,

b. releasing (issuing),

c. rejecting,

d. backordering,

e. backorder release,

f. procurement for direct delivery by a vendor.

➔ 2. SUPPLY ACTIVITIES. Supply activities will edit transactions based on available stock and assign suffix codes as follows:

a. Single Internal Action completed at a Single Supply Activity: No suffix code will be assigned. The basic document number will be used.

b. Multiple Internal Actions. Alpha Codes A, B, C, and D will be assigned. If more codes are required, assign 2, 3, 4, 5, and 6; if this is still insufficient, use 2 through 6 again.

c. Multiple Actions Involving External Partial Referrals. For internal actions use the same suffix codes shown in 2(b), i.e., A, B, C, D, 2, 3, etc. If it becomes necessary to refer a partial quantity to an external activity, assign either suffix code E or 7: E if the last internal suffix is alphabetic; 7 if the last internal suffix is numeric.

d. Warehouse Refusals. A warehouse refusal means the supply activity has already told the inventory control point (ICP) the document is issued, but then discovers the material is not in stock. In referring news of the warehouse refusal back to the ICP, supply activities will assign suffix codes as follows:

(1) If received with or without suffix code, and the total quantity is refused, reply with no change.

(2) If received without suffix code (blank), and warehouse can partially fill, reply with suffix code E.

(3) If received with a suffix code, and the warehouse can partially fill, reply with suffix code 7 or 8.

3. INVENTORY CONTROL POINT.

➔ a. General. Upon receipt of a requisition without a suffix code, use the basic document number except in those cases where the material is being supplied from more than one source. When the total quantity is to be supplied from more than one source, assign suffix code "E" to first partial; code "J" to second partial; code "Q" to third partial; code "W" to fourth partial. If more suffixes are needed, assign suffix codes in the following order: F, K, T, X, G, L, U, Y, H, M, V, and I. N, R, O, P, and S, are invalid suffix codes since they're used as demand codes and can sometimes share the same document record position.

b. Warehouse Refusals. Upon receipt of a requisition containing a numeric suffix code, the inventory control point will assign the next available alpha code; i.e., "J", "Q", or "W".

4. MATERIAL RETURNS PROGRAM (MRP). Processing elements of the distribution system will enter suffix codes in cc 44 of MRP documents involving partial quantities, such as:

a. Return partial quantity with credit.

b. Return partial quantity without credit.

c. Partial quantity authorized for disposal.

d. Effect lateral redistribution of partial quantity.

e. Effect split returns by separate priority.

f. Any other action applicable to a partial quantity.

5. DISPOSAL RELEASE ORDERS. When assigned to a Disposal Release Order (DRO), the suffix code identifies a disposal directive for a quantity that exceeds 99,999 in cc 25-29. When the quantity to be transferred exceeds 99,999, enter consecutive suffix codes beginning with the letter "A" in the initial transaction. A suffix code will not be used in DRO transactions for total quantities.

6. DUPLICATE DOCUMENT NUMBER TRANSACTION. When all allowable suffix codes, other than "Y" or "Z", have been assigned to a series of duplicate document numbered transactions and it is not possible to assign a unique document number, activities will assign Suffix Code "Y" to remaining multiple transactions except for the final transaction which will be assigned Suffix Code "Z". Assignment of Suffix Code "Z" is limited to this final transaction. Identical documents citing a "Y" suffix code will not be processed as duplicates in validations for MTIS (D6A) transactions, condition code (DAC) transactions and assembly/disassembly (D7L) transactions. This procedure is not applicable to ammunitions.

7. MILSTRAP TRANSACTIONS (D Series Document Identifiers). When all data elements, other than quantity, are identical and the quantity due-in or being adjusted exceeds 99,999 (or 9999M for ammunition), enter consecutive suffix codes beginning with the letter "A" in the initial transaction. Additionally, a suffix code will be used when all data elements are the same, except for the condition of material.

Part G: SERVICE DESIGNATOR CODES

1. GENERAL. Service designator codes are designed to accommodate service identity and use of specific fields or positions without duplication by other services. They are used in card columns (cc) 4, 30, 45, 67, and 74. FEDSTRIP provides for the use of the service designator codes, defined as civil agency codes, to be entered in positions 30 and 31; 45 and 46 of GSA Form 1348. In the following chart, an “X” is used to indicate that the applicable code may be used in that card column.

	Card Columns						Service/
Code	4	30	45	67	74	Agency	Remarks
A	X	X	X	X	X	Army	
B	X			X	X	Army	
B		X	X			Army	FMS and MAP Grant Aid use only. On MAP Grant Aid requisitions, cc 45 will contain code "Y".
C	X			X	X	Army	
C		X	X			Army	Contractor use only
D	X			X	X	Air Force	
D		X	X			Air Force	FMS and MAP Grant Aid use only. On MAP Grant Aid requisitions, cc 45 will contain code "Y".
E	X			X	X	Air Force	
E		X	X			Air Force	Contractor use only
F	X	X	X	X	X	Air Force	
G	X	X	X	X	X	GSA	
H	X	X	X			Other DOD Activities	
H		X	X			Other DOD Activity Contractors	Service Code H must be used with G in cc 31 and/or 46 to designate other DOD activity contractors.
J	X					Air Force	
J	X					Air Force	On base use only
K	X	X				Marine Corps	FMS and MAP Grant Aid use only. On MAP Grant Aid requisitions, cc 45 will contain code "Y".

Appendix 8 **MILSTRIP Codes**

Card Columns Code	4	30	45	Service/ 67	74	Agency	Remarks
M	X	X	X	X	X	Marine Corps	
L	X	X				Marine Corps	Contractor use only
N	X	X	X	X	X	Navy	
P	X			X	X	Navy	
P	X	X				Navy	FMS and Grant Aid use only. On MAP Grant Aid requisitions, cc 45 will contain code "Y".
Q	X			X	X	Navy	
Q		X		X		Navy	Contractor use only
R	X	X	X	X	X	Navy	Pacific Fleet Operating Forces
S	X	X	X	X	X	DLA	
T		X	X			DLA	FMS and Grant Aid use only. On MAP Grant Aid requisitions, cc 45 will contain code "Y".
T			X	X		DLA	
U		X	X			DLA	Contractor use only.
V	X					NASA	
V		X	X			Navy	Atlantic Fleet Operating Forces
W	X	X	X	X		Army	
Y							Reserved to indicate nonsignificant entries.
Z	X	X	X	X		Coast Guard	
Z		X	X			Coast Guard	Contractor use only.
0-9							Reserved for use by civilian agencies operating under the FEDSRIP program

Part H: SUPPLEMENTARY ADDRESS

1. GENERAL. The supplementary address is a two-part field which indicates the Service (cc 45) and the address (cc 46-50). The entry in cc 45 (service) will always be the appropriate character from Part C of this appendix which indicates the service or other government element ownership or sponsorship. Specific alphabetic characters are prescribed for normal requisitioning and shipping and for MAP and contractors' use.

2. ADDRESS (cc 46-50). Entries in cc 46-50 (address) may be alpha, numeric or a combination of both that indicate a specific account number or activity number, for the purpose of receiving material or receiving documentation. This account number or activity number, commonly referred to as a DoDAAD (DOD Activity Address Directory), will be established and disseminated by each of the services, single managers and the General Services Administration. Each DoDAAD so established will contain address(es) in detail to permit shipping and billing for material and for mailing of documentation (see the DOD Activity Address Directory, DOD 4000.25-6-M). For fleet units, the DoDAAD is normally the UIC of the unit. Other uses of the address field (cc 46-50) are as follows:

a. When the originator of the document desires to use cc 46-50 for other data, the entry will not be significant to other than the originator. In these cases, an alpha "Y" will be entered in Position 45. The alpha "Y" indicates that the contents of the field (cc 46-50) are not significant to the system and will not be disseminated, but will be perpetuated and appear on subsequent documents generated therefrom.

b. This field may also be used to identify requisitions submitted for shipment of material to private contractors with no accounting numbers assigned. An alpha "Q" will be entered in cc 45 and the FSC for the contractor as contained in Defense Logistics Service Center H4-1 or H4-2 Fiche will be entered in cc 46-50. This will be used on intra-Navy requisitions only.

c. When record position 30 contains a valid Service/Agency alpha designator and cc 45 contains an "0", DAAS will change the "0" in cc 45 to a "Y".

Part I: SIGNAL CODES

1. GENERAL. The signal code is a mandatory entry in card column (cc) 51 of MILSTRIP requisitions. The signal code serves a dual purpose: it designates the activity to which material is to be shipped; and the activity to which material is to be billed, if billing is required. The "bill to" activity for intra-Navy transactions also may indicate the chargeable or accountable activity. It is emphasized that improper assignment of signal codes may result in erroneous shipment of material and erroneous transmittal of accounting documentation. Each requisitioner should ensure that personnel concerned have a thorough understanding of the importance of these codes.

2. MATERIAL RETURNS PROGRAM/RECEIPT TRANSACTION REPORTS. For Material Returns Program (FT Series) and related Receipt Transaction Reports (D6 Series), the Signal Code designates the fields containing the intended consignor (ship from) and the activity to receive and process credits, when applicable.

3. INTERNATIONAL LOGISTICS PROGRAM. For the International Logistics Program (ILP), i.e., Security Assistance (SA)/Foreign Military Sales Program (FMS), cc 47 will contain a code to designate the recipient of shipments and documentation. This entry will be the FMS Country Representative/Freight Forwarder (CR/FF) code as published in the Military Assistance Program Address Directory (MAPAD) or Code "X" or "W" to indicate that a CR/FF is not applicable. In order to assure correct handling/"Ship to" addressee for SA/FMS requisitions, refer to DOD 4500.32-R, Vol 1, (MILSTAMP), Appendix K and DOD 4000.25-8-M, Military Assistance Program Address Directory (MAPAD).

4. SHIP TO REQUISITIONER. When material is to be shipped to the requisitioner (cc 30-35), one of the following codes is required:

Code	Explanation
A	Requisitioner (cc 30-35) will be billed.
B	Supplementary address (cc 45-50) will be billed. Signal code B will not be used by afloat activities when an O&MN end use fund code from NAVSO P3013-2 is cited in cc 52-53.
C	Billing will be determined by fund code (cc 52-53). Signal code C will be used on all NAVSEA OPN Outfitting Account requisitions.
D	No billing required (free issue). Not to be used by DOD activities when submitting requisitions on GSA material. Signal code "D" or "M" will be used by fleet units for requisitioning material identified by cognizance symbols 0I and 0P (publications), or 0A and 8A (nuclear ordnance items) only. Signal code "D" or "M" will not be used for requisitioning Appropriation Purchases Account (APA) material since issues of such material must be charged for statistical purposes even though operating funds are not affected.
W	For intra-service use only, not used by Navy.

5. SHIP TO SUPPLEMENTARY ADDRESS. When material is to be shipped to the supplementary address (cc 45-50), one of the following codes is required:

Code	Explanation
J	Requisitioner (cc 30-35) will be billed.
K	Supplementary address (cc 45-50) will be billed. Signal code K will not be used by afloat activities when an O&MN end use fund code from NAVSO P3013-2 is cited in cc 52-53.
L	Billing will be determined by fund code (cc-52-53).
M	No billing required (free issue). Not to be used by DOD activities when submitting requisitions on GSA material. Signal code "D" or "M" will be used by fleet units for requisitioning material identified by cognizance symbols 0I and 0P (publications), or 0A and 8A (nuclear ordnance items) only. Signal code "D" or "M" will not be used for requisitioning Appropriation Purchases Account (APA) material since issues of such material must be charged for statistical purposes even though operating funds are not affected.
X	For intra-service use only, not used by Navy.

6. SHIP FROM REQUISITIONER FIELD. When the material is to be shipped from the activity indicated in the requisitioner field (cc 30-35), the signal code will be as follows (used for DI FT_ and D6_ documents):

Code	Explanation
A	Credit to the activity in the requisitioner field (cc 30-35).
B	Credit to the activity in the supplementary addressee field (cc 45-50).
C	Credit to the activity indicated by the first position of the fund code (cc 52). When the Signal Code in cc 51 is C or L, an additional use for the fund code is to indicate the "bill to" office. The "bill to" office is determined using the requisitioner's Service Code in cc 30 and the billing office designator in cc 52. The cited fund code will always be translated to the "bill to" DoDAAC Service Code. For third party billings, the Service Code of the "bill to" DoDAAC may be different from the requisitioner's Service Code.
D	No credit required.
W	For intra-service use only.

7. SHIP FROM SUPPLEMENTARY ADDRESS. When the material is to be shipped from the activity listed in the supplementary addressee field (cc 45-50), the signal code will be as follows (used for DI FT_ and D6_ documents):

Code	Explanation
J	Credit to the activity in the requisitioner field (cc 30-35).
K	Credit to the activity in the supplementary addressee field (cc 45-50).

Code	Explanation
L	Credit to the activity indicated by the first position of the fund code (cc 52). When the Signal Code in cc 51 is C or L, an additional use for the fund code is to indicate the "bill to" office. The "bill to" office is determined using the requisitioner's Service Code in cc 30 and the billing office designator in cc 52. The cited fund code will always be translated to the "bill to" DoDAAC Service Code. For third party billings, the Service Code of the "bill to" DoDAAC may be different from the requisitioner's Service Code.
M	No credit required.
X	For intra-service use only.

Part J: SHIPMENT HOLD CODES

1. GENERAL. The shipment hold code (also referred to as type of hold code) identifies the specific reasons for holding cargo at the shipping activity after it has been picked, packed, marked, and otherwise made ready for shipment. The shipment hold code appears in card column 51 of the shipment status.

Code	Definition
A	Shipment consolidation
B	Awaiting carrier equipment
C	Awaiting export/domestic traffic release
D	Delay due to diversion to surface resulting from challenge by air clearance authority
E	Delay resulting from challenge by air clearance authority/Shipper Service Control Office (SSCO) for which no diversion occurs
F	Embargo
G	Strikes, riots, civil commotion
H	Acts of God
J	Shipment delayed to process customer cancellation request(s).
K	Diversion to surface movement due to characteristics of material that preclude air shipment (e.g., size, weight or hazard classification).
L	Delay requested and/or concurred with by consignee.
M	Delay to comply with valid delivery dates at CONUS destinations/outloading terminals.
N	Delay due to diversion to air (requisition priority upgraded).
O-Y	Reserved
Z	Hold actions of less than 24 hours from date material is available for shipment

Part K: PRECIOUS METALS INDICATOR

1. GENERAL. The precious metals indicator is a one character alpha or numeric code contained in card column (cc) 62 (cc 7 for Change Notice). This code is used to identify items that have precious metals as part of their content. Precious metals are those metals generally considered to be uncommon and highly valuable which are relatively superior in certain properties such as resistance to corrosion and electrical conductivity. The precious Metals Recovery Program for the Federal Government encompasses gold, silver, platinum, and the platinum family (palladium, iridium, rhodium, osmium and ruthenium).

Code	Type Of Precious Metals	Content Value
A	No known precious metal	None
B	Item is known to contain precious metal(s) but the amount(s) unknown	
C	Presence or absence of precious metals varies between items of production for the same item of supply	
D	Silver	Equals 15 grams or more
E	Silver	Less than 15 grams
F	Gold	Equals 10 grams or more
G	Gold	Less than 10 grams
H	Platinum	Equals 10 grams or more
I	Platinum	Less than 10 grams
J	Palladium	Equals 5 grams or more
K	Palladium	Less than 5 grams
L	Iridium	Equals 20 grams or more
M	Iridium	Less than 20 grams
N	Rhodium	Equals 15 grams or more
O	Rhodium	Less than 15 grams
P	Osmium	Equals 10 grams or more
Q	Osmium	Less than 10 grams
R	Ruthenium	Equals 10 grams or more
S	Ruthenium	Less than 10 grams
T	Silver-Gold	Combination equals 15 grams or more
U	Silver-Gold	Combination contains less than 15 grams

Code	Type Of Precious Metals	Content Value
V	Silver-Platinum Family	Combinations equals 15 grams or more
W	Silver-Platinum Family	Combination contains less than 15 grams
X	Silver-Gold-Platinum Family	Combination equals 15 grams or more
Y	Silver-Gold-Platinum Family	Combination contains less than 15 grams
Z	Gold-Platinum Family	Combination equals 10 grams or more
2	Gold-Platinum Family	Combination contains less than 10 grams
3	Determination of precious metal Content is uneconomical	

Part L: ADPE IDENTIFICATION CODES

1. GENERAL. The Automated Data Processing Equipment (ADPE) Identification Code is a single character numeric code contained in card column (cc) 63 (cc 72 for Change Notice). This code is used to indicate an item of ADPE or containing ADPE regardless of assigned Federal Supply Class (FSC) to provide visibility for compliance with unique manager requirements established for ADPE by Public Law 89-306.

Code	Equipment
0	This code represents items with no ADP components.
1	Analog CPUs, ADP Central Processing Units for Computer Analog. This code represents only CPUs that accept as input the electrical equivalent of physical conditions such as flow, temperature, pressure, angular position or voltage and perform computations by manipulating these electrical equivalents to produce results for further use. An analog is a representation of one form of a physical condition existing in another form (e.g., the level of mercury in a tube represents temperature in a thermometer; the angular position of a needle represents speed on a speedometer). Excludes CPUs that have both analog and digital capability (see code 3). Code 1 through 6 are to be used only when the item is ADPS in it's entirety and is limited to the type meeting only one of the definitions for codes 1 through 6 (see code 9).
2	Digital CPUs, ADP Central Processing Units for Computers. This code represents only CPUs that accept information represented by digital impulses. Specifically, a devise capable of performing sequences of arithmetic and logic operations (a program) not only on data but also on the program which is contained in its internal memory (storage) without intervention of an operator. Digital refers to the representation of discrete numbers, symbols and alphabetic characters by a pre-determined, coded combination of electrical impulses. Excludes CPUs that have both analog and digital capability (see Code 3). Code 1 through 6 are to be used only when the item is ADPS in it's entirety and is limited to the type meeting only one of the definitions for codes 1 through 6 (see code 9).

Code	Equipment
3	Hybrid CPUs, ADP Central Processing Units for Computers. This code represents only CPUs that have a combination of analog and digital capability as defined in Codes 1 and 2 respectively and which have conversion capability required for intercommunication. Code 1 through 6 are to be used only when the item is ADPS in it's entirety and is limited to the type meeting only one of the definitions for codes 1 through 6 (see code 9).
4	ADP Input/Output and storage Devices Used to Control and Transfer Information to and from a CPU. The input device is used for transferring data and instructions into a CPU. The output devise is used to transfer results of processing by the CPU onto printed forms, computer readable formats, and/or magnetic media. Input/output devices combine the above functions in the same device. This class also includes data transmission terminals, batch terminals, and display terminals which are specially designed or modified to be used in conjunction with digital analog or hybrid CPUs. It includes modems when they are integral to the terminal. It also includes storage devices in which data can be inserted, retained and retrieved for later use. Code 1 through 6 are to be used only when the item is ADPS in it's entirety and is limited to the type meeting only one of the definitions for codes 1 through 6 (see code 9).
5	ADP Accessorial Equipment. This code represents accessorial equipment which is considered to be a component, device or unit that is related directly to and essential to the operation of ADPE. Included in this class are complete units and components of related general purposes accessorial equipment which are used as part of a system such as weapon system, control system, missile system, communication system or navigational system. It also encompasses various units or devices and associated control units that are used in combination or conjunction with the ADPE configuration but are not part of the configuration itself. Code 1 through 6 are to be used only when the item is ADPS in it's entirety and is limited to the type meeting only one of the definitions for codes 1 through 6 (see code 9).
6	Computer-Readable Format Equipment. This code represents collating machines, key punch machines; tabulating machines; verifier; reproducer; summary punch, sorter; and interpreter. Card actuated machines, when cable connected to a central processing unit, are excluded. Code 1 through 6 are to be used only when the item is ADPS in it's entirety and is limited to the type meeting only one of the definitions for codes 1 through 6 (see code 9).
7	ADP Supplies and Support Equipment. This code represents consumable supplies, such as paper, tabulating machine, continuous flat fold; paper, tabulating machine, sheet; seal bands, tape, ADP; empty reels and hubs, tape, ADP; canister, tape, ADP; carrying cases, tape, ADP. Also included are support equipment, such as magnetic tape testing, certifying and cleaning equipment; disk pack testing, certifying and cleaning equipment; tape equipment, winders, splicers, and card reconditioners.
8	ADP Components. This code represents ADP component assemblies that are parts of analog, digital or hybrid data processing devices.

Code	Equipment
9	This code is to be assigned to an item containing embedded ADPE that meets one or more of the definitions for codes 1 through 6.

Part M: DISPOSAL AUTHORITY CODES

1. GENERAL. The Disposal Authority Code is a single character alpha code which is contained in card column (cc) 64. This code is entered on disposal related documentation to indicate that the item being transferred to a Defense Reutilization and Marketing office (DRMO) is authorized to be transferred to disposal due to the instructions of the IMM/ICP relayed through the Material Returns Programs (MRP) or other proper authority.

Code	Explanation
M	Items on this transaction are IMM/ICP stocks and are being transferred to disposal by authority of the responsible inventory manager.
N	Items on this transaction are not reportable by virtue of an exclusion to the MILSTRIP MRP or other specific criteria such as extended dollar value or condition limitations on excess reporting and are duly authorized to be transferred to disposal.
R	Items on this transaction have been reported to the IMM/ICP in accordance with MILSTRIP MRP procedures and have been directed to disposal by the inventory manager. Excess transaction status code SF, SL, SN, TC, TD or TK was provided by the ICP/IMM on DI FTR.

Part N: COOPERATIVE LOGISTICS PROGRAM SUPPORT CODES

1. GENERAL. The Cooperative Logistics Program Support Code is a single character numeric code which is contained in card column (cc) 72. This code provides information as to whether or not supply support on a Cooperative Logistics Supply Support Arrangement (CLSSA) requisition or passing order (NSN only) (V in cc 35) should be made on a programmed or unprogrammed basis. This code will be entered by the applicable International Logistics Control Office (ILCO).

Code	Explanation
1	Lead time necessary for the supply source to augment U.S. stocks to support the CLSSA agreement has passed. Assets can be released on a programmed basis.
2	Lead time necessary for the supply source to augment U.S. stocks to support the CLSSA agreement has not passed. Assets can be released on an unprogrammed basis.

Part O: PSEUDO CLOSURE REASON CODES

1. GENERAL. The Pseudo Closure Reason Code is a one character alphabetic code which is entered in cc 51 of the Pseudo Material Release Confirmation transaction (DI ARH). This code is used by the supply source to identify the reason for which it has closed a material release confirmation. This allows the storage activity to also close it's open record.

Code	Explanation
A	Customer has acknowledged receipt.
B	Customer has confirmed complete or partial non-receipt.
C	Customer has not responded.

X	Supply Status Codes	A9-29

THIS PAGE LEFT BLANK INTENTIONALLY

APPENDIX 9
LOGISTIC MANAGEMENT CODES

Part A: NON-INDUCTION REASON CODES

1. GENERAL. Non-induction reason codes are two part alphabetic codes. The first part is entered in cc 44 to indicate the reason material was not inducted for repair. The second part, when required, is entered in cc 45 and is used to supplement the reason code in cc 44.

Reason Codes (cc 44)

Code	Explanation
C	Capability not available. A supplementary reason code must be entered in cc 45.
F	Capacity not available. A supplementary reason code must be entered in cc 45.
M	Insufficient funds available. The estimated cost of repair must be shown in cc 54-60.
N	Insufficient unserviceable material. A supplementary reason code must be entered in cc 45.
P	Insufficient repair parts.

Supplementary Reason Codes (cc 45)

Code	Explanation
A	Shop and test facilities/equipment not available.
B	Trained personnel not available.
C	Repair specifications not available.
D	Capability undetermined.
E	Insufficient shop and test facilities/equipment available.
F	Insufficient man-hours available.
G	Inducted material misidentified. Returned to stock under correct NSN. No additional NRFI units available.
H	Inducted material misidentified. Unable to correctly identify. Returned to stock in Condition Code "J" pending correct identification. No additional NRFI units available.
J	Warehouse refusal. No additional NRFI units available.
K	Inducted material beyond repair or beyond economic repair. No additional NRFI units available.
L	No NRFI material available.

Part B: SUPPLY SOURCE CODES

1. GENERAL. The Supply Source Code is a single digit alphabetic or numeric code. Alphabetic codes identify the basis or means of material availability at the time an item is requested. Numeric codes identify previously issued material that is returned to the supply department in Ready For issue (RFI) condition.

Code	Explanation
A	Allowance list material issued from storeroom stock. Also applicable to inventory losses of stock material.
B	Load list material issued from storeroom stock (for carrying ships only). Also applicable to inventory losses of stock material.
C	Non allowance material issued from storeroom stock (i.e., non COSAL or non load list material that is stocked because it meets SIM or non-SIM demand criteria; because it is mission essential; or because the type commander has authorized it to be stocked for a planned maintenance requirement). Also applicable to inventory losses of stock material.
D	Allowance list material Not In Stock (NIS) when requested.
E	Load list material Not In Stock (NIS) when requested (for load carrying ships only).
F	Stocked non allowance material (see explanation of supply source code C) which is not in stock (NIS) when requested.
G	Not Carried (NC) repair parts which are not listed in an APL, operating space items (including controlled equipage), NC consumables (including SIM DTO items), and services.
H	Repair parts procured and issued as DTO material during an ILO; or repair parts and consumables issued as charges to Ship's Force Material funds.
J	NC repair parts which are listed in an APL, but not in an SNSL or ISL.
K	Medical/dental items procured and issued as DTO material.
L	NC non COSAL repair parts used to accomplish a field change or other alteration.
X	Price differences reported in the Budget/OPTAR Report (NAVCOMPT Form 2157) for equipage, repair parts, or other. Used only as directed by the type commander.
9	Previously issued RFI material which is returned to the supply department for stock or other disposition (see par. 6253).

Part C: ALLOWANCE TYPE CODES

1. GENERAL. The Allowance Type (AT) Code is a single digit numeric code which identifies the reason material is being carried in stock.

Code	Description
1	COSAL item.
2	Load List item, applicable to load carrying ships only.
3	Load and Allowance List item, applicable to load carrying ships only.
4	Non-COSAL item that is stocked based solely on demand.
5	Non-COSAL authorized add item based on specific TYCOM authority.
6	Non-COSAL excess item that does not have sufficient demand to maintain. The item is to be offloaded and deleted.
7	Economic retention. Excess item that, because of low unit cost (normally under $100.00), is authorized for retention until the next ILO/ReAVCAL. The exact amount may be specified by each TYCOM.
8	Non-COSAL item that is established for demand recording only. It will be changed to AT code 4 if demand reaches established criteria, otherwise it will be deleted after 24 months with no demand.
9	Assigned to a substitute item which is not stocked as a primary number.

Part D: CONTROLLED INVENTORY ITEM CODE

1. GENERAL. The Controlled Inventory Item Code (CIIC) is a single digit alpha or numeric code found in card column (cc) 52 of the change notice. The CIIC designates the degree of physical security assigned to an item of supply. The CIIC was formerly known as Security/Pilferage/Arms, Ammunition And Explosives Security Risk Code.

Code	Definition
A	Confidential - formerly restricted data
B	Confidential - restricted data
C	Confidential
D	Confidential - cryptologic
E	Secret - cryptologic
F	Top secret - cryptologic
G	Secret - formerly restricted data
H	Secret - restricted data
I	Aircraft engine equipment and parts
J	Pilferage controls may be designated by the coding activity to items coded U (unclassified) by recording the item to J.
K	Top secret - formerly restricted data
L	Top secret - restricted data
M	Hand tools and shop equipment
➔ N	Firearm piece parts and non-lethal firearm end items. It is more appropriate to use Codes 1 thru 8 (less 7) for AA&E end items.
O	Item contains naval nuclear propulsion information; disposal and access limitations are identified in NAVSEAINST C5511.32. Store and handle in a manner which will preclude unauthorized access to this material.
P	Ammunition and explosives. This code should not appear on Navy material records. It is more appropriate to use Security Risk Codes 1 thru 8 (less 7) for AA&E items.
Q	A drug or substance determined by the Drug Enforcement Administration (DEA), Department of Justice to be designated Schedule Symbol III, IV or V as defined in Controlled Substance Act of 1970. Other selected items requiring storage in a vault or safe.
R	Precious metals, a drug or other controlled substance designated as a Schedule Symbol I or II item, in accordance with the Controlled Substance Act of 1970. Other selected items requiring storage in a vault or safe.

Logistic Management Codes **Appendix 9**

Code	Definition
S	Secret
T	Top secret
U	Unclassified
V	Individual clothing and equipment
W	Office machines
X	Photographic equipment and supplies
Y	Communication/electronic equipment and parts
Z	Vehicular equipment and parts
1	Highest Sensitivity (Category I) - Non-nuclear missiles and rockets in a ready to fire configuration (e.g., Hamlet, Redeye, Stinger, Dragon, LAW, Viper) and explosive rounds for non-nuclear missiles and rockets. This also applies in situations where the launchers (tube) and explosive rounds, though not in a ready to fire configuration, are jointly stored or transported.
2	High Sensitivity (Category II) - Arms, Ammunition and Explosives.
3	Moderate Sensitivity (Category III) - Arms, Ammunition and Explosives.
4	Low Sensitivity (Category IV) - Arms, Ammunition and Explosives.
5	Highest Sensitivity (Category I) - Arms, Ammunition, and Explosives with a security classification of Secret. Items will be stored and transported in accordance with the provisions of DOD 5100.76-M or DOD 5200.1-R, whichever is more stringent.
6	Highest Sensitivity (Category I) - Arms, Ammunition, and Explosives with a security classification of Confidential. Items will be stored and transported in accordance with the provisions of DOD 5100.76-M or DOD 5200.1-R, whichever is more stringent.
➔ 7	Item assigned a Demilitarization Code other than A, B, or Q for which another CIIC is inappropriate. The loss, theft, unlawful disposition, and/or recovery of an item in this category will be investigated in accordance with DOD 4000.25-2-M and DOD 7000.14R Volume 12, Chapter7.
8	High Sensitivity (Category II) - Arms, Ammunition and Explosives with a security classification of Confidential. Items will be stored and transported in accordance with the provisions of DOD 5100.76-M or DOD 5200.1-R, whichever is more stringent.
9	This code identifies an item as a Controlled Cryptographic Item (CCI). CCI is described as secure telecommunications or information handling equipment, associated cryptographic component, or other hardware item which performs a critical COMSEC function. Items so designated are unclassified but controlled and will bear the designation “Controlled Cryptographic Item” or “CCI”.

Part E: DEMILITARIZATION CODES

1. GENERAL. The Demilitarization (Demil) Code is a single digit alpha code found in card column (cc) 64 of the change notice or cc 73 of Disposal Release Orders and Demil Directives. The term "demilitarization" is defined as the act of destroying the military offensive or defensive advantages which may be inherent in an item of material in order to render it useless for its originally intended purpose. The term specifically applies to Munitions List Items (MLIs), Significant Military Equipment (SME) items (items that warrant special export controls due to their substantial military capabilities) and lethal materials being considered for turn-in to a property disposal activity for sale or other disposition. Demil codes assigned in FEDLOG identify items that require demilitarization, as well as the extent of demilitarization required. Codes also are assigned to identify the MLIs and non-MLIs which do not require demilitarization. Additional information is contained in DOD 4160.21-M-1 which may be viewed at web site "http://www.almc.army.mil/schools/sls/demil/home.htm".

Code	Explanation
A	Non-MLI/Non Strategic List Item (SLI) - Demilitarization not required.
B	MLI (Non-SME) - Demilitarization not required. Trade Security Controls (TSCs) required at disposition
C	MLI (SME) - Remove and/or demilitarize installed key point(s) as prescribed in Defense Demilitarization Manual (DOD 4160.21-M-1), or lethal parts, components, and accessories.
D	MLI (SME) - Total destruction of item and components to prevent restoration or repair. Demilitarize by melting, cutting, tearing, scratching, crushing, breaking, punching, neutralizing, etc. As an alternate, burial or deep water dumping may be used when coordinated with the DOD Demilitarization Program Office.
E	MLI (Non-SME) - Additional critical/items material determined to require demilitarization, either key point or total destruction. Demilitarization instructions to be furnished by the DOD Demilitarization Program Office.
F	MLI (SME) - Demilitarization instructions to be furnished by the item/technical manager.
G	MLI (SME) - Demilitarization required - AEDA (Ammunition, Explosives, and Dangerous Articles). Demilitarization and, if required, declassification and/or removal of sensitive marking or information, will be accomplished prior to physical transfer to a DRMO. This code will be used for all unclassified AEDA items.
P	MLI (SME) - Security Classified Item. Declassification and any other required demilitarization, and removal of any sensitive markings or information will be accomplished prior to accountability or physical transfer to a DRMO. This code will also be assigned to classified (AEDA) items.

Code	Explanation
Q	Strategic List Item (SLI) - Demilitarization not required. SLI are non-MLI and are controlled by the U.S. Department of Commerce through the Export Administration Regulations (EAR). These items are subject to Import Certification and Delivery Verification (IC/DV) control and other Trade Security Controls contained in DOD 4160.21-M-1, Chapter III and Appendix 5.

Part F: SUMMARY FILLED ORDER EXPENDITURE DIFFERENCE LISTING (SFOEDL) CHALLENGE CODES

1. GENERAL. SFOEDL Challenge Codes are single digit alphabetic codes used to identify the reason a SFOEDL transaction is being rejected.

Code	Explanation
A	Duplicate charge: material received from (UIC of the activity), quantity (QTY___), amount ($___), on (Julian date). No duplicate shipment received and supply status indicating future shipment not received. Credit requested.
B	Wrong price. Copy of receipt document enclosed, which cites issue activity, quantity, and unit price.
C	Expenditure should be charged to unfilled order (document number) in the amount of ($___); unfilled order transmitted on OPTAR Document Transmittal Report No. (TL# __).
D	Erroneous charge; should be (provide fund code and UIC if known). Centrally Managed operating budget expenditures (e.g., ship fuel) may require this coding.
E	Advance adjustment taken and transmitted on OPTAR Document Transmittal Report No. (TL#___).
F	AD CANC of credit unfilled order considered invalid. Debit unfilled order for ($___) transmitted on OPTAR Document Transmittal Report No. (TL#___).
G	Material not requisitioned; material not received; supply status indicating future shipment not received. Check Requisition/OPTAR Log for Erroneous or transposed Julian date or serial number prior to citing this code.
H	Confirmed supply cancellation received from (UIC of activity) for quantity (QTY___), amount ($___), dated (___). Material not received. Confirmed cancellation document (or list) transmitted on TL (TL#___).
I	Above $100.00 threshold charge expenditure labeled "UNMATCH EXP" cites an erroneous/transposed Julian date/serial number. An administrative cancellation of the corresponding unfilled order has been placed in holding file 2.
J	Other (explain fully with complete information). If space on the listing is inadequate, explain fully on an attached sheet of paper with references to the particular line item document numbers.

Appendix 9 **Logistic Management Codes**

Code	Explanation
K	Requisitioner challenges this BK3 non-aviation/aviation NRFI DLR carcass charge. A BK2 has been/is being sent to the Inventory Control Point for action. If appropriate, the Inventory Control Point will grant reversal sending requisitioner BK4 advice and the DFAS a credit expenditure for the same amount of the charge. DFAS is to take no action until the credit is received.
L	For use on travel transactions only. Duplicate charge. The travel standard document number control log and retained copies of the SFOEDL indicates that a like expenditure with the same DOV and money value has already appeared on a previous SFOEDL.
M	For use on travel transactions only. Wrong price. The travel standard document number control log and final claim indicates a different amount paid than shown on the SFOEDL.
N	For use on travel transactions only. Wrong SDN. Travel OPTAR records indicate the standard document number (TANGO) appearing on the SFOEDL should read: (___).
O	For use on travel transactions only. Wrong TTC code: 1K not 2D. Expenditure listed on the SFOEDL should have been a travel advance instead of a final payment.
P	For use on travel transactions only. Erroneous AD CANC. This travel transaction was obligated in Transmittal: (TL#___).
Q	For use on travel transactions only. Erroneous charge. No record of this standard document number (TANGO) or voucher. Attempts to match it with local records have failed. It is considered an erroneous charge to this OPTAR. Forward a copy of the voucher for further research.
R	For use on travel transactions only. Wrong fiscal year. OPTAR records indicate the travel expenditure appearing on the SFOEDL should have been charged to FY (___).
S	For use on travel transactions only. Wrong fund code: TR/MTA. OPTAR travel records indicate charge for TR/MTA should have been against fund code: (___).
T	For use on travel transactions only. Other travel. A detailed explanation is contained following the T code on the SFOEDL (or on a separate attached paper). Copies of supporting documents are attached if they are available.

Part G: ISSUE, REPAIR, AND REQUISITION RESTRICTION CODES

1. GENERAL. The Issue, Repair and Requisition Restriction Code (IRRC) is a two digit alpha-alpha or alpha-numeric code found in card column (cc) 67-68 of the change notice. The IRRC indicates restrictions applicable to issue or procurement of the material involved or instructions for item requisitioning, turn in, or exchange.

2. REQUISITIONS. Requisitions for items coded to indicate “submit or refer, etc.” must be submitted to the activity indicated in the code definition, or referred to that activity for issue approval if received by stock points without such approval indicated on the requisition. Approval of the activity defined by the code will be evident when its routing identifier appears as the “RI from” in cc 67-69 of the requisition/referral order. Referral to the approving activity (except when no stock is available for issue) is not required when the requisition matches, by document number, a material reservation previously established at the stock point by the approving activity.

3. ASSIGNMENT. Requests for assignment of an IRRC will be submitted to NAVSUP Code 4112.

Code	Definition
AD	Repairable or consumable item requiring custodial signature controls and item-for-item exchange except when initial issue or replacement of surveyed item is involved.
AE	Submit or refer requisitions to the NAVEDTRAPRODEVCEN.
AF	Submit or refer requisitions to NAVSEA (other than ammunition - N23).
AG	Submit or refer requisitions to the Naval Training Equipment Center.
AH	Submit or refer requisitions to the Civil Engineering Support Office (CESO) CBC, Port Hueneme.
AM	Submit or refer requisitions to NAVICP MECH Code 009. Centralized control for issue of reactor plant technical manuals.
AR	Repairable item subject to centrally managed rework program at designated sites. Mandatory turn in of item required except when initial issue or replacement of surveyed item is involved.
AT	Submit/refer requisitions to NAVCOMPT.
AW	Submit/refer requisitions to NAVPLANTTECHREPO, Anaheim, CA (SPI) in accordance with NAVICPMECHINST 4400.3 (series).
BE	Submit or refer requisitions to the Military Sealift Command.
BF	Submit/refer requisitions to U.S. Coast Guard Engineering Logistics Center, Baltimore MD.
BJ	Submit or refer requisitions to the Naval Ship Missile Systems Engineering Station.
BL	Submit or refer requisitions to NAVICP MECH. Centralized control for issue of repair parts for specific programs/equipment.

Appendix 9 Logistic Management Codes

Code	Definition
BM	Submit or refer requisitions to the NAVSPAWAR Code 82.
BS	Submit or refer requisitions to NAVICP PHIL.
BV	Controlled ammunition item. Submit/refer requisitions to NAVICP MECH (NCB). Centralized control for issue of controlled ammunition items.
BW	Submit/refer requisitions to FMSO Mechanicsburg. Controls issue of the following publications: Woods Products Catalog (hard copy); Management List-Consolidated (ML-C); H2-1 (hard copy); H6 (hard copy); and Federal Item Logistics Data Record (FILDR).
BY	Submit or refer requisitions to the Navy Food Service Systems Office. Controls galley equipment unique to submarines and Direct Current (DC) ships.
BZ	Submit/refer requisitions to NAVRESSO.
CB	NAVSEA controlled material. Submit requisitions via the nearest pool activity, i.e., FISC Pearl Harbor, or NSY Portsmouth, NH. These activities are authorized to approve the issue of material, so coded, without NAVSEA prior approval.
CC	Submit/refer requisitions to NAVELEXENGCEN San Diego Code 452 (field change kit program related requisitions).
CF	Fleet Control Program Item. Submit/refer requisitions to NAVICP PHIL following standard procedures.
C0	Critical item. Do not issue. Refer all requests to cognizant inventory manager.
C1	Type 1 critical item. Issue to fill priority 01-08 end use requirements only with appropriate prior approval as requested.
C2	Type 2 critical item. Issue only to fill priority 01-03 end use requirements.
C3	Type 3 critical item. Issue only to fill priority 01-08 end use requirements.
DV	Submit or refer requisitions to the Naval Air Technical Services Facility.
R9	Integrated manager repairable item. Includes DLA managed items which are reportable in non-RFI condition to appropriate Defense Supply Center in accordance with NAVSUP instructions for the return of excess material to DLA.
TF	Submit/refer requisitions to Supervisor of Shipbuilding, Conversion and Repair Groton, CT.
XA	Submit or refer requisitions to NAVPRO Pittsfield, MA. Control issue of critical FBM and SWS material.
XB	Maintain record of serial numbers.
XC	Submit or refer requisitions to NAVPRO Sunnyvale CA (SPL-60). Control of active C3/C4 material.
XD	Technical directive change kit is a controlled item and requires special management. Submit/refer requisitions to the Naval Aviation Logistics Center.
XE	Refer to technical information card for special instructions. This code may be assigned only by the ICP when material cannot be issued properly without review of the technical information card.
XG	Submit or refer requisitions to NAVPRO Sunnyvale CA (SPL(W)).

Code	Definition
XH	Submit or refer requisitions to NAVAIR for 2Q Cog selected shipboard and air station electronics equipment.
XJ	Submit or refer requisitions to SSPO (Strategic Systems Programs Office) Technical Representatives, Great Neck NY in accordance with NAVICPMECHINST 4400.3 (series).
XL	Submit or refer requisitions to NAVPLANTTECHREPO, Anaheim CA (SPA) in accordance with NAVICPMECHINST 4400.3 (series).
XQ	Submit or refer requisitions to NAVSEA (ammunition-N24).
XR	Submit or refer requisitions to NAVSEA. Maintain records by serial number (NAVSEAINST 4440.7 applies).
XS	Submit or refer requisitions to Naval Intelligence Command, Washington DC.
XW	Submit or refer requisitions to Naval Underwater Systems Center, Newport RI.
XZ	Submit or refer requisitions to Naval Undersea Warfare Engineering Station, Keyport WA.
00	No restrictions.

Part H: ITEM MANAGEMENT CODES

1. GENERAL. The Item Management code is a single digit numeric code indicating whether an item of supply shall be subject to integrated management or shall be retained by the individual military services or other DOD components for their management. The item management code applies to all NSNs in those commodity areas assigned for integrated material management. This code will be meaningful only to inventory control points and defense supply centers.

Code	Description
A	Nuclear Hardened Items
C	Engineer/Design/Critical
D	Major End Items of Equipment
E	Depot Level Repairables (DLRs)
F	Single Agency
H	Nationally Vital Program
J	Design Unstable
L	Fabricated or Reclaimed Items
N	Mod/Alt Set/Conversion or Kit Intended for One-Time Use
P	Nuclear Propulsion Items
S	Security Classified Items
W	Foreign Military Sales (FMS) only
Z	Integrated Management

Part I: MATERIAL CONTROL CODES

1. GENERAL. A Material Control Code (MCC) is a single digit alphabetic code found in card column (cc) 6 of the Stock Status Balance Card, cc 7 and/or 61 of the Change Notice, cc 73 of the Transaction Detail Card and cc 76 of the Transaction Report Card. The MCC is assigned by the inventory manager to segregate items into more manageable groups (i.e. fast, medium, or slow movers), or to relate to field activities special reporting and/or control requirements.

Code	Definition	Cognizant ICP/IM or retail office
A	Field activity control items	All
B	Material (expendable ordnance) requiring lot number reporting	NAVSEA
C	Material (expendable ordnance) requiring serial number reporting	NAVSEA
D	Field Level Repairables	All
E	(1) Progressive Depot Level Repairables	NAVICP MECH/PHIL
	(2) Material (expendable ordnance) requiring lot and serial number control, but which is reported by serial number only	NAVSEA
F	(1) Fast moving cognizance symbol 1I Forms	NPFD
	(2) Nonperishable provisions	NAVICP MECH
G	FBM weapon system repairables requiring intensive management	SSPO
H	Depot level repairables	All
J	2C Cog CESE Material (major end items)	CESO
K	Material (explosive ordnance) requiring periodic lot number reporting	NAVSEA
L	Local stock items or items pending NSN assignment	All
M	Medium demand velocity items (consumables)	All
N	1I Cog not stocked print on demand flat forms	NPFD
P	Perishable subsistence items	NAVICP MECH
Q	FBM weapon system repairables requiring special test, special report, or periodic inspection	SSPO
R	Resale - Brand name Perishable Subsistence	All
S	Slow demand velocity items (consumables)	All
T	Terminal items	All
U	Fast moving centrally managed 1I cog forms, locally procured at selected, designated overseas activities	NPFD

Code	Definition	Cognizant ICP/IM or retail office
V	2C Cog CEEI Material (major end items)	CESO
W	Ground support equipment (end items)	CESO
X	Special program repairables	All
Y	2C cog secondary items supporting CEEI (major end items)	CESO
Z	Special program consumables	All

Part J: METHOD OF COMPLETION CODES

1. GENERAL. The Method of Completion Code is a single digit alpha code found in card column (cc) 66 of the Completion Notification Card. This code is used to report the method of completion to the Aviation Supply Control Center on NMCS/PMCS and ANMCS/APMCS requirements.

Code	Definition
C	Cancellation by customer
D	Downgrade of requisition
E	Lost in transit
F	Local repair or fabrication (IMA or NAVAIRWORKFAC)
G	Receipt from DSCs, DOD agencies, GSA or other departments
L	Local purchase (other than ICP)
M	Miscellaneous
P	Receipt from ICP procurement
R	Receipt from other supply offices - system stock
S	Cancellation or rejection by supply activity
T	Local supply screening or rescreening action
X	Local stock (interchangeable substitutes, etc.)
Z	Cannibalization

Part K: MOVEMENT PRIORITY DESIGNATORS

1. GENERAL. The Movement Priority Designator (MPD) is a two digit numeric code entered in the priority space (cc 60-61) on the DOD Single Line Item Release/Receipt Document (DD Form 1348-1A) prepared when an item is returned for repair. Authorized codes are 03, 06, and 13. MPDs are contained in the FEDLOG MRIL.

Part L: NOT CARRIED INDICATOR

1. GENERAL. The Not Carried Indicator is a single digit alpha code found in card column (cc) 77 on Navy referral orders submitted to Navy ICPs. This code indicates that the referring stock point does not carry the requisitioned item of stock in its inventory.

Code	Definition
N	Item is not carried

Part M: QUANTITY IN UNIT PACK CODES

➔ 1. GENERAL. The Quantity In Unit Pack Code is a single digit alpha or numeric code found in card column (cc) 60 of the change notice. It denotes the quantity contained within a unit pack. The point of contact is NAVICP Code M077, DSN 430-2694.

Code	Quantity	Code	Quantity
0	0	G	24
1	1	H	25
2	2	J	32
3	3	K	36
4	4	L	48
5	5	M	50
6	6	N	72
7	7	P	75
8	8	Q	100
9	9	R	120
A	10	S	144
B	12	T	200
C	15	U	250
D	16	V	500
E	18	W	1000
F	20	X	Bulk

Y	Packagers option as long as all other contractual requirements are met.
Z	Special requirements, refer to special instructions or drawings provided.

Part N: RECEIPT ACCEPTANCE CODES

1. GENERAL. Receipt Acceptance Codes are single digit alpha codes which are found in card column (cc) 51 of the preposition receipt card for DD or DU (Procurement Instrument Source). This code denotes acceptance at source or destination to facilitate accrual accounting (optional - for Navy only).

Code	Definition
D	Destination Acceptance (Regular NWCF allotment)
E	Destination Acceptance (Open NWCF allotment)
L	Source Acceptance (Open NWCF allotment)
R	Repair Returns
S	Source Acceptance (Regular NWCF allotment)
X	MIPR - Placed on other DOD agencies (FIR Code to be determined by Receiving Activity)

Part O: REJECTION CODES

➔ 1. GENERAL. Rejection Codes are single digit alpha codes found in card column (cc) 65 of the DI BKR. These codes identify the reason for rejection of the DI BK2 response to follow-up. Requests for assignment of these codes will be directed to NAVSUP Code 4B1D1.

Code	Explanation
A	BK2 received cited a document number for which no ICP carcass tracking record exists for the original exchange document number. Resubmit BK2 with correct document number.
B	BK2 received with blank or invalid fields, such as response code, quantity, ship to activity, date shipped, julian date, etc. Resubmit with correct data.
C	Second BK2 received cited a second “F” or “K” response code, but only one "F" or "K" response code will be accepted. If applicable, resubmit BK2 with other than "F" or "K" response code.
D	BK2 received cited response code “L”, but the ICP carcass tracking record file already reflects a “5S” or “52” advise code or the RFI issue has already posted. If applicable, resubmit BK2 with correct response code.
E	BK2 received cited response code “N”, but the ICP carcass tracking record file already reflects a “5R” or “5Y” advise code or the RFI issue has already posted. If applicable, resubmit BK2 with correct response code.

Code	Explanation
F	BK2 received cited response code “B” but the turn-in document number was already matched as an exchange requisition under that document number with no excess receipt quantity remaining. Resubmit BK2 with correct document number.
G	BK2 received cited a NIIN that is not an acceptable substitute for the exchange requisition NIIN. Resubmit BK2 with acceptable substitute NIIN or if no acceptable substitute NIIN is available, resubmit BK2 with response code "C", "D", or "G", indicating no turn-in. Response codes "C", "D", and "G" will result in a carcass value bill.
H	BK2 received cited response code “P” but the requisition has not been canceled or the item has already been issued. Submit cancellation to ICP or resubmit BK2 citing correct response code. If item has been issued, requisition cancellation will not process.
I	BK2 received cited the customer as the turn-in activity. Resubmit BK2 citing correct turn-in activity.
J	BK2 received cited response code “A”, "B", "F", "H", "J", "K", or "L" but the ICP carcass tracking record file already contains a response code “C, D, or G” indicating that there is no turn-in. If applicable, resubmit correct BK2 or contact the ICP. Billing will be at standard price.
K	BK2 received cited response code “B” but the turn-in document number is for a non-exchange record. Verify turn-in document number, and if correct contact the ICP. If incorrect, resubmit a corrected BK2.
L	BK2 received cited a response code “B” but the turn-in document number was used to match a previous exchange record. Verify turn-in document number, and if correct contact the ICP. If incorrect, resubmit a corrected BK2.
M	BK2 response code was the third or more received for this Document Number, but only 2 valid response codes are permitted. Research records to determine if the third response is valid. If it is invalid, no further action is required. If it is valid, contact the ICP.
N	BK2 received cited a “J” response code, but the turn-in document number does not match an exchange record. Verify turn-in document number and contact the ICP if the document number is correct, or if incorrect resubmit a corrected BK2.
P	BK2 received cited a quantity greater than 1, but the NIIN has not been exempt from the one-for-one exchange policy. Resubmit BK2 with correct quantity.
R	BK2 received cited a response code “H”, but does not meet validation criteria for “H” response. Resubmit BK2 with correct response code.
S	BK2 received cited a response code “B”, but the turn-in document number contains a julian date exceeding the 24-month allowable time frame for carcass ownership. If valid RIP item, contact the ICP.

Code	Explanation
T	BK2 received cited a response code “A”, but the D6A receipt NIIN is incompatible with the exchange record NIIN. Select one of the following actions and contact the ICP: a. Challenge the ICP’s “rejected” decision with documentation. b. Accept carcass value charge and let the D6A remain on carcass tracking record file for a future match. c. Accept carcass value charge and request D6A be passed to the Materiel Returns program for possible credit. d. Submit a BK2 response code “B” citing a turn-in document number with a compatible NIIN.
U	BK2 received is an exact duplicate of a BK2 response previously received and posted to the ICP carcass tracking file.

Part P: RESPONSE CODES

➔ 1. GENERAL. Response codes are single digit alpha codes found in card column (cc) 47 of the DI BK2 and BK6 response to follow-up. Codes A through P will be used for DI BK2, codes W through Z will be used for DI BK6. Requests for assignment of these codes will be directed to NAVSUP Code 4B1D1.

Code	Meaning
A	Carcass turned-in on same document number.
B	Carcass turned-in on different document number shown in cc 48-61.
C	No turn-in will be made. Advice code should have been “5A”.
D	No turn-in will be made. Advice code should have been “5D”.
F	NRFI turn-in will be delayed. After 15 days, the standard carcass tracking timeframe begins. For those activities who have received a BK1 this carcass tracking timeframe represents a second tracking cycle. If the NAVICP does not receive a report of the turn-in or the material is not received within 45 days for surface and submarine afloat and ashore activities, 30 days for aviation ashore activities, or 45 days for aviation afloat activities, a new BK1 will be generated. Only one “F” response code will be accepted for each document number. Enter the expected turn-in julian date in cc 62-66.
G	No turn-in will be made. Advice code should have been “5E”.
H	RFI item turned-in under document number in cc 48-61. Document number in cc 48-61 should be the same as cc 27-40 if RFI unit is being turned-in as an exchange under the same document number and different than cc 27-40 if RFI unit is being turned-in under an alternate document number.

Appendix 9 **Logistic Management Codes**

Code	Meaning
J	This response code is used in two cases: (a) The RFI materiel ordered on this document number was shipped but not received and has been surveyed as lost in shipment. The NRFI materiel was turned-in under the document number of the replacement materiel (cc 48-61). (b) The materiel on this document number was ordered to replace materiel which was shipped but not received on board and has been surveyed as lost in shipment. The NRFI materiel was turned-in under the original document number (cc 48-61).
K	Unable to make NRFI turn-in due to deployed status. After 30 days the standard carcass tracking timeframe begins. For those activities who have received a BK1, this carcass tracking timeframe represents a second tracking cycle. If the NAVICP does not receive a report of the turn-in or the material is not received within 45 days for surface and submarine afloat and ashore activities 30 days for aviation ashore activities, or 45 days for aviation afloat activities, a new BK1 will be generated. Only one “K” response code is accepted for each document number. Enter the expected turn-in julian date in cc 62-66.
L	Advice code should have been “5S”. Turn-in will be made on receipt of RFI.
N	Advice code should have been “5R”. Turn-in will be made on receipt of RFI.
P	The requisition being tracked has been canceled. The cancellation was confirmed on the five digit julian date shown in cc 62-66. If the issue was made, carcass tracking continues and carcass value may be billed. This response code does not replace the use of an AC1/AC2 DOC ID request for cancellation.
W	Carcass received, not transshipped.
X	Carcass not received.
Y	Carcass transshipped to activity indicated in cc 41-46.
Z	Carcass transshipped under a different document number to activity indicated in cc 41-46.

Part Q: SALVAGEABILITY AND EXCESS SCREENING CODES

1. GENERAL. The Salvageability and Excess Screening Code is a single digit alpha code. This code indicates the disposition of salvaged items, or whether the item is to be reported for the possible utilization of excess assets by another agency of the Department of Defense.

Code	Definition
A	Return serviceable items to nearest stock point and dispose of non-serviceable items
B	Repair and retain in local stock
C	Return repairable items to nearest stock point for maintenance
N	Not reportable as excess
O	Non-salvageable
Q	Return to Quartz Crystal Repair Facility
R	Reportable as excess
S	Scrap
T	Terminal

Part R: SHELF LIFE ACTION CODES

➔ 1. GENERAL. Shelf Life Action Codes are two digit alpha-alpha, alpha-numeric, or numeric-numeric codes found in card columns (cc) 65-66 of the change notice. These codes are assigned to a shelf life item to specify the type or inspection, test or restorative action to be taken when the item has reached its storage shelf life, and to specify the extension of the shelf life time period after the test or restorative action has been completed. Shelf-life action codes are identified to applicable national stock numbers in the publication, Shelf-life Items. The Navy Administrator for the DOD Shelf-Life Program is NAVICP Code M077, DSN 430-1506. The DOD Shelf-Life Program Web-site is http://www.shelflife.hq.dla.mil.

Code	Definition
C__	Incorporate all mandatory changes, etc., if found satisfactory, reclassify to the number of months indicated after which it is considered unsuitable for restoration to issuable status. Shelf life codes will be used to identify the number of months for which the item is reclassified (see Part S).
CT	Incorporate all mandatory changes, perform minor adjustments required, clean and relubricate bearings, reassemble, test to post overhaul standards and correct any observed discrepancies. Items which pass tests shall be returned to stock as RFI. Exterior package marking of such items shall indicate the latest check and test date and the original date of manufacture. Items which fail test shall be placed in "F" condition.
C0	Check/inspect/test in accordance with inventory manager's instructions.

Appendix 9 **Logistic Management Codes**

Code	Definition
L__	To be tested by the laboratory/activity in increments after the initial time limit has expired. The shelf life code following the "L" indicates increment in which laboratory tests are required. Example: L1 = after initial shelf life period and every three months thereafter, a sample shall be submitted to the laboratory/activity for testing. If item fails test, take disposition action.
RD	Replace all deteriorated and nonmetallic components subject to deterioration (disassemble and process to the level required to permit replacement of deteriorable items; test to post overhaul standards and return to stock as RFI item with fully restored storage time limitations). Exterior package marking of such items shall indicate the latest date of overhaul.
RJ	This is assigned to fuel metering equipment which has been tested by other than MIL - F - 7024A.
RN	Provides for equipment that has been tested with fluids indicated by specification MIL - F - 7024A and has not been operated subsequently with other fluids. Use for fuel metering equipment only)
SA	Salvage.
SB	Request cannibalization/salvage instructions from inventory manager.
S9	Identification of safety items. A safety item designated by the Navy that is subject to a five year age limitation when used for purposes involving safety of personnel. Material in this category that is over five years old will not be used for repair or modification of personnel, drag, or special parachutes, or other uses directly involving personnel safety. Use advice code 2H unless material is being used for cargo parachutes or other uses not involving personnel safety.
T__	Test. If correct, extend life by number of months indicated by the shelf life code following "T", after which process in accordance with Code RD. For flight clothing, test in increments indicated by the shelf life code following "T"; if correct, return to stock as RFI item; if not correct, make necessary repairs to the extent economically feasible and return to stock as RFI item. If test criteria are not available, proceed as follows: a. For 9Q cognizance items, request test and extension criteria from: General Services Administration Office of Standardization and Quality Control (FM) Federal Supply Service Washington, DC 20401 Telephone (202) 5570977 b. For 9C, 9D, 9I, 9M, and 9N cognizance items, refer to DSAM 4155.5, Quality Control Deport Serviceability Standards, distributed to most stock points, and stocked at NPFC Philadelphia. c. For all other items, request advice of service inventory managers.

Code	Definition
UU	Unsuitable for restoration to issuable status. At end of shelf life period material will be disposed of in accordance with existing instructions.
X__	Test; if passed, re-date item to the number of months/years indicated by the shelf life code following "X". If item fails tests, dispose of it in accordance with existing instructions.
00	Not deteriorative. (Always must be shown when shelf life code is "0".)

Part S: SHELF-LIFE CODES

➔ 1. GENERAL. Shelf Life Codes are single digits alpha or numeric codes found in card column (cc) 51 of the change notice. They denote the shelf-life span of material from date of manufacture to the date that the material can no longer be used and should be disposed of, or tested in accordance with the inventory manager's instructions in order to extend the shelf-life. Type I codes (alpha) apply to items for which shelf-life cannot be extended. Type II codes (numeric) apply to items for which shelf-life can be extended. Shelf-life codes are identified to applicable national stock numbers in FEDLOG or in the publication, Shelf-life Items. The Navy Administrator for the DOD Shelf-Life Program is NAVICP Code M077, DSN 430-1506. The DOD Shelf-Life Program Web-site is http://www.shelflife.hq.dla.mil.

Shelf-life codes			Required number of months/quarters shelf life remaining upon receipt by the government	
Type I	Type II	Shelf-life period	Months	Quarters
0	0	Nondeteriorative	N/A	N/A
A	N/A	1 month	1	N/A
B	N/A	2 months	2	N/A
C	1	3 months	3	1
D	N/A	4 months	3	1
E	N/A	5 months	4	1
F	2	6 months	5	2
G	3	9 months	8	3
H	4	12 months	10	3
I	N/A	72 months		
J	N/A	15 months	13	4
K	5	18 months	15	5
L	N/A	21 months	18	6
M	6	24 months	21	7
N	N/A	27 months	23	8
P	N/A	30 months	26	9

Shelf-life codes Type I	Type II	Shelf-life period	Required number of months/quarters shelf life remaining upon receipt by the government Months	Quarters
Q	7	36 months	31	10
R	8	48 months	41	14
S	9	60 months	51	17
T	N/A	84 months	71	24
U	N/A	96 months	82	27
V	N/A	108 months	92	31
W	N/A	120 months	102	34
Y	N/A	144 months	122	41
Z	N/A	240 months	204	68
	X	Medical items, parachutes, and chemical protective clothing with shelf-life longer than 60 months	85% of number of months or quarters	

Part T: SOURCE OF SUPPLY CODES

1. GENERAL. The Source Of Supply (SOS) Code is a three digit alpha code found in card column (cc) 69-71 of the change notice. These codes will be the routing identifier of the inventory manager whenever possible. When requisitions cannot be addressed to a single routing identifier, such as for certain General Services Administration items, the following source of supply codes will be used.

Code	Definitions
JCA	Authorization and procurement purposes (IMM/service)
JCK	Condemned
JCL	Local manufacture - fabricate or assembly (DLA/service)
JCM	Depot manufacture - fabricate or assembly (service)
JCR	Reference to phrase (service)
JDC	Commercial (DLA)
JDF	DESC distribution plan/contract bulletin and special procurement programs
JDS	DLA supply schedule
JGC	Commercial (GSA)
JGG	GSA regional support of the item in the area of the originator (GSA)
JGS	Federal supply schedule (GSA)

Code	Definitions
JSB	Schedule of blind-made products (service)
JSC	Commercial (service)
JSP	Federal prison industries (service)
JSY	Local purchase U3A, Appendix A, aircraft spares only
JVC	Commercial
JVS	Federal Supply Schedule/Decentralized Schedule

Part U: SPECIAL CODING INDICATOR

1. GENERAL. Special Coding Indicators are single digit alpha or numeric codes found in card column (cc) 78. They supplement the management code data provided in cc 72 of Navy referral orders.

Code	Definition
G	TYCOM approved referral for Fleet controlled material backorders
T	Warehouse refusal

Part V: SPECIAL MATERIAL CONTENT CODES

➔ 1. GENERAL. The Special Material Content Code is a single digit alpha code found in card column (cc) 62 of the change notice. This code denotes an items physical characteristics which require the item to be specially handled and/or safeguarded. The point of contact is NAVICP Code M077, DSN 430-2694.

Code	Explanation
A	Medical items (Drugs/Narcotics/Antibiotics/Medical Kits. Storage and custody requirements for medical supplies are provided in NAVMED P-117, Manual of the Medical Department.
B	Flammable compressed gas.
C	Corrosive Solids/Corrosive Liquids (other than acid)
D	Alcohol (ethanol, ethyl alcohol or grain alcohol only). Storage and custody requirements for medical supplies are provided in NAVMED P-117, Manual of the Medical Department.
E	Precious metals.
F	Flammable liquid, flash point not more than 60 degrees C (140 degrees F)
G	Combustible liquid, flash point 60 degrees C (140 degrees F) to 93 degrees C (200 degrees F)
H	PCB (item contains Polychlorinated Biphenyls)

Appendix 9 **Logistic Management Codes**

Code	Explanation
I	Mercury (not authorized for submarine use)
J	Oxidizing material
K	Organic Peroxides
L	Other Regulated Materials (ORM) or Class 9 (misc. hazardous materials)
M	Magnetic
N	Asbestos (item capable of emitting asbestos dust/fibers)
O	Mercury (not authorized for any shipboard use)
P	Poison (including methanol, wood alcohol, and denatured alcohol). Storage and custody requirements for medical supplies are provided in NAVMED P-117, Manual of the Medical Department.
Q	Explosive non-ordnance items
R	Radioactive material
S	Oils/Petroleum Products (not otherwise specified)
T	Toxic substance. Storage and custody requirements for medical supplies are provided in NAVMED P-117, Manual of the Medical Department.
U	Mercury (authorized for general use)
V	Acid
W	Non-flammable compressed gas
X	Radioactive and magnetic material
Y	Nonmagnetic (must remain free of strong magnetic field)
Z	Flammable solids
2	Electrostatic Discharge (ESD)/Electromagnetic (EM) Sensitive item
3	Electrostatic Discharge Sensitive (ESDS) item
4	Electromagnetic (EM) Sensitive Item.
5	Hazardous Material (non-specific), items unique formulations may produce different hazard classes. Consult item's Material Safety Data Sheet (MSDS) or container warning label.
6	Explosive, Ordnance items
7	Dangerous When Wet Material
8	Spontaneously Combustible Material
9	Non-hazardous or Non-sensitive item requiring no hazardous or special handling, packaging or precautions

Part W: STANDARDIZATION STATUS CODES

1. GENERAL. The Standardization Status Code is a single digit alpha or numeric code which reflects the standardization status of the item of supply identified by the national stock number. This code will be changed to correspond with the official Department of Defense item standardization code established by the responsible standardization activity.

Code	Term	Explanation
A	Item authorized for procurement	A new item processed through a defense technical review activity and authorized for procurement that cannot be replaced with an existing item.
B	Item authorized for procurement	A new item authorized for procurement that is contained in a new or revised superseding specification or standard that replaces prior items. This item will not be assigned a national stock number or an item standardization code until a requirement for the item is generated.
C	Item authorized for procurement	An item authorized for procurement that has been included in an item reduction study but an intelligent decision could not be made due to lack of technical information.
D	Item authorized for procurement	A new item processed through a defense technical review activity and authorized for procurement but an intelligent decision could not be made due to lack of technical data.
E	Item not authorized for procurement	An item no longer authorized for procurement which has been replaced by a new item as the result of new or revised superseding specifications or standards being promulgated. The replacement item will not have a national stock number assigned until a requirement is generated. In the interim period, the specification or standard part number will be shown as the replacement.
0	Item authorized for procurement	Standardization status code is not applicable except items under the specification control of Nuclear Regulatory Commission or National Security Agency.
1	Item authorized for procurement	An item authorized for procurement which was initially identified as the result of a formal item reduction study and which was accepted as a replacement for one or more items not authorized for procurement.
2	Item authorized for procurement	An item authorized for procurement which as been included in an item reduction study and which initially does not replace an item not authorized for procurement.
3	Item not authorized for procurement	An item, which as a result of a formal item reduction study, is accepted as not authorized for procurement.

Code	Term	Explanation
4	Departmental standard item	Item of supply determined to be a standard for departmental procurement and so recorded in a standard, drawing, or other document officially identified as a standard of a department.
5	Item authorized for procurement	An item authorized for procurement that has not yet been subject to item standardization.
6	Item authorized for procurement	An item authorized for procurement that is in a specific federal supply classification class or item name grouping consisting primarily of items which are one of a kind and, therefore, little or no potential exists for elimination of items through formal item reduction studies.
7	Reserved for Department of Defense use	
8	Reserved for Department of Defense use	
9	Civil agency not authorized for procurement	Item of supply determined by General Services Administration standardization action as not authorized for procurement and so designated by official General Services Administration documentation.

Part X: SUPPLY STATUS CODES

1. GENERAL. The Supply Status Code is a single digit numeric code used for Defense Logistics Agency managed material, in the same manner as material control codes are used for Navy managed material. The following supply status codes are authorized for use as appropriate by individual Defense Supply Centers.

Code	Term	Explanation
A	Insurance/ numeric stockage objective	Centrally procured and stocked in nominal quantities only due to the essentiality or lead time of the item.
1	Stocked	Centrally procured, stocked, and distributed under control of an ICP.
2	Non-stocked, local purchase	Main means of supply is local purchase. Item not stocked in domestic depot system. Appeal to ICP indicated by source of supply column in the DOD Section of the Federal Supply Catalog or to prescribed purchasing activity, when unable or not permitted to procure locally.
3	Non-stocked, centrally procured	Centrally procured for shipment directly to user or another service; not stocked by procuring activity.
4	MAP	Centrally procured or stocked solely for Military Assistance Program.
5	Reference	Stock number assigned for use in bid invitations, allowance lists, etc., against which no stocks ever are recorded.
6	Terminal, stocked	Item in stock and being issued until exhausted. Not authorized for future procurement. Code includes standardization status code 3 or E (not authorized for procurement) items.
7	Stocked for overseas only	Centrally procured, stocked, and distributed under control of ICP for requirements overseas, Alaska and Hawaii only. Requirements for the United States excluding Alaska and Hawaii are purchased locally.
8	Stocked, GFM-GFP	Centrally procured and stocked as government furnished property (GFP) for use in manufacture of items.
9		Item retained in the system as an item of supply due to (1) its use in active allowance parts lists: tables of organization and equipment; technical manuals; repair parts stockage list, etc., and (2) stocks of the item are in use, on hand, below the wholesale level. Procurement or stockage at the wholesale level is unauthorized.
0	No supply	Activity interest in item is limited to that reflected in catalog status responsibility code (e.g., code 10000 or 60000). Code not used in published catalogs.

APPENDIX 10

MILSTRAP CODES

Part A: ASSET STATUS/TRANSACTION REPORTING CODES

1. GENERAL. The Asset Status/Transaction Reporting Code is a single digit alpha or numeric code found in card column (cc) 7 of the Asset Status/Transaction Reporting Request and the Asset Status Report. This code identifies the type of reporting required and indicates whether a request is for commencement, change or termination of reporting. Each new code will update the reporting requirement. In Asset Status Reports this code identifies the type of reporting being furnished.

Code	Definition
A	Commence transaction reporting on the date indicated in cc 23-26 as transactions are processed. Commencement of transaction reporting will be preceded by submission of an asset status report (DI DZF) containing the ending balances for the previous day.
B	Commence transaction reporting plus daily asset status reporting (DI DZF) on the date indicated in cc 23-26.
C	Commence daily asset status reporting (DI DZF) on the date indicated in cc 23-26.
D	Commence monthly asset status reporting (DI DZF) on the date indicated in cc 23-26.
E	Terminate reporting on the date indicated in cc 23-26.
F	Change type of reporting to transaction reporting (Code A above) on the date indicated in cc 23-26.
G	Change type of reporting to transaction reporting plus daily asset status reporting (Code B above) on the date indicated in cc 23-26.
H	Change type of reporting to daily asset status reporting (Code C above) on the date indicated in cc 23-26.
J	Change type of reporting to monthly asset status reporting (Code D above) on the date indicated in cc 23-26.
K	Commence transaction report as soon as possible. Commencement of transaction reporting will be preceded by submission of an asset status report (DI DZF) containing the ending balances for the previous day.
L	Commence transaction reporting plus asset status reporting (DI DZF) as soon as possible.
M	Commence daily asset status reporting (DI DZF) as soon as possible.
N	Submit a one-time as-set status report (DI Code DZE) for the asset visibility/ redistribution program. Submit the report by the date indicated in cc 23-26. Restricted for use based on agreement of the Components involved.

Code	Definition
P	Report assets above the activities requisitioning objective using MILSTRIP DI FTE. Restricted for use based on agreement of the Components involved.
Z	One time asset status report is requested/furnished on an expedited basis. The date the report is required will be entered in cc 23-26.

Part B: CORRECTION/CHANGE CODES FOR STORAGE ITEM RECORDS

1. GENERAL. The Correction/Change Code For Storage Item Records is a single digit alpha or numeric code found in card column (cc) 7 of the Storage Item Data Correction/Change transaction. This code indicates the nature of the change, actions to be taken and affected data fields. Codes A through Y are for intra-Navy use only. All other codes will be used on both inter-service/agency and intra-Navy.

Code	Title	Definition
A	Local Control	Items not centrally managed. Take appropriate local supply action.
B	Cognizance Transfer	Report material to new cognizance manager. If new NSN it will be entered in cc 33-47.
C	Management Activity (Cog) Change	Future receipts of material under the new NSN will be reported to the acquiring IM.
D	Management Activity (Cog) Change	Material transferred to new IM under same stock number.
E	Cognizance Symbol Change	Returned for correction of stock point records only.
F	FSC Change	Change Federal Supply Classification portion of stock number only.
G	NSN Suffix Change	SMIC, DOD Logistic Code, etc. only changes.
H	Material Control Code Change	Returned for correction of stock point records only.
J	Unit Price Change	Returned for record conversion only.
K	Item No Longer Stocked as an Assembly	Break down material held or subsequently received to individual parts and place in store.
L	Item Deleted	Dispose of material on hand or subsequently received.
M	Item Deleted	Fill requirements by fabrication, salvage or assembly.

MILSTRAP Codes **Appendix 10**

Code	Title	Definition
N	Item Deleted	Attrite retail item stocks. If Navy centrally managed item, contact inventory manager for instructions if item is received in the future.
P	Submitted by a Non-Reporting Activity	Returned for correction of stock point records only. Your activity is not a reporting activity for the cognizance symbol reported.
Q	Replace of Item by Next Higher Assembly	
Y	Manager	Indicates that the correct manager is in cc 56-58.
Z	New or Reinstated NSN	Indicates NSN in cc 8-24 is new or reinstated. Not to be transmitted by the Gaining Inventory Manager.
1	Consolidation of NSNs	Indicates the item represented by the NSN in cc 8-24 is to be consolidated with the item represented by the NSN in cc 27-43. Both items will be issued under he NSN in cc 27-43.
2	Change of NSN	Indicates the NSN for the item in cc 8-24 has been changed to the NSN for the item in cc 27-43.
3	Change of Shelf-Life Code	Indicates the shelf-life code has been changed for the item represented by the NSN in cc 8-24. The new shelf-life code is shown in cc 51.
4	Change of CIIC Code	Indicates the Controlled Inventory Item Code (CIIC) has been changed for the item represented by the NSN in cc 8-24. The new CIIC is shown in cc 52.
5	Change of Unit of Issue	Indicates the unit of issue has been changed for the item represented by the NSN in cc 8-24. Unit of issue will be changed in accordance with the conversion factor reflected in cc 46-50.
6	Multiple Changes	Indicates multiple changes for the item represented by the NSN in cc 27-43.
7	Change of DEMIL Code	Indicates the Demilitarization code has been changed for NSN in cc 8-24. New DEMIL code is shown in cc 53. Not to be transmitted by the Gaining Inventory Manager.
8	NSN Deleted without Replacement	Indicates NSN in cc 8-24 has been deleted and not replaced. Not to be transmitted by the Gaining Inventory Manager.
9	NSN Change with Logistic Transfer (Loss)	Indicates NSN in cc 8-24 has been changed to NSN in cc 27-43 with logistic transfer (loss). The Gaining Item Manager (GIM) is indicated in cc 56-58. Not to be transmitted by the Gaining Inventory Manager.

Part C: REQUEST CODES (ASSET SUPPORT REQUESTS)

1. GENERAL. Request Codes for Asset Support Requests are single digit alpha codes found in card column (cc) 7. They identify the type of data requested and furnished.

Code	Definition
A	Request for Asset data. Input of this code results in output of DI DTB.
B	Request for Backorder data. Input of this code results in output of DI DTC.
C	Request for both Asset and Backorder data. Input of this code results in output of both DI DTB and DTC.
J	Output by IMM in response to a follow-up which contained Request Code A.
K	Output by IMM in response to a follow-up which contained Request Code B.
L	Output by IMM in response to a follow-up which contained Request Code C.

Part D: REVIEW PERIOD INDICATOR CODES

1. GENERAL. Review Period Indicators are single digit numeric codes found in card column (cc) 7. They identify the review period relative to the ETD.

Code	Definition
1	ETD minus 120 days review period.
2	ETD minus 30 days review period.
3	ETD minus 90 days review period.
4	ETD minus 270 days review period.

Part E: SMALL ARMS TRANSACTION CODES

1. GENERAL. Small Arms Transaction Codes are single digit alpha or numeric codes found in card column (cc) 7. They are used for reporting changes affecting the small arms status in the master file of the Component Registries and the DOD Registry. Numeric codes are pre-designated for intra-Army use only. Codes not listed herein are reserved for future DOD assignments.

Code	Definition
A	Weapon not received. Used to respond to follow-up request.
B	Initial registration of small arms.
C	Inventory Adjustment Gain. Reports of a serial number gain through inventory adjustments will be made under this transaction.
D	Shipment Reversal. Used to reverse an invalid shipment transaction (Code S) for which a serial number was previously reported to a Component Registry.
E	Used for intra-Service/Agency reconciliation of small arms serial numbers.
F	Shipment to Foreign Military Sales (FMS)/Grant Aid. Used for issues of small arms directed under Grant Aid or FMS agreements.
G	Shipment to General Officers. Used to record issues to general officers.
H	Mass Stock Number Change. Used by the Component Registry to accommodate stock number changes in small arms.
I	Interrogation/Inquiry Record. Enter all inquiries from law enforcement agencies and from appropriate military and civilian activities for weapons located in foreign countries on the DOD Registry file when no record exists on the active or inactive file.
J	Emergency Suspense Status. Includes weapons shipped for mobilization or shipments with personnel/units to combat areas pending return to the supply system.
K	Multi-Field Correction. Used by reporting activities to correct erroneous serial number, NSN, MCN, LCN, or owning activity address (DODAAC/UIC of activity in possession of the weapon) reported and posted to the Component Registries master file.
L	Inventory Adjustment - Loss. Reports inventory adjustment loss after all investigative requirements, including report of survey, have been initiated.
M	DODAAC/UIC Mass Change. This transaction will cause all serial numbers to be dropped from a DODAAC/UIC (cc 51-56) and to be recorded with another DODAAC/UIC (cc 45-50), which normally results from unit redesignation. Only one transaction is required to change the DODAAC/UIC in all records.

Appendix 10 MILSTRAP Codes

Code	Definition
N	Shipment to Other Agencies. Reports shipments to activities outside the control of DOD. This would include shipments to civilian activities, non-DOD governmental activities and nonreporting (classified) military activities. Excludes FMS/Grant Aid shipments.
P	Procurement Gains. Prepared by procurement sources for initial registration of weapons when they are shipped.
Q	Notification of Suspected Loss. Reports potential loss or stolen weapon, and investigation/report of survey is in process.
R	Receipt. Confirms receipts of small arms from one reporting activity to another. Used to report receipts between DOD activities.
S	Shipment. Reports shipment from one reporting activity to another. Used to report shipments between DOD activities.
T	Confirmation of completed shipment from one Service/Agency to another. Used by the DOD Registry to reflect shipments completed between Services.
U	Found or Recovered. Investigation/report of survey completed, if required. Weapon has been located.
V	Demilitarization. Used by demilitarization activities to report destruction of weapons through demilitarization.
Z	Initial Registration and Shipment. Used for registering the shipment of unregistered stock. Serves a dual purpose as B and S transactions.
2	Intra-Army use only. Expanded tactical category I non-nuclear missile(s) or rocket(s). This code is used when the missile or rocket has been expended in use (fired) and terminates the requirement to report under the DOD SASP.

Part F: TYPE OF PHYSICAL INVENTORY/TRANSACTION HISTORY CODES (RECORD POSITION 7 IN PHYSICAL INVENTORY DOCUMENT OR RECORD POSITION IN ASSET STATUS TRANSACTIONS)

1. GENERAL. Type of Physical Inventory/Transaction History Codes are single digit alpha or numeric codes. They are used in physical inventory/transaction history documents to identify the type of inventory being conducted/requested, or to identify requests for/transmission of custodial balances/transaction history.

A, B, F, O, Q, Y and Z are reserved for future DOD assignment.

Code	Definition
C	Special inventory, all supply condition codes. Initiated by owner, accountable officers, or storage activity.
D	Special inventory, all supply condition codes. Initiated by owner as a result of end of day processing imbalances.
E	Spot inventory due to denial (all supply condition codes). Initiated by the storage activity or owner as a result of denials.
G	Scheduled inventory to be conducted within a specific period of time.
H	Special inventory, all supply condition codes. Initiated by owner when the date of last inventory is less than 90 days.
I	Scheduled inventory, all condition codes. Initiated by storage activity.
J	Special inventory, all condition codes. Initiated by owner as a result of location reconciliation errors.
K	Special inventory, all condition codes. Initiated by storage activity as a result of location survey errors.
L	Scheduled inventory, specified condition codes. Initiated by owner for a random statistical sample inventory.
M	Special inventory, all condition codes. Initiated by storage activity as a result of on-hand balance mismatches between locator & property accountability records.
N	Scheduled inventory, specified condition codes. Initiated by storage activity for the annual statistical sample inventory.
P	Scheduled inventory, specified condition codes. Initiated by storage activity for a random statistical sample inventory.
R	Special inventory, specified condition codes. Initiated by storage activity in an effort to resolve a customer report of discrepancy.
S	Special inventory, specified condition codes. Initiated by storage activity as part of receipt follow-up (in transit) resolution process.
T	Special inventory, specified condition codes. Initiated by storage activity as a result of a disposal release order directing ownership transfer to the recycling control point.

U Special inventory, specified condition codes. A location-level inventory initiated by storage activity for low asset visibility counts.

V Special inventory, specified condition codes. Initiated by storage activity as a result of a location-level inventory adjustment or exceeding predetermined thresholds.

W Automatic submission of transaction history from storage activity to owner.

↑ X Storage activity transaction history requested by owner; or transaction history response from storage activity to owner.

Part G: SMALL ARMS ERROR TRANSACTION REJECT CODES

1. GENERAL. Small Arms Error Transaction Reject Codes are two digit alpha numeric codes found in card column (cc) 23-24 which identify the type of transaction error. These codes will be used on reject transactions to identify erroneous transactions rejected by the DOD and Component Registries.

Error Code	Error Message	Solution
05	Identifies an existing small arms record on the Component Registry Master File but reporting activity did not submit E reconciliation record.	Verify active/inactive records. If weapon is on active file, return the error transaction code to the Component Registry with the required transaction in cc 7 to indicate that the Component Registry is correct, thereby removing the reject suspense and precluding follow-up action.
06	Identifies a duplicate E record submitted for reconciliation by a reporting activity.	No action required, duplicate records will be rejected to the Component Registry for verification action. Number of duplicates will be identified as summary information to the activity being reconciled.
07	Identifies a reconciliation request submitted to the Component Registry that reflects another reporting activity as the owner. Reject is included in the Small Arms Record Reject Suspense File which must be cleared to complete the reconciliation.	Verify active/inactive records. (1) If a receipt, request shipping activity to submit required shipment transactions and resubmit error transaction with an R in cc 7 and other pertinent data as required to post to Master file and remove the reject suspense. (2) If not a receipt of shipment, and weapon is physically on hand as reported, take the necessary action prescribed for duplicate serial numbers within the same NSN.

Error Code	Error Message	Solution
08	Reflects confirmation that the Component Registry had added a serial number as a result of a reconciliation E transaction processed. No prior receipt of a transaction record received by the Component Registry.	No action required, the record will be recorded in the next Component Registry Master File update as an initial registration. The number of Code 8 records posted to the Component Master File will be identified as summary information to the activity being reconciled.
09	Identifies a reconciliation request submitted to the Component Registry that is not scheduled for reconciliation on date received.	Verify when reconciliation is scheduled. Reject suspense will not be created.
1A	NSN not equal to current NSN	DOD Registry and Component Registry use.
1B	Invalid NSN	DOD Registry and Component Registry use.
IC	NSN table date invalid	DOD Registry and Component Registry use.
2A	Document identifier code/ routing identifier code invalid	Notify reporting activity of the error condition so that its files will be corrected. Correct and resubmit transaction.
2B	Serial number contains blanks	Notify reporting activity of the error and request a corrected transaction be submitted.
2C	Invalid transaction code	Correct and resubmit transaction.
2D	Unmatched stock number	(1) If the stock number is not reportable, notify the reporting units to discontinue reporting for this stock number. (2) If the stock number is in error, notify the reporting activity of the error and request that a corrected transaction be resubmitted. (3) If the stock number is valid and pertinent but does not appear in the stock number file, prepare and submit transaction H to the computer.
2F	Document number date in error	Verify, correct and resubmit transaction.
2G	Document number serial in error	Verify, correct and resubmit transaction.
2J	Invalid DODAAC/UIC from or DODAAC/UIC to a mass change	Assure that DODAAC/UIC from-to are valid and in the file, correct DODAAC/UIC.

Error Code	Error Message	Solution
2K	Invalid DODAAC/UIC in document number	Verify, correct and resubmit transaction.
2L	Invalid transaction date	Verify, correct and resubmit transaction.
2M	Action date greater than current date.	Verify, correct and resubmit transaction.
20	Invalid DODAAC/UIC	Verify, correct and resubmit transaction.
3A	Document number interrogation exceeds limit	Correct and return transaction by next cycle. Notification will be by card/listing. Listings will reflect error code and narrative description.
3B	Serial number interrogation exceeds limit	Correct and return transaction by next cycle. Notification will be by card/listing. Listings will reflect error code and narrative description.
3C	Stock number interrogation exceeds limit	Correct and return transaction by next cycle. Notification will be by card/listing. Listings will reflect error code and narrative description.
3D	DODAAC/UIC number interrogation exceeds limit	Correct and return transaction by next cycle. Notification will be by card/listing. Listings will reflect error code and narrative description.
3F	Transaction date prior to master file.	Verify, correct and resubmit transaction.
3G	Unmatched transaction	Missing transaction(s). Verify, correct and resubmit transaction.
3H	New serial number matches previously established master file	Error in reported serial number or duplicate serial number exists. Reporting activity must be contacted to verify reported serial number if serial number is in error. Correct and resubmit transaction.
3I	From DODAAC/UIC in transaction does not match DODAAC/UIC in master file	Verify, correct and resubmit transaction.

Error Code	Error Message	Solution
3J	Transaction matches on stock number but not on serial number	Serial number error exists in transaction or there are missing transactions in the computer. Verify, correct and resubmit transactions.
3K	Receipt transaction received prior to shipment transaction	Post receipt. Reject transaction to shipping activity. Verify serial number shipped and correct if required.
3L	Input transaction is incompatible to master file	Compare rejected transaction against master file and take necessary action to make input transaction (cc 7) compatible, e.g., S transaction on the master file will accept R transaction only.
3M	Duplicate on serial number, stock number and transaction code	Request printout from the computer by stock number and serial number (transaction code 3). Examine transaction to determine if transaction is an exact duplicate. If it is not, correct and resubmit transaction
3U	NSN and Weapons Serial Number duplicates another weapon on Master File	(1) Verify NSN (cc 8-22) and serial number (cc 57-67) of weapon. If correct, resubmit correct transaction. (2) If correct and weapon was received from activity shown in master file, submit receipt R transaction to the Component Registry. (3) If correct and weapon was not received from activity shown on master file, take the necessary action described for duplicate serial numbers within same NSN.

Part H: TYPE DUE-IN INDICATOR

1. GENERAL. The Type Due-in Indicator is a single digit numeric code found in card column (cc) 49 and 67 which identifies the type of due-in.

Code	Definition
1	Purchase request.
2	Contract.
3	Other.

Part I: TYPE OF INSPECTION CODES

1. GENERAL. Type of Inspection Codes are single digit numeric codes found in card column (cc) 48 which identify the level of quality control.

Code	Definition
1	Contractor.
2	Standard source inspection.
3	Inspection in accordance with MIL-I-45208A.
4	Inspection in accordance with MIL-I-Q-9858A.

Part J: TYPE OF MEDIA CODES

1. GENERAL. Type of Media Codes are single digit alpha codes found in card column (cc) 60. They identify the type of media for transmittal of Inventory Control Point (ICP) requested transaction history.

Code	Definition
A	Transaction images to be transmitted by electronic methods.
C	Transaction images to be transmitted in punched card format.
L	Listing of transaction history to be mailed.
T	Transaction images to be transmitted by magnetic tape.

Part K: COMPETITIVE CHARACTERISTICS CODE

1. GENERAL. The Competitive Characteristics Code is an obsolete single digit alpha code found in card column (cc) 65. It describes the basis for competitiveness or noncompetitiveness, formerly published in DFARS. The code is published here only for convenience in interpreting the data when entered in the DI Code DLW, Logistics Reassignment Contract History Data transaction.

Code	Definition
A	Price competitive.
B	Design/technical competitive.
C	Follow on after price competition.
D	Follow on after design/technical competition.
E	Noncompetitive - catalog or market price.
F	Noncompetitive - other.

Part L: ASSET TRANSFER STATUS CODES

1. GENERAL. Asset Transfer Status Codes are two digit alpha codes found in card column (cc) 65-66. These codes are used for response to the Gaining Item Manager (GIM) follow-up request for asset data. Also used for follow-up and reconciliation requests for due-in information pertaining to logistically reassigned items.

Code	Definition
AA	No assets are available for transfer (applies to DI DLB). No record of due-in, cancel memorandum due-in record (applies to DI DLD and DLF).
AB	DI DEE/DEF Logistic Transfer/Decapitalization transactions and DI DD_/DF_ due-in transactions (provided due-in existed) previously. Losing Item Manager will submit duplicate transactions (applies to DI DLB). Due in full or partial quantity has been received. Losing Item Manager will provide duplicate DI DEE/DEF logistics transfer/decapitalization transactions and DI D4X/D6X memorandum receipt transactions (applies to DI DLD and DLF).
AC	DI DEE/DEF Logistic Transfer/Decapitalization transaction will be submitted (applies to DI DLB).
AD	No assets are available for transfer but due-ins exist. Due-in transactions will be submitted (applies to DI DLB). Delinquent due-in exists. Routine follow-up action will be taken by the Losing Item Manager (applies to DI DLD and DLF).
AE	Additional due-in available for transfer. Losing Item Manager will provide memorandum due-in (applies to DI DLF when additional due-in is available for transfer or when no DI DLE was received).
AF	Change to estimated delivery date. Revised delivery date is provided (applies to DI DLD and DLF).
AG	Original due-in transaction has been reversed (i.e., canceled). Cancel delinquent due-in (applies to DLD or DLF).
AH	Original pre-award procurement due-in has been awarded on a contract. Losing Item Manager will submit DI DDX for the pre-award due-in and a new DI DDX with contract number, quantity, estimated delivery date, etc (applies to DI DLD or DLF).
AI	Contract delivery action is complete. Losing Item Manager will submit DI DDX reversal for the portion of the due-in quantity not received (applies to DI DLD or DLF).
AJ	Material pending litigation or returned to contractor. Gaining Item Manager will retain due-in pending resolution by ACO (applies to DI DLD and DLF).
AK	Invalid due-in. Original due-in transaction will be reversed (i.e., canceled) (applies to DI DLD or DLF).

Part M: SPECIAL PROGRAM REQUIREMENT STATUS CODES

1. GENERAL. Special Program Requirement Status Codes are two digit alpha codes found in card column (cc) 65-66 of the Special Program Requirement (SPR) Status Document. They are used to inform forecasting activities submitting SPR documents of action taken.

Code	Definition
PA	Request or modifier accepted. Submit requisition in time to allow for delivery within the appropriate UMMIPS time standard.
PB	SPR is not within ICP acceptance criteria. ICP will maintain the SPR quantity only until procurement lead-time and/or assembly time away from the support date to advise the activity of any technical or management changes and to assure return/retention should unexpected assets materialize. Continuation of this requirement into the procurement lead-time and/or assembly time period depends solely on receipt of a requisition sufficiently in advance of the support date. The number of days for procurement lead-time and/or assembly time included in the support date is indicated in cc 62-64.
PC	Request or modifier accepted. Extra time is required to assemble after receipt of requisition. The required assembly time in number of days is included in cc 62-64.
PD	Cancellation accepted.
PE	Rejected. The request is a duplicate of a previously submitted request.
PF	Rejected. Remarks listed herein or separate correspondence referring to this document number explain reason for this action.
PJ	Rejected. Item coded (or being coded) "obsolete" in latest stock lists/catalogs. See superseding item in stock number field. Resubmit under stock number of superseding item.
PM	Rejected. Request received less than 90 days in advance of the support date. Submit requisition.
PN	Rejected. Source of supply is local manufacture or fabrication.
PP	Rejected. Source of supply is local procurement.
PQ	Rejected. Stocks not available to meet your support date. Procurement/assembly required. Request received less than procurement lead-time/assembly time in advance of support date. Procurement lead-time/assembly time in number of days is in cc 62-64. Submit funded requisition.
PR	SPR for which a PB status code was previously furnished is now procurement lead-time and/or assembly time away from support date. Immediate requisition is needed to continue this requirement and to allow for delivery in time to meet support date.
PS	Rejected. The item is coded (or is being coded) as a terminal item in latest stock lists/catalogs and has no known replacement.

MILSTRAP Codes **Appendix 10**

Code	Definition
PT	Substitute item available. If substitute stock number shown in stock number field is acceptable, resubmit using DI DYG and submit requisition in item to allow for delivery within the appropriate UMMIPS time standard. In the event substitute item is not acceptable, resubmit using DI DYH.
PV	Canceled. Item has been logistically reassigned to the activity indicated in cc 77-79. Submit new SPR to gaining activity.
PW	This is an interim reply to your request. Manual review being made and additional response will be furnished.
PX	Rejected. The item is an Acquisition Advice Code J item (centrally procured for shipment directly to user or another service, not stocked by procuring activity). Submit funded requisition in time to permit procurement. Procurement lead-time in days is shown in cc 62-64.
PY	Canceled. Item has been changed from stocked to nonstocked by the integrated Material Manager. If still required, submit requisition for quantity required so that procurement action can be initiated for direct shipment.

Part N: OWNERSHIP CODES

1. GENERAL. Ownership Codes are single digit numeric codes found in card column (cc) 70. They provide a means of segmenting inventory balances, accounted for in inventory control records of a military service/DLA but which are owned by others. Further segmentation of these stocks by Purpose Code is neither prescribed nor intended.

Code	Title	Definition
1	Army	Stocks held on inventory control records of a non-Army item manager but owned by Army.
2	Defense Logistics Agency	Stocks held on inventory control records of a non-DLA item manager but owned by DLA.
3	Others	Stocks held on inventory control records of a service/agency item manager but owned by an agency outside of DOD.
4	Marine Corps	Stocks held on inventory control records of a non-Marine Corps item manager but owned by Marine Corps.
5	Navy	Stocks held on inventory control records of a non-Navy item manager but owned by Navy.
6	Air Force	Stocks held on inventory control records of non-Air Force item manager but owned by Air Force.
7	Other DOD	Stocks held on inventory control records of a service/agency item manager but owned by a DOD agency other than a military service or DLA.
8	MAP	Stocks held on inventory control records of a service/agency item manager but owned by the military assistance program.
9	Other Item Manager	Stocks held on inventory control records of a service/agency item manager but owned by another item manager within that same military service or DLA.
➔ 0	Special Operations Forces	Special Operations Forces Stocks held on inventory control record of a non-Special Operations Forces item manager but owned by Special Operations Forces.

Part O: PURPOSE CODES

1. GENERAL. Purpose codes are single digit alpha codes found in card column (cc) 70. These codes provide the owner of material with a means of identifying the purpose or reason for which an inventory balance is reserved.

Code	Definition	Explanation
A	General Issue	Stock held which are available for general issue and which are not earmarked or reserved for other specific purposes.
B	General Mobilization	Stocks held for general mobilization reserve material objectives. This code may be reflected as a control level under purpose code A. Only those items selected for stockage in accordance with military service/DLA guidance and which are to be protected will be reflected under this code.
C	Specific Mobilization Reserve	Stocks held to meet specific mobilization reserve material objectives. This code may be reflected as a control level under purpose code A. Only those items selected for stockage in accordance with military service/DLA guidance and which are to be protected will be reflected under this code.
D	PWRS Mobilization Reserve	Stock held to meet prepositioned war reserve material objectives. This code may be reflected as a control level under purpose code A. Only those items selected for stockage in accordance with military service/DLA guidance and which are to be protected will be reflected under this code.
E	Reserved for Specific Plans or Projects	Stocks held to support requirements generated by a specific plan, project, or operation other than general, specific, or PWRS mobilization objectives.
F	(1) Reserved for Production, Maintenance and Reclamation (2) FBM Tactical Components for production	Stock held to support military service/DLA accomplished repair, alteration, modification, conversion, assembly, or reclamation program.
	(3) Expendable Ordnance	Previously repaired expendable ordnance components in production for assembly. Not applicable to U.S. Navy ammunition in the SMCA.
G	Reserved for Provisioning	Stocks held to support provisioning of end-items.
H	Reserved for GFM	Stocks held for issue as government furnished material to support contractually accomplished repair or production programs.

Appendix 10 **MILSTRAP Codes**

Code	Definition	Explanation
I	Reserved	Handled under the Recycle Control Point Project owned by S9W.
J	Reserved for MAP	Stocks allocated and earmarked for Military Assistance Program/ NATO countries grant aid.
K	Reserved for loan	Stocks held for issue on a loan basis
L	Pack-up Kits	SHORCAL consumer level retail pack-up kits.
M	Potential DOD Excess	Stocks that have been determined to be in excess of authorized retention levels and are held pending completion of DOD utilization screening.
N	Reserved for FMS	Stocks allocated and earmarked for FMS.
P	Reserved for CLSSA	Stocks allocated and earmarked for issue against U.S. commitments under Cooperative Support Arrangements.
Q	JCS Allocated Stocks	Stocks allocated and earmarked for certain JCS requirements.
R	Reserved	For use by Surface Ship Improvement Program.
S	Planned Requirements	Stocks protected by inventory manager for subsequent drawdown by customer
T	Modernization and Backfitting Stock	Material required for backfitting stock and modernization and controlled by the Naval Aviation Logistics Center. This code also applies to material required for NAVSEASHIPALTS.
U	Wholesale Storage Sites Assets	Special categories of high intensive management items held in controlled areas or under special processing procedures
V	Depot/Overhaul New Production Stocks	(1) Depot level overhaul stock. (2) NAVSEA new construction. (3) New production expendable ordnance components for assembly.
W	Other Special Pools and Programs	Organization and intermediate level retail stock; fixed allowance stock
X	FBM AIM Components	
Y	Radioactive-Contaminated	Stocks reserved for decontamination processing.
Z	Locally Established Planned Requirements	(1) Planned requirements recorded locally to support specific repair or alteration programs. (2) FBM AIM (Active Inert Missile) components

Part P: DISPOSAL CONDITION CODES

1. GENERAL. Disposal Condition Codes are single digit alpha or numeric codes assigned by the Defense Reutilization and Marketing Office (DRMO) to accurately describe the material physical condition based upon inspection of material at time of receipt.

	Code	Title	Definition
➔	1	Unused - Good	Property which is in new condition or unused condition and can be used immediately without modification or repairs.
	2	Unused - Fair	Unused property that is usable without repairs but is deteriorated or damaged to the extent that utility is somewhat impaired.
	3	Unused - Poor	Unused property that is usable without repair but is considerably deteriorated or damaged. Enough utility remains to classify the property better than salvage.
➔	4	Used - Good	Property which shows some wear, but can be used without significant repair.
	5	Used - Fair	Used property that is usable without repairs but is somewhat worn or deteriorated and may soon require repairs.
	6	Used - Poor	Used property that may be used without repairs but is considerably worn or deteriorated to the degree that remaining utility is limited or major repairs will soon be required.
➔	7	Repair Req'd	Property which is usable in its current condition but can be economically repaired.
	8	Repairs Required, Fair	Required repairs are considerable and are estimated to range from 16% to 40% of the standard price.
	9	Repairs Required, Poor	Required repairs are major because the property is badly damaged, worn or deteriorated, and are estimated to range from 41% to 65% of the standard price.
➔	S	Scrap	Property that has no value except for its basic material content.
➔	X	Salvage	Property which has value in excess of its basic material content, but repair or rehabilitation is impractical and/or uneconomical.

Part Q: SUPPLY CONDITION CODES

1. GENERAL. Supply Condition Codes are one of the types of Federal Condition Codes. They are single digit alpha codes found in card column (cc) 7 of the Stock Status Balance Card or cc 71 of the Transaction Detail and Transaction Reporting Cards. Supply Condition Codes classify material in terms of readiness for issue and use or to identify action under way to change the status of material. When material is determined to be in excess of approved stock levels and/or no longer serviceable, codes A through H and S will be used to reflect material condition prior to turn-in to DRMO.

Code	Explanation	Description
A	Serviceable Issue without qualification	New, used, repaired, or reconditioned material which is serviceable and issuable to all customers without limitation or restriction. Includes material with more than 6 months shelf-life remaining.
B	Serviceable Issuable with qualification	New, used, repaired, or reconditioned material which is serviceable and issuable for its intended purpose but which is restricted from issue to specific units, activities, or geographical areas by reason of its limited usefulness or short service-life expectancy. Includes material with 3 to 6 months shelf-life remaining.
C	Serviceable Priority issue	Items which are serviceable and issuable to selected customers, but which must be issued before supply condition codes "A" and "B" material to avoid loss as a usable asset. Includes material with less than 3 months shelf-life remaining. For 6V cog it denotes kits reserved for storage aircraft.
D	Serviceable test/ modification	Serviceable material which requires test, alteration, modification, technical data marking, conversion, or disassembly. This does not include items which must be inspected or tested immediately prior to issue.
E	Unserviceable (limited restoration)	Material which involves only limited expense or effort to restore to serviceable condition and which is accomplished in the storage activity where the stock is located. May be issued to support ammunition requisitions coded to indicated acceptability of usable condition E stock.
F	Unserviceable Repairable	Economically repairable material which requires repair, overhaul, or reconditioning. Includes repairable items which are radioactively contaminated.
G	Unserviceable Incomplete	Material requiring additional parts or components to complete the end item prior to issue.

MILSTRAP Codes **Appendix 10**

Code	Explanation	Description
H	Unserviceable Condemned	Material which has been determined to be unserviceable and does not meet repair criteria. Includes: condemned items which are radioactively contaminated; Type I shelf-life material that has passed the expiration date; and Type II shelf-life material that has passed expiration date and cannot be extended. Classify obsolete and excess material to its proper condition before consigning to the DRMO. Do not classify material in Supply Condition Code H unless it is truly unserviceable and does not meet repair criteria.)
I	Not to be assigned	
J	Suspended In Stock	Material in stock which has been suspended from issue pending condition classification or analysis, where the true condition is not known. Includes shelf life type II material that has reached the expiration date pending inspection, test or restoration.
K	Suspended Returns	Material returned from customers or users and awaiting condition classification.
L	Suspended Litigation	Material held pending litigation or negotiation with contractors or common carriers.
M	Suspended In work	Material identified on inventory control record but which has been turned over to a maintenance facility or contractor for processing.
N	Suspended Emergency combat use only	Ammunition stocks suspended from issue except for emergency combat use.
O	Unassigned	Reserved for future DOD assignment.
P	Unserviceable Reclamation	Material determined to be unserviceable and uneconomically repairable as a result of physical inspection, tear down, or engineering decision. Item contains serviceable components or assemblies to be reclaimed.
Q	Suspended Quality deficient exhibits	This code is for intra-Air Force use only.
R	Suspended Reclaimed items, awaiting condition determination	Assets turned in by reclamation activities which do not have the capability (e.g. skills, manpower, or test equipment) to determine the material condition. Actual condition will be determined prior to induction into maintenance activities for repair/modification.

Code	Explanation	Description
S	Unserviceable Scrap	Material that has no value except for its basic material content. No stock will be recorded as on hand in Supply Condition Code S. This code is used only on transactions involving shipments to DRMOs. Material will not be transferred to Supply Condition Code S prior to turn-in to DRMOs if material is recorded in Supply Condition Code A through H at the time material is determined excess. Material identified by NSN will not be identified by this Supply Condition Code. Use of this code was made optional at the discretion of each service/agency. Navy activities will not use this code.

Part R: INTRA-NAVY DISPOSAL RELEASE ORDER REJECT ADVICE CODES

1. GENERAL. Intra-Navy Disposal Release Order Reject Advice Codes are two digit alpha codes found in card column (cc) 7. They identify in cc 74-75 of the Disposal Release Denial Card (BGX) the reason the Disposal Release Order (BGD or BGJ) for ordnance material was rejected.

Code	Definition
AA	Rejected. This DRO is a duplicate of a previously received DRO.
AB	Rejected. Purpose Code is not applicable to DRO actions.
AC	Rejected. Condition Code is not applicable to DRO actions.
AD	Rejected. DRO is garbled or incomplete. Corrective action cannot be determined.
AE	Rejected. Declassification instructions did not accompany DRO and are not available.
AF	Rejected. Declassification instructions received with the DRO are not complete.
AG	Rejected . Stock number is invalid.
AH	Rejected. Request to retain item for station use is being submitted.
AJ	Rejected. Authority to retain item has previously been received.
AK	Rejected. Reclamation Save List was not received with this Condition Code P DRO.
AL	Rejected. Item is unclassified inert.

Part S: ERROR CLASSIFICATION CODES (PHYSICAL INVENTORY)

1. GENERAL. Error Classification Codes are single digit alpha numeric codes used for intra-Navy transactions only. These codes provide processing activities a means of mechanically identifying the causes for errors which resulted in potential/actual inventory adjustments and the processing operations in which they occurred. The error classification code is not a required entry on MILSTRAP documentation but is assigned for internal use in preparing reports and for providing evaluation data to higher authority in standard error classification categories. The following policy applies to the error classification codes:

a. All physical inventories will be assigned an error classification code upon completion of preadjustment research.

b. All causative research packages will be assigned an error classification code upon completion of causative research. When the results of causative research do not allow a reversal to be made, the error classification code will be applied at UADPS activities with a DI ZAT reversal for a quantity of zero. Non-UADPS activities will develop necessary changes to automated systems to implement reported requirements.

c. All resolved discrepancies will be assigned an error classification code to indicate the cause of the error. Avoided adjustments and adjustments which cannot be reversed for which the error cause is determined are considered resolved discrepancies.

d. A consolidated analysis will be performed on the error causes and submitted in the quarterly Physical Inventory Report. For UADPS Activities Program I-UA42 will be modified to include the revised error classification codes and definitions provided. The UADPS program modifications will be accomplished under NAVSUP Project No. N0644-063-5325. Non-UADPS activities submitting the NAVSUP Form 1310 (Revised 3/83) to report the analysis of error causes are exempt from this requirement pending a revision of NAVSUPINST 4440.115F.

Codes	Definition	Examples/Includes
	Preadjustment Research Results/Reversals	
A	Resolved, No Adjustment	For UADPS Activities, this code will be programmatically assigned by AIR Programs.
B	Infloat Resolved during manual Manual Review, No Adjustment	Restricted to UADPS AIR activities manual review, No Adjustment only. Zero Adjustment with No Discrepancy.
C	Adjustment Avoided - Receiving Error	Zero Adjustment with Receiving Error Corrected.
D	Adjustment Avoided - Storage Error	Zero Adjustment with Warehouse or Issue Error Corrected.
E	Adjustment Avoided - Physical Inventory Error	Zero Adjustment with Inventory Error Corrected.

Appendix 10 **MILSTRAP Codes**

Codes	Definition	Examples/Includes
F	Adjustment Avoided - Other than Error	Zero Adjustment with Error other C, E or E corrected.
G	Reconciled by UADPS AIR, Programs Adjustment Taken	Restricted to UADPS AIR Activities only. This code will be programmatically assigned.
H	Unresolved, Adjustment Posted, below Causative Threshold	Nonzero Adjustment and Causative Research Not Required.
J	Unresolved, Adjustment Posted Passed to Causative	Nonzero Adjustment for which Causative Research to be Conducted.
K	Spot Inventory Reversal - Erroneous Warehouse Refusal	Found in Established or Adjacent Location during Preadjustment.
L	Spot Inventory Reversal - Erroneous Inventory Adjustment	Erroneous Adjustment other than Warehouse Refusal (K) or Material Found in Unrecorded Location (M).
M	Spot Inventory Reversal - Material Found in Unrecorded Location	Material Found During Location Survey or Warehouse Clean-up.
N	Spot Inventory Reversal - Duplicate Document Posted	Duplicate Receipt/Issue/Condition Code Transfer.
P	Spot Inventory Reversal	Preadjustment Reversal with Error Other than K, L, M or N.

Causative Research Results/Reversals

Q	Receiving - Data Entry Error	Input Did Not Match Source; Exception Not Processed Correctly.
R	Receiving - Duplicate Receipt	Self-explanatory.
S	Receiving - Document	Not Posted Erroneous Reversals; Uncleared Exceptions; Not Put In Process.
T	Receiving - Order	Receiving Error other than Q, R or S.
U	Storage - Erroneous Warehouse Refusal	Found in Established or Adjacent Location.
W	Storage - Document	Not Posted Receipt in Process; Warehouse Adjustment Not Posted; Condition Code/Stock Number Transfer.
X	Storage - Issue Error	Over/Under Issue; Wrong NSN or Condition Code.
Y	Storage - Physical Processing Not Complete	Change Notice Consolidation, Locally Initiated Request for Warehouse Action;

MILSTRAP Codes **Appendix 10**

Codes	Definition	Examples/Includes
Z	Storage - Other	Warehouse/Issue Errors other than U,V, W, X or Y.
1	Inventory Control - Document Not Posted/Incorrect	Warehouse Adjustment; Condition Code/Stock Number Transfers; U/I Conversions; Indicative Data; Customer Credits.
2	Inventory Control - Other	Inventory Control Errors other than 1.
3	Physical Inventory - Improper Reconciliation	Infloat Reconciled Incorrectly; Arithmetic Error.
4	Physical Inventory - Prior Off-setting Adjustment Not Reversible	Prior Off-setting Adjustment Greater than 365 Days or Prior to Most Recent Inventory.
5	Physical Inventory - Erroneous Count	Self-explanatory.
6	Physical Inventory - Other	Inventory Error other than 3, 4 or 5.
7	Miscellaneous - System/Program Error	Duplicate Issue Document Produced.
8	Miscellaneous - Zero/Partial Stow Found	Material Found that was Input as Zero/Partial Stow.
9	Miscellaneous - Unresolved After Causative	Self-explanatory.

Part T: REJECT ADVICE CODES

1. GENERAL. Reject Advice Codes are two digit alpha codes found in card column (cc) 79-80 of the Transaction Reject Document. They identify, to the originator of a transaction, the reason for rejection and indicate return of the transaction for correction.

Code	Definition
AA	Rejected. Document identifier invalid.
AB	Rejected. Submitted to incorrect inventory manager; Routing Identifier Code of correct manager indicated in cc 54-56, if known.
AC	Rejected. Type of Physical Inventory Code invalid or blank.
AD	Rejected. Stock or part number unidentifiable.
AE	Rejected. Quantity field invalid.
AF	Rejected. Document number invalid.
AG	Rejected. "Ship To" address unidentifiable.
AH	Rejected. Required Signal Code invalid or blank.
AJ	Rejected. Required Fund Code invalid or blank.
AK	Rejected. Ownership/Purpose Code invalid or blank.
AM	Rejected. Supply Condition Code invalid or blank.
AP	Rejected. Required Management Code invalid or blank.
AQ	Rejected. Processing/Count Date invalid or blank.
AR	Rejected. Unit of Issue incorrect.
AS	Rejected. Support date invalid.
AT	Rejected. Asset Support Request Code invalid or blank.
AU	Rejected. Asset Support Request is for an item not centrally managed and stocked (Acquisition Advice Codes F, L, P, or W).
AV	Rejected. Activity identified in cc 30-35 (DoDAAC) and/or 27-29 (RIC From) is not authorized to submit Logistic Asset Support Requests.
AW	Rejected. Logistic Reassignment Transaction (DEE, DEF, or DDX) received more than one year after the Effective Transfer Date (ETD). The D4X will be rejected if no memorandum due-in is on record at the GIM to indicate it is a valid procurement receipt.
AX	Rejected. GSA is source of supply for requested Logistics Asset Support Estimate (LASE) or Special Program Requirement (SPR). GSA does not participate in MILSTRAP LASE and SPR procedures. If required, submit funded MILSTRIP requisition citing applicable Required Delivery Date.

Part U: TYPE OF CONTRACTOR CODES

1. GENERAL. The Type of Contractor Code is a single digit alpha code found in card column (cc) 80. This is an obsolete code which identifies the type of contractor. It is published here only for convenience in interpreting the data when entered in the DI Code DLW, Logistics Reassignment Contract History Data transaction.

Code	Definition
A	Large Business - Any domestic concern (see DFARS 25.001) which does not meet the size standards set by the Small and Disadvantaged Business Administration (see FAR subpart 19.1).
E	Woman-Owned Large Business - A business concern that is woman-owned (see FAR 52.219-3) and not small (see FAR subpart 19.1).
F	Woman-Owned Small Business - A business concern that is woman-owned (see FAR 52.219-3) and small (see FAR subpart 19.1).
I	Intra-Governmental - The contractor is a Federal Government Agency other than DOD (see DFARS 4.671-5 (b) (13) (vi) and (vii)).
J	Small Business - A business concern in the United States, its possessions, or Puerto Rico meeting the criteria established in FAR 19.101.
K	Nonprofit - Any corporation, foundation, trust, or institution not organized for profit (see DFARS 4.671-5(e).
L	Contractor for Work Outside USA - Any business concern outside the United States, its positions, or Puerto Rico (see DFARS 4.671-5(e) (1) (iv)).
M	Disadvantaged Large Business Concern - A business concern owned and controlled by socially and economically disadvantaged individuals (see FAR 52.219-2) that is not small (see FAR 19.101).
N	Disadvantaged Small Business Concern - A business concern owned and controlled by socially and economically disadvantaged individuals (FAR 52.219-2) that is small (see FAR 19.101).
R	Foreign Contractor for Work Within USA - The contractor is not a domestic concern (see DFARS 25.001), and the work will be performed within the United States, its possessions, or Puerto Rico.

Part V: ACTIVITIES AUTHORIZED TO SUBMIT ASSET SUPPORT REQUESTS

Routing Identifier	Activity DoDAAC	Routing Identifier	Activity DoDAAC	Routing Identifier	Activity DoDAAC

Part W: DISCREPANCY INDICATOR CODES

Code	Definition
A	ROD being submitted (excludes shortage and partial or total nonreceipt).
B	No record of requisition (use in reply to DI DRB follow-up if there is no record of the requisition and the material has not been received.
D	Transportation discrepancy report being submitted (excludes shortage and partial or total nonreceipt).
E	Product Quality Deficiency report being submitted.
F	Shortage or partial/total nonreceipt. Quantity not received is entered in cc 25-29.
X	Discrepant receipt, other than shortage and partial or total nonreceipt, which does not meet qualifying criteria for discrepancy report submission.

APPENDIX 11

COUNTRY/INTERNATIONAL ORGANIZATION CODES

1. GENERAL. Country/International Organization codes are two character alpha or alpha-numeric codes which identify a country or international organization. They are assigned by the DOD MILSTRIP Administrator and are contained in card columns (cc) 31-32. This appendix is arranged in two Parts, Part A is in sequence by code and Part B is in sequence by country/international organization.

Part A: CODE SEQUENCE

Code	Name	Code	Name
AA	Aruba	AC	Antigua and Barbuda
AF	Afghanistan	AG	Algeria
AI	Ashmore and Cartier Islands	AJ	Azerbaijan
AL	Albania	AM	Armenia
AN	Andorra	AO	Angola
AQ	American Samoa	AR	Argentina
AT	Australia	AU	Austria
AV	Anguilla	AX	Ascension Island
AY	Antarctica	A1	OAS Headquarters
A2	SHAPE	A3	Organization of African Unity
A4	UNOCHA		
BA	Bahrain	BB	Barbados
BC	Botswana	BD	Bermuda

APPENDIX 12

PLANNED REQUIREMENT/RESERVATION REJECTION CODES

1. GENERAL. Planned Requirement/Reservation Rejection Codes are two digit alpha or numeric codes found in card column (cc) 65-66 of the planned requirement and reservation rejection cards. These codes denote the reason request for establishment or cancellation of a planned requirement or reservation has been rejected by an inventory manager.

Part A: INTER-SERVICE/AGENCY AND INTRA-NAVY CODES

Codes	Definition
AA	Rejected. Document identifier invalid.
AB	Rejected. Submitted to incorrect inventory manager.
AD	Rejected. Stock or part number unidentifiable.
AE	Rejected. quantity field invalid.
AK	Rejected. Ownership/Purpose Code invalid or blank.

Part B: INTRA-NAVY ONLY CODES

DM	Rejected. Item is no longer stocked as an assembly If appropriate, submit Planned Requirements for individual parts.
DN	Rejected. Item has been deleted.
DO	Rejected. Item has been deleted.
DQ	Rejected. Source of supply is local fabrication or assembly.
MA	Rejected. Requested item has been changed and cognizance transferred to a new inventory manager. The new stock number is reflected in the stock number field and the new cognizance symbol is in cc 55-56.
ML	Rejected. Requested item has been superseded and cognizance transferred to a new inventory manager. The new stock number is reflected in the stock number field and the cognizance symbol is in cc 55-56.
MO	Rejected. Item cognizance has been transferred to a new inventory manager. New cognizance symbol is in cc 55-56.
M4	Accepted. However, the cognizance symbol of the requested item has changed. The inventory manager is the same. The new cognizance symbol is shown in cc 55-56.

Appendix 12 Planned Requirement/Reservation Rejection Codes

Codes	Definition
RF	Rejected. Requested item has been superseded/replaced by the stock number reflected in the stock number field. If acceptable, resubmit Planned Requirement under the "new" stock number.
RL	Rejected. Requested item has been superseded/replaced by the stock number reflected in the stock number field. If acceptable, resubmit Planned Requirement under the "new" stock number.
RP	Rejected. Item has been replaced by the next higher assembly. Stock number of the replacement item is reflected in the stock number field. If acceptable, resubmit Planned Requirement under the "new" stock number.
RU	Quantity Appears Excessive. If still required and item is NSA funded, submit funded Request for Reservation. If APA funded, resubmit with justification.
RW	Rejected. Support date is less than the minimum prescribed time limitation for Planned Requirement submissions. Submit requisition.
RY	Canceled due to lack of response to Request for Confirmation.
03	Rejected. Item is not centrally stocked. If unable to procure locally, submit funded requisition for central procurement.
08	Cognizance Transfer. Requested planned requirement or reservation from new inventory manager. If new NSN, it will be entered in cc 8-20. New cognizance symbol appears in cc 55-56.
09	Rejected. Stock Number Deleted, Superseded or Replaced. If superseded or replaced, new NSN is shown in cols. 8-20. Resubmit under new NSN if shown. Will be used only if Advice Code 2B was cited in the Request for Reservation/ Planned Requirement.
13	Rejected. Current unit of issue is in cc 23-24. Unit of issue on request document is reflected in cc 71-72. Verify quantity and resubmit using current unit of issue.
5R	Accepted.
52	Rejected. Fund Code Garbled or Missing. If still required, resubmit citing correct fund code.
71	Rejected. Item coded (or being coded) "obsolete" in latest stock lists/catalogs. Substitute item, if available, is reflected in the stock number field. If acceptable, resubmit Planned Requirement under the substitute item. Otherwise, submit requisition for the required item with the appropriate advice code.
72	Rejected. Requirement is for a classified cryptographic/ cryptologic item.
73	Rejected. Stocks procured and reserved to support the Planned Requirement are excess to system requirements.
74	Rejected. Support date is garbled. Correct and resubmit.

Planned Requirement/Reservation Rejection Codes **Appendix 12**

Codes	Definition
75	Rejected. Support date exceeds the maximum prescribed time limitation for Planned Requirement submissions.
76	Request for a change to supporting stock point for a planned requirement received less than 60 days prior to support date.
78	Rejected. Received less than a procurement lead time in advance of the support date. Procurement Lead-time in days is included in cc 78-80. Submit funded requisition with appropriate priority for expedited purchase action; or extend support date and resubmit Planned Requirement.
79	Rejected. Unable to adjust the quantity or support date. Insufficient time remaining to initiate additional procurement action, or guarantee availability by the new support date.
83	Rejected. Project code is inapplicable or missing. Insert appropriate code and resubmit.
84	Rejected. Supporting Stock Point in cc 67-69 is not a reporting activity. Verify or correct and resubmit.
85	Rejected No record of a Planned Requirement bearing this document number. Research and verify document number. Resubmit, if appropriate.
86	Rejected. Duplicates an existing Planned Requirement bearing the same document number.
88	Rejected. Item is authorized for FBM use only. If appropriate, insert applicable FBM project code and resubmit.

THIS PAGE LEFT BLANK INTENTIONALLY

APPENDIX 13

CHANGE NOTICE CODES

1. GENERAL. The change notice code is a two digit alpha or alpha-numeric code assigned by the inventory manager to indicate establishment of, deletion, or change to logistic management data. This code consists of two single digit codes: the action code in card column (cc) 3 and the phrase code in cc 32 of the change notice.

cc 3 Action Code	cc 32 Phrase Code	Type of change
C	H	NSN in cc 33-45 is an authorized substitute for the NSN in cc 8-20.
C	J	NSNs in cc 8-20 and 33-45 are completely interchangeable. Preferred relationship is not implied.
C	K	Nondefinitive unit of issue contains quantity and unit of measure.
C	R	Item represented by the NSN in cc 8-20 requires special handling. Handling details appear in the document identified in cc 33-47.
C	S	The NSN in cc 8-20 represents the item listed in procurement authorization documents. As new procurement source and manufacturer are identified, additional NSN assigned will be noted in cc 33-45 (code will appear in FEDLOG only, not change notice).
C	W	Unit of issue change. Includes current (or new) unit price.
C	Y	Change of source of supply (SOS).
C	0	Change to acquisition advice code (AAC).
C	1	Change to shelf life code/shelf life action code.
C	2	Change to controlled item inventory code (CIIC).
C	3	Change to demilitarization code.
C	4	Change to unit price.
C	5	Change of Precious Metals Indicator Code.
C	6	Change of Automatic Data Processing Equipment Code.
C	8	Change to quantity per unit pack.
C	9	Multiple management data change action.
D	M	Item no longer stocked as an assembly. Break down material held or subsequently received to individual parts and place in store.

Appendix 13 **Change Notice Codes**

cc 3 Action Code	cc 32 Phrase Code	Type of change
D	N	Item deleted. Dispose of material on hand or subsequently received.
D	Q	Item deleted. Fill requirements by fabrication, salvage, or assembly.
D	T	Item in cc 8-20 is condemned. Dispose of stock in accordance with disposition instructions. Replacement item, if applicable, is contained in cc 33-45.
D	0	Item deleted. Attrite retail item stocks. If Navy centrally managed item, contact inventory manager for instructions if item is received in the future.
M	A	Management activity (cognizance symbol) change. Consolidate material under the new stock number.
M	L	Management activity (cognizance symbol) change. Future receipts under the new NSN in cc 33-45 will be reported to the acquiring inventory manager.
M	0	Management activity (cognizance symbol) change. Material transferred to new inventory manager under the same NSN.
M	4	Cognizance symbol change within the same inventory manager under the same stock number.
N	0	Establishment of an item of supply under the inventory management of the activity indicated by the cognizance symbol.
N	X	Reinstate an item of supply which was previously deleted, canceled, or cross referenced to another number.
R	A	Deletion of a NICN or NSN (cc 8-20) and transfer of material to new NSN (cc 33-45) within the same inventory manager.
R	B	Change to FSC of item within same inventory manager.
R	C	Item in cc 8-20 is canceled and replaced by NSNs in cc 33-45 (multiple transactions).
R	D	Change to NIIN of item or replacement of a NICN with a NSN within the same FSC and inventory manager.
R	E	Old NSN in cc 8-20 replaced by new NSN in cc 33-45. Exhaust old stock before issuing new NSN material. Used with change code RG.
R	F	When stocks of old item (cc 8-20) are exhausted, use new item in cc 33-45.
R	G	Use item in cc 33-45 until exhausted. Replacement item is contained in cc 8-20 Used with change code RE.

Change Notice Codes **Appendix 13**

cc 3 Action Code	cc 32 Phrase Code	Type of change
R	L	Old NSN in cc 8-20 superseded by new NSN in cc 33-45. Fill future requirements/requests with the new NSN.
R	P	Replacement of item by next higher assembly. Stocks of item in cc 8-20 will be used until exhausted.
R	Y	NSN in cc 8-20 and 33-45 are completely interchangeable except for unit of issue or quantity per unit pack.
R	Z	NSN in cc 8-20 is to be discontinued, use NSN in cc 33-45 when old NSN is exhausted. Distributed as code RF.
R	0	Change to Navy Special Material Identification Code (SMIC).
R	1	Change to DODIC (Department Of Defense Identification Code)/NALC (Navy Ammunition Logistics Code). Applicable only to conventional Ammunition/Expendable Ordnance items. See NAVICPMECHINST P8010.12 (series) for Change Notice Card formats.
R	3	Physical item for NSN in cc 33-45 (reversal of phrase code S - FMSO use only).
R	7	Use old NIIN in cc 33-45 until exhausted (FMSO use only).
Z	1	Change to material control code.
Z	3	Change to the repair net price.
Z	5	Change to authorization/restriction code.
Z	6	Change to special material content code.
Z	7	Change to storage code
9	0	Change to Ammunition Nomenclature. May be in one or more cards. Applicable only to conventional Ammunition/Expendable Ordnance items. See NAVICPMECHINST P8010.12 (series) for Change Notice Card formats.
9	2	Change to Ammunition Class and Index Number. Applicable only to conventional Ammunition/Expendable Ordnance items. See NAVICPMECHINST P8010.12 (series) for Change Notice Card formats.
9	3	Change to Index Number within Ammunition Class. Applicable only to conventional Ammunition/Expendable Ordnance items. See NAVICPMECHINST P8010.12 (series) for Change Notice Card formats.

THIS PAGE LEFT BLANK INTENTIONALLY

APPENDIX 14

SPECIAL MATERIAL IDENTIFICATION CODES

1. GENERAL. The Special Material Identification Code (SMIC) is a two digit alpha or numeric code contained in card column (cc) 21-22. The SMIC supplements the national stock number to provide visibility to designated items to ensure maintenance of their technical integrity. Codes may be assigned when an item requires:

a. source or quality control;

b. technical design or configuration control;

c. control in procurement, stocking, and issue;

d. special receipt, inspection, testing, storage, or handling.

e. weapon system applicability

➔ 2. ASSIGNMENT. All requests for assignment of special material identification codes are to be forwarded to the Naval Inventory Control Point Mechanicsburg (Code 0411). Codes are assigned to the following commands:

a. Naval Inventory Control Point Philadelphia (NAVICP PHIL) - Weapons systems SMICs are identified with an asterisk (*). SMICs which are used with Kit Identification Numbers (KINs) as well as NSNs are identified with the symbol "#".

b. Naval Inventory Control Point Mechanicsburg (NAVICP MECH).

c. Naval Sea Systems Command (NAVSEA). SMICs which are used with modification Parts Kits (Inventory manager Naval Aviation Logistics Center) are identified with an asterisk (*).

d. Strategic Systems Project Office (SSPO).

e. Naval Air Systems Command (NAVAIR). These codes are assigned for management of kits associated with aeronautical material. Where SMICs have been assigned to weapon systems and equipment (e.g. DA to Attack Aircraft A4), the same SMIC will be used with the Kit Identification Number (KIN).

f. Naval Mine Warfare Engineering Activity (NWEA).

g. Naval Training Systems Center (NTEC).

h. Naval Supply Systems Command (NAVSUP).

i. Branch Aviation Supply Office (BRASO).

Appendix 14 Special Material Identification Codes

Code	Definition/predominant application:	Assigned To
AA	A1 attack aircraft	NAVICP PHIL*#
AB	Asbestos free material, carrier application	NAVICP MECH
AC	AN/ALR-6 Airborne Counter-measures receiving Set	NAVICP PHIL*
AE	E1 special electronic aircraft	NAVICP PHIL*#
AF	F14D fighter aircraft	NAVICP PHIL*
AG	Depot level repairable non-developmental items (NDI)	NAVICP MECH
AH	H1 helicopters (Non-JSL items)	NAVICP PHIL*#
AK	ORDALT kits	NAVICP MECH
AN	J33 jet engines	NAVICP PHIL*#
AP	P2 patrol aircraft	NAVICP PHIL*#
AQ	TF30 turbo prop engines	NAVICP PHIL*#
AS	S2 antisubmarine aircraft	NAVICP PHIL*#
AT	AV8B F402-RR-408 Engine model code PEG408	NAVICP PHIL*
AU	U1 utility aircraft	NAVICP PHIL*#
AV	OV10 VTOL/STOL aircraft	NAVICP PHIL*#
AX	Common airframe material	NAVICP PHIL
AY	AW fire control radar system	NAVICP PHIL
AZ	Special projects (AIMS)	NAVICP PHIL*
A1	LM2500 gas turbine engine	NAVICP MECH
A2	Auxiliary	NAVSEA
A3	Auxiliary, Advance Equipment Repair Program (AERP)	NAVSEA
A4	ASH and Undersea Warfare Systems	NAVSEA
A5	Surface Warfare Systems	NAVSEA
A6	DD 963/DDG 993 class ship engineering control system equipment	NAVSEA*
A7	PHM Unique Items	NAVICP MECH
A8	AV-8B night attack helicopters	NAVICP PHIL*
A9	Consolidated Automated Support System (CASS). USM-636 Electrical Equipment Test System.	NAVICP PHIL
BA	A3 attack aircraft	NAVICP PHIL*#
BB	BQM-34S Target	NAVICP PHIL*

Special Material Identification Codes **Appendix 14**

Code	Definition/predominant application:	Assigned To
BC	AV-8B Night Attack Harrier Radar configuration	NAVICP PHIL*
BE	E2/C2 special electronic aircraft	NAVICP PHIL*
BF	F4 fighter aircraft (JSL items)	NAVICP PHIL*
BG	Consumable non-developmental items (NDI)	NAVICP MECH
BH	H2 helicopters	NAVICP PHIL*#
➔ BL	MH-60S Helicopter	NAVICP PHIL
BM	M34 reconnaissance aircraft	NAVICP PHIL*
BN	J34 jet engines	NAVICP PHIL*#
BP	P3 patrol aircraft	NAVICP PHIL*#
BQ	T53 turbo prop engines (Non-JSL items)	NAVICP PHIL*#
BT	T2 trainer aircraft	NAVICP PHIL*#
BU	U6 utility aircraft	NAVICP PHIL*#
BV	LTN-72 Inertial Navigation system	NAVICP PHIL*
BX	Common armament and fire control material	NAVICP PHIL#
BY	Versatile avionics shop test (VAST)	NAVICP PHIL
BZ	Special projects (TALOS)	NAVICP PHIL*
B1	Boats and landing craft	NAVSEA
B3	FFG 7 class ship engineering control system equipment	NAVSEA*
B4	Support of pre-provisioning items for which NAVICP PHIL acts as POE	NAVICP PHIL*
B5	QF4N target drone	NAVICP PHIL*
B6	AN/ASTA POD	NAVICP PHIL*
B7	AN/DPT-1 Emitter Assembly	NAVICP PHIL*
CA	Crypto non-design control repair parts (DCRPs)	NAVICP MECH
CC	COMSEC DCRPS	NAVICP MECH
CE	SIGINT DCRPS	NAVICP MECH
➔ CF	Research Development Testing and Evaluation (RDT&E) Conventional Ammunition	NAVICP MECH
CG	Tactical Advanced Computer Joint Work Station Non-Developmental 7H Items (NDI), No NAVICP surcharge	NAVICP MECH
CH	AN/SQQ-89(V) Weapon System	NAVICP MECH
CJ	RA-5C reconnaissance aircraft	NAVICP PHIL*
CK	Common Automatic Recovery System (CARS)	NAVICP PHIL

Appendix 14 **Special Material Identification Codes**

Code	Definition/predominant application:	Assigned To
CL	AE1107C Allison Engine	NAVICP PHIL
CM	BQM-111 Drone peculiar support equipment	NAVICP PHIL*
CP	An item that requires special cleaning and packaging for oxygen /nitrogen service (e.g., valves, piping systems, generators).	NAVICP MECH
CS	S3 antisubmarine aircraft	NAVICP PHIL*
CT	RC-12FS 163563 and 163564 cargo/transport aircraft	NAVICP PHIL*
CU	Aircraft container (except engine)	NAVICP PHIL
CX	NAFI material	NAVICP PHIL
CY	AWG-9 weapons control system	NAVICP PHIL*
C1	An item that requires special cleaning and packaging for oxygen/ nitrogen service (e.g., valves, piping systems, generators) which also must meet the requirements of level 1.	NAVICP MECH
C2	K-34 Engine, Gas Turbine Kit	NAVICP PHIL
C3	Combat direction	NAVSEA
C4	CG-47 class ship engineering control system equipment	NAVSEA*
DA	A4 attack aircraft	NAVICP PHIL*#
DC	NKC 135	NAVICP PHIL
DG	An item that requires special cleaning and packing for oxygen/ hydrogen service (e.g., valves, piping system, generators).	NAVICP MECH
DH	H3 helicopters	NAVICP PHIL*#
DN	J48 jet engines	NAVICP PHIL*#
DQ	T56 turbo prop engines	NAVICP PHIL*#
DS	Deep Submergence	NAVICP MECH
DT	T28 cargo/transport aircraft	NAVICP PHIL*#
DU	U11 utility aircraft	NAVICP PHIL*#
DX	Common aircraft electrical material	NAVICP PHIL#
DY	Integrated helicopter avionic System (IHAS)	NAVICP PHIL
DZ	Special projects (SHOEHORN)	NAVICP PHIL*

Special Material Identification Codes **Appendix 14**

Code	Definition/predominant application:	Assigned To
D0	An oxygen/hydrogen clean item that supports Deep Submergence Systems that has undergone the extreme material control/quality assurance techniques that provide objective evidence of its acceptance for appropriate application. Each item has certification papers or tags stating where certification papers are on file that pedigree its material and physical properties; provide traceability to manufacturer, contract list and lot, and document the quality assurance system/test requirements applied to the item.	NAVICP MECH
D2	PHM 1 class ship engineering control system equipment	NAVSEA*
D3	501K-17 gas turbine engine	NAVICP MECH
D4	An item that support Deep submergence systems that has undergone the extreme material control/quality assurance techniques that provide objective evidence of its acceptance for appropriate application. Each item has certification papers or tag stating where certification papers are on file that pedigree its material and physical properties; provide traceability to manufacturer, contract list and lot, and document the quality assurance system/test requirements applied to the item.	NAVICP MECH
EB	E2 Attack aircraft	NAVAIR
EC	C117 cargo/transport aircraft	NAVICP PHIL*#
ED	Explosive ordnance disposal tools/equipment	NAVICP MECH
EE	E2C special electronic aircraft	NAVICP PHIL*
EF	F8 fighter aircraft	NAVICP PHIL*#
EG	Tactical Advanced Computer Joint Work Station Non-Developmental 1H Items (NDI), no NAVICP surcharge	NAVICP MECH
EM	M37 BQM-111 Drone peculiar support equipment	NAVICP PHIL*
EN	J52 jet engines	NAVICP PHIL*#
EP	EP-3E patrol aircraft	NAVICP PHIL*
EQ	T58 turbo prop engines	NAVICP PHIL*#
ER	0-435 turbo prop engines	NAVICP PHIL*
ES	EOD non-magnetic oxygen clean material	NAVICP MECH
ET	T33 cargo/transport aircraft	NAVICP PHIL*#
EU	U16 utility aircraft	NAVICP PHIL*#
EV	V10 VTOL/STOL aircraft (JSL items)	NAVICP PHIL*#
EW	Flt Elect Warfare Support Group	NAVICP PHIL*

Appendix 14 **Special Material Identification Codes**

Code	Definition/predominant application:	Assigned To
EX	Common electronic communication equipment and parts, primary manufacturers	NAVICP PHIL
EY	4R/5R cog items managed by BRASO	BRASO
EZ	Short Aircraft Take-off System (SATS) power turbine and associated systems	NAVICP PHIL*
E2	Electrical	NAVSEA
E3	Electrical, AERP	NAVSEA
E4	ME831-800 gas turbine assembly	NAVSEA*
E5	ME831-800 special support equipment	NAVSEA*
E6	ME831-800 ancillary equipment	NAVSEA *
FA	A6 attack aircraft	NAVICP PHIL*#
FB	F-16N fighter aircraft	NAVICP PHIL*
FC	C118 cargo/transport aircraft	NAVICP PHIL*#
FE	EA6B special electronic aircraft (ex Cap configuration)	NAVICP PHIL*
FF	F9 fighter aircraft	NAVICP PHIL*#
FK	Field change kits	NAVICP MECH
FM	AQM 172A Target Drone	NAVICP PHIL*
FN	J57 jet engines	NAVICP PHIL*#
FP	P3C patrol aircraft	NAVICP PHIL*
FQ	T64 turbo prop engines	NAVICP PHIL*#
FR	0-470 turbo prop engines	NAVICP PHIL*
FT	T34 cargo/transport aircraft	NAVICP PHIL*#
FW	AN/ARC-210 (V) Receiver/Transmitter System	NAVICP PHIL
FX	Common electronic communication equipment and parts, miscellaneous manufacturers	NAVICP PHIL
FZ	Special projects(GFE)	NAVICP PHIL*
F1	Salvage equipment	NAVSEA
F3	T-10205-100B gas turbine assembly	NAVSEA*
F4	T-10205-100B special support equipment	NAVSEA*
F5	T-10205-100B ancillary equipment	NAVSEA*
F8	AN/ANS-139 aircraft inertial navigation system	NAVICP PHIL*

Special Material Identification Codes **Appendix 14**

Code	Definition/predominant application:	Assigned To
GA	A7 attack aircraft (Non-JSL items)	NAVICP PHIL*#
GC	C119 cargo/transport aircraft	NAVICP PHIL*#
GE	EA6B special electronic aircraft (ICap configuration)	NAVICP PHIL*
GF	F/A-18 Non-HSP support fighter aircraft	NAVICP PHIL*
GH	H34 helicopters	NAVICP PHIL*#
GJ	0-2A aircraft	NAVICP PHIL*
GM	M74 BQM-111 Drone peculiar support equipment	NAVICP PHIL*
GN	J60 jet engines	NAVICP PHIL*#
GQ	T76 turbo prop engines (Non-JSL items)	NAVICP PHIL*
GR	APG-71 airborne radar system	NAVICP PHIL*
GT	T39 cargo/transport aircraft	NAVICP PHIL*#
GV	VAST modification kits	NAVAIR
GX	General aeronautical material	NAVICP PHIL#
GY	VAST interface devices	NAVAIR
GZ	TACAMO communications central	NAVICP PHIL*
G1	TF 40B gas turbine assembly	NAVSEA*
G2	TF 40B special support equipment	NAVSEA*
G3	TF 40B ancillary equipment	NAVSEA*
G4	T-62T-40-7 gas turbine assembly	NAVSEA*
G5	T-62T-40-7 special support equipment	NAVSEA*
G6	T-62T-40-7 ancillary equipment	NAVSEA*
HB	HARPOON: Anti-ship cruise missile, depot and intermediate items.	NAVICP MECH
HC	Helicopter common avionics	NAVICP PHIL
HM	QF-86F fighter aircraft	NAVICP PHIL*
HS	UH-3H helicopters	NAVICP PHIL*
HT	SH-60F helicopters	NAVICP PHIL*
HX	Meteorological material	NAVICP PHIL
HZ	Light Airborne Multi-Purpose System (LAMPS)	NAVICP PHIL*
H2	Hull	NAVSEA
H3	Hull, Advanced Equipment Repair Program (AERP)	NAVSEA
JA	A5 attack aircraft	NAVICP PHIL*#

Appendix 14 **Special Material Identification Codes**

Code	Definition/predominant application:	Assigned To
JQ	T50 turbo prop engines	NAVICP PHIL*
JX	Ground photographic items	NAVICP PHIL
JZ	AN/ARC-159 radio items	NAVICP PHIL*
KA	AV8 attack aircraft	NAVICP PHIL*
➔ KB	KC130-J System	NAVICP PHIL
KC	C121 cargo/transport aircraft	NAVICP PHIL*#
➔ KF	KC130J Aircraft Engine AE2100D3	NAVICP-PHIL
KH	HH-60H, HH-60J configuration helicopters	NAVICP PHIL*
KN	J65 jet engines	NAVICP PHIL*#
KX	Airborne photographic items	NAVICP PHIL#
KZ	ARN 52 items	NAVICP PHIL*
LA	EA-6B attack aircraft	NAVICP PHIL*
LB	EA-6B Advanced Capability (ADCAP) aircraft peculiar systems	NAVICP PHIL
LC	C130 cargo/transport aircraft	NAVICP PHIL*#
LH	H43 helicopters	NAVICP PHIL*#
LN	J69 jet engines	NAVICP PHIL*#
LQ	T76 turbo prop engines (JSL items)	NAVICP PHIL*
LR	R1340 airborne radar system	NAVICP PHIL*
LU	CH53E helicopters	NAVICP PHIL*
LX	Safety and survival material	NAVICP PHIL
LZ	ASN 30 TACAOMO III	NAVICP PHIL*
L1	An item that supports either a SUBSAFE or Level 1 system that has undergone the extreme material control and quality assurance techniques that provide objective evidence of its acceptance for its appropriate application. Each item has certification papers (or special markings that provide traceability to the certification) that pedigree its material and physical properties, provide traceability, to manufacturer, contract list and lot, and document the quality assurance system and test requirements applied to the item.	NAVICP MECH
MA	A7 attack aircraft	NAVICP PHIL*
MC	C131 cargo/transport aircraft	NAVICP PHIL*#
MF	F4 fighter aircraft (Non-JSL items)	NAVICP PHIL*#
MG	Miscellaneous air launched missiles, depot and intermediate items	NAVICP MECH

Special Material Identification Codes **Appendix 14**

Code	Definition/predominant application:	Assigned To
MH	H46 helicopters	NAVICP PHIL*#
MI	MK-75 special gun parts	NAVICP PHIL#
MN	J85 jet engines	NAVICP PHIL*#
MQ	T33 turbo prop engines (JSL items)	NAVICP PHIL*#
MR	R1820 airborne radar system	NAVICP PHIL*
MX	Common guided missile material	NAVICP PHIL#
MZ	Joint in-flight data transmission system (JIFDATS)	NAVICP PHIL
M1	MSC unique components.	NAVICP MECH
M2	Military Sealift Command items requiring ABS and/or USCG certification	NAVICP MECH
NA	A6-C TRIM attack aircraft	NAVICP PHIL*
NC	C1 cargo/transport aircraft	NAVICP PHIL*#
NE	C4I systems/equipment under technical program management control at NAVICP-OF West	NAVICP PHIL
NF	F4 fighter aircraft (United Kingdom)	NAVICP PHIL*
NH	H50 helicopters	NAVICP PHIL*#
NN	J79 jet engines	NAVICP PHIL*#
NQ	T400 CP 400 turbo prop engines	NAVICP PHIL*
NR	R1830 airborne radar system	NAVICP PHIL*
NT	Annular Ball Bearing for quiet operation application to submarine usage. (Noise Test Bearings)	NAVICP MECH
NU	MH-53E helicopters	NAVICP PHIL*
NW	C4I systems/equipment under technical program management control at NAVICP-OF East	NAVICP PHIL
NX	Common jet engine accessory material	NAVICP PHIL
NZ	APN141 items	NAVICP PHIL*
N1	Navigation	NAVSEA
PB	FMS Transaction Material	NAVSUP
PC	NKC-135 cargo/transport aircraft	NAVICP PHIL*
PE	C-2A peculiar components	NAVICP PHIL*
PF	F14 fighter aircraft	NAVICP PHIL*#
PH	H52 helicopters	NAVICP PHIL*#

Appendix 14 **Special Material Identification Codes**

	Code	Definition/predominant application:	Assigned To
	PJ	Conversion of OV-IDA aircraft to the OV-10D plus configuration	NAVICP PHIL*
	PN	R24 jet engines	NAVICP PHIL*
	PQ	TF 30P412/P412A turbo prop engines	NAVICP PHIL*
	PX	Common aircraft engine material	NAVICP PHIL
	PY	Digital Modular Tester (DOMOTE II)	NAVICP PHIL*
	PZ	APN153 items	NAVICP PHIL*
	P1	Periscopes	NAVSEA
	P2	Propulsion	NAVSEA
↓	P3	Propulsion, AERP	NAVSEA
↑	QA	Equipment/parts requiring special material control and quality assurance which support surface or submarine application.	NAVICP MECH
	QC	C4 cargo/transport aircraft	NAVICP PHIL*#
➔	QE	F18 E/F Fighter Aircraft – First	NAVICP PHIL
	QF	F18 E/F Fighter Aircraft	NAVICP PHIL*
	QH	H53 helicopters (Non-JSL items)	NAVICP PHIL*#
	QM	BQM 74C Aerial Target	NAVICP PHIL*
	QN	TF41 jet engines	NAVICP PHIL*
	QR	R2800 airborne radar system	NAVICP PHIL*
	QX	Common aircraft propeller material	NAVICP PHIL
	QY	Meteorological equipment change	NAVAIR
	QZ	ASN 30 items	NAVICP PHIL*
	Q1	Sonar pool	NAVSEA
	Q2	Sonar pool	NAVSEA
	Q3	Item that supports a Level 1 or SUBSAFE critical system that has undergone quality assurance during the acquisition process.	NAVICP MECH
	Q4	Sonar equipment managed by PMS 409	NAVSEA
	RA	A6E attack aircraft	NAVICP PHIL*
	RE	Non-Source Bearing RADIAC	NAVICP MECH
	RF	AN/ARC-182 radio system	NAVICP PHIL*
	RH	H1 helicopters (JSL items)	NAVICP PHIL*
	RM	Mission essential target equipment	NAVICP PHIL*

Special Material Identification Codes **Appendix 14**

Code	Definition/predominant application:	Assigned To
RN	F14-B 400 Engine (F401-PW)	NAVICP PHIL*
RS	Radioactive Source Bearing RADIAC	NAVICP MECH
RX	Ground and airborne gas turbine engines, auxiliary power units accessories and parts	NAVICP PHIL
RY	AWG-21	NAVICP PHIL*
RZ	ASN 30 items TACAM	NAVICP PHIL*
R1	Radar	NAVSEA
R2	Electronic Warfare (EW) and Electronic Support Measures (ESM) systems	NAVSEA
R3	Exterior communications	NAVSEA
R4	Interior communications	NAVSEA
R5	Submarine electromagnetic sensors	NAVSEA
R6	Acoustic and ACINT systems	NAVSEA
SA	Small arms/weapons which require special receipt, storage, issue, and controls by serial number.	NAVICP MECH
SB	SUBSAFE items (covered by SMIC SS) for which special cleaning and packaging for oxygen service is required.	NAVICP MECH
SE	ALQ-92 items	NAVICP PHIL*
SF	F18 fighter aircraft	NAVICP PHIL*#
SM	AN/ALQ-165 Airborne self-protection jammer	NAVICP PHIL*
SN	TF34-GE-2 jet engines	NAVICP PHIL*
SP	Navy Stock Account item which is unique to SSPO controlled fleet ballistic missile weapon system program. SMIC SP establishes a weapons system relationship.	SSPO
SQ	Submarine antenna quality assured material	NAVSEA
SR	AV8B attack aircraft	NAVICP PHIL*
SS	An item in support of the SUBSAFE program that meets all the requirements for L1 coding. In addition, the installation of this item in critical (SUBSAFE) systems requires that the vital attributes of the item be pedigreed further by 100% non-destructive tests. These tests are primary radiography, but may include magnetic particle, dye penetrant, and/or ultrasonic testing.	NAVICP MECH
SW	Seawolf Ship Control system Electronics	NAVICP MECH
SX	Special aircraft and engine tool and support equipment/parts	NAVICP PHIL#

Appendix 14 **Special Material Identification Codes**

	Code	Definition/predominant application:	Assigned To
	SY	GE F414-400 Engine	NAVICP PHIL
	SZ	ASN 92 carrier airborne inertial navigation system	NAVICP PHIL*
	S1	Surface ship Level 1 material	NAVICP MECH
	S2	Unique sonar systems (AN/BQR-15, AN/BQR-19, AN/BQR-21, AN/BQR-T4)	NAVSEA
	S3	Submarine Communications	NAVSEA
➔	S7	ASH 37 Structural Data Recording Set	NAVICP-PHIL
➔	S9	ASH 39 Flight Recorder Set	NAVICP-PHIL
🡻	TA	A7E attack aircraft	NAVICP PHIL*
🡹	TD	Peculiar spares and repair parts in support of cognizance symbol 20 training equipment	NTEC
	TE	General purpose electronic test equipment	NAVICP MECH
	TF	KA6D special electronic aircraft (ICAP configuration)	NAVICP PHIL*
	TM	General electronic end items	NAVICP MECH
	TN	F104 jet engines	NAVICP PHIL*
	TP	Torpedo Functional Item Replacement (FIR) components	NAVICP MECH
	TR	TRIDENT ships program	NAVICP MECH
	TU	LM2500 gas turbine engine	NAVAIR
	TV	LM2500 special support equipment	NAVAIR
	TW	LM2500 ancillary equipment	NAVAIR
	TX	Avionics support equipment and parts	NAVICP PHIL
	TY	DRS tram system	NAVICP PHIL*
	TZ	Tactical Air Navigation Set (TACAN)	NAVICP PHIL*
	T1	TRIDENT test equipment for TRIDENT SSBNs	NAVICP MECH
	T2	Trident unique configurations	NAVSEA
	UA	TA-7C attack aircraft	NAVICP PHIL*
	UB	501K-17 gas turbine engine	NAVAIR
	UC	501K-17 special support equipment	NAVAIR
	UD	501K-17 ancillary equipment	NAVAIR
	UF	TRIDENT training device 21C10 (ship control trainer) and 21C1 (submarine damage control)	NAVICP PHIL*
	UH	Helicopters (Common)	NAVICP PHIL*

Special Material Identification Codes **Appendix 14**

Code	Definition/predominant application:	Assigned To
UJ	Target control system change	NAVAIR
UM	Underwater mines and depth charges	NWEA
↓ UN	F402 PEGASUS 10 jet engines	NAVICP PHIL*#
↑ UR	R3350 airborne radar system	NAVICP PHIL*
US	H-46 dynamic component change	NAVAIR
UT	H-53 dynamic component change	NAVAIR
UU	H-1 dynamic component change	NAVAIR
UV	H-2 dynamic component change	NAVAIR
UW	H-3 dynamic component change	NAVAIR
UX	Common aircraft instruments	NAVICP PHIL
UY	Advanced signal processor (AN/UYS-I)	NAVICP PHIL*
UZ	AAM-60(V) test set	NAVICP PHIL*
U2	H-60 dynamic component change technical directive compliance kits	NAVAIR
U3	H-60 T700 engine technical directive compliance kits	NAVAIR
VA	Air Force Variant (CV-22)	NAVICP PHIL
VB	E-6A CFM56-2A engine model code 456-GE-2A	NAVICP PHIL*
VE	EA-6A special electronic aircraft (peculiar)	NAVICP PHIL*
VF	F5E/F fighter aircraft	NAVICP PHIL*
VG	Equipment and/or parts requiring special material control and quality assurance which support surface or submarine application. Special cleaning and packaging for oxygen/hydrogen service is required.	NAVICP MECH
VH	SH-60B Mark III helicopters	NAVICP PHIL*
VJ	Swimmer support system (S-0417-SW)	NAVSEA*
VK	AN/AYK-14(V) std airborne computer	NAVICP PHIL*
VL	ATS-1 Class critical diesel engine parts	NAVICP MECH
VM	Equipment and/or parts requiring special material control and quality assurance which support the nonmagnetic signature of minesweepers.	NAVICP MECH
VN	Electrostatic Discharge - Sensitive	NAVSEA
VP	Depermed Diesel Engine Piece Parts	NAVICP MECH
VS	Diving equipment	NAVSEA*
VT	T38 cargo/transport aircraft	NAVICP PHIL*#

Appendix 14 **Special Material Identification Codes**

Code	Definition/predominant application:	Assigned To
VX	Launching accessories	NAVICP PHIL
VY	Dynamic Alignment Test Sets (DATS)	NAVICP PHIL*
VZ	Hybrid automatic test set (HATS)	NAVICP PHIL*
V1	T406-AD-400 engine (model code 6AD400X) utilized on V22 aircraft	NAVICP PHIL*
V2	MV-22 aircraft	NAVICP PHIL*
WA	QF-9G drone aircraft	NAVAIR
WB	QF-9J drone aircraft	NAVAIR
WC	QT-33A drone aircraft	NAVAIR
WD	QF-45B drone aircraft	NAVAIR
WE	QF-86 drone aircraft	NAVAIR
WF	QF-8 drone aircraft	NAVAIR
WH	H53 helicopters (JSL items)	NAVICP PHIL*
WK	H46 Safety, Reliability and Maintainability (SR&M) Program	NAVICP PHIL*
WM	AN/ALQ-167 Counter-measure set	NAVICP PHIL*
WP	Match conditioned small arms	NAVICP MECH
WX	Common aircraft instrument parts	NAVICP PHIL
WZ	AN/APN 194 Electronic Altimeter Set	NAVICP PHIL*
XC	Reprocured C2A aircraft (peculiar)	NAVICP PHIL*
XE	I-CAP II peculiar	NAVICP PHIL*
➔ XF	E6-A and E-6B special electronic aircraft	NAVICP PHIL*
XH	SH-60B electronics helicopters	NAVICP PHIL*
XL	Clothing and survival	NAVAIR
XM	Target control system	NAVAIR
XN	F110-GE-400 jet engine	NAVICP PHIL*
XQ	T700 turbo prop engines	NAVICP PHIL*
XW	Sea Wing (AN/AR 40)	NAVICP PHIL*
XX	Common aircraft control equipment, landing gear, seats, misc.	NAVICP PHIL#
XY	Computerized Automatic Test (CATIII D)	NAVICP PHIL*
XZ	Aircraft radioactive material	NAVICP PHIL*

Special Material Identification Codes **Appendix 14**

Code	Definition/predominant application:	Assigned To
X1	Nuclear power	NAVSEA
X2	Nuclear Reactor Plant (NRP) material under the technical cognizance of NAVSEA 08 specially designed, manufactured and/or treated for use in a NRP or controls thereof. This material requires special handling, final machining, etc., by the user prior to installation and use.	NAVICP MECH
X3	Nuclear Reactor Plant (NRP) material under the technical cognizance of the NAVSEA 08 specially designed, manufactured and/or treated for use in a NRP or controls thereof. This category includes all other NRP items which are not coded X2 or X4.	NAVICP MECH
X4	Special category of Nuclear Reactor Plant (NRP)material which is procured by NAVICP MECH and technically receipt inspected and certified as ready for use by a naval nuclear shipyard.	NAVICP MECH
X5	Navy Nuclear Reactor Plant (NNRP) component level material under the technical cognizant of NAVSEA 08, but managed by NAVICP MECH. This SMIC contains all component level nuclear material not qualifying for X1 or X4 SMIC assignment.	NAVICP MECH
➔ X6	Naval Reactor Plant material under the technical cognizance of the MECH Naval Sea Systems Command (Directorate, Naval Nuclear Propulsion Program, NAVSEA 08) and managed by Naval Inventory Control Point-Mechanicsburg; it is specially designed, manufactured and/or treated for use in a Naval Reactor Plant. In addition this material is inspected (or sample inspected) by a Naval Shipyard and an RFI tag attached prior to being placed in Navy Supply System stock.	NAVICP
YA	AQM-37A power target system	NAVAIR
YB	BQM-34A power target system	NAVAIR
YC	BQM-34E power target system	NAVAIR
YD	MQM-74A power target system	NAVAIR
YE	AQM-34C power target system	NAVAIR
YF	AQM-36 power target system	NAVAIR
YG	AFC-50 BQM-74C target drone	NAVAIR
YM	AN/DLQ-3C Counter-measure set	NAVICP PHIL*
YW	TACAIR electronic warfare systems	NAVICP PHIL*
YX	Common aircraft systems components, furnishings, in-flight refueling, tires, tubes, and parts	NAVICP PHIL
YZ	Misc. kit applications	NAVAIR
ZA	A/A 47N-3 towed target system	NAVAIR

Appendix 14 **Special Material Identification Codes**

Code	Definition/predominant application:	Assigned To
ZB	A/A 37U-15 towed target system	NAVAIR
ZC	RMU-8A towed target system	NAVAIR
ZD	TDU-22B towed target	NAVAIR
ZE	TDU-22A/B towed target system	NAVAIR
ZF	QM-56 surface moving targets	NAVAIR
ZG	QM-41A3 surface moving targets	NAVAIR
ZH	CE1-3 catapult	NAVAIR
ZJ	M21 arresting gear	NAVAIR
ZK	Short airfield for tactical support (SATS) visual landing aids	NAVAIR
ZL	Short airfield for tactical support (SATS) earth anchor installation	NAVAIR
ZM	Short airfield for tactical support (SATS) packaging	NAVAIR
ZN	Reusable container modification kits	NAVAIR
ZW	Electronic warfare systems common to special electronics aircraft	NAVICP PHIL*
ZX	Common aircraft electrical power supply components, reciprocating engine accessories and parts.	NAVICP PHIL
ZY	AN/APN 118 (TACAN)	NAVICP PHIL*
ZZ	AN/ALQ-126 ECM equipment items	NAVICP PHIL*

APPENDIX 15

SUADPS-RT REPORTS AND LISTINGS

This appendix is designed to provide the SUADPS-RT user with a ready reference guide to output products available from the Shipboard Uniform Automated Data Processing System (SUADPS). The report/listing samples are listed by title, with a second cross reference listing in document identifier/report number sequence. Also provided is a list of reports by frequency of generation. The following reports are discussed:

SUADPS-RT REPORTS/LISTINGS BY TITLE

Report Title	No.	Page No.
Automatic Follow-up Ready For Release Processing Report	DI 072	A15-18
AVCAL/COSAL Analysis Report	DI 009	A15-26
AVCAL/COSAL Percentage Report	DI 009	A15-27
Budget OPTAR Report, AOM	Rpt 28	A15-78
Budget OPTAR Report, FLTOPS	Rpt 26	A15-78
Budget OPTAR Report, Reimbursable	Rpt 42	A15-78
Budget OPTAR Report, S&E	Rpt 47	A15-78
Budget OPTAR Report, Supported Unit	Rpt 41	A15-78
Budget Report	Rpt 21	A15-73
Cumulative Other Supply Officer File	DI OSO	A15-68
Delayed Receipt Report	DI-094	A15-58
Demand History Processing Report	DI 073	A15-28
Demand Reporting	Rpt 57	A15-44
Detail List of DLRs	DI 054	A15-60
Detailed Listing of Prior Fiscal Year Transactions	Rpt 23	A15-76
DLR Carcass Report	Rpt 58	A15-59
DTO Due With Material On Hand	DI 071	A15-33
End Use Difference Between Obligated and Expended Amount	Rpt 22	A15-75
Excess Stock Cancellation Request	DI 045	A15-12
Extended Money Value of DTO's by Fund Code Report	DI 065	A15-10
Financial Inventory Report	Rpt 03	A15-61
Fixed Allowance Management Review (FAMR) Report	DI 101	A15-34
Group Cancellation Listing	DI 093	A15-11
Information/Action Listing	N/A	A15-57
Inventory Adjustment Report	Rpt 34	A15-49
Issue Pending File Reports	N/A	A15-24
Listing of NWCF Expenditures	Rpt 06	A15-64
Location Validation Report	DI 051	A15-50
Maintenance Data System Reporting - Aviation	Rpt 96	A15-46
Maintenance Data System Reporting - Surface	Rpt 91	A15-45
Manual Follow-Up Listing	DI 072	A15-19
Master Location List	DI 095	A15-52

Appendix 15 **SUADPS-RT Reports and Listings**

Report Title	No.	Page No.
Master Stock Status Locator Listing (MSSLL)	DI 080	A15-25
Master Stock Status Report (MSSR)	DI 011	A15-35
Material Obligation Validation Report	DI 056	A15-13
Message Report of Credits	Rpt 24	A15-77
Monthly NAVCOMPT Form 2074 Report for Charges/Credits	Rpt 06	A15-64
Monthly Other Supply Officer (OSO) Report	Rpt 05	A15-63
Monthly Receipt Report	Rpt 04	A15-62
Monthly Report of Issues of Controlled Drug Substances	Rpt 36	A15-43
Monthly Transfer to Property Disposal Report	Rpt 05	A15-63
NAVCOMPT Form 2051 Message Report	Rpt 09	A15-71
NWCF Financial Summary	Rpt 48	A15-81
NWCF ROV A Summary	Rpt 07	A15-70
NWCF ROV B Summary	Rpt 08	A15-70
Offload Actions Canceled	DI 083	A15-23
Offload Documents Released	DI 083	A15-22
Offload Report by Extended Money Value	DI 083	A15-20
Offload Stock Control	DI 083	A15-21
OPTAR Document Transmittal Report	Rpt 20	A15-72
OPTAR History File	DI 015	A15-66
Order and Shipping Time Analysis Report (OSTAR)	DI OSTAR	A15-15
Outstanding Requisition Analysis Listing (ORAL)	DI OSTAR	A15-14
Receipt History File	DI RFH	A15-67
Receipt or Transfer of Supported Unit Data	DI SUTRAN	A15-69
Reorder Review Ledger	DI 081	A15-7
Requisition File Print	DI RFP	A15-9
Requisition History File Listing	DI RHF	A15-8
Requisition Printout	DI 90R	A15-17
ROV Availability Cost Report	Rpt 46	A15-80
Scheduled Inventory Listing	DI 084	A15-53
Seamart/PEB Catalog Report	DI 069	A15-48
Seamart/PEB Review Report	DI 068	A15-47
Spot Inventory Aids Report	N/A	A15-56
Stock Asset Dollar Value Extension (SADVE)	DI SDE	A15-65
Storeroom Audit Report	DI 051	A15-51
Stores Account Material Management Afloat/Ship Authorized Levels (SAMMA/SAL)	DI 008	A15-36
Summary of Unauthorized On Order Report (SUNOOR)	DI SUN	A15-40
Supply Effectiveness Report	Rpt 10	A15-42
Suspense Report	N/A	A15-54
Unfilled Order Summary	Rpt 20	A15-72
Uniform Material Movement and Issue Priority System (UMMIPS) Report	Rpt 62	A15-16
Unit of Issue Difference Report	N/A	A15-55

SUADPS-RT REPORTS/LISTINGS BY NUMBER

SUADPS-RT Reports and Listings — Appendix 15

Title: Reorder Review Ledger

Number: Created through DI 081

Frequency Produced: Twice monthly

P-485 Reference: par. 3806

SUADPS-RT Support Procedures Reference: Volume I, Chapter 4

Description:

A listing of the DI A0_ requisitions which have been formatted as a result of the automatic reorder program and are being temporary held in the ROF and DOF.

Title: Offload Report by Extended Money Value

Number: Created through DI 083

Frequency Produced: Monthly

P-485 Reference: par. 5322

SUADPS-RT Support Procedures Reference: Volume I, Chapter 4

Description:

This report lists, in descending EMV sequence, all items selected for offload consideration. The report provides management the means to identify those items with a high money value that will have the greatest impact on reducing the total value of excess material onboard.

SUADPS-RT Reports and Listings — Appendix 15

Title: Offload Stock Control

Number: Created through DI 083

Frequency Produced: Monthly

P-485 Reference: par. 5322

SUADPS-RT Support Procedures Reference: Volume I, Chapter 4

Description:

This report lists, in NIIN sequence, all items selected for offload. The report will be used by stock control to monitor the return of offload documents sent to stores division.

Title: Issue Pending File Reports

Number: N/A

Frequency Produced: Daily

P-485 Reference: par. 6838

SUADPS-RT Support Procedures Reference: Appendix 12

Description:

The Issue Pending File Report consists of 2 parts as follows:

Unprocessed Picking Tickets - This report lists all picking tickets that have been printed but have not been processed through the warehouse action function.

Issue Pending File Repairables Awaiting Return From AIMD (USID C and M only) - This report lists completed repairable issues for which a repaired replacement item has not been received.

Title: Summary Of Unauthorized On Order Report (SUNOOR)

Number: Created through DI SUN

Frequency Produced: Monthly

P-485 Reference: par. 6858

SUADPS-RT Support Procedures Reference: Volume I, Chapter 4

Description:

The SUNOOR program produces three listings:

Summarization of Unauthorized on Order - a statistical breakdown of redistributable assets on order extended money value.

Canceled Stock Items Over XX Days without Supply Response Report - displays DI AC or AK information for records without supply response within the last XX days.

Candidates For Partial or Full Cancellation - the requisition numbers for the partial and full cancellation candidates.

Title: Supply Effectiveness Report

Number: Report 10

Frequency Produced: Each time financial processing is accomplished, at least monthly.

P-485 Reference: par. 6860

SUADPS-RT Support Procedures Reference: Appendix 18

Description:

Displays for each cognizance symbol the number of demands received, issued, NC and NIS. Also provides the percentages for net and gross effectiveness.

Appendix 15 **SUADPS-RT Reports and Listings**

Title: Master Location List

Number: Created through DI 095

Frequency Produced: As required

P-485 Reference: par. 6823

SUADPS-RT Support Procedures Reference: Volume I, Chapter 4

Description:

The Master Location List provides storage personnel with a listing in NIIN sequence of all location data for records on the BMF.

Appendix 15 **SUADPS-RT Reports and Listings**

Title: Detail List of Depot Level Repairables (DLRs)

Number: Created through DI 054

Frequency Produced: Weekly

P-485 Reference: par. 8311

SUADPS-RT Support Procedures Reference: Volume II, Chapter 4

Description:

The Detail List of DLRs is a listing of records in the Repairables Tracking File (RTF). The listing consists of 3 parts as follows:

Part I - Records matching the selection criteria for material requiring carcass tracking.

Part II - Records for items requiring NRFI turn-in but are not included in the DLR carcass tracking system.

Part III - (USID C & M only) - Requisitions which were deferred for DLR stock replenishment.

```

Appendix 15 **SUADPS-RT Reports and Listings**

Title: OPTAR History File

Number: Created through DI 015

Frequency Produced: Monthly

P-485 Reference: par. 9513

SUADPS-RT Support Procedures Reference: Volume III, Chapter 4

Description:

A complete record of all transactions that have had an effect on one of the OPTARs maintained by the SUADPS-RT activity.

OPTAR HISTORY FILE INQUIRY LISTING DATE: 20 JUL 1997

APPENDIX 16

MEDIA AND STATUS CODES

Part A: INTRODUCTION

1. GENERAL. The Media and Status (M&S) Code is a one character, alpha numeric code found in card column (cc) 7 applicable to furnishing status on certain MILSTRIP requisitions, Material Returns Program (MRP) documents and related transactions. The media and status code is a mandatory entry by the originator of the document and will not be altered during subsequent processing, except when modified with an AM___ document or when changed by the Secondary Inventory Control Activity (SICA) for document control. Activities requiring status are encouraged to obtain and utilize full supply and shipment status to reduce the need for follow-up inquiries.

2. A SERIES DOCUMENTS: On A series documents the M&S Code indicates the type of status required, the preferred method of transmission, and the recipient of the status. With the exception of M&S Code Y, M&S Codes do not inhibit the mandatory furnishing of 100% supply and shipment status to the activity designated by a significant entry in 54. Limitations are as follows:

a. For intra-Navy ammunition requisitions, when a valid Navy UIC is entered in cc 45-50, supply status will be sent to the requisitioner and the supplementary address as well as the monitoring activity when one is prescribed by an entry in cc 54.

b. With the exception of M&S Code 8, M&S Codes do not apply to rejection or cancellation status, responses to follow-ups, or status responses to Material Obligation Validation (MOV) Response (DI Code AP_____) documents.

3. FT SERIES DOCUMENTS (MRP): On FT series documents, the M&S Code specifies the activity to receive replies to excess reports and related transactions output by ICPs/IMMs. Limitations are as follows:

a. When the SICA is identified in cc 52, M&S Code 9 will be entered and the Signal Code (cc 51) will be C or L.

4. DAAS DOCUMENT TRANSMISSION MEDIA.

a. Regardless of the M&S Code cited, supply sources will transmit all machine sensible (80 card columns) status documents via DAAS. Upon receipt of the status documents, DAAS will transmit via the most expeditious means available for each activity.

Part B: M&S CODES USED WITH A SERIES DI CODES

Code	Explanation
A	100% supply status and shipment status to requisitioner (cc 30-35) on a Clear-Text Supply Status/Shipment Information Mailer prepared by DAAS.
B	100% supply status to requisitioner (cc 30-35) by electronic methods.
C	100% supply status to requisitioner (cc 30-35) by readable document (mailed).
D	100% supply status to supplementary address (cc 45-50) by electronic methods.
E	100% supply status to supplementary address (cc 45-50) by readable document (mailed).
F	100% supply status and shipment status to supplementary address (cc 45-50) and requisitioner (cc 30-35) by electronic methods.
G	100% supply status and shipment status to requisitioner (cc 30-35) and supplementary address (cc 45-50) on a Clear-Text Supply Status/Shipment Information Mailer prepared by DAAS.
H	100% supply status and shipment status to supplementary address (cc 45-50) on a Clear-Text Supply Status/Shipment Information Mailer prepared by DAAS.
J	Exception supply status and shipment status to requisitioner (cc 30-35) on a Clear-Text Supply Status/Shipment Information Mailer prepared by DAAS.
K	Exception supply status and shipment status to requisitioner (cc 30-35) by electronic methods.
L	Exception supply status and shipment status to requisitioner (cc 30-35) by readable document (mailed).
M	Exception supply status and shipment status to supplementary address (cc 45-50) by electronic methods.
N	Exception supply status and shipment status to supplementary address (cc 45-50) by readable document (mailed).
P	Exception supply status and shipment status to requisitioner (cc 30-35) and supplementary (cc 45-50) address on a Clear-Text Supply Status/Shipment Information Mailer prepared by DAAS.
Q	Exception supply status and shipment status to supplementary address (cc 45-50) on a Clear-Text Supply Status/Shipment Information Mailer prepared by DAAS.
S	100% supply status and shipment status to requisitioner (cc 30-35) by electronic methods.
T	100% supply status and shipment status to requisitioner (cc 30-35) by readable document (mailed).

Code	Explanation
U	100% supply status and shipment status to supplementary address (cc 45-50) by electronic methods.
V	100% supply status and shipment status to supplementary address (cc 45-50) by readable document (mailed).
Y	No status to requisitioner (cc 30-35) or supplementary address (cc 45-50) other than mandatory shipment status to the ship-to activity designated by the signal code (cc 51). Exception supply status and shipment status by electronic methods to the activity designated by a significant entry in cc 54.
Z	Exception supply status and shipment status to requisitioner (cc 30-35) and supplementary address (cc 45-50) by electronic methods.
0	No status to requisitioner (cc 30-35) or supplementary address (cc 45-50) other than mandatory shipment status to the ship-to activity designated by the signal code (cc 51). 100% supply status and shipment status by electronic methods to the activity designated by a significant entry in cc 54.
2	Exception supply status to requisitioner (cc 30-35) by electronic methods.
3	Exception supply status to requisitioner (cc 30-35) by readable document (mailed).
4	Exception supply status to supplementary address (cc 45-50) by electronic methods.
5	Exception supply status to supplementary address (cc 45-50) by readable document (mailed).
8	100% supply status and shipment status to activity indicated in cc 54 by electronic methods. Do not provide status to any other status eligible recipient under any other circumstances. (For use only by SICAs on transactions for nonconsumable items.)

Part C: M&S CODES USED WITH FT SERIES DI CODES

Code	Explanation
1	Reserved.
2	Reply to requisitioner (cc 30-35) by electronic methods.
3	Reply to requisitioner (cc 30-35) by readable document (mailed).
4	Reply to supplementary address (cc 45-50) by electronic methods.
5	Reply to supplementary address (cc 45-50) by readable document (mailed).
9	Reply to activity in cc 52 by electronic methods.

Part D: MEDIA & STATUS CODES BY PREFERRED MEDIA

Preferred Media	To: cc	30-35	45-50	30-35 & 45-50	54

Exception supply status & shipment status		L	-	N	-
Exception supply status		3	-	5	-

APPENDIX 17

MANAGEMENT CODES

➔ 1. GENERAL. Management Codes are single digit alpha and numeric codes found in card column (cc) 72. They are utilized to provide supplemental data not indicated through the transaction coding structure. Management Codes A through L are assigned by NAVICP Mechanicsburg Code 0411 and are for intra-Navy use only on MILSTRAP documents. All other codes are assigned by DOD. Any codes not listed herein are reserved for future use and will not be utilized without proper authorization.

Part A: RECEIPT TRANSACTIONS

The following management codes are assigned for use in MILSTRAP material receipt related transactions (DIs D4__ and D6_ Material Receipts (excluding DI D6S), DD__ and DF__ Due-in Transactions, DU__ and DW_ Prepositioned Material Receipts, and DX_ Material Receipt Follow-ups), and related receiving documentation (when applicable), as indicated below:

Code	Applicable DIs	Definition
A	D6__	Receipt of lR cog, W purpose field level repairable processed on an exchange basis under CAB for crediting to end use funds.
B	D6__	Receipt of a successfully repaired IMA component issued on an exchange basis.
C	D6__	Receipt of depot level repairable (non RFI and RFI) for credit interrogation (nonexchange).
E	D6__	Receipt of non-RFI item returned from an exchange transaction.
M	D6_	Material condemned upon receipt. Quantity indicated shipped direct to DRMO or other authorized/required disposal action has been taken. Excludes items for which shelf-life has expired and cannot/will not be extended.
N	All DIs	Return of undelivered (frustrated) cargo with accompanying shipper documentation.
P	D4_, D6_	Material received without documentation. Support documentation and document number created by storage activity.
Q	D6_	Multiple Use: (1) Return of material improperly identified at time of shipment from depot. (2) Return of Government-owned containers.

Code	Applicable DIs	Definition
R	D4_, D6_	Material receipt discrepancy; discrepancy report submission required. Excludes vendor caused misdirected shipments covered by Code S and quantity overage covered by Code U.
S	D4_	Material receipt discrepancy; discrepancy report submission required. Vendor caused misdirected shipment from procurement instrument source. Material meets acceptance criteria specified in contract.
T	D6_	Material condemned upon receipt. Shelf-life has expired and cannot/will not be extended. Quantity indicated shipped direct to DRMO or other authorized/required disposal action has been taken.
U	D4_	Material receipt discrepancy; discrepancy report submission required. Quantity delivered exceeded authorized quantity including any allowable contract variance and/or excess delivery clause. Material meets acceptance criteria specified in the contract.
Z	All DIs	Exception data entered in remarks or follows by separate correspondence.

Part B: ISSUE RELATED TRANSACTIONS

Management codes are assigned for use in issue related transactions (DI D7_ Issues, DG_ Backorders and DHA Demands) and MILSTRIP transactions (DI A4_Referral Orders, A5_ Material/Disposal Release Orders, and A6_ Material/Disposal Release Denials and AE6 Supply Status) related release documentation (when applicable), as indicated below:

A	A4_	ICP directed backorder - establish a nonreplenishable backorder against material due in from repair. Use with Status Code NF only.
B	A4_	Denied. For Ammunition only, miscellaneous reasons, e.g. component test bed not available, shipping container not available or is obsolete, all components not available for an AUR, etc. Use when no other management code identifies the reason for rejection.
C	A4_	Cancellation Notification. A referral activity's notification that cancellation action has been effected subsequent to their receipt of IM initiated referral order. Upon receipt of a referral with a C management code, IM will delete the requisition record from their suspense file and adjust due-out and demand data.
D	A4_	ICP directed issue for backordered requirement, release to reservation level authorized.

Management Codes **Appendix 17**

Code	Applicable DIs	Definition
E	A4_	ICP directed issue for backordered requirement, release below reservation level authorized.
G	A4_	ICP directed backorder, establish a replenishable backorder against material due in from repair. Use with Status Code F only.
J	A4_	ICP directed issue, release to reservation level.
K	A2_	ICP directed redistribution, release to reservation level.
K	A4_	Bounce back of Redistribution Order.
L	A4_	ICP directed issue, release below reservation level authorized.
M	D7_less D7J,	Backorder release.
M	A_ less A5J and A6_	Non-Navy backorder release.
M	D7J, A5J	Material condemned. Quantity indicated shipped direct to DRMO or other authorized/required disposal action has been taken. Excludes items for which shelf-life has expired and cannot/will not be extended.
N	DHA, D7_, A4	Nonrecurring demand.
O	DHA, D7_, A4_	No demand.
P	DHA, D7_, A4_	Nonrecurring demand for special program requirements.
R	DHA, D7_, A4_	Recurring demand.
R	A5_	Pre-inventory document.
S	DHA, D7_, A4_	Commissary resale demand.
T	D7J, A5J	Material condemned. Shelf-life has expired and cannot/will not be extended. Quantity indicated shipped direct to DRMO or other authorized/required disposal action has been taken.
U	A5_	Post inventory document.
W	AE6, A4_ (intra-Navy only), A6_, D7_	Denied. Cannot identify DoDAAC/MAPAC of designated material recipient.
X	AE6, A4_(intra-Navy only), A6_, D7_	Denied. Consignee, freight forwarder or country representative has advised that issue of this material will constitute a duplicate shipment.
Z	D7_, DG_, A6_	Exception data entered in remarks or follows by separate correspondence.

Code	Applicable DIs	Definition
1	AE6, A4_(intra-Navy only), A6_, D7_	Denied. Stock exhausted, unsuccessful storage activity search has been made.
2	AE6, A4_(intra-Navy only), A6_, D7_	Denied. Material not available in condition requested.
3	AE6, A4_(intra-Navy only), A6_, D7_	Denied. Material not available in proper shelf-life.
4	AE6, A4_(intra-Navy only), A6_, D7_	Denied. Material not available in type pack (overseas or domestic) requested (subsistence only); or specified lot number cannot be released (ammunition only).
5	AE6, A4_ (intra-Navy only), A6_, D7_	Denied. Reidentification or reclassification of assets in process. Storage activity to advise results of reidentification or reclassification.
6	AE6,A4_(intra-Navy only), A6_, D7_	Denied. No record of NSN at storage activity. This denial results from review of the storage records and the storage activity has not conducted a physical search for the item.
7	AE6,A4_(intra-Navy only), A6_, D7_	Denied. Zero balance in an issuable condition indicated on storage activity custodial/memorandum record and no record location exists. This denial result from review of the storage records and the storage activity has not conducted a physical search for the item.
8	Appropriate DIs (intra-Navy only)	Denied. Partial bounce back.
9	AE6, A4_(intra-Navy only), A6_, D7_	Denied. To ICP from storage. Item was ordered in one continuous length only but is not so available.

Part C: GAIN/LOSS RELATED TRANSACTIONS

Management codes are assigned for use in MILSTRAP gain/loss related transactions (DI D8_/D9_ Inventory Adjustment Increases/Decreases, DAC Dual Inventory Adjustments) as indicated below:

	M	D9__, DAC	Material condemned. Quantity indicated shipped direct to DRMO or other authorized/required disposal action has been taken. Excludes item for which shelf-life has expired and cannot/will not be extended.
➔	O	D8B, D9B	Gain/loss resulting from end-of-day processing.
➔	P	D8B, D9B	Gain/loss resulting from location reconciliation.

Code	Applicable DIs	Definition
➔ Q	D9_	Loss resulting from a material release denial on another owner/manager's material.
R	D8_	Gain resulting from creation of computer record balance in in order to process out-of-sequence high priority issues. This posting to an insufficient balance may be used when negative balances are not permitted.
S	D9_	Loss resulting from automatic adjustment due to receipt of material release denial of stocks issued as a result of computer record balance gained through use of Management Code R above.
T	D9G, DAC	Material condemned. Shelf-life has expired and cannot/will not be extended. Quantity indicated shipped direct to DRMO or other authorized/required disposal action has been taken.
Z	All DIs	Exception data entered in remarks or follows by separate correspondence.

Part D: PHYSICAL INVENTORY RELATED TRANSACTIONS

Management codes are assigned for use in physical inventory transactions (DI DJA Physical Inventory Requests, DJB Physical Inventory Notifications and DKA Physical Inventory Counts) as indicated below:

M	DJA	Recount requested.
M	DKA	Recount effected.
N	DKA	Quantity reflects a balance from a non-commingled location.
Y	DKA	Quantity reflects a balance from commingled location.
Z	All DIs	Exception data entered in remarks or follows by separate correspondence.

Part E: INFORMATIVE TRANSACTIONS

Management codes are assigned for use in informative transactions (DI D6S Material Receipt Acknowledgments, DZC Logistics Reassignment Storage Information Transactions and DZD Logistics Reassignment Storage Information Replies). Management codes are assigned for use in these transactions as indicated below:

D	DG_	Establish a Planned Requirement.
E	DG_	Establish a Reservation.
Z	All DIs	Exception data entered in remarks or followed by separate correspondence.

THIS PAGE LEFT BLANK INTENTIONALLY

APPENDIX 18

COGNIZANCE OF NAVY MATERIAL

1. GENERAL. The Cognizance Symbol (commonly referred to as cog) is a two digit alpha-numeric code prefixed to national stock numbers to identify the cognizant inventory manager, the stores account and the type of material. The first character of the cognizance symbol identifies the stores account as follows:

a. "0" denotes material is not carried in a stores account;

b. Even numbers 2, 4, 6, and 8 denote material is carried in Appropriation Purchase Account (APA), except for 2A and 8A, which are not carried in any stores account;

c. Odd numbers 1, 3, 5, and 7 denote material is carried in the Navy Working Capital Fund (NWCF).

d. "9" denotes Navy owned material carried in NWCF and managed by Naval Inventory Control Point, Mechanicsburg.

2. ASSIGNMENT. All requests for assignment of cognizance symbols will be addressed to NAVICP Mechanicsburg, Code 0411, Mr William Little (717) 605-1452 or Email William_J_Little@icpmech.navy.mil. Your request should include inventory management, technical command, and stores account related date and a description of the material. The cog will be effective at a minimum of 120 days from the assignment date.

3. ARRANGEMENT. This Appendix is arranged in 3 parts as follows:

Part A - Inventory Manager Sequence Listing

Part B - Cognizance Symbol Sequence Listing

Part C - Alpha Alpha Cognizance Symbols

Part A: INVENTORY MANAGER SEQUENCE LISTING

Army Armament Command - 9H
Army Communications Security Logistics Agency - 5L
Army Electronics Command - 9Y
Army Missile Command - 9S
Army Security Agency - 5M
Army Tank Automotive Command - 9A
Army Troop Support and Aviation Material Readiness Command - 9W
Army Troop Support Command - 9E
Chief, Naval Education and Training (CNET) - 0K
Civil Engineer Support Office (CESO) - 0N, 2C
Commandant of the Marine Corps (CMC) - 0T
Communications Security Material Systems - 2L

Appendix 18 Cognizance of Navy Material

Defense Energy Support Center (DESC) (formerly DFSC) - 9X
Defense Supply Center Columbus (DSCC, formerly DCSC and DESC) - 3C, 3N, 9C, 9N
Defense Supply Center Philadelphia (DSCP) (formerly DPSC and DISC) – 3Z, 9D, 9L, 9M, 9Z
Defense Supply Center Richmond (DSCR) (formerly DGSC) – 3G, 9G
Defense Special Weapons Agency - 0A
Federal Aviation Administration - 9T
General Services Administration (GSA) - 9Q
Joint Cruise Missile Project Office - 2D
MCLBLANT Albany, GA - 9O
Military Sealift Command (MSC) - 0X
National Imagery Mapping Agency - 2A
National Weather Service - 9P
Naval Air Systems Command (NAVAIR) - 0V, 2M, 2Q, 2V, 2W, 4K, 4V, 6V, 8E, 8M,
Naval Inventory Control Point Mechanicsburg (NAVICP MECH)- 0J, 0M, 0O, 0S, 0U, 1H, 2B, 2E, 2Q, 2T, 3H, 4E, 4T, 4Y, 6A, 6B, 6C, 6D, 6H, 6L, 6M, 6X, 6Y, 7E, 7G, 7H, 7N, 7Z, 8A, 8S, 8U
Naval Inventory Control Point Philadelphia (NAVICP PHIL) - 0Q, 0R, 1R, 4R, 4Z, 5R, 6K, 6R, 7R, 8N
Naval Mine Warfare Engineering Activity - 6T
Naval Plant Technical Representative, Anaheim CA - 4X, 8X
Naval Plant Technical Representative, Great Neck, NY - 8P
Naval Plant Technical Representative, Pittsfield MA - 2P
Naval Plant Technical Representative, Sunnyvale CA - 2X, 4P, 6P
Naval Publications and Forms Directorate (NPFD), Philadelphia, PA - 0I, 1I
Naval Sea Systems Command (NAVSEA) - 0E, 2F, 2J, 2S, 8T
Naval Supply Systems Command (NAVSUP) - 1B
Naval Training Systems Center - 2O
Navy Exchange Command (NEXCOM) - 1Q
Ogden Air Logistics Center - 9I
Oklahoma City Air Logistics Center - 9J
Sacramento Air Logistics Center - 9K
San Antonio Air Logistics Center - 5N, 5P, 9V
Space and Naval Warfare Systems Command (SPAWAR) - 0L, 2Z, 4M
Strategic Systems Programs Office (SSPO) - 0P
Warner Robins Air Logistics Center - 9F

Part B: COGNIZANCE SYMBOL SEQUENCE LISTING

Cog	Description
0A	Department of Energy War Reserve Nuclear Ordnance in Navy Custody. Field Command, Defense Special Weapons Agency is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG and C110 Series Nuclear Ordnance Items in Navy Custody. Material is not carried in a stores account.
0B	Nonconsumable Shipboard and Nonshipboard Electronics Repair Parts and Equipment. This cognizance symbol represents material managed by the Coast Guard Electronic and General Supply Inventory Control Point, Brooklyn, NY. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.
0C	Nonconsumable Nonelectronic Shipboard Repair Parts and Equipment. This cognizance symbol represents material managed by the Coast Guard Inventory Control Point, Curtis Bay, MD. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.
0D	Nonconsumable Avionics Equipment and Repair Parts and Aircraft Repair Parts. This cognizance symbol represents material managed by the Coast Guard Avionics Inventory Point, Elizabeth City, NC. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.
0E	NAVSEA Special Prepositioned War Reserve Material. This cognizance symbol consists of nonstock numbered Defense Industrial Plant Equipment Center type material and is assigned solely for reporting purposes. NAVSEA is the inventory manager and maintains technical responsibility. Source of identification is NAVSEA Catalog of Advance Base Material (0900-LP-909-4010). Material is not carried in a stores account.
0F	Consumable Nonelectronic Shipboard Repair Parts and Equipment. This cognizance symbol represents material managed by the Coast Guard Inventory Control Point, Curtis Bay, MD. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.
0G	Consumable Shipboard Non-Shipboard Electronics Repair Parts and Equipment. This cognizance symbol represents material managed by the Coast Guard Inventory Control Point, Brooklyn, NY. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.
0H	Consumable Avionics Equipment and Repair Parts and Aircraft Repair Parts. This cognizance symbol represents APA material managed by the Coast Guard, Elizabeth City, NC. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
0I	Publications. The cognizant Navy sponsor is the inventory manager. Document Automation and Production Service (DAPS) maintains technical responsibility. Source of identification is the NAVSUP P-2003. Material is not carried in a stores account. Material included is as follows: Departmental publications developed and prescribed by various bureaus, commands and offices of the Navy Department for Navy-wide use which have been introduced and accepted into the cognizance symbol I segment of the Navy Supply System; Publications used repetitively within the Navy and developed by other government agencies that have been introduced and accepted into the cognizance symbol I segment of the Navy Supply System; Unclassified federal and military standards, specifications and related documents prescribed or accepted by the Department of Defense for use by the Department of Defense and industry; classified standards, specifications and related documents used by the Navy; Local district or command publications used repetitively by two or more activities within a command, naval district, or other area, and approved by the director of the DAPS Office concerned; Related material already described which may be assigned to the individual sponsors by the Naval Supply Systems Command for central Navy control and management. Any book, pamphlet, letter-type, book-type or pamphlet-type directive; Manual, folder, brochure, technical report, chart, poster, map, tag, pretitled binders and tab dividers, binder posts and screws, or blankbook, printed by or for the Navy, regardless of content, format, quantity, distribution, or intended end use, including any of these in; Material excluded is as follows: Nontechnical periodicals, microcards, magazines and newspapers; micrographic form. Publications not specifically identified as cognizance symbol I material; Special Weapons Ordnance Publications stocked and distributed by Naval Surface Warfare Center, Indian Head Division Detachment McAlester; and printed material developed and controlled by the Naval Oceanographic Office.
0J	Interim Support Items for lH Cognizance Material. This cognizance symbol represents consumable and field level repairable material under contractor interim support (pre-material support date) that is managed by the Naval Inventory Contol Point Mechanicsburg. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is not carried in a stores account.

Cog	Description
0K	Library Material. The Chief, Naval Education and Training (CNET) controlled cognizance symbol 0K material consists of library materials used in the Naval General Library Program for which CNET has technical and administrative guidance and support responsibility. Material is not carried in a stores account. Material included is as follows: Books, pamphlets, documents and other library materials, both print and nonprint, used to support shipboard libraries and general libraries ashore for which CNET is responsible. Nonfiction and fiction books, hardbound and paperbound, selected and ordered by CNET and usually published by commercial firms.
0L	SURTASS Contractor Supported Items. Cog 0L represents contractor supported items for the SURTASS system. SPAWAR is the inventory manager and maintains technical responsibility. Material is not carried in a stores account.
0M	Interim Support Items for 7E Cognizance Material. Cog 0M represents depot level repairable material under contractor interim support (pre-material support date) that is managed by NAVICP MECH. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is not carried in a stores account.
0N	Secondary Items Supporting Strategic Sealift and Naval Construction Force Allowance Equipment. Cog 0N material consists of modified commercial publication sets for 2C cognizance equipment; Naval Construction Force unique Table of Allowance (TOA) items subject to special monitoring, testing and controls to ensure safety and compatibility with other allowance items; Strategic Sealift Program equipment repair parts, components and assemblies subject to engineering control decisions during production or prior to issue. CESO is the inventory manager. NAVFAC maintains technical responsibility. Source of identification is the TOA, APLs and the Advance Base Functional Components (NAVFAC P-437). Material is not carried in a stores account.
0O	Interim Support Items for 7H Cognizance Material. Cog 0O represents depot level repairable material under contractor interim support (pre-material support date) that is managed by NAVICP MECH. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is not carried in a stores account.
0P	Specially Prepared Polaris/Poseidon/Trident Technical Publications. SSPO is the inventory manager. SSPO has established specific controls concerning stock number assignment, initial distribution and requisitioning of these technical publications. Non-Polaris and Poseidon (fleet ballistic missile) and Strategic Weapons System (Trident) customer demands are referred to SSPO for issue decision. Source of identification is the NAVSUP P-2003. Material is not carried in a stores account.
0Q	Contractor Support Items for 1R Cognizance Material. Cog 0Q represents consumable aeronautical material under contractor interim support (pre-material support date) that is managed by NAVICP PHIL. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is not carried in a stores account.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
0R	Contractor Supported Items for NAVICP PHIL Depot Level Repairables (7R). Cog 0R represents repairable aeronautical material under contractor interim support (pre-material support date) that is managed by NAVICP PHIL. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is not carried in a stores account.
0S	Reactor Plant Technical Manuals. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is the NAVSUP P-2003. Material is not carried in a stores account.
0T	Expendable Ordnance. Commandant of the Marine Corps is the inventory manager and maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (NAVSEA OD 120670). Material is not carried in a stores account.
0U	Interim Support Items for 7G Cognizance Material. Cog 0U represents depot level repairable material under contractor interim support (pre-material support date) that is managed by NAVICP MECH. SPAWAR maintains technical responsibility. Source of identification is FEDLOG. Material is not carried in a stores account.
0V	Consumable Oil Analysis Calibration Standards. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is not carried in a stores account.
0W	Shipboard and Nonshipboard Electronics Repair Parts and Equipment. Cog 0W material consists of supply funded material managed by Coast Guard, Brooklyn, NY. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.
0X	Military Sealift Command (MSC) Special Material. MSC controlled material consists of machinery or equipment, including electronics of a non military nature, which because of their design or specified use, is peculiar to ships under the control of MSC. Such material is held exclusively for MSC use and does not duplicate stock carried, or under the control of, other segments of the Navy Supply System. To ensure that duplications are not carried in cog 0X stock, specifications for new items to be added to this stock are forwarded to NAVSEA or NAVICP MECH for concurrence prior to stocking. In addition to the quality controls provided for all material of the Navy Supply System, cog 0X material is required to be in conformance, as appropriate, with the rules and regulations of the U.S. Coast Guard and the standards of the American Bureau of Shipping. Navy activities requiring cog 0X material should forward their requisitions to NAVICP MECH (RIC N35) off-line (not via DAAS). Source of identification is the MSC Standard Item Master Identification (NIF-MSC). Material is not carried in a stores account.
0Y	Avionics Equipment and Repair Parts and Aircraft Repair Parts. Cog 0Y material consists of supply funded material managed by Coast Guard, Elizabeth City, NC. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.

Cognizance of Navy Material **Appendix 18**

Cog	Description
0Z	Nonelectronic Shipboard Repair Parts and Equipment. Cog 0Z material consists of supply funded material managed by Coast Guard, Curtis Bay, MD. This material is issued only on receipt of an MRO from a Coast Guard ICP. No other requisitions will be honored.
lB	Fuel Reclamation. Cog 1B is assigned to identify fuel to be included in the reclamation process. NAVSUP is the inventory manager and maintains technical responsibility. Material is carried in the Navy Working Capital Fund (NWCF).
lH	Navy Working Capital Fund Material. NAVICP MECH is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Excluded from cog 1H material are lighting trailers for aircraft maintenance, aircraft signal wands, avionics equipment and aircraft weighing scales, which are specifically assigned to NAVICP PHIL. Material included is as follows: Shipboard and base equipment, repair parts, components and assemblies which are required in the support of major end items and equipment assigned to NAVICP MECH for program support; Electronic items which are required in support of the electronic equipment assigned to NAVICP PHIL or MECH for program support (formerly cognizance symbol 1N); Ordnance equipment and ordnance repair parts, components or assemblies required in support of ordnance equipment assigned to NAVICP MECH for program support (formerly cognizance 1A); General stores type items such as welding and brazing supplies and accessories and cutting tools for machine tools; Indoor and outdoor electric lighting fixtures, electric portable and hand lighting equipment, electric lamps, ballasts, lamp holders, starters and specialized lights such as distress marker lights; Scales and balances, drafting, surveying and mapping instruments.
1I	Forms. The cognizant Navy sponsor is the inventory manager. Document Automation and Production Service (DAPS) maintains technical responsibility. Source of identification is the NAVSUP P-2003. Material is carried in the Navy Working Capital Fund (NWCF). Material included is as follows: Departmental forms developed and prescribed by various bureaus, commands and offices of the Navy Department for Navy-wide use that have been introduced and accepted into the cognizance symbol I segment of the Navy Supply System; Forms used repetitively within the Navy and developed by other government agencies that have been introduced and accepted into the cognizance symbol I segment of the Navy Supply System;

Appendix 18 **Cognizance of Navy Material**

Cog	Description
1I (cont)	Local district or command forms used repetitively by two or more activities within a command, naval districts, or other area, and approved by the director of the DAPS Office concerned;

Related material already described which may be assigned to the Naval Publications and Forms Center by the Naval Supply Systems Command for central Navy control and management.

Preprinted documents for recording, reporting, transmitting and processing data. These items generally contain an arrangement of blank spaces for manual or mechanical insertion of specified data and may be in single or multiple page; with or without carbon inserts; bound or unbound; and in card, sheet, set, pad or pamphlet form.

Descriptive, instructional, or informational decals, labels and placards.

Material excluded is as follows:

Forms peculiar to the requirements of an individual activity which are produced or procured locally as field printing or contract field printing and which are not subject to central Navy control and management;

Forms over which control must be performed by the bureau, command or office directly concerned due to special conditions such as content or limitations in use;

Forms developed by other government agencies and used within the Navy, but not susceptible to central Navy control and management.

1Q Ship's Store and Commissary Store Material. The Navy Exchange Command (NEXCOM) is the inventory manager. NAVSUP maintains technical responsibility. Source of identification is Local Contract Bulletins and Ships Store Afloat Stock Catalog. Material is carried in the Navy Working Capital Fund (NWCF). Material included is as follows:

All articles intended for resale in ship's store or commissary stores;

Material to be used in the operation and maintenance of the ship's store and its service activities or the commissary store, such as soap for laundry, etc.

Navy and Military Sealift Command exchange stock, although not included in the Navy Supply System, is identical to ship's store stock and is controlled by the Navy Exchange Command.

Cognizance of Navy Material **Appendix 18**

Cog	Description
1R	Aeronautical, Photographic, and Meterological Material (consumable or expense type material). NAVICP PHIL is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Material included is as follows: Consumable supplies as distinguished from cognizance symbol 7R, repairable or investment type material) which are specifically designed for the repair, maintenance and operation of aeronautical, photographic and meteorological material; Fabricated replacement parts and semifabricated items such as metal, rubber and plastic in bars, sheets, shapes or strips; rigid and flexible tubing; wire and cable; Textiles such as cord cloth for shrouds and exposure suits; Fire retarding carpet, tapes and slide fasteners; Filters, lenses, film hangers, reels, radiosonde, balloons, batteries, computers and charts designed for exclusive functional use with aeronautical, photographic and meteorological equipment; Specialized hand and portable power tools specifically designed for use on aircraft engines or propellers and related aeronautical accessories.
2A	Maps, Charts and Geodetic Products. National Imagery Mapping Agency is the inventory manager and maintains technical responsibility. Material is not carried in a stores account.
2B	Material Handling Equipment. NAVICP MECH is the inventory manager. NAVSUP maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Excluded from cog 2B material are construction cranes, overhead cranes and material handling equipment assigned to deployable Air Fleet Marine Forces and Marine Corps Activities for which the Commandant of the Marine Corps has responsibility. Cog 2B material consists of equipment normally used in storage and handling operations in and around warehouses, shipyards, industrial plants, airfields, magazines, depots, docks, terminals and aboard ships as follows: Warehouse tractors, forklift trucks, platform trucks, pallet trucks, straddle-carrying trucks, mobile cranes, trailers, hand trucks, handcarts and pallet-type handlift trucks; FSC 3930 items, FSC 3920 (manual hydraulic pallet trucks - MHE trailers only) and FSC 3950 (warehouse cranes only).

Appendix 18 **Cognizance of Navy Material**

Cog	Description
2C	Major Construction and Civil Engineering Equipment. The Civil Engineering Support Office (CESO) is the inventory manager. NAVFAC maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2C material consists of equipment, components and supporting items that are in a research and development stage; or these equipment and components for which budget and procurement requirements, quality control or assignment to use require continuing logistics, engineering, or fiscal administration and control at the department level. Material included is as follows: All automotive equipment including general and special purpose vehicles (commercial or tactical) designed and used on and off highways for the transportation of personnel, cargo, tools, equipment and for firefighting purposes; All construction equipment which is defined as mechanical equipment used in the construction and maintenance of roads, bridges, buildings, or other kinds of real property including cranes, both truck and crawler-mounted, road rollers, graders, tractors, scrapers, street sweepers, pumps, air compressors, rock crushing plants, concrete mixing plants, asphalt plants and all like equipment; All weight-handling equipment used ashore in lifting large units of material and in some instances transporting or loading such material (exclusive of material handling equipment) including such equipment as hoists (except those of the elevator type); cranes of the overhead, wall, pillow and jig type; cranes of the portal, tower and locomotive type; also cranes of gantry, semigrantry, or cantilever gantry type and derricks; All railroad equipment such as locomotives and other rolling stock designed for use on rails; Chemical agent detector kits and refills afloat and ashore; material and appliances for defense ashore against chemical, biological and radiological warfare except instruments for detection and measurement of radioactivity; Public works and public utility type equipment and material such as prefabricated structures; pontoons; accessories and propulsion units, floating dry-docks; mooring equipment and navigational marker buoys; knockdown fuel oil and water storage tanks; package boilers and generator sets; switchgear; transformers; commercial type refrigerator equipment; air conditioning units; elevators; escalators; field telephone systems; distillation and purification units and other water treatment systems; water-fuel separators; and petroleum production equipment. Material excluded is as follows: Automotive, construction, weight-handling railroad equipment of a special type that are designed, developed and constructed for any bureau, command or office to perform a service peculiar to the requiring agency, which is the sole user. Equipment which uses standard chassis and motor and are modified in minor particulars are not considered excluded.

Cog	Description
2D	TOMAHAWK Sea Launched Cruise Missile And Associated Equipment. The Cruise Missiles Project Office is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA).. Items are managed and reported in the Conventional Ammunition Integrated Management System (CAIMS). Nuclear weapons material for the TOMAHAWK Cruise Missile and surface vertical launch canisters are excluded. Materials included are as follows: Surface and Submarine launched Tactical All-Up-Rounds; Surface and Submarine launched non-Tactical All-Up-Rounds; Capsules and canisters for cognizance symbol 2D items; Shipping containers for cognizance symbol 2D items; Miscellaneous trainers, fuses and warheads.
2E	Conventional Air Ammunition. NAVICP MECH is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 2E material consists of those items of expendable ordnance, generally classified as conventional ammunition, over which NAVAIR exercises technical control. Cog 2E items are primarily those items of conventional ammunition used on or launched by aircraft. Material included is as follows: Bombs (all types except nuclear bombs), bomb components including fin assemblies, fuses, primer detonators, etc., and bomb details including lugs, plugs, tools, etc.; Chaff for countermeasure systems and chaff dispensers; 20mm, 25mm and 30mm aircraft gun ammunition including cartridges and links; Rockets and components (air launched) including launchers, rocket motor clusters, fuses, warheads, propellant grain, igniters, inhibitors, fairings, cable assemblies and rocket motors Jet Assisted Take-Off (JATO); Pyrotechnics under NAVAIR technical cognizance including aircraft parachute flares, decoy flares, aircraft illuminating signals, aircraft smoke signals, photo flash cartridges and location markers; Military chemicals under NAVAIR technical cognizance including incendiary oil thickener, irritant agent dispensers, smoke tank aluminum spheres and filling units; Cartridges and cartridge actuated devices, aircrew Escape Propulsion Systems including aircraft ejection seat catapults, ignition elements, impulse cartridges, and cartridges for fire extinguishers, parachute delays, safety belts and cutters; Miscellaneous ammunition components and ammunition details including pallets, pallet adapters, pallet crates and shipping and storage containers specifically designed for air ammunition items.

Cog	Description
2F	Major Shipboard Electronic Equipment. NAVSEA is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2F material consists of equipment, components, and supporting items in support of new construction or conversion, fleet modernization (FMP), fleet maintenance, Defense Security Assistance and other services and government agencies as well as: Items in a research and development stage; Items of such technical complexity that engineering control decisions are required during production or prior to issue; Items unstable in design; or Items specifically assigned to the Naval Sea Systems Command. Excluded from cog 2F material are SPAWAR cog 2Z electronic equipment. Material included is as follows: All shipboard radar equipment including air search, surface search, height finding, three coordinate, radar displays, radar antennas, submarine radar; Submarine periscopes including complete systems, major components and containers; All Navy sonar equipment including complete systems, major components, domes, hydrophones and transducers; Naval Tactical Data Systems (NTDS); Shipboard navigational systems including ship's inertial navigation systems, gyrocompasses, Position Location and Reporting System (PLRS), NAVSAT, OMEGA and LORAN Receivers; Interior communication equipment such as AN/SRC-47,AN/SRC-48, AN/WIC, amplifiers and recorder/reproducers; Exterior communications such as LAMPS Receivers, AN/SKR-4, AN/SRQ-4; Electronic Warfare (EW) equipment and Electronic Countermeasures (ECM) equipment; Radiac; Tritium air monitors.

Cog	Description
2J	Major Shipboard Ordnance Equipment. NAVSEA is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2J material consists of equipment, components, and supporting items in support of new construction or conversion, fleet modernization (FMP), fleet maintenance, Defense Security Assistance and other services and government agencies as well as: Items in a research and development stage; Items of such technical complexity that engineering control decisions are required during production or prior to issue; Items unstable in design; Items specifically assigned to the Naval Sea Systems Command. Excluded from cog 2J material are nuclear weapon and Polaris/Poseidon/Trident missile material. Material included is as follows: Guns (40MM through 16 inch); intermediate caliber gun mounts; major caliber turrets; launching systems for guided missiles and underwater weapons; shipboard fire control systems for surface and underwater weapon systems; above torpedo tubes; rocket launchers and antisubmarine warfare projectors and related end items, components and subassemblies; Peculiar handling, transporting and associated support or test equipment for the items mentioned herein.
2L	End Cryptographic Equipment And Ancillaries. The Director, Communications Security Material Systems is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA).
2M	Cryogenics And Mobile Facilities And Related Ancillary Equipment. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2M material consists of mobile facilities and the related ancillary equipment, cyrogenics facilities equipment, and peculiar support equipment for air launched missiles required to support Naval and Marine Corps flight line and aviation facilities. Material ncluded is mobile facilities and ancillary equipment; stationary skid-mounted cyrogenics equipment (liquid oxygen or nitrogen storage tanks, recharger units and systems); and peculiar support equipment for air launched missiles. These equipment and systems are under the program management of NAVAIR consistent with the following criteria: Items in a research and development stage; Items requiring engineering control decisions; Items unstable in design; Items expressly assigned to NAVAIR.

Cog	Description
2O	Training Equipment. The Naval Training Systems Center (NAVTRASYSCEN) is the inventory manager and maintains technical responsibility. Source of identification is the Index to Director of Naval Training Devices, 0550-LP-200-0001. Material is carried in the Appropriation Purchase Account (APA). Cog 2O training equipment consists of training device and training aid end-items which have been specifically developed, procured, cataloged, and distributed by NAVTRASYSCEN to fulfill a training requirement established by a training agency. This category also includes training equipment (other than operational equipment) procured by systems commanders, project managers and chiefs of bureaus and offices and subsequently transferred to the NAVTRASYSCEN for cataloging, maintenance and support. In addition to end-item training equipment, cognizance symbol 2O includes those related training equipment components, accessories, modification kits and related material, tools, dies, jigs and fixtures requiring issue or procurement determination by a training equipment specialist or engineer. Training devices and training aids are defined as follows: Training Device. A training device is defined as an equipment which is designed exclusively for training purposes to demonstrate or illustrate a concept or to provide a simulated system in which a student's skill or technique is developed or improved. Operational equipment is included when it is an integral part of a specific training device. A training device is further defined as a device which involves simulation of some type in its construction or operation, as distinguished from a training aid. Training Aid. A training aid is defined as any item which is developed and produced with the primary intent that it shall assist in training and in the process of learning. Training aids are restricted to include those items of training equipment, generally minor in nature, which fall outside the definitions of training devices and operational equipment used for training. Material Included. Cog 2O training equipment includes the training devices, training aids and specialized support equipment described in the following items which meet the standard described above: Training devices and training aids used in aviation, surface and subsurface training such as flight, pilot, technical training; celestial identification and navigation; radar navigation; aircraft dead reckoning; automatic pilot; instrument flying and landing trainers and simulators; visual landing simulators; ship handling trainers; shipboard and shore-based weapons system and electronic warfare trainers; shipboard weapons system guided missile simulators; ship and shorebased sonar/ASW trainers; shore-based team, tactical, decision making trainers; damage control trainers; dead reckoning devices; propulsion system, gas turbine, engineering trainers; submarine mooring and docking trainers; submerged submarine ship control trainers; submarine combat system trainers; altitude decompression chambers; space trainers;

Cognizance of Navy Material **Appendix 18**

Cog	Description
2O (cont)	Training devices and training aids used in armament training such as fixed and flexible gunnery trainers and generalized individual fixed and flexible gunnery trainers and generalized individual fire control operator trainers; bombing and missile training; armament simulators and trainers; scorers; scoring targets; nuclear bomb simulators; universal delivery trainers; special weapon system trainers; Training devices and training aids used in communication training such as telegraphic code trainers; code practice equipment; radio trainers; telephone training aids; sonar trainers; sonar target signal repeating sets; sonar target signal simulators; sonar trainer projectors; radar trainers; motion recorders; reproducers; radar signal simulators; radar trainer terrain slides; plan indicators; Training devices and training aids used in survival training such as against biological and chemical attack; odor identification sets; bailout trainers; ditching trainers; ejection seat trainers; rapid decompression trainers; Training devices and training aids used in land and amphibious operations such as amphibious supporting arms evaluator; amphibious warfare exercise kits; model bridges; floating bridge training sets; automotive trainers; truck driving trainers; ship cargo handling trainers; Miscellaneous training devices and training aids such as recognition materials; plane models; ship models; photo surfaced terrain models; mock-ups, such as airport lighting systems and aircraft operating systems; supersonic, air and centrifugal flow and total differential and orthographic projection demonstrator kits; special projection equipment; mechanical principle, servomechanism and gyroscopic training equipment; Specialized support equipment such as test equipment, jigs, tools, dies, fixtures, molds, etc., required for fabrication, assembly, die assembly, overhaul, repair and test and check of training equipment. Material excluded is as follows 16MM and 35MM training films and library books; Training type aircraft and operational equipment used for training, defined as equipment designed for operational purposes, which is the subject of instruction or which is used by the instructor or student as an element of the process of teaching or learning and which has or had as its prime or initial purpose for existence some function other than that of training personnel. Specialized support equipment for operational equipment (e.g. special test equipment, weight handling equipment and automotive equipment) which in and of itself is the subject of instruction, is included in this category. Specialized support equipment which is used operationally, even though in the custody of the training agent, is also excluded from cog 2O; Repair parts used in training equipment and assigned to the cognizance of another inventory control point.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
2P	Principal Items of the Polaris/Poseidon/Trident Fire Control and Guidance Subsystems. The Naval Plant Technical Representative Pittsfield, MA is the inventory manager. SSPO maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2P material consists of equipment, components, subassemblies and selected repair parts and supporting items that are in a research and development stage; require engineering decisions during production or prior to issue; or, are subject to special monitoring, testing and controls during the receipt, storage and issue cycle to ensure performance at highest attainable level. Material included is as follows: Guidance systems; Major components within the Polaris/Poseidon/Trident fire control and guidance subsystems; Specialized jigs, fixtures, tools, and handling equipment relating to Polaris/Poseidon/Trident fire control and guidance subsystems; Selected repair parts subject to specialized monitoring, quality, and configuration control.
2Q	Shipboard and Air Stationed Electronic Equipment. NAVAIR and NAVICP MECH are the inventory managers. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA).
2S	Major Shipboard Hull, Mechanical, and Electrical Equipment. NAVSEA is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2S material consists of equipment, components and supporting items in support of new construction or conversion, fleet modernization (FMP), fleet maintenance, Defense Security Assistance and other services and government agencies as well as: Items in a research and development stage; Item of such technical complexity that engineering control decisions are required during production or prior to issue; Items unstable in design; Items specifically assigned to the Naval Sea Systems Command. Material included is as follows: Shipboard propulsion systems including propellers, hubs and shafting, propeller cap devices, propeller and shaft gages, diesel engines, gas turbine engines and machine tools;

Cog	Description
2S (cont)	Shipboard electrical systems including electrical generating and control equipment, submarine batteries and electrical propulsion motors degaussing, mine countermeasure and excitation equipment, instrumentation and machinery control; Shipboard auxiliary equipment systems including pumps and compressors, environmental plants, air-conditioning and life support equipment such as oxygen generators, carbon dioxide scrubbers, 02N2 plants air dehydrators and firefighting equipment; Shipboard hull systems including winches, refueling at sea system, hydraulic accumulators, transmissions and fin stabilizer system; Nuclear propulsion equipment; Boats and landing craft.
2T	Conventional Ammunition. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 2T material consists of those items of expendable ordnance generally classified as conventional ammunition over which NAVSEA exercises technical control. Additionally, certain end items and components of underwater mines are assigned 2T cog. Cog 2T items are primarily those items of conventional ammunition used by ships and special forces. Material included is as follows: Rockets and components (surface launched) including rocket motors, warheads, igniters, primers, propellants and other miscellaneous components; Small arms ammunition for shotguns, rifles, carbines, pistols, revolvers, machine guns and landing force ammunition including hand grenades, rifle grenades, antipersonnel mines, etc.; Surface gun ammunition 20MM to 16 inch service and training rounds including cartridges, projectiles, cases, fuses, primers, bursters, propelling charges and miscellaneous subassemblies; Demolition explosives and materials including blasting caps, demolition charges and containers, detonating cord, demolition kits, firing devices, igniters, primers, cryptographic equipment destroyers, charges and impulse cartridges; Pyrotechnics (NAVSEA technical cognizance), including surface flares, dye markers, location markers, illuminating (ground and marine) signals, smoke (ground and marine) signals, signal kits, booby trap simulators, color burst units, etc.; Military chemicals (NAVSEA technical cognizance) including chemical agents, smoke pots, powder chemicals, smoke generators, etc.; Impulse cartridges for sonar guillotines, single depth charge projectors and various electric squibs;

Cog	Description
2T (cont)	Underwater (end-round) mines MK 6 (except Mod 15), 10, 18, 39, 49, and components including anchors, arming devices, boosters, cable assemblies, signal assemblies, clock starters, tool sets and other miscellaneous components; Depth charges, depth charge components including cases, boosters, pistols, electric detonators, fuses, igniters, electric primers, tail assemblies, warheads, arming devices, firing mechanisms, etc., and depth charge details including containers, shipping crates, fuse warheads, etc.; Bulk explosives including ballistic, compositions, black powder, smokeless powder, RDS, etc.; Miscellaneous ammunition components and ammunition details including pallets, pallet adapters, pallet crates, and shipping and storage containers specifically designed for conventional ammunition items other than air ammunition items.
2V	Aeronautical Support Equipment And Targets/Drones. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Material included is targets/drones end items and selected aeronautical support equipment including engine test stands, mobile electric power plants, air-conditioners, hydraulic test stands and automatic test equipment consistent with one or more of the following criteria: Items in a research and development stage; Items requiring engineering control decisions; Items unstable in design; Items expressly assigned to the Naval Air Systems Command.
2W	Specialized Photographic Equipment. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2W material includes selected cameras; camera components; photographic production equipment; and test equipment designed specifically for photographic equipment or systems consistent with one or more of the following criteria: Items in a research and development stage; Items requiring engineering control decisions; Items unstable in design; Items expressly assigned to the Naval Air Systems Command.

Cog	Description
2X	Principal Items of the Polaris/ Poseidon/Trident Missile Subsystems; Complete End Items, Missile and Missile Support Equipment. The Naval Plant Technical Representative Sunnyvale CA is the inventory manager. SSPO maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Material included is missile handling and checkout (surface support) equipment; missile end items (including rocket motors); and specially designed reusable containers. Excluded from cog 2X material are missile and missile handling and checkout equipment components, subassemblies and selected repair parts under cognizance symbol 6P.
2Z	Shore (Ground) and Shipboard Electronic Equipment. SPAWAR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 2Z material consists of equipment, components, and supporting items that are in a research and development stage; require engineering decisions prior to and during production or prior to issue; are part of a family group of items which are substitutable and interchangeable with other items which meet the criteria for systems command management; are unstable in design; are project manager items requiring configuration control; or items assigned specifically to SPAWAR. Specifically excluded from cog 2Z are the NAVSEA (Ship Engineering Center) controlled cog 2F major ship electronic equipment. Material included is as follows: Shore (ground) electronic equipment; Shipboard electronic equipment (to include communications, Identification Friend or Foe (IFF), Electronic Warfare (EW) and radio-navigation); Fixed underwater surveillance systems; Electronic navigation; Space surveillance systems; Shorebased strategic data systems; Operational control center; Communications data-link systems; Ritium air monitors; Pecial electromagnetic communications for Fleet Ballistic Missile System; Standardized telemetry equipment and components; Ryptographic equipment; Marine Corps expeditionary and amphibious electronic equipment; Meteorological electronic equipment; Multi-platform electronic systems;

Cog	Description
2Z	Intelligence processing equipment;
(cont)	Shore surveillance systems;
	Shore and shipboard reconnaissance equipment;
	Remote sensors;
	Special Purpose Electronic Test Equipment (SPETE);
	Satellite communication equipment;
	Submarine communication antennas.
3C	Navy Owned Stocks of Field Level Repairable Defense Construction Material. DSCC is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 3C material includes those Navy interest items managed by DSCC (see cog 9C).
3G	Navy Owned Stocks of Field Level Repairable Defense General Material. DSCR is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 3G material includes those Navy interest items managed by DSCR (see cog 9G).
3H	Field Level Repairables. NAVICP MECH is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Excluded from cog 3H material are lighting trailers for aircraft maintenance and aircraft signal wands, avionics equipment and aircraft weighing scales, which are specifically assigned to NAVICP PHIL. Material included is as follows:
	Shipboard and base equipment, repair parts, components and assemblies which are required in the support of major end items and equipment assigned to the Naval Inventory Control Point Mechanicsburg for program support;
	General stores type items such as welding and brazing supplies and accessories and cutting tools for machine tools;
	Electronic items which are required in support of the electronic equipment assigned to the Naval Inventory Control Point Philadelphia or the Naval Inventory Control Point Mechanicsburg for program support (formerly cognizance symbol 1N);
	Ordnance equipment and ordnance repair parts, components or assemblies required in support of ordnance equipment assigned to the Naval Inventory Control Point Mechanicsburg for program support (formerly cognizance symbol 1A);
	Indoor and outdoor electric lighting fixtures, electric portable and hand lighting equipment, electric lamps, ballasts, lampholders, starters and specialized lights such as distress marker lights;
	Scales and balances, drafting, surveying and mapping instruments.

Cog	Description
3N	Navy Owned Stocks of Field Level Repairable Defense Electronic Material. DSCC is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 3N material includes those Navy interest items managed by DSCC (see cog 9N).
3Z	Navy Owned Stocks of Field Level Repairable Defense Industrial Material. DSCP is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 3Z material includes those items managed by DSCP (see cog 9Z).
4E	Air Launched Guided Missile Material. NAVICP MECH is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 4E material consists of air launched guided missile material including air launched missile, containers and explosive missile components. Items are managed and reported to the Conventional Ammunition Integrated Management System (CAIMS).
4K	Target System End Items and Equipment. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 4K material consists of aerial, seaborne and mobile land target system end items and equipment consistent with one or more of the following criteria: Items in a research and development stage; Items requiring engineering control decisions; Items unstable in design; Items expressly assigned to the Naval Air Systems Command. Material Excluded from cog 4K are explosives, aircraft and seaborne end items under other material cog management and inventory control. Material included is as follows: Complete target systems; Selected target system components; Selected target peculiar command, control, communication, auxiliary and augmentation systems; Equipment used to remotely control full-scale aircraft and seaborne targets; Selected test equipment designed specifically for the above materials.

Cog	Description
4M	Meteorological Equipment. SPAWAR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 4M material includes ground based, shipboard, airborne and water-based meteorological equipment; and meteorological rockets consistent with one or more of the following criteria: Items in a research and development stage; Items requiring engineering control decisions; Items unstable in design; Items expressly assigned to the Space and Naval Warfare Systems Command
4P	Principal Items of the Polaris/Poseidon/Trident Launching and Handling Subsystem. The Naval Plant Technical Representative Sunnyvale CA is the inventory manager. SSPO maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 4P material consists of equipment, components, subassemblies and selected repair parts and supporting items that are in a research and development stage; require engineering decisions during production or prior to issue; or are subject to special monitoring, testing and controls during the receipt, storage and issue cycle to ensure performance at highest attainable level. Material included is as follows: Components of the Polaris/Poseidon/Trident launch tubes; Launch valves: Gas generators; Hydraulic devices; Control panels and recorders relating to the launcher subsystem; Launcher handling equipment; Selected launcher repair parts subject to specialized monitoring, quality and configuration control.
4R	Aircraft Launch Recovery Equipment (Repairable or Investment Type Material). NAVICP PHIL is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 4R material consists of peculiar parts, components or assemblies required for the support of launching, recovery and barricade shipboard equipment and emergency overrun barrier equipment at naval air stations. Cog 4R material may include any of the end items of the foregoing which do not meet the criteria for retention by NAVAIR.

Cog	Description
4T	Torpedoes, Components and Asroc Material. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 4T material is reported in the Conventional Ammunition Integrated Management System (CAIMS). Nuclear weapons material is excluded from 4T cog assignment. Material included is as follows: Torpedoes, including major assemblies, e.g., main assemblies, warheads, exercise heads; major components, e.g., arming devices, batteries and exploders, igniters, generators and launch accessories; Torpedo targets, transponders, propellants, fuels and propellant assemblies; Torpedo explosive components; ASROC, including major components, assemblies and accessories; Storage and shipping containers for cog 4T items.
4V	Aircraft Engines. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 4V material consists of non-national stock numbered aircraft engines and engine modules. Cog 4V material includes aircraft power plants and designated modular elements of these power plants. Engine types included are reciprocating engines, turbofan engines, turbojet engines, turboshaft engines and turboprop engines. Modules included in cog 4V are the afterburner, combustor, fan, high pressure compressor, high pressure turbine and low pressure turbine modules for the F404 turbofan engines; the cold section and power turbine modules for the T700 turboshaft engine; the power section and gearbox modules for the T400 turboshaft engine; and the power section, gearbox and torquemeter modules for the T56 turbo-prop engines.
4X	Secondary items supporting Test Instrumentation Equipment unique to Trident. The Naval Plant Technical Representative Anaheim CA is the inventory manager. SSPO maintains technical responsibility. Source of identification is the FBM MRIL, SSP SRLs and FBM Allowance Lists. Material is carried in the Appropriation Purchase Account (APA). Cog 4X material consists of repair parts for the Test Instrumentation Equipment (TIE) which is unique to the Strategic Weapons System. Such TIE is under the design control of SSPO. SSPO ensures that quality and configuration controls are established and maintained, contracts for and monitors repair actions, provides authority and reviews all proposed disposal actions. Issue of cog 4X material to nonfleet ballistic missile activities is not authorized. Cog 4X material includes repair parts, tools, assemblies and other secondary items which are specifically related to the maintenance and support of equipment within the test instrumentation subsystem of the Trident Strategic Weapons System.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
4Y	Trident Planned Equipment Replacement (Triper) Program Equipment. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 4Y material consists of Hull, Mechanical, Electrical, Ordnance and Electronics end items required to support the incremental overhaul of Trident submarines during refit. These items have strict configuration control, life cycle maintenance history requirements and performance characteristics which require their identification to a distinctive cog for purposes of engineering control and budgeting responsibility. Excluded from cog 4Y are the reactor and any associated equipment controlled and supported by the Nuclear Regulatory Commission; Strategic Weapons System material; or NAVSEA (Nuclear Propulsion Directorate) controlled material.
4Z	Airborne Armament Equipment. NAVICP PHIL is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 4Z material consists of the end items suspension devices used for carriage and release of bombs, missiles or other air deliveries; ordnance, adapters and kits required to install the end item; and adapters, fairings and pylons. The items may be an integral part of the aircraft structure, or installed and removed as dictated by mission need. The items may be jettisonable or nonjettisonable; may be procured with production aircraft or separately; and are always related to: (a) the total overall aircraft inventory , or (b) the total active aircraft inventory, dependent on planned usage of the item. An item may be unique to a single aircraft or weapon type or have multi-aircraft and weapon applications. Technical direction, funding and budgeting is performed by NAVAIR.
5L	Navy Owned Stocks of Consumable Communications Material Managed Within the Army. The Army Communications Security Logistics Agency is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 5L material includes consumable communications items for which Navy requirements are supplied by the Army under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
5M	Navy Owned Stocks of Consumable Electronics Material Readiness Activity Material Managed Within the Army. The Army Electronics Materiel Readiness Activity is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 5M material includes consumable electronics material readiness activity items for which Navy requirements are supplied by the Army under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
5N	Navy Owned Stocks of Consumable Cryptologic Material Managed Within the Air Force. The San Antonio Air Logistics Center is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 5N material includes consumable cryptologic items (except FSC 5810/5811) for which Navy requirements are supplied by the Force under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).

Cog	Description
5P	Navy Owned Stocks of Consumable Special Fuels Related Material Managed Within the Air Force. The San Antonio Air Logistics Center is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 5P material includes consumable special weapons related items for which Navy requirements are supplied by the Air Force under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
5R	Aircraft Launch Recovery Equipment (Consumable Or Expense Type Material). NAVICP PHIL is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 5R material consists of consumable supplies or expense type material such as brackets, fittings adapters, pistons, valves, bolts, and sheaves, which are applicable to 4R equipment.
6A	Secondary Items Supporting Polaris/Poseidon/Trident Subsystems, Less Navigation. NAVICP MECH is the inventory manager. SSPO maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6A material consists of secondary items supporting Polaris/ Poseidon/Trident fire control, guidance, missile, launching, and hauling subsystems, and test instrumentation equipment under the weapons system management of SSPO. Cog 6A may also include any of the end items listed in this subparagraph which do not meet the criteria for retention by SSPO.
6B	End Items to Support NAVAIRs Projects/Programs. NAVICP MECH is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6B material includes end items in support of NAVAIRs projects/programs which do not meet the criteria for retention by NAVAIR.
6C	End Items to Support SPAWAR. NAVICP MECH is the inventory manager. SPAWAR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6C material includes end items in support of SPAWARs projects/programs which do not meet the criteria for retention by SPAWAR.
6D	End Items to Support NAVSEAs Projects/Programs. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6D material includes end items in support of NAVSEAs projects/programs which do not meet the criteria for retention by NAVSEA.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
6H	Secondary Items Supporting Polaris/Poseidon/Trident Navigation Subsystem. NAVICP MECH is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6H material consists of secondary items supporting Polaris/Poseidon/ Trident navigation subsystem, peculiar parts, components and assemblies required for the support of SSPO equipment such as inertial navigation systems, navigation data computer systems, control consoles, optical star trackers, satellite trackers, test and checkout equipment, data transmission systems, training systems, oceanographic equipment, and optical alignment systems. Cog 6H material may also include any of the end items listed in this subparagraph which do not meet the criteria for retention by SSPO.
6K	End Items of Photographic Equipment to Support NAVAIRs Equipment/Programs. NAVICP PHIL is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Excluded from cog 6K are containers which are not repairable or are fully repairable/condemnable below the depot level. Cog 6K material consists of photographic end items in support of NAVAIRs equipment/programs which do not meet the criteria for retention by NAVAIR. Also included are: End items of meteorological equipment; End items of safety and survival equipment; Depot level repairable reusable containers under the technical control of the Naval Air Systems Command; Selected cameras; Photographic production equipment; Test equipment designed specifically for photographic equipment or systems; AN/ALQ99-PODS.
6L	Surface/Subsurface Training Devices. NAVICP MECH is the inventory manager. The Naval Training Systems Command maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA).
6M	Cryogenic Equipment and Guided Missile Cradles to Support NAVAIR Equipment And Weapons Systems. NAVICP MECH is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6M material consists of multi-gallon liquid oxygen and liquid nitrogen tanks, recharger systems, rotary vacuum pumps and air supply units. It also includes selected guided missile cradles and test equipment.

Cog	Description
6P	Principal Items Of The Polaris/ Poseidon/Trident Missile Subsystems Less Complete End Items. The Naval Plant Technical Representative Sunnyvale CA is the inventory manager. SSPO maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6P material consists of equipment components, subassemblies and selected repair parts and supporting items of the missile subsystem of the Polaris/Poseidon/Trident Weapons Systems. These items have one or more of the following characteristics: Are in a research and development stage; Require engineering decisions during production or prior to issue; Are subject to special monitoring, testing, and controls during the receipt, storage and issue cycle to ensure performance at the highest attainable level. Excluded from cog 6P are complete end items of missile and missile support equipment under cog 2X. Cog 6P includes missile equipment components, subassemblies, and repair parts which are necessary for the support of missile handling and checkout (surface support) equipment and for the support of missile maintenance and repair.
6R	Aeronautical Ground Support Equipment (Repairable or Investment Type Material). NAVICP PHIL is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6R consists of end items of ground support equipment necessary on the ground to ensure that a weapons system, support system, subsystem or end item of equipment is operational in its intended environment. This encompasses all equipment required to install, guide, control, direct, inspect, test, adjust, calibrate, appraise, gauge, measure, assemble, disassemble, handle, transport, safeguard, store, actuate, service, repair, overhaul, maintain, or operate the system, subsystem, end item or component. A Cog/Material Control Code combination (6RX) is used to identify investment funded consumables and investment funded field level repairables. Excluded from cog 6R material are common powered and nonpowered hand tools; and common production tools and tooling such as lathes, drills, presses, plating equipment, grinders, induction heaters, etc.
6T	Underwater Mines And Components. The Naval Mine Warfare Engineering Activity is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 6T material consists of equipment, components and supporting items in worldwide support of fleet units, training activities, and Security Assistance Program (SAP) and Foreign Military Sales (FMS) countries as well as: Items in a research and development stage; Items of such technical complexity that engineering control decisions are required during production or prior to issue;

Cog	Description
6T (cont)	Items that are a part of a family group of items which are substitutable and interchangeable with other items which meet the criteria for Systems Command management; Items unstable in design; Items requiring project manager's configuration control; Items specifically assigned to Naval Sea Systems Command. Nuclear weapons and Polaris/Poseidon/Trident missile material are excluded from cog 6T material. Material included is as follows: Underwater mines, related major assembly level components; Assemblies and accessories, e.g., firing mechanisms, clock delays, clock starters, parapacks and release mechanisms, sterilizers, control boxes and units, arming devices, sensing devices and batteries; Mine countermeasures equipment.
6V	Technical Directive Change Kits. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6V material consists of non-national stock numbered technical directive change kits and includes complete change kits of all material necessary to effect the specific change involved.
6X	Secondary Items Supporting Poseidon/Trident Weapons Systems. NAVICP MECH is the inventory manager. SSPO maintains technical responsibility. Source of identification is the FBM MRIL, SSP SRLs and FBM Allowance Lists. Material is carried in the Appropriation Purchase Account (APA). Cog 6X material consists of a selective group of Poseidon and Trident unique supporting items for the Poseidon/Trident Weapons System. SSPO ensures that quality and configuration controls are established and maintained; contracts for and monitors repair actions; and provides authority for and reviews all proposed disposal actions. Issue of cog 6X material is restricted to fleet ballistic missile activities. Specifically included are: Repair parts, tools and assemblies specifically related to Poseidon/Trident Weapons System fire control, guidance, launcher, navigation, training missile, and test instrumentation subsystem equipment for which SSPO is the design control activity; Cog 6X items range from complex electronic and electro/mechanical components to various tools and parts relating to maintenance and support of these categories of equipment. Cog 6X may include any of the end items listed in items a and b above which do not meet the criteria for retention by SSPO.

Cog	Description
6Y	Field Changes, Ordnance Alterations and Modification Kits. NAVICP MECH is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 6Y items are national stock numbers assigned to a collection of one or more items; i.e., equipage, repair parts, or special tools required to modify a Depot Level Repairable (DLR). These modifications, field changes, or alteration kits are specifically intended to improve performance, operational characteristics, reliability, and safety features of DLRs. These DLRs can have an APA symbol (0, 2, 4, 6, or 8 Cog), or may have been transferred to NSA (7 Cog) as a result of the stock funding of DLRs. The kit or 6Y items are program related and are controlled issue items.
7E	Deport Level Repairable (DLR) Ordnance Equipment, Ordnance Repair Parts and Air Missile Repair Parts Related To NAVAIR Equipment. NAVICP MECH is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 7E material is established to accommodate the conversion of nonaviation DLRs from APA to NWCF. Excluded from cog 7E material are multipurpose special and general support equipment or test sets for installed aircraft equipment assigned to NAVICP PHIL. Material included is as follows: Aviation ordnance equipment including such equipment as aircraft guns, gun pods gun assemblies, feed mechanisms, mounts, accessories, pyrotechnic equipment, chemical filling unit and associated test equipment; Incendiary mixers under the design control of NAVAIR; Shipboard wind measuring equipment, to include crosswind/headwind computers, windspeed indicators, wind direction and speed recorders; Peculiar parts, components or assemblies required for the support of air launched guided missile and guided missile component support; Test equipment under the design control of NAVAIR as well as end items listed in this subparagraph which do not meet the criteria for retention by NAVAIR.
7G	Depot Level Repairable (DLR) Electronic Material to Support SPAWAR Equipment. NAVICP MECH is the inventory manager. SPAWAR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 7G material is especially established to accommodate the conversion of nonaviation DLRs from APA to NWCF. Cog 7G consist of peculiar parts, components or assemblies required for the support of: General purpose electronic test equipment which are used with electronic equipment common to more than one systems command, such as voltmeters, signal generators, frequency calibration sets, pulse generators, frequency meters, multitesters, spectrum analyzers, standing wave ratio indicators, impedance and summation bridges;

Cog	Description
7G	Electronic type radiac such as dosimeters and counters;
(cont)	Loran equipment used ashore and afloat such as navigational aid equipment for surface, subsurface and ground application, radio receivers, radio transmitters and plotting equipment;
	Identification friend or foe (IFF) equipment (less cryptographic equipment such as interrogators, radio receivers and transmitters and computerized devices;
	Radios such as vehicular, shipboard, ground radio receivers, transceivers and transmitters for VLF, HF, VHF and UHF frequencies and satellite communication equipment;
	Teletype equipment such as teletypewriters, page printers, receivers and transmitters of an electronic and electro-mechanical nature;
	Facsimile equipment such as weather and environmental equipment of an electronic and electro-mechanical nature;
	Cryptographic equipment (any equipment prefixed with a TSEC nomenclature);
	Cryptographic equipment such as signal-intelligence equipment, computers, recorders, printers, receivers and transmitters used in detecting, recording, analyzing, etc., for intelligence purposes.
7H	Depot Level Repairable (DLR) Shipboard and Base Equipment. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 7H supports equipment under the technical cognizance of the Naval Sea Systems Command, Naval Facilities Engineering Command, Naval Oceanographic Office and Military Sealift Command. Cog 7H material consists of:
	Shipboard electronic, hull, mechanical, electrical and ordnance equipment and base equipment DLRs required for the support of:
	Ship primary and secondary propulsion systems and associated engine accessories;
	Shipboard electrical generation and power distribution systems;
	Devices and attachments which determine and contribute to the utility or specialized mission of the ship such as minesweeping gear and maintenance and repair shop equipment;
	Equipment which are necessary or contribute to the administration or habitability of the ship or station such as print shop equipment, projection machines, food preparation equipment, laundry equipment and those equipment used for sanitation, heating, dehumidification, ventilation, air conditioning, refrigeration, water purification, and automatic (dial) telephone systems, equipment and components;

Cog	Description
7H (cont)	Ship navigation instruments, optical instruments, inertial navigation systems, static inverters, multispeed repeaters and gyroscopes;
	Measuring, controlling and testing instruments, laboratory type equipment and associated accessories required for the operation, maintenance or repair of shipboard equipment;
	Equipment and devices for submerged operation;
	Torpedo and mine handling equipment and torpedo firing transmitters for submarine use;
	Miscellaneous ship and marine equipment, marine lifesaving and diving equipment, damage control equipment, physical properties testing equipment, hull fittings and access equipment such as hatches and doors;
	Audible and visual signaling devices and internal communications systems, equipment and components;
	Electrical control equipment and associated electrical components;
	Weight-handling equipment including hoists except those of the elevator type or specialized aircraft type;
	Powered materials handling equipment consisting of gasoline, diesel or electric powered equipment;
	Public works and public utility type equipment and installations;
	Equipment, components and miscellaneous devices used on floating dry docks, yards and service crafts;
	Time measuring instruments, chemical analysis instruments and laboratory equipment, supplies and associated accessories required for the operation, maintenance or repair of shore type equipment;
	Shipboard liquid oxygen generating equipment, shipboard fuel dispensing systems;
	Vehicular and automotive type components of guidance and launching equipment for airborne missiles.
	DLRs required for the support of shipboard surface-to-air guided missiles, guided missile components and certain support and test equipment required only for the missile.
	DLRs required for the support of gun and guided missile fire control systems; target designation equipment; and special purpose test equipment used with or as part of the Naval Sea Systems Command gun and missile fire control equipment.
	DLRs required for the support of torpedoes, torpedo targets and related workshop equipment, end items of peculiar support, test equipment and unique repairable containers for the assemblies and components. May include any of the end items or major assemblies listed above which do not require world-wide reporting in CAIMS (Conventional Ammunition Information Management System).

Cog	Description
7H (cont)	DLRs required for the support of surface weapons under the design control of NAVSEA Surface weapons of the following types are included: 16 inch gun, 8 inch 55 cal. gun, 6 inch 47 cal. gun, 5 inch 54 cal. gun, 5 inch 38 cal. gun, 3 inch 50 cal. gun, 40 MM gun, 20 MM gun, 50 cal. machine guns, (except aircraft), 81 MM mortars, 105 MM Howitzer and all small arms/weapons (which includes 22 cal. revolvers, 22 cal. rifles, shotguns 38 cal., and 45 cal. pistols); Night vision sights (which includes objective lens assembly and eyepiece assembly); DLRs for the Phalanx (20 MM gun system); Tartar, Terrier, Harpoon and NATO Seasparrow Weapons Systems, encompassing both Fire Control and Launching system parts. Certain electronic DLRs not applicable to Space and Electronic Warfare Systems (including entire systems) recently transferred from SPAWAR cognizance to NAVSEA. DLRs required for the support of Reconnaissance Electronic Warfare and Surveillance Operation Navy (REWSON) systems. DLRs required for the support of shipboard surveillance and navigation radars. DLRs required for the support of acoustic systems. DLRs related to the Tomahawk Launching and Weapons Control Systems under program control of Cruise Missile Project. Material excluded includes: The reactor and any associated equipment controlled and supported by the Department of Energy, prototype and experimental equipment, hand gardening tools, aviation shop equipment and all engines and engine starter energizers used in aircraft. Warhead and explosive components. Nuclear weapons material. Torpedoes and major assemblies for which CAIMS reporting is required. Storage and shipping containers for cog 4T material. Fuels and propellants. Ammunition and explosives.
7N	Trident Trainer Peculiar Repairables. NAVICP MECH is the inventory manager. The Naval Training Systems Command maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF).

Cog	Description
7R	Aeronautical Depot Level Repairable Spares. NAVICP PHIL is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 7R material consists of peculiar parts, components or assemblies required for the support of:

Airframes of heavier-than-air rotary and fixed wing aircraft, target drones and target pilotless aircraft;

Airframe accessory equipment such as landing gear assemblies (including wheels, brakes, tires, and tubes), heater and ventilating systems, vacuum and de-icing systems, alarm and signal systems, gasoline or electrical airborne auxiliary power units, and mechanical, electrical, or hydraulic equipment for actuating or controlling integral structural components of the airframe; specialized accessories for aircraft configurations for photography, target towing, weather reconnaissance, meteorology and in-flight refueling systems;

Jet, turbine rocket, and reciprocating type engines used for propulsion of aircraft, targets and drones;

Aircraft engine accessory equipment such as fuel control, oil and fuel valves, governors, ignition units, oil separators and coolers, temperature regulators, controllers, fuel pumps, generators, starters (except engine starter cartridges), carburetors, magnetos, engine heaters, primers and ignition harnesses;

Aircraft propellers and propeller assemblies, governors, and synchronizers and related de-icing systems;

Installed aircraft instruments designed for computing, directing, controlling, detecting or measuring as it concerns navigation, safety, flight or operation of the aircraft; includes automatic pilot and gyro equipment;

Airborne communication and navigation equipment such as radio, radar, avionics, airfield lighting equipment, shipboard visual landing aids, visible and invisible light communication equipment, aircraft intercommunication systems, octants and sextants, and airborne sonar devices used for submarine and mine detection tracking or location and sound recording and reproducing equipment;

Airborne equipment and other items directly related to the comfort and protection of pilots, air crewmen and passengers, or the habitability of the aircraft such as oxygen breathing equipment, plug-in flight suits and helmets, functional type clothing, body armor, heating and pressurizing equipment, specialized food preparation and serving equipment for in-flight feeding and specialized airborne furniture and furnishings;

Test equipment and test sets required for testing airborne aircraft accessories, aircraft propulsion engines and avionics equipment, such as orifice comparators, hydraulic test stands, fuel and vacuum test stands and electronic-electrical test equipment;

Cog	Description
7R (cont)	Aircraft armament equipment which, when installed, becomes an integral part of the aircraft, such as bomb and torpedo carrying and release mechanisms, gun charging mechanisms, ammunition containers, airborne rocket launchers, aircraft armament handling equipment and chemical equipment;
	Aircraft firefighting, rescue, safety, and survival equipment such as fire extinguishers, marine lifesaving equipment, parachutes, signaling kits, aircraft ejection seats and related parts;
	Guidance and launching equipment for airborne missiles, and specialized guided missile maintenance servicing, handling, testing and repair equipment under the design control of NAVAIR;
	Specialized ground servicing and aircraft handling equipment such as air cooling and gas turbine compressors; engine and aircraft repair platforms; mobile air conditioning units; towing, mooring and hoisting apparatus; specialized lubrication and fuel dispensing equipment; engine preheaters, engine starter energizers, airfield lighting and fog dispersing equipment and mobile auxiliary power units;
	Photographic equipment such as specialized and general purpose still and motion picture cameras and associated equipment, developing, printing and finishing equipment, airborne photographic systems and photographic laboratory equipment;
	Meteorological equipment such as barographs, psychrometers, aerograph and barograph clocks and wind and speed recorders;
	Specialized aircraft maintenance and repair shop equipment such as dynamometers, spark plug core cleaning machines, honing machines, magnetic inspection units, paint thickness meters and brake and clutch reliners;
	Included with the items listed above are former 2R cog NAVICP PHIL managed and procured items and former 8R cog NAVICP PHIL managed and NAVAIR procured items.
	Material Excluded.
	Vehicular and automotive crash and rescue equipment such as powered firefighting equipment:
	Aircraft armament assigned to NAVICP MECH;
	Warheads, fuses, Power plants and test equipment under the design control of the Naval Air Systems Command which are used with airborne guided missiles, and vehicular and automotive type components of this equipment and other components which contribute to or are necessary for the end use of this equipment, such as air conditioners and heaters and their related power units, control and instrument devices, which are the responsibility of Naval Inventory Control Point Mechanicsburg.
	Crash truck and cranes and their components, which are the responsibility of NAVICP MECH;

Cog	Description
7R (cont)	Electrical test equipment which is common to more than one systems command, such as single instruments or groupings of related instruments, with or without accessories, designed for making qualitative and quantitative examinations of electronic equipment, which are the responsibility of SPAWAR and NAVICP MECH; Vehicular and automotive type equipment and components, aircraft towing tractors, air conditioning units and repair parts, air conditioning driving engine and motor repair parts and their related control and instrument panel devices which are required as adjuncts of this equipment, which is the responsibility of NAVICP MECH; Still and motion picture projectors and screens used for entertainment and motion picture equipment used for training purposes which are integral parts of training devices.
7Z	General Purpose Electronic Test Equipment To Support Various Naval Systems Commands Equipment/Programs. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 7Z is especially established to accommodate the transfer of general purpose electronic test equipment to the Navy Stock Account and consists of General Purpose Electronic Test Equipment (GPETE), determined by the Naval Material Command Electronic Test Equipment (ETE) Classification Board to be listed in MIL-STD-1364 and containing the capability, without modification to generate, modify, or measure a range of parameters of electronic functions required to test two or more systems or equipment of basically different design. Excluded from cog 7Z is Special Purpose Electronic Test Equipment (SPETE). SPETE is determined by the Naval Material Command ETE Classification Board to be excluded from MIL-STD-1364 and is specifically designed to generate, modify or measure a range of parameters of electronic functions of a specific or peculiar nature required to test a single system or equipment.
8A	Inert Nuclear Weapons Material. NAVICP MECH is the inventory manager. Various activities maintain technical responsibility. Source of identification is the 95000 series COSAL. Material is not carried in a stores account. Cog 8A material includes: Training projectiles, training bombs, training warheads, training adaption kits and other training nuclear devices; Test and handling equipment and items associated thereto used in the assembly, inspection and delivery of nuclear weapons; Peculiar parts, components, or assemblies for training weapons and for test and handling equipment; Retrofit material used to modify training nuclear weapons, major weapons components thereto, and test and handling equipment in the assembly, test, inspection and delivery of nuclear weapons.

Cog	Description
8E	Air Launched Missile Material. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 8E material is consistent with one or more of the following criteria: Items in a research and development stage; Items requiring engineering control decisions; Items unstable in design; Items expressly assigned to the Naval Air Systems Command. Nuclear weapons material is excluded from cog 8E material. The Bullpup air to ground missile is also excluded. Material included is complete round assemblies of air launched missiles; major missile components; and selected containers.
8M	Major Aeronautical Launch And Recovery Systems And Equipments. NAVAIR is the inventory manager and maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 8M material consists of major aeronautical launch and recovery systems, equipment and components procured for ship, shorebased and expeditionary airfield installation or support consistent with one or more of the following criteria: Items in a research and development stage; Items requiring engineering control decisions; Items unstable in design; Items expressly assigned to the Naval Air Systems Command. Material included is as follows: Aeronautical launch and recovery systems and equipment (catapults, arresting gear, barricades, visual landing aids, jet blast deflectors, airfield matting, anchoring devices, special tools, etc.); Selected aeronautical launch and recovery systems and equipment components.
8N	Training Equipment And Specialized Support Equipment. NAVICP PHIL is the inventory manager. Naval Training Systems Center maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 8N consists of peculiar parts, components or assemblies required for support of: Training devices used in aviation training such as flight, navigation and aircraft dead reckoning trainers; altitude decompression chambers and space trainers; bombing training including atomic bomb simulators and universal delivery trainers; bailout, ditching and ejection seat trainers; mock-ups such as aircraft operating and airport lighting systems;

Cog	Description
8N (cont)	Training devices used in armament training such as guided missile simulators, weapon systems and gunnery trainers; scorers and scoring targets; Training devices used in communication training such as telegraphic code, radio, telephone, sonar and radar trainers; Training devices such as amphibious warfare exercise kits; model bridges, planes, ships and photo surface terrain; automotive ship cargo handling, mooring and docking trainers; projection equipment, servomechanisms and gyroscopic training devices; gas and odor identification kits; Specialized support equipment such as test equipment, jogs, tools, dies, fixtures, and molds required for fabrication, assembly, overhaul and repair of training devices. Cog 8N may include any of the end items listed above which do not meet the criteria for retention by the Naval Training Equipment Center. Specifically excluded from cog 8N material are training type aviation and ordnance equipment designed for operating use as distinguished from equipment for training purposes and training films, projectors and books which are not an integral part of the training device.
8P	Principal Items of The Polaris/Poseidon/Trident Navigation Subsystem, Less Inertial Navigation. The Naval Plant Technical Representative Great Neck NY is the inventory manager. SSPO maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 8P material consists of equipment, components, subassemblies and selected repair parts and supporting items that: Are in a research and development stage; Require engineering decisions during production or prior to issue; Are subject to special monitoring, testing and controls during the receipt, storage and issue cycle to ensure performance at the highest attainable level. Cog 8P material includes gyros, accelerometers, computing and recording devices, electronic navigational aids, support equipment, specialized containers and selected repair parts and assemblies subjected to specialized monitoring, quality and configuration control. Material Excluded. Ship's Inertial Navigation System (SINS) MK2, Mods 2, 3, 4, and 6 are excluded from cog 8P material.

Cog	Description
8S	Subroc And Moss Material. NAVICP MECH is the inventory manager. NAVSEA maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 8S consists of equipment, components and supporting items that require equipment manager technical engineering decisions prior to issue; are part of a family group of items which are substitutable and interchangeable with other items depending on ship class/payload configuration; or are depot level repairables of major importance. Nuclear weapons material is excluded from cog 8S material. Material included is as follows: SUBROC major components, assemblies and accessories; SUBROC shipping and storage containers; MOSS major assemblies, accessories containers, test equipment and launching trays.
8T	Surface Launched Guided Missiles And Components. NAVSEA is the inventory manager and maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 8T material consists of equipment, components and supporting items in support of new construction or conversion, fleet modernization (FMP), fleet maintenance, Defense Security Assistance and other services and government agencies that: Are in a research and development stage; Are of such technical complexity that engineering control decisions are required during production or prior to issue; Are unstable in design; Are items specifically assigned to the Naval Sea Systems Command. Excluded from cog 8T material are nuclear weapons and Polaris/Poseidon/Trident missile material. Material included is as follows: Surface launched guided missiles, TERRIER, TARTAR, TALOS, STINGER and STANDARD; missile components and assemblies, e.g., guidance and control units, fuses, igniters, boosters, target detection devices, rocket motors, safety and arming devices, warheads, exercise and practice heads; Missile containers, handling equipment, test equipment and accessories.
8U	Sonobuoys and Sonobuoy Launch Containers. NAVICP MECH is the inventory manager. NAVAIR maintains technical responsibility. Source of identification is the Catalog of Navy Ammunition Stock (TW010-AA-ORD-010). Material is carried in the Appropriation Purchase Account (APA). Cog 8U material is reportable in the Conventional Ammunition Integrated Management System (CAIMS).

Cog	Description
8X	Principal Item Polaris/Poseidon/Trident Inertial Navigation Equipment, Components And Repair Parts. The Naval Plant Technical Representative Anaheim CA is the inventory manager. SSPO maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Appropriation Purchase Account (APA). Cog 8X material consists of ship's inertial navigation system equipment within the navigation subsystem of the Polaris/Poseidon/Trident Weapons Systems. This material and its components, subassemblies and repair parts are in the research and development stage; require engineering decisions during production or prior to issue; or are subject to special monitoring, testing and controls during the receipt, storage and issue cycle to ensure performance at the highest attainable level. Cog 8X material includes ship's inertial navigation system (SINS) MK 2, Mods 2, 3, 4 and 6. All other material of the navigation subsystem is excluded from cog 8X material.
9A	Navy Owned Stocks of Parts Peculiar to Combat and Tactical Vehicles of Army Design. The Army Tank Automotive Command is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9A material includes those Navy interest items managed by the Army which are classified in the following FSCs: 25__ vehicular equipment components; 2610 tires and tubes (except aircraft); 2630 tires, solid and cushion; 2640 tire rebuilding and tire and tube repair materials; 2805 gasoline reciprocating engines and components (except aircraft); 2910 engine fuel system components, nonaircraft; 2920 engine electrical system components, nonaircraft; 2930 engine cooling system components, nonaircraft; 2940 engine air and oil filters, strainers and cleaners, nonaircraft; 2990 miscellaneous engine accessories, nonaircraft. Material excluded are as follows: Applicable to aircraft which re managed within he individual military services; or Peculiar to noncombat and nontactical vehicles which are managed by the Defense Supply Center Columbus (DSCC) as cog 9C or the General Services Administration as cog 9Q; Retained for management by a Navy inventory control point.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9C	Navy Owned Stocks Of Defense Construction Material. DSCC is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9C material includes those Navy interest items managed by the DSCC which are classified in the following FSCs:

1005 Guns, through 30 mm
1010 Guns, over 30 mm up to 75 mm
1015 Guns, 75 mm through 125 mm
1020 Guns, over 125 mm through 150 mm
1025 Guns, over 150 mm through 200 mm
1030 Guns, 200 mm through 300 mm
1035 Guns, over 300 mm
1095 Miscellaneous Weapons
1450 Guided Missile Handling and Servicing Equipment
1610 Aircraft Propellers
1615 Helicopter Rotor Blades, Drive Mechanism and Components
1620 Aircraft Landing Gear Components
1630 Aircraft Wheel and Brake Systems
1650 Aircraft Hydraulic, Vacuum, and De-icing Systems Components
1710 Aircraft Arresting, Barrier, and Barricade Equipment
1720 Aircraft Launching Equipment
1730 Aircraft Ground Servicing Equipment
1740 Airfield Specialized Trucks and Trailers
2010 Ship and Boat Propulsion Components
2230 Right-of-Way Construction and Maintenance Equipment, Railroad.
2240 Locomotive and Rail Car Accessories and Components
2250 Track Material, Railroad
2410 Tractors, Full Track, Low Speed
2420 Tractors, Wheeled
2430 Tractors, Track Laying, High Speed
2510 Vehicular Cab, Body and Frame Structural Components
2520 Vehicular Power Transmission Components
2530 Vehicular Brake, Steering, Axle, Wheel, and Track Components
2540 Vehicular Furniture and Accessories
2590 Miscellaneous Vehicular Components
2620 Tires and Tubes, Pneumatic, Aircraft
2805 Gasoline Reciprocating Engines, Except Aircraft; and Components

Cog	Description
9C	2815 Diesel Engines and Components
(cont)	2820 Steam Engines, Reciprocating; and Components
	2825 Steam Turbines and Components
	2830 Water Turbines and Water Wheels; and Components
	2850 Gasoline Rotary Engines and Components
	2895 Miscellaneous Engines and Components
	2910 Engine Fuel System Components, Nonaircraft
	2920 Engine Electrical System Components, Nonaircraft
	2930 Engine Cooling System Components, Nonaircraft
	2949 Engine Air and Oil Filters, Strainers, and Cleaners, Nonaircraft
	2990 Miscellaneous Engine Accessories, Nonaircraft
	3010 Torque Converters and Speed Changers
	3020 Gears, Pulleys, Sprockets, and Transmission Chain
	3030 Belting, Drive Belts, Fan Belts, and Accessories
	3040 Miscellaneous Power Transmission Equipment
	3710 Soil Preparation Equipment
	3720 Harvesting Equipment
	3730 Dairy, Poultry, and livestock Equipment
	3740 Pest, Disease, and Frost Control Equipment
	3760 Animal Drawn Vehicles and Farm Trailers
	3770 Saddlery, Harness, Whips, and Related Animal Furnishings
	3805 Earth Moving and Excavating Equipment
	3810 Cranes and Crane-Shovels
	3815 Crane and Crane-Shovel Attachments
	3820 Mining, Rock Drilling, Earth Boring, and Related Equipment
	3825 Road Clearing and Cleaning Equipment
	3830 Truck and Tractor Attachments
	3835 Petroleum Production and Distribution Equipment
	3895 Miscellaneous Construction Equipment
	3910 Conveyors
	3915 Materials Feeders
	3930 Warehouse Trucks and Tractors, Self-Propelled
	3950 Winches, Hoists, Cranes, and Derricks
	3960 Elevators and Escalators
	4210 Fire Fighting Equipment
	4220 Marine Lifesaving and Diving Equipment

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9C	4310 Compressors and Vacuum Pumps
(cont)	4320 Power and Hand Pumps
	4330 Centrifugally, Separators, and Pressure and Vacuum Filters
	4410 Industrial Boilers
	4420 Heat Exchangers and Steam Condensers
	4430 Industrial Furnaces, Kilns, Lehrs, and Ovens
	4440 Driers, Dehydrators, and Anhydrators
	4460 Air Purification Equipment
	4510 Plumbing Fixtures and Accessories
	4520 Space Heating Equipment and Domestic Water Heaters
	4530 Fuel Burning Equipment Units
	4540 Miscellaneous Plumbing, Heating, and Sanitation Equipment
	4610 Water Purification Equipment
	4620 Water Distillation Equipment, Marine and Industrial
	4630 Sewage Treatment Equipment
	4710 Pipe and Tube
	4720 Hose and Tubing, Flexible
	4730 Fittings and Specialities; Hose, Pipe and Tube
	4810 Valves, Powered
	4820 Valves, Nonpowered
	4910 Motor Vehicle Maintenance and Repair Shop Specialized Equipment
	4930 Lubrication and Fuel Dispensing Equipment
	4940 Miscellaneous Maintenance and Repair Shop Specialized Equipment
	5410 Prefabricated and Portable Buildings
	5411 Rigid Wall Shelters
	5420 Bridges, Fixed and Floating
	5430 Storage Tanks
	5440 Scaffolding Equipment and Concrete Forms
	5445 Prefabricated Tower Structures
	5450 Miscellaneous Prefabricated Structures
	5510 Lumber and Related Basic Wood Materials
	5520 Millwork
	5530 Plywood and Veneer
	5660 Fencing, Fences, and Gates

Cog	Description
9C	Material excluded is as follows:
(cont)	Peculiar to combat and tactical vehicles of Army design which are managed by the Army Tank Automotive Materiel Readiness Command and identified by cog 9A;
	Managed by the General Services Administration and identified by cog 9Q;
	Retained for management by a Navy inventory combat point;
9D	Special Occupational and Environmental Clothing, Textiles, Resale Clothing, and Related Items. DSCP is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9D material includes items for issue as government furnished material and organizational articles which are issued rather that sold to individuals and which normally remain the property of the Government. Cog 9D also includes those Navy interest items of resale clothing and related material sold or issued to authorized patron for personal wear. In this category are articles of men's and women's clothing, footwear, and uniforms designed for Naval Reserve Officers Training Corps, aviation cadets and Naval Reserve personnel. The items are supplied by the Defense Supply Center Philadelphia (Directorate of Clothing and Textiles), and are classified in the following FSCs:
	7210 household furnishings;
	FSC Group 83 textiles, leather and furs;
	FSC Group 84 clothing and individual equipment.
	Excluded from cog 9D are items which meet one or more of the following criteria as specified by DSCP:
	Items designed for exclusive functional use with special distribution and usage;
	Items provisioned with or used exclusively with major items of equipment;
	Items of a nonclothing or nontextile nature.
9E	Navy Owned Stocks of Consumable Material Managed Within the Army. The Army Troop Support Command is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9E material includes consumable items for which Navy requirements are supplied by the Army under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
9F	Navy Owned Stocks of Material Managed Within the Air Force. The Warner Robins Air Logistics Center is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9F material includes consumable items for which Navy requirements are supplied by the Air Force under the provisions of a Weapons Integrated Material Manager concept (DOD 4140.26M).

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9G	Navy Owned Stocks of Defense General Material. DSCR is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Excluded from cog 9G are items managed by GSA and identified by cog 9Q; or items retained for management by a Navy ICP. Cog 9G material includes those Navy interest items managed by DSCR and classified in the following FSCs:

1040 Chemical Weapons and Equipment.
1045 Launchers, Torpedo and Depth Charge.
1055 Launchers, Grenade, Rocket and Pyrotechnic.
1075 Degaussing and Mine Sweeping Equipment.
1080 Camouflage and Deception Equipment.
1090 Assemblies Interchangeable Between Weapons in Two or More Classes.
1560 Airframe Structural Components.
1670 Parachutes; Aerial Pick Up, Delivery, Recovery Systems; and Cargo Tie Down Equipment.
1680 Miscellaneous Aircraft Accessories and Components.
1820 Space Vehicle Components.
1830 Space Vehicle Remote Control Systems.
1840 Space Vehicle Launchers.
1850 Space Vehicle Handling and Servicing Equipment.
1860 Space Survival Equipment.
2020 Rigging and Rigging Gear.
2030 Deck Machinery.
2040 Marine Hardware and Hull Items.
2050 Buoys.
2060 Commercial Fishing Equipment.
2090 Miscellaneous Ship and Marine Equipment.
3210 Sawmill and Planing Mill Machinery.
3220 Woodworking Machines.
3230 Tools and Attachment for Woodworking Machinery.
3405 Saws and Filing Machines.
3408 Machining Centers and Way-Type Machines.
3410 Electrical and Ultrasonic Erosion Machines.
3411 Boring Machines.
3412 Broaching Machines.
3413 Drilling and Tapping Machines.

Cog	Description
9G (cont)	3414 Gear Cutting and Finishing Machines.
	3415 Grinding Machines.
	3416 Lathes.
	3417 Milling Machines.
	3418 Planers and Shapers.
	3419 Miscellaneous Machine Tools.
	3422 Rolling Mills and Drawing Machines.
	3424 Metal Heat Treating and Non-Thermal Treating Equipment.
	3426 Metal Finishing Equipment.
	3431 Electric Arc Welding Equipment.
	3432 Electric Resistance Welding Equipment.
	3433 Gas Welding, Heat Cutting, and Metalizing Equipment.
	3436 Welding Positioners and Manipulators.
	3438 Miscellaneous Welding Equipment.
	3439 Miscellaneous Welding, Soldering and Brazing Supplies and Accessories.
	3441 Bending and Forming Machines.
	3442 Hydraulic and Pneumatic Presses, Power Driven.
	3443 Mechanical Presses, Power Driven.
	3444 Manual Presses.
	3445 Punching and Shearing Machines.
	3446 Forging Machinery and Hammers.
	3447 Wire and Metal Ribbon Forming Machines.
	3448 Riveting Machines.
	3449 Miscellaneous Secondary Metal Forming and Cutting Machines.
	3450 Machine Tools, Portable.
	3455 Cutting Tools for Machine Tools.
	3456 Cutting and Forming Tools for Secondary Metalworking Machinery.
	3460 Machine Tool Accessories.
	3461 Accessories for Secondary Metalworking Machinery.
	3465 Production Jigs, Fixtures, and Templates.
	3470 Machine Shop Sets, Kits, and Outfits.
	3510 Laundry and Dry Cleaning Equipment.
	3520 Shoe Repairing Equipment.
	3530 Industrial Sewing Machines and Mobile Textile Repair Shops.
	3605 Food Products Machinery and Equipment.
	3610 Printing, Duplicating, and Bookbinding Equipment.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9G (cont)	3611 Industrial Marking Machines.
	3615 Pulp and Paper Industries Machinery.
	3620 Rubber and Plastics Working Machinery.
	3625 Textile Industries Machinery.
	3630 Clay and Concrete Products Industries Machinery.
	3635 Crystal and Glass Industries Machinery.
	3640 Tobacco Manufacturing Machinery.
	3645 Leather Tanning and Leather Working Industries Machinery.
	3650 Chemical and Pharmaceutical Products Manufacturing Machinery.
	3655 Gas Generating and Dispensing System, Fixed or Mobile.
	3660 Industrial Size Reduction Machinery.
	3670 Specialized Semiconductor, Microcircuit and Printed Circuit Board M anufacturing Machinery.
	3680 Foundry Machinery, Related Equipment and Supplies.
	3685 Specialized Metal Container Manufacturing Machinery and Related Equipment.
	3690 Specialized Ammunition and Ordnance Machinery and Related Equipment.
	3693 Industrial Assembly Machines.
	3694 Clean Work Stations, Controlled Environment, and Related Equipment.
	3695 Miscellaneous Special Industry Machinery.
	3920 Materials Handling Equipment, Nonself-Propelled.
	3940 Blocks, Tackle, Rigging and Slings.
	3990 Miscellaneous Materials Handling Equipment.
	4110 Refrigeration Equipment.
	4120 Air Conditioning Equipment.
	4130 Refrigeration and Air Conditioning Components.
	4140 Fans, Air Circulators, and Blower Equipment.
	4230 Decontaminating and Impregnating Equipment.
	4240 Safety and Rescue Equipment.
	4920 Aircraft Maintenance and Repair Shop Specialized Equipment.
	4921 Torpedo Maintenance, Repair, and Checkout Specialized Equipment.
	4923 Depth Charges and Underwater Mines Maintenance, Repair, and Checkout Specialized Equipment.
	4925 Ammunition Maintenance, Repair, and Checkout Specialized Equipment.
	4927 Rocket Maintenance, Repair and Checkout Specialized Equipment.
	4933 Weapons Maintenance and Repair Shop Specialized Equipment.
	4960 Space Vehicle Maintenance, Repair, and Checkout Specialized Equipment.

Cognizance of Navy Material **Appendix 18**

Cog	Description
9G	5220 Inspection Gages and Precision Layout Tools.
(cont)	5280 Sets, Kits, and Outfits of Measuring Tools.
	5355 Knobs and Pointers.
	5940 Lugs, Terminals, and Terminal Strips.
	5970 Electrical Insulators and Insulating Materials.
	5975 Electrical Hardware and Supplies.
	5977 Electrical Contact Brushes and Electrodes.
	5995 Cable, Cord, and Wire Assemblies; Communication Equipment.
	6105 Motors, Electrical.
	6110 Electrical Control Equipment.
	6115 Generators and Generator Sets, Electrical.
	6116 Fuel Cell Power Units, Components, and Accessories.
	6117 Solar Electric Power Systems.
	6120 Transformers, Distribution, and Power Station.
	6125 Converters, Electrical, Rotating.
	6130 Converters, Electrical Nonrotating.
	6135 Batteries, Nonrechargeable.
	6140 Batteries, Rechargeable.
	6150 Miscellaneous Electric Power and Distribution Equipment.
	6160 Miscellaneous Battery Retaining Fixtures and Liners.
	6210 Indoor and Outdoor Electric Lighting Fixtures.
	6220 Electric Vehicular Lights and Fixtures.
	6230 Electric Portable and Hand Lighting Equipment.
	6240 Electric Lamps.
	6250 Ballast, Lampholders, and Starters.
	6260 Nonelectrical Lighting Fixtures.
	6310 Traffic and Transit Signal Systems.
	6320 Shipboard Alarm and Signal Systems.
	6330 Railroad Signal and Warning Devices.
	6340 Aircraft Alarm and Signal Systems.
	6350 Miscellaneous Alarm, Signal, and Security Detection Systems.
	6605 Navigational Instruments.
	6610 Flight Instruments.
	6615 Automatic Pilot Mechanisms and Airborne Gyro Components.
	6620 Engine Instruments.
	6635 Physical Properties Testing Equipment.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9G (cont)	6636 Environmental Chambers and Related Equipment.
	6645 Time Measuring Instruments.
	6650 Optical Instruments, Test Equipment, Components and Accessories.
	6655 Geophysical Instruments.
	6660 Meteorological Instruments and Apparatus.
	6665 Hazard-Detecting Instruments and Apparatus.
	6670 Scales and Balances.
	6675 Drafting, Surveying, and Mapping Instruments.
	6680 Liquid and Gas Flow, Liquid Level, and Mechanical Motion Measuring Instruments.
	6685 Pressure, Temperature, and Humidity Measuring and Controlling Instruments.
	6695 Combination and Miscellaneous Instruments.
	6710 Cameras, Motion Picture.
	6720 Cameras, Still Picture.
	6730 Photographic Projection Equipment.
	6740 Photographic Developing and Finishing Equipment.
	6750 Photographic Supplies.
	6760 Photographic Equipment and Accessories.
	6770 Film, Processed.
	6780 Photographic Sets, Kits, and Outfits.
	6810 Chemicals.
	6820 Dyes.
	6830 Gases: Compressed and Liquefied.
	6840 Pest Control Agents and Disinfectants.
	6850 Miscellaneous Chemical Specialties.
	6910 Training Aids.
	6920 Armament Training Devices.
	6930 Operation Training Devices.
	6940 Communication Training Devices.
	7310 Food Cooking, Baking, and Serving Equipment.
	7320 Kitchen Equipment and Appliances.
	7360 Sets, Kits, and Outfits: Food Preparation and Serving.
	7450 Office Type Sound Recording and Reproducing Machines.
	7610 Books and Pamphlets.
	7630 Newspapers and Periodicals.
	7640 Maps, Atlases, Charts, and Globes.

Cog	Description
9G (cont)	7650 Drawings and Specifications.
	7660 Sheet and Book Music.
	7670 Microfilm, Processed.
	7690 Miscellaneous Printed Matter.
	8110 Drums and Cans.
	8120 Commercial and Industrial Gas Cylinders.
	8125 Bottles and Jars.
	8130 Reels and Spools.
	8140 Ammunition and Nuclear Ordnance Boxes, Packages and Special Containers.
	8145 Specialized Shipping and Storage Containers.
	9110 Fuels, Solid.
	9150 Oils and Greases: Cutting, Lubricating and Hydraulic.
	9160 Miscellaneous Waxes, Oils, and Fats.
	9320 Rubber Fabricated Materials.
	9330 Plastics Fabricated Materials.
	9340 Glass Fabricated Materials.
	9350 Refractories and Fire Surfacing Materials.
	9390 Miscellaneous Fabricated Nonmetallic Materials.
	9440 Miscellaneous Crude Agricultural and Forestry Products.
	9450 Nonmetallic Scrap, Except Textile.
	9925 Ecclesiastical Equipment, Furnishings, and Supplies.
	9930 Memorials, Cemeterial and Mortuary Equipment, and Supplies.
	9999 Miscellaneous Items.
9H	Navy Owned Stocks of Consumable Material Managed Within the Army. The Army Armament Materiel Readiness Command is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9H material includes consumable items for which Navy requirements are supplied by the Army under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
9I	Navy Owned Stocks of Consumable Type Material Managed Within the Air Force. The Ogden Air Logistics Center is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9I material includes consumable type items for which Navy requirements are supplied by the Air Force under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).

Cog	Description
9J	Navy Owned Stocks of Material Managed Within the Air Force. The Oklahoma City Air Logistics Center is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9J material includes consumable items for which Navy requirements are supplied by the Air Force under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
9K	Navy Owned Stocks of Material Managed Within the Air Force. The Sacramento Air Logistics Center is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9K material includes consumable items for which Navy requirements are supplied by the Air Force under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
9L	Navy Owned Stocks of Defense Medical Material. DSCP is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Excluded are those items that are managed by GSA and identified by cog 9Q and items that are retained for management by the Navy ICP. Cog 9L material includes those Navy interest items managed by the DSCP (Directorate of Medical Material) and classified in the following FSCs: 65__ medical, dental and veterinary equipment and supplies; 6630 chemical analysis instruments; 6640 laboratory equipment and supplies. In addition, approximately 2,000 items of supply in 128 federal supply classifications are managed by the Defense Supply Center Philadelphia as cog 9L material.
9M	Navy Owned Stocks of Defense Subsistence Material. DSCP is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG and FSC Group 89. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9M material includes those Navy interest items managed by DSCP (Directorate of Subsistence) further identified as 9MF semiperishable and 9MP perishable, and classified in FSC group 89 (except FSCs 8965 and 8975 subsistence). Excluded are those items in FSC 8965, alcoholic beverages not managed by DSCP. In addition, tobacco products classified as FSC 8975 are ration components and procured only by DSCP for assembly into composite food packages.
9N	Navy Owned Stocks of Defense Electronic Material. DSCC is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Excluded from cog 9N material are those items which are retained for management by a Navy ICP. Cog 9N material includes those Navy interest items managed by the DSCC and classified in the following FSCs: 1210 Fire Control Directors. 1220 Fire Control Computing Sights and Devices.

Cog	Description
9N (cont)	1240 Optical Sighting and Ranging Equipment.
	1250 Fire Control Stabilizing Mechanisms.
	1260 Fire Control Designating and Indicating Equipment.
	1265 Fire Control Transmitting and Receiving Equipment, Except Airborne.
	1270 Aircraft Gunnery Fire Control Components.
	1280 Aircraft Bombing Fire Control Components.
	1285 Fire Control Radar Equipment, Except Airborne.
	1287 Fire Control Sonar Equipment.
	1290 Miscellaneous Fire Control Equipment.
	1420 Guided Missile Components.
	1430 Guided Missile Remote Control Systems.
	1440 Launchers, Guided Missile.
	1660 Aircraft Air Conditioning, Heating, and Pressuring Equipment.
	4931 Fire Control Maintenance and Repair Shop Specialized Equipment.
	4935 Guided Missile Maintenance, Repair, and Checkout Specialized Equipment.
	5805 Telephone and Telegraph Equipment.
	5810 Communications Security Equipment and Components.
	5811 Other Cryptologic Equipment and Components.
	5815 Teletype and Facsimile Equipment.
	5820 Radio and Television Communication Equipment, Except Airborne.
	5821 Radio and Television Communication Equipment, Airborne.
	5825 Radio Navigation Equipment, Except Airborne.
	5826 Radio Navigation Equipment, Airborne.
	5830 Intercommunication and Public Address Systems, Except Airborne.
	5831 Intercommunication and Public Address Systems, Airborne.
	5835 Sound Recording and Reproducing Equipment.
	5836 Video Recording and Reproducing Equipment.
	5840 Radar Equipment, Except Airborne.
	5841 Radar Equipment, Airborne.
	5845 Underwater Sound Equipment.
	5850 Visible and Invisible Light Communication Equipment.
	5855 Night Vision Equipment, Emitted and Reflected Radiation.
	5860 Stimulated Coherent Radiation Devices, Components, and Accessories.
	5865 Electronic Countermeasures, Counter Countermeasures and Quick Reaction Capability Equipment.
	5895 Miscellaneous Communication Equipment.
	5905 Resistors.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9N (cont)	5910 Capacitors.
	5915 Filters and Networks.
	5920 Fuses, Arresters, Absorbers and Protectors.
	5925 Circuit Breakers.
	5930 Switches.
	5935 Connectors, Electrical.
	5945 Relays and Solenoids.
	5950 Coils and Transformers.
	5955 Oscillators and Piezoelectric Crystals.
	5960 Electron Tubes and Associated Hardware.
	5961 Semiconductor Devices and Associated Hardware.
	5962 Microcircuits, Electronic.
	5963 Electronic Modules.
	5965 Headsets, Handsets, Microphones, and Speakers.
	5980 Optoelectronic Devices and Associated Hardware.
	5985 Antennas, Waveguide, and Related Equipment.
	5990 Synchros and Resolvers.
	5998 Electrical and Electronic Assemblies; Boards, Cards, and Associated Hardware.
	5999 Miscellaneous Electrical and Electronic Components.
	6004 Rotary Joints.
	6005 Couplers, Splitters, and Mixers.
	6006 Attenuators.
	6007 Filters.
	6008 Optical Multiplexers/Demultiplexers.
	6010 Fiber Optic Conductors.
	6015 Fiber Optic Cables.
	6020 Fiber Optic Cable Assemblies and Harnesses.
	6021 Fiber Optic Switches.
	6025 Fiber Optic Transmitters.
	6026 Fiber Optic Receivers.
	6029 Optical Repeaters.
	6030 Fiber Optic Devices.
	6031 Integrated Optical Circuits.
	6032 Fiber Optic Light Sources.
	6033 Fiber Optic Photo Detectors.

Cog	Description
9N (cont)	6034 Fiber Optic Modulators/Demodulators.
	6035 Fiber Optic Light Transfer and Image Transfer Devices.
	6040 Fiber Optic Sensors.
	6050 Fiber Optic Passive Devices.
	6060 Fiber Optic Interconnectors.
	6070 Fiber Optic Accessories and Supplies.
	6080 Fiber Optic Kits and Sets.
	6099 Miscellaneous Fiber Optic Components.
	6625 Electrical and Electronic Properties Measuring and Testing Instruments.
	7010 ADPE System Configuration.
	7020 ADP Central Processing Unit (CPU, Computer), Analog.
	7021 ADP Central Processing Unit (CPU, Computer), Digital.
	7022 ADP Central Processing Unit (CPU, Computer), Hybrid.
	7025 ADP Input/Output and Storage Devices.
	7030 ADP Software.
	7035 ADP Support Equipment.
	7040 Punched Card Equipment.
	7042 Mini and Micro Computer Control Devices.
	7045 ADP Supplies.
	7050 ADP Components.
9O	Navy Owned Stocks of Consumable Material Managed Within the Marine Corps. The Marine Corps Logistic Support Base Albany is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9O material includes consumable items for which Navy requirements are supplied by the Marine Corps under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
9P	Navy Owned Stocks of Consumable Material Managed Within the Department Of Commerce, Management Of Next Generation Weather Radar (NEXRAD). The National Weather Service (NWS) is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF).

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9Q	Navy Owned Stocks of items accepted by GSA for support of Navy requirements. GSA is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Excluded are those items which are declared essential by the Secretary of Defense and for which management is retained by the Defense Logistics Agency; and items which are retained for management by the Navy ICP. Cog 9Q material includes those Navy interest items having application commonality in Department and Defense and federal civil agencies, managed by GSA and normally classified in, but not restricted to the following FSCs: FSC Group 51 hand tools; 210 measuring tools, craftsman's; FSC Group 71 furniture; FSC Group 80 brushes, paints, sealers and adhesives.
9S	Navy Owned Stocks of Consumable Material Managed Within the Army. The Army Missile Materiel Readiness Command is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9S material includes consumable items for which Navy requirements are supplied by the Army under the provisions of the Weapons Integrated Material Manager concept (DOD 4140.26M).
9T	Navy Owned Stocks of Consumable Material Managed Within the Department of Transportation, Federal Aviation Administration (FAA). Management Of Next Generation Weather Radar (NEXRAD). The FAA is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF).
9V	Navy Owned Stocks of Material Managed Within the Air Force. The San Antonio Air Logistics Center is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9V material encompasses items for which Navy requirements are supplied by the Air Force under the provisions of the Weapons Integrated Material Management concept (DOD 4140.26M).
9W	Navy Owned Stocks of Material Managed Within the Army. The Army Troop Support And Aviation Materiel Command is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9W material encompasses items for which Navy requirements are supplied by the Army under the provisions of the Weapons Integrated Material Management concept (DOD 4140.26M).
9X	Navy Owned Stocks of Petroleum Products. DESC is the inventory manager. NAVICP M05621 maintains technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF).

Cog	Description
9Y	Navy Owned Stocks of Material Managed Within the Army. The Army Communications and Electronics Material Readiness Command is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Cog 9Y material encompasses items for which Navy requirements are supplied by the Army under the provisions of the Weapons Integrated Material Management concept (DOD 4140.26M).
9Z	Navy Owned Stocks of Defense Industrial Material. DSCP is the inventory manager. Various activities maintain technical responsibility. Source of identification is FEDLOG. Material is carried in the Navy Working Capital Fund (NWCF). Excluded are those items that are managed by GSA and identified by Cog 9Q and items that are retained for management by the Navy ICP. Cog 9Z material includes those items managed by DSCP and classified in the following FSCs:

2810 Gasoline Reciprocating Engines, Except Aircraft; and Components.
2835 Gas Turbines and Jet Engines, Except Aircraft; and components.
2840 Gas Turbines and Jet Engines, Aircraft; and Components.
2845 Rocket Engines and Components.
2915 Engine Fuel System Components, Aircraft.
2925 Engine Electrical System Components; Aircraft.
2935 Engine Cooling System Components; Aircraft.
2945 Engine Air and Oil Filters, Strainers, and Cleaners, Aircraft.
2950 Turbosuperchargers.
2995 Miscellaneous Engine Accessories, Aircraft.
3110 Bearings, Antifriction, Unmounted.
3120 Bearings, Plain, Unmounted.
3130 Bearings, Mounted.
4010 Chain and Wire Rope.
4020 Fiber Rope, Cordage, and Twine.
4030 Fitting for Rope, Cable, and Chain.
5305 Screws.
5306 Bolts.
5307 Studs.
5310 Nuts and Washers.
5315 Nails, Keys, and Pins.
5320 Rivets.
5325 Fastening Devices.
5330 Packing and Gasket Materials.
5335 Metal Screening.

Appendix 18 **Cognizance of Navy Material**

Cog	Description
9Z	5340 Miscellaneous Hardware.
(cont)	5360 Coil, Flat, and Wire Springs.
	5365 Rings, Shims, and Spacers.
	6145 Wire and Cable, Electrical.
	9505 Wire, Nonelectrical, Iron and Steel.
	9510 Bars and Rods, Iron and Steel.
	9515 Plate, Sheet, Strip, and Foil; Iron and Steel.
	9520 Structural Shapes, Iron and Steel.
	9525 Wire, Nonelectrical, Nonferrous Base Metal.
	9530 Bars and Rods, Nonferrous Base Metal.
	9535 Plate, Sheet, Strip, and Foil: Nonferrous Base Metal.
	9540 Structural Shapes, Nonferrous Base Metal.
	9545 Plate, Sheet, Strip, Foil, and Wire: Precious Metals.
	9610 Ores.
	9620 Mineral, Natural and Synthetic.
	9630 Additive Metal Materials and Master Alloys.
	9640 Iron and Steel Primary and Semifinished Products.
	9650 Nonferrous Base Metal Refinery and Intermediate Forms.
	9660 Precious Metals Primary Forms.
	9670 Iron and Steel Scrap.
	9680 Nonferrous Metal Scrap.

Part C: ALPHA-ALPHA COGS

These pseudo cog symbols are used to designate attrition stocks held at Navy activities for integrated material manager disposition.

APPENDIX 19

UNIT OF ISSUE ABBREVIATIONS

The following Unit of Issue (U/I) abbreviations will be used throughout the Navy for requesting, issuing and recording of all material in the Navy Supply System. Periods will not be used with these abbreviations. The plural of the abbreviation will be the same as the singular. Requisitions submitted to the General Services Administration will contain the unit of issue reflected in the General Services Administration Stores Catalog. Requests for additions will be submitted to the Defense Logistics Services Center (Cataloging Division), Battle Creek, Michigan, via the Naval Supply Systems Command, for inclusion in the Federal Manual for Supply Cataloging, Chapter 7.

Part A: UNIT OF ISSUE ABBREVIATIONS IN TERM SEQUENCE

Terms marked with an asterisk (*) require quantitative expression (see Part C of this Appendix).

U/I	Term	Definition
AM	Ampoule*	A small glass or plastic tube sealed by fusion after filling.
AY	Assembly	A collection of parts assembled to form a complete unit, constituting a single item of supply, e.g., hose assembly. Use only when the term "assembly" is a part of the item name.
AT	Assortment	A collection of variety of items that fall into a category or class packaged as a small unit constituting a single item of supply. Use only when the term "assortment " is a part of the item name.
BG	Bag*	A flexible container of various sizes and shapes which is fabricated from such materials as paper, plastic or textiles. Includes "sack" and "pouch."
BE	Bale*	A shaped unit of compressible materials bound with cord or metal ties and usually rapped, e.g., paper and cloth rags.
BA	Ball*	A spherical-shaped mass of material such as twine or thread.
BR	Bar*	A solid piece or block or various materials, with its length greater than its other dimensions, e.g., solder. Not applicable to items such as soap, beeswax, buffing compound.
BL	Barrel*	A cylindrical container, metal or wood, with sides that bulge outward and flat ends or heads of equal diameter. Includes "keg".
BF	Board Foot	A unit of measure for lumber equal to the volume of a board 12" x 12" x 1".
BO	Bolt*	A flat fold of fabric having a stiff paperboard core.

Appendix 19 **Unit of Issue Abbreviations**

U/I	Term	Definition
BK	Book*	A book-like package, such as labels or tickets, fastened together along one edge, usually between protective covers.
BT	Bottle*	A glass, plastic or earthenware container of various sizes, shapes and finishes, such as jugs but excluding jars, ampoules, vials and carboys, with a closure for retention of contents.
BX	Box*	A rigid, three dimensional container of various sizes and materials. Includes "case," "carton," "tray" and "crate."
BD	Bundle*	A quantity of the same item tied together without compression.
CK	Cake*	A block of compacted or congealed matter. Applicable to such items as soap, buffing compound.
CN	Can*	A rigid receptacle made of fiber, metal, plastic or a combination thereof. Cans may be cylindrical or any number or irregular shapes. Restricted to items which cannot be issued in less than container quantity. Includes "pail" and "canister". " Do not use when the packaged quantity equates to a unit of measure, i.e., pint, quart, gallon, ounce or pound.
CB	Carboy*	A heavy duty, bottle-type container used for transportation and storage of liquids. Usually designed to be encased in a rigid protective outer container for shipment.
CT	Carton	A cardboard box or container. Intra-Navy use only for 9M cog items.
CA	Cartridge*	Usually a tubular receptacle containing loose or pliable material and designed to permit ready insertion into an apparatus for dispensing the material. Usually associated with adhesives and sealing compounds.
CS	Case	A box or receptacle for holding items. Intra-Navy use only for 9M cog items.
CL	Coil*	An arrangement of material such as wire, rope and tubing wound in a circular shape.
CE	Cone*	A cone-shaped mass of material wound on itself such as twine or thread, wound on a conical core.
CO	Container*	A general term for use only where an item is permitted to be packaged for issue in optional containers, e.g., bottle or tube for a single NSN.
CF	Cubic Foot	A unit of cubic measure.
CZ	Cubic Meter	A unit of cubic measure expressed in the metric system of measurement. Limited in application to locally assigned stock numbers used in the local procurement of items such as ready-mix concrete and asphalt in overseas areas where the metric system prevails.
CD	Cubic Yard	A unit of cubic measure.

Unit of Issue Abbreviations **Appendix 19**

U/I	Term	Definition
CY	Cylinder*	A rigid, cylindrical, metal container designed as a portable container for storage and transportation of compressed gases, generally equipped with protected valve closure and pressure relief safety device.
DZ	Dozen	Twelve (12) of an item of supply.
DR	Drum*	A cylindrical container designed as an exterior pack for storing and shipping bulk material, e.g., fuels, chemical, powders, etc. Drums may be made of metal, rubber, polyethylene or plywood or fiber with wooden, metal or fiber ends.
EA	Each	A numeric quantity of one item of supply. Do not use if a more specific term applies, such as kit, set, assortment, group, sheet, plate, strip or length.
FY	Fifty	Fifty of an item.
FV	Five	Five of an item.
FT	Foot	Unit of linear measurement, sometimes expressed as "linear foot."
GL	Gallon	Unit of liquid measurement.
GR	Gross	One hundred forty-four (144) of an item.
GP	Group	A collection of related items issued as a single item of supply, e.g., test set group. Use only when the term "group" is a part of the item name.
HK	Hank*	A loop of yarn or roping, containing definite yardage, e.g., cotton, 840 yards; worsted, 560 yards. See "skein" for comparison.
HD	Hundred	One hundred (100) of an item.
IN	Inch	Unit of linear measurement, equivalent to 1/12th of a foot and sometimes expressed as "linear inch."
JR	Jar*	A rigid container having a wide mouth and often no neck, typically made of earthenware or glass. Excludes "bottle."
KT	Kit	A collection of related items issued as a single item of supply, such as the tools, instruments, repair parts, instruction sheets and often supplies typically carried in a box or bag. Also includes selected collections of equipment components, tools and/or materials for the repair, overhaul or modification of equipment. Use only when the term "kit" is a part of the item name.
LG	Length*	Term applies to items issued in fixed or specific linear measurement, without deviation. This term no longer applies to random lengths which will be expressed in definitive units of linear measurement such as foot or yard. Excludes "strip."

Appendix 19 **Unit of Issue Abbreviations**

U/I	Term	Definition
LI	Liter	A unit of liquid measure expressed in the metric system of measurement.
ME	Meal	The measure of food generally taken by an individual at one time.
MR	Meter	A unit of linear measure expressed in the metric system of measurement equivalent to 39.37 inches. Limited in application to locally assigned stock numbers used in the local procurement of items such as pipe, lumber tubing, and hose in overseas areas where the metric system prevails.
OZ	Ounce	A unit of liquid or avoirdupois weight.
OT	Outfit	A collection of related items issued as a single item of supply, such as the tools, instruments, materials, equipment and/or instruction manual (s) for the practice of a trade or profession or for the carrying out of a particular project or function. Use only when the term "outfit" is a part of the item name.
PK	Pack	A group or pile of related objects. Intra-Navy use only for 9M cog items.
PG	Package*	A form of protective wrappings for two or more of the same item of supply. To be used only when a unit of measure or container type term is not applicable. Includes "envelope."
PZ	Packet*	A container used for subsistence items. Use only when "food packet" is part of the item name (FSG 89).
PD	Pad*	Multiple sheets of paper that are stacked together and fastened at one end by sealing.
PR	Pair	Two similar or corresponding items, e.g., gloves, shoes, bearing; or items integrally fabricated of two corresponding parts, e.g., trousers, shears, goggles.
PT	Pint	A unit of liquid or dry measure.
PM	Plate	A flat piece of square or rectangular shaped metal of uniform thickness, usually 1/4 inch or more. Use only when "plate" (FSCs 9515 and 9535) is used in an item name to denote shape.
LB	Pound	A unit of weight measure equivalent to 16 ounces.
QT	Quart	A unit of liquid or dry measure.
RA	Ration	The food allowance of one person for one day. Use only when "ration" (FSC 8970) is a part of the item name.
RM	Ream	A quantity of paper varying from 480 to 516 sheets, depending upon grade.

Unit of Issue Abbreviations **Appendix 19**

U/I	Term	Definition
RL	Reel*	A cylindrical core on which a flexible material, such as wire or cable, is wound. Usually has flanged ends.
RO	Roll*	A cylindrical configuration of flexible material which has been rolled on itself such a textiles, tape, abrasive paper, photosensitive paper and film, and may utilize a core with or without flanges.
SE	Set	A collection of matched or related items issued as a single item of supply, i.e., tool sets, instrument sets, and matched sets. Use only when the term "set" is a part of the item name.
SH	Sheet	A flat piece of rectangular-shaped material of uniform thickness that is very thin in relation to its length and width, such as metal, plastic, paper and plywood. Use of this term is not limited to any group of items or FSC's. However, it will always be applied when "sheet" is used in the item name to denote shape, e.g., aluminum alloy sheet, except items in FSC 7210.
SO	Shot	A unit of linear measurement, usually applied to anchor chain, equivalent to 14 fathoms (90 feet).
SK	Skein	A loop of yarn, 120 yards in length, usually wound on a 54 inch circular core. See "hank" for comparison.
SD	Skid*	A pallet-like platform consisting of a load-bearing area fastened to and resting on runner type supports.
SL	Spool*	A cylindrical form with an edge or rim at each end and an axial hole for a pin or spindle on which a flexible material such as threading or wire is wound.
SF	Square Feet	A unit of measure (area).
SY	Square Yard	A unit of square measure (area).
SX	Stick*	Material in a relatively long and slender, often cylindrical form for ease of application or use, e.g., abrasives.
SP	Strip*	A relatively narrow, flat length of material, uniform in width, such as paper, wood and metal. Use only when the term "strip" is a part of the item name.
TE	Ten	Ten of an item.
TS	Thirty Six	Thirty-six of an item.
MX	Thousand	One thousand (1,000) of an item.
MC	Thousand Cubic Feet	A unit of cubic measure expressed in one thousand (1,000) increments.
TI	Tin	A box, can, pan, vessel, or sheet made of tinplate.

U/I	Term	Definition
TN	Ton	The equivalent of 2,000 lbs. Includes short ton and net ton.
TO	Troy Ounce	A unit of troy measure, based on a 12 ounce pound, generally applied to weights of precious metals.
TU	Tube*	Normally a squeeze-type container, most commonly manufactured from a flexible type material and used in packaging toothpaste, shaving cream, and pharmaceutical products. Also applicable as a form around which items are wound, such as thread. It is not applicable to mailing tube, pneumatic tube, or cylindrical containers of a similar type.
TD	Twenty	Twenty-four of an item.
TF	Twenty Five	Twenty-five of an item.
VI	Vial*	A small glass container, generally less than an inch in diameter. Vials are flat bottomed and tubular in shape and have a variety of neck finishes.
YD	Yard	A unit of linear measure, equivalent to 3 feet and sometimes expressed as "linear yard."

Part B: UNIT OF ISSUE ABBREVIATIONS IN ABBREVIATION SEQUENCE

Abbreviation	Unit of Issue
AM	Ampoule
AT	Assortment
AY	Assembly
BA	Ball
BD	Bundle

YD	Yard

Part C: UNIT OF MEASUREMENT ABBREVIATIONS

The Unit of Measurement (U/M) abbreviations and terms listed below are authorized to be used in conjunction with the "Quantitative Expression" (Q/E) required as the result of the application of Phrase Code "K" in Change Notice. The terms represent generally recognized Units of Measurement and include the majority of the definitive Units of Issue (U/Is) listed at the start of this Appendix. Terms other than Units of Issue may be included in this list to express quantity type data for unusual commodity requirements. The plural form of these terms will take the same designation as the singular form. When an item is assigned a nondefinitive U/I, the Unit of Measurement cannot be "1 EACH," or the same nondefinitive term as the nondefinitive U/I.

U/I	Term	Definition
BQ	Briquette	U/M for certain Miscellaneous Chemical Specialties (FSC 6850), such as Boiler Cleaning Compound, with U/Is of "Package," "Box," "Bottle," "Can," etc.
CU	Curie	U/M for certain radioactive substances in Compressed and Liquefied Gases (FSC 6830), with U/Is of "Cylinder" (CY) and similar containers.
EX	Exposure	U/M for certain Photographic Film, with U/Is of "Package," "Box," "Roll," etc.
FD	Fold	U/M for certain Lithographic Plates (FSC 3610) and similar products packaged in continuous fold form, with U/Is of "Package," "Box," etc.
FR	Frame	U/M for certain Photographic Film, with U/Is of "Package," "Box," "Roll," etc.
PX	Pellet	U/M for certain chemical components of Insecticides and Pesticides used as Fumigants (FSC 6840), with U/Is of "Package," "Box," etc.
PI	Pillow	U/M of certain small chemical components (FSC 6810) with U/Is of "Package," "Box," etc.

Part D: UNIT OF ISSUE CONVERSION TABLE

The following identifies the factor by which the old quantity must be multiplied to convert to the new unit of issue and the numerical multiplier used in conjunction with the reflected decimal locator.

Old Unit of Issue	New Unit of Issue	Conversion Decimal Locator & Factor	Multiply by
Barrel[1]	Cubic Foot	34212	4.212
Barrel[1]	Gallon	10315	31.5
Barrel[2]	Gallon	00042	42.
Barrel[1]	Liter	11192	119.2
